#### INDEPENDENT AUDITOR'S REPORT

Board of Directors South Lane School District No. 45J3 Cottage Grove, Oregon 97424

# **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the remaining fund information of South Lane School District No. 45J3, Cottage Grove, Oregon, as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

# Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

# **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, and Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200; *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

# **Opinions**

In our opinion, based on our audit and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the discretely presented component unit, each major fund, and the remaining fund information of South Lane School District No. 45J3, Cottage Grove, Oregon as of June 30, 2017, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

#### Other Matters

# Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedules of funding progress and employer contributions, and budgetary comparison information on pages 4 through 11, 52, and 53 through 55, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the management's discussion and analysis and schedules of funding progress and employer contributions in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the management's discussion and analysis or schedules of funding progress and employer contributions because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The budgetary comparison information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the budgetary comparison information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

# Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise South Lane School District No. 45J3's basic financial statements. The individual fund schedules, other financial schedules, and supplemental information required by the Oregon Department of Education are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by *Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards,* and is also not a required part of the basic financial statements.

The individual fund schedules, other financial schedules, and schedule of expenditures of federal awards are the responsibility of management, and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The supplemental information required by the Oregon Department of Education has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

# Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 28, 2017 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

# Report on Other Legal and Regulatory Requirements

In accordance with Minimum Standards for Audits of Oregon Municipal Corporations, we have also issued our report dated December 28 on our tests of the District's compliance with certain provisions of laws and regulations specified in Oregon Administrative Rules. The purpose of that report is to describe the scope of our testing of compliance and the results of that testing and not to provide an opinion on compliance.

# MANAGEMENT'S DISCUSSION AND ANALYSIS

### MANAGEMENT'S DISCUSSION AND ANALYSIS

# **INTRODUCTION**

As management of South Lane School District No. 45J3, Cottage Grove, Oregon, we offer readers this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2017. It should be read in conjunction with the District's financial statements, which follow this section.

### FINANCIAL HIGHLIGHTS

- At June 30, 2017, total net position of South Lane School District No. 45J3 amounted to \$(5,011,520). Of this amount, \$16,601,372 was invested in capital assets, net of related debt. The remaining balance included \$35,802,772 restricted for various purposes and \$(57,415,664) of unrestricted net position.
- At June 30, 2017, the District's governmental funds reported combined ending fund balances of \$39,538,088.

### **OVERVIEW OF THE FINANCIAL STATEMENTS**

This discussion and analysis is intended to serve as an introduction to South Lane School District No. 45J3's basic financial statements. The basic financial statements are comprised of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

# **Government-Wide Financial Statements**

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances in a manner similar to a private-sector business.

The statement of net position presents information on all the District's assets and liabilities with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

### MANAGEMENT'S DISCUSSION AND ANALYSIS

The government-wide financial statements can be found on pages 12 through 14 of this report.

### **Fund Financial Statements**

The fund financial statements are designed to demonstrate compliance with finance-related legal requirements overseeing the use of fund accounting. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities and objectives. All of the funds of South Lane School District No. 45J3 can be divided into two categories: governmental funds and proprietary funds.

# □ Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of available resources, as well as on balances of available resources at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains five governmental funds. Information is presented separately in the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances for the General, Special Revenue, Special Projects, Capital Projects, and Debt Service Funds, all of which are considered to be major governmental funds.

South Lane School District No. 45J3 adopts an annual appropriated budget for all of its funds. A budgetary comparison statement has been provided for each fund individually to demonstrate compliance with their respective budgets.

The basic governmental fund financial statements can be found on pages 15 through 18 of this report.

### MANAGEMENT'S DISCUSSION AND ANALYSIS

# □ Proprietary Funds

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The District maintains one proprietary fund, which is an internal service fund.

Internal service funds serve as an accounting device used to accumulate and allocate costs internally among the District's various functions. The District uses the internal service fund to account for its unemployment insurance. Because this predominantly benefits governmental functions, it has been included within governmental activities in the government-wide financial statements.

The basic proprietary fund financial statements can be found on pages 19 through 21 of this report.

# □ Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the District. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs. The accounting used for fiduciary funds is the same as that used for governmental funds.

South Lane School District No. 45J3 adopts an annual appropriated budget for its fiduciary fund. A budgetary comparison statement has been provided for the fund to demonstrate compliance with its budget.

The basic fiduciary fund financial statements can be found on page 22 of this report.

# **Notes to the Basic Financial Statements**

The notes to the basic financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 23 through 51 of this report.

## Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information, which includes schedules of funding progress and employer contributions, as well as budgetary comparison information for the General, Special Revenue, and Special Projects Funds. This required supplementary information can be found on pages 52 through 55 of this report.

Individual fund schedules can be found immediately following the required supplementary information on pages 56 through 59 of this report.

### MANAGEMENT'S DISCUSSION AND ANALYSIS

### **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

As noted earlier, net position may serve over time as a useful indicator of the District's financial position. At June 30, 2017, the District's liabilities exceeded its assets by \$5,011,520.

A portion of the District's net position reflects its investment in capital assets (e.g., land, buildings, and equipment) less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets for classrooms and supporting services for providing kindergarten through twelfth grade education; consequently, these assets are not available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

# **District's Net Position**

The District's net position decreased by \$1,119,527 during the current fiscal year. Condensed statement of net position information is shown below.

# **Condensed Statement of Net Position**

	Governmen	<b>Governmental Activities</b>			
	2017	2016			
Assets					
Current and other assets	\$ 6,300,312	\$ 6,441,587

Net position - beginning of year, as restated	(3,891,993)	(1,371,315)		
Net position - end of year	\$ (5,011,520)	\$ (3,891,993)		

### MANAGEMENT'S DISCUSSION AND ANALYSIS

#### Revenues

Since the District's mission is to provide a free and appropriate public education for kindergarten through twelfth grade students within its boundaries, the District may not charge for its core services. As expected, therefore, general revenues provide 84% of the funding required for governmental programs. Property taxes and state school funding combined for 95% of general revenues and 79% of total revenues.

Charges for services make up 4% of total revenues and are comprised of the following items for which it is appropriate that the District charge tuition or fees:

•	Food services charges for lunch and breakfast	<b>Þ</b>	292,371
•	Various student extracurricular activities		991,104
	Total charges for services	\$	1,283,475

Operating grants and contributions represent 12% of total revenues. Included in this category are \$4,418,290 for grants and contributions to support various educational activities, including grants to support school nutrition programs.

# **Expenses**

Expenses related to governmental activities are presented in several broad functional categories. Costs of direct classroom instruction activities account for 53% of the total expenses of \$36,810,062. In addition, approximately 35% of the costs in supporting services relate to students, instructional staff, and school administration.

### FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

#### **Governmental Funds**

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of expendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measurement of the District's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the District's governmental funds reported combined fund balances of \$39,538,088. Of this amount, \$1,955,048 constitutes unassigned fund balance, which is available for spending at the District's discretion.

### MANAGEMENT'S DISCUSSION AND ANALYSIS

The General Fund is the chief operating fund of the District. At the end of the current fiscal year, total fund balance of the General Fund was \$2,066,403, \$1,955,048 of which was unassigned.

# **Proprietary Fund**

The District's proprietary fund provides the same type of information found in the government-wide financial statements, but in more detail.

Net position of the proprietary fund at year-end amounted to (\$13,179,861), all of which is considered to be unrestricted.

#### **BUDGETARY HIGHLIGHTS**

Budget amounts shown in the financial statements reflect the original budget amounts and eight approved appropriation changes.

### CAPITAL ASSETS AND DEBT ADMINISTRATION

# **Capital Assets**

The District's investment in capital assets for its governmental activities as of June 30, 2017 amounted to \$32,936,625, net of accumulated depreciation. This investment in capital assets includes land, buildings and improvements, and equipment and vehicles. The total depreciation related to the District's investment in capital assets for the current fiscal year was \$1,160,778.

Major capital asset events during the current fiscal year included bond projects.

Additional information on the District's capital assets can be found in Note III-B on pages 34 through 35 of this report.

# Long-Term Debt

At the end of the current fiscal year, the District had total debt outstanding of \$69,500,822. This amount is comprised of general obligation bonds, qualified school construction bonds, pension bonds, capital lease obligations, termination benefits and related issuance premiums and discounts. The District's total debt outstanding increased by \$36,242,086 during the current fiscal year.

Additional information on the District's long-term debt can be found in Note III-D on pages 36 through 40 of this report.

### MANAGEMENT'S DISCUSSION AND ANALYSIS

# KEY ECONOMIC FACTORS AND BUDGET INFORMATION FOR THE FUTURE

At the time these financial statements were prepared and audited the District was aware of the following challenges and opportunities to providing quality instruction and educational programs to all students:

- Enrollment is steady for the first time in two years and slow growth is expected in the future.
- The incoming kindergartner class is bigger than the last two years.
- A reduced ending fund balance and continued reliance on ending funds balance.
- Oregon pension costs continue increase. The required average rate for the District is expected to increase by nearly 6.0% for the next fiscal year.
- Behind two years in the state's textbook adoption cycle and need to adopt elementary mathematics.
- Oregon minimum wage rate increase being implemented over the next few years will impact
  the District not only in the areas of the minimum wage threshold but also the wages of all
  classified employees.
- The District continues to maintain a contingency reserve for catastrophic, unforeseen circumstances of \$1 million. The remaining unassigned fund balance will be available for program resources in the next fiscal year.

# REQUESTS FOR INFORMATION

This financial report is designed to present the user (citizens, taxpayers, investors, and creditors) with a general overview of the District's finances and to demonstrate the District's accountability. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the District's Business Manager at 455 Adams, Cottage Grove, OR 97424.

# NOTES TO BASIC FINANCIAL STATEMENTS

### NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2017

### I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

# A. Description of Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statements of activities) report information on all of the activities of the District.

# **B.** Reporting Entity

South Lane School District No. 45J3 is a municipal corporation governed by an elected seven-member board. The District was organized under provision of Oregon Statutes Chapter 332 for the purpose of operating elementary and secondary schools. As required by accounting principles generally accepted in the United States of America, these basic financial statements present South Lane School District No. 45J3 (the primary government) and any component units. There are various governmental agencies and special service districts that provide services within the boundaries of the District; however, the District is not financially accountable for any of these entities, and, therefore, none of them are considered component units or included in these basic financial statements.

### C. Basis of Presentation - Government-Wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds and internal service funds.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

### D. Basis of Presentation - Fund Financial Statements

The fund financial statements provide information about the government's funds. Separate statements for each fund category – governmental, and proprietary – are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

The government reports the following major governmental funds:

<u>General Fund</u> – The General Fund is the primary operating fund of the District. It accounts for all financial resources except those required to be accounted for in another fund. The primary sources of revenue are property taxes and state revenues.

### NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2017

# Special Revenue Funds

*Special Revenue Fund* – The Special Revenue Fund accounts for the proceeds of specific revenue sources that are restricted for specific purposes. The primary source of revenue is donations. The primary uses of revenue are for salaries and employment benefits, education program enhancement, and equipment purchases.

Special Projects Fund – The Special Projects Fund accounts for the proceeds of specific revenue sources that are restricted for specific purposes. The primary source of revenue is federal grants. The primary uses of revenue are for salaries and employment benefits, education program enhancement, and equipment purchases.

<u>Debt Service Fund</u> – The Debt Service Fund accounts for the repayment of the District's long-term debt. The primary source of revenue is property taxes. The primary use of revenue is payment of principal and interest due on long-term debt.

<u>Capital Projects Fund</u> – The Capital Projects Fund accounts for the expenditures related to acquisition or construction of major facilities and other capital asset needs. The primary source of revenue is bond proceeds and transfers.

In addition, the District reports the following proprietary fund:

# Internal Service Fund

*PERS Bond Fund* – The PERS Bond Fund is used to account for charges levied to the various operating funds of the District to pay the debt service on pension bonds.

In addition, the District reports the following fiduciary fund:

*Private Purpose Trust Fund* – This fund accounts for resources received and held by the District in a fiduciary capacity. Disbursements from these funds are made in accordance with trust agreements and include the Student Trust Fund, Scholarship Fund, and the Nurses Fund.

Certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between funds included in governmental activities are eliminated.

### NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2017

# E. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measureable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Expenditure driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year end). All other revenue items are considered to be measureable and available only when cash is received by the government.

# F. Budgetary Information

Annual budgets are adopted on the modified accrual basis of accounting. The District budgets all funds in accordance with the requirements of state law. Annual appropriated budgets are adopted for the general, special revenue, debt service, and internal service funds. All funds are budgeted on the modified accrual basis of accounting.

The District begins its budgeting process by appointing budget committee members. The budget

### NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2017

officer prepares a budget, which is reviewed by the budget committee. The budget is then published in proposed form and is presented at public hearings to obtain taxpayer comments and approval from the budget committee. The budget is legally adopted by the board of directors by resolution prior to the beginning of the District's fiscal year. The board resolution authorizing appropriations for each fund sets the level by which expenditures cannot legally exceed appropriations. Total instruction, support services, community services, debt service, capital outlay, operating contingencies, and interfund transfers for each fund are the levels of control established by the resolution. The detailed budget document, however, is required to contain more specific detailed information for the aforementioned expenditure categories and management may revise the detailed line item budgets within appropriation categories. Unexpected additional resources may be added to the budget through the use of a supplemental budget and appropriation resolution. Supplemental budgets less than 10% of a fund's original budget may be adopted by the board of directors at a regular board meeting. A supplemental budget greater than 10% of a fund's original budget requires hearings before the public, publication in newspapers, and approval by the board of directors. Original and supplemental budgets may be modified by the use of appropriation transfers between the levels of control. Such transfers require approval by the board of directors. During the year, there were no supplemental budgets. The District does not use encumbrances and appropriations lapse at year-end.

Budget amounts shown in the financial statements reflect the original budget amounts and eight approved appropriation changes.

# G. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance

# 1. Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

#### 2. Investments

State statutes authorize the District to invest in legally issued general obligations of the United States, the agencies and instrumentalities of the United States and the states of Oregon, Washington, Idaho, or California, certain interest-bearing bonds, time deposit open accounts, certificates of deposit, and savings accounts in banks, mutual savings banks, and savings and loan associations that maintain a head office or a branch in this state in the capacity of a bank, mutual savings bank, or savings and loan association, and share accounts and savings accounts in credit unions in the name of, or for the benefit of, a member of the credit union pursuant to a plan of deferred compensation.

### NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2017

# 3. Capital Assets

Capital assets, which include property, plant, and equipment, are reported in the applicable governmental activities columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost where no historical records exist. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance or repairs that do not add to the value of an asset or materially extend its life are charged to expenditures as incurred and are not capitalized.

Major capital outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant, and equipment of the District are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Vehicles and Equipment	5-15
Buildings and building improvements	20-60

# 4. Deferred Outflows/Inflows of Resources (Non-Pension Related)

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and will therefore not be recognized as an outflow of resources (expense/expenditure) until that time.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and will therefore not be recognized as an inflow of resources (revenue) until that time. The District has only one type of item, which arises only under a modified accrual basis of accounting, that qualifies for reporting in this category. Accordingly, the item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from property taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

### NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2017

# 5. Net Position Flow Assumption

Sometimes the government will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

# 6. Fund Balance Flow Assumption

Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

# 7. Fund Balance Policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The government itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

Amounts presented as nonspendable fund balance are those in nonspendable form (such as inventory) or are required to be maintained intact.

Restricted fund balance are amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the government's highest level of decision-making authority. The school board is the highest level of decision-making authority for the government that can, by adoption of a resolution prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the resolution remains in place until a similar action is taken (the adoption of another resolution) to remove or revise the limitation.

#### NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2017

Amounts in the assigned fund balance classification are intended to be used by the government for the specific purposes but do not meet the criteria to be classified as committed. The school board has by resolution authorized the Superintendent and Business Manager to assign fund balance. The board may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

#### H. Revenues and Expenditures/Expenses

#### 1. Program Revenues

Amounts reported as program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions (including special assessments) that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than as program revenues.

#### 2. Property Taxes

Under state law, county governments are responsible for extending authorized property tax levies, computing tax rates, billing and collecting all property taxes, and making periodic remittances of collection to entities levying taxes. Property taxes are levied and become a lien as of July 1 on property values assessed as of June 30. Property taxes are payable in three installments, which are due on November 15, February 15, and May 15. Uncollected property taxes are shown as assets in the governmental funds. Property taxes collected within approximately 30 days of fiscal year-end are recognized as revenue, while the remaining are recorded as deferred inflows of resources because they are not deemed available to finance operations of the current period.

#### 3. Compensated Absences

Amounts of vested or accumulated vacation leave that are expected to be liquidated with expendable available financial resources are reported as expenditures when paid. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are reported as long-term liabilities on the statement of net position. In accordance with the provisions of GASB Statement No. 47, Accounting for Compensated Absences, no liability is recorded for non-vesting accumulating rights to receive sick pay benefits.

#### NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2017

#### 4. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Oregon Public Employees Retirement System (PERS) and additions to/deductions from PERS' fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### I. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures; accordingly, actual results could differ from those estimates.

#### II. DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS

#### A. Deposits and Investments

South Lane School District No. 45J3 maintains a cash and cash equivalents pool that is available for use by all funds. Each fund type's portion of this pool is displayed on the fund financial statements as cash and cash equivalents. Additionally, several funds held separate cash accounts. Interest earned on pooled cash and investments is allocated to participating funds based upon their combined cash and investment balances.

The District participates in an external investment pool (State of Oregon Local Government Investment Pool). The Pool is not registered with the U.S. Securities and Exchange Commission as an investment company.

The State's investment policies are governed by the Oregon Revised Statutes (ORS) and the Oregon Investment Council (OIC). The State Treasurer is the investment officer for the OIC and is responsible for all funds in the State Treasury. These funds are invested exercising reasonable care, skill, and caution. Investments in the Pool are further governed by portfolio guidelines issued by the Oregon Short-Term Fund Board, which established diversification percentages and specifies the types and maturities of investments. The portion of the external investment pool which belongs to local government investment participants is reported in an Investment Trust Fund in the State's Comprehensive Annual Financial Report (CAFR).

A copy of the State's CAFR may be obtained at the Oregon State Treasury, 350 Winter St. N.E., Salem, Oregon 97310-0840.

#### NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2017

#### Fair Value Measurement

Fair value is defined as the price that would be received to sell an asset or price paid to transfer a liability in an orderly transaction between market participants at the measurement date. Observable inputs are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are developed based on the best information available about the assumptions market participants would use in pricing the asset.

The classification of securities within the fair value hierarchy is based on the activity level in the market for the security type and the inputs used to determine their fair value, as follows:

- Level 1 Unadjusted quoted prices for <u>identical</u> investments in <u>active</u> markets.
- Level 2 Observable inputs other than quotes market prices; and,
- *Level 3* Unobservable inputs.

There were no transfers of assets or liabilities among the three levels of the fair value hierarchy for the year ended June 30, 2017.

Fair values of assets measured on a recurring basis at June 30, 2017 are as follows:

	Level 1
Federal Agency Obligations	\$ 24,815,873
	Level 2
Oregon Local Government Investment Pool	\$ 15,617,005

#### Credit Risk

Oregon statutes authorize the District to invest in obligations of the U.S. Treasury and U.S. agencies, bankers' acceptances, repurchase agreements, commercial paper rated A-1 by Standard & Poor's Corporation or P-1 by Moody's Commercial Paper Record, and the Local Government Investment Pool. The District has adopted an investment policy regarding credit risk in order to comply with state statutes.

#### NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2017

#### **Investments**

As of June 30, 2017, the District had the following investments:

	Credit Quality		
	Rating	Maturities	Fair Value
Oregon Local Government Investment Pool	Unrated	-	\$ 15,617,005
Federal Agency Obligations	Moody Aaa	< 1 year	20,968,670
Federal Agency Obligations	Moody Aaa	1 - 3 years	3,847,203
Total investments			\$ 40,432,878

#### **Interest Rate Risk**

The District has a formal policy that limits investment maturities to 18 months as a means of managing its exposure to fair value losses arising from increases in interest rates.

#### Concentration of Credit Risk

The District has a formal policy that places a limit on the amount that may be invested in any one insurer. 39 percent of the District's investments are in the Oregon LGIP, and 61 percent are in Federal Agency Obligations.

#### Custodial Credit Risk - Investments

This is the risk that, in the event of the failure of a counterparty, the District will not be able to recover the value of its investments that are in the possession of an outside party. The District does not have a policy that limits the amount of investments that can be held by counterparties.

#### <u>Custodial Credit Risk - Deposits</u>

This is the risk that, in the event of a bank failure, the District's deposits may not be returned. All District deposits not covered by Federal Depository Insurance Corporation (FDIC) insurance are covered by the Public Funds Collateralization Program (PFCP) of the State of Oregon, organized in accordance with ORS 295. The PFCP is a shared liability structure for participating bank depositories. Barring any exceptions, a bank depository is required to pledge collateral valued at a minimum of 10% of their quarter-end public fund deposits if they are considered well capitalized, 25% of their quarter-end public fund deposits if they are considered adequately capitalized, or 110% of their quarter-end public fund deposits if they are considered undercapitalized or assigned to pledge 110% by the Office of the State Treasurer. In the event of a bank failure, the entire pool of collateral pledged by all qualified Oregon public funds bank depositories is available to repay deposits of public funds of government entities.

#### NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2017

The District holds accounts at Umpqua Bank, for which deposits are insured by the FDIC insurance up to \$250,000. At June 30, 2017, the District's had deposits of \$250,000 insured by the FDIC, and \$1,544,984 collateralized under the PFCP.

#### Deposits

The District's deposits and investments at June 30, 2017 are as follows:

Checking accounts	\$ 1,241,893
Total investments	 40,432,878
Total deposits and investments	\$ 41,674,771
Cash and investments by fund:	
Governmental activities - unrestricted	
General Fund	\$ 3,270,296
Special Revenue Fund (book overdraft)	(380,059)
Special Projects Fund	1,784,528
Internal service fund - Insurance Fund	 161,744
Total governmental activities - unrestricted	4,836,509
Governmental activities - restricted	
Debt Service Fund	557,881
Capital projects Fund	 36,280,381
Total governmental activities - restricted	36,838,262
Total cash and investments	\$ 41,674,771

Restricted cash is for future payments of principal and interest on long-term debt, as well as the completion of bond projects.

# NOTES TO BASIC FINANCIAL STATEMENTS

# **B.** Capital Assets

Capital asset activity for the year ended June 30, 2017 was as follows:

	Beginning Balance	Increases	Decreases	Ending Balance
Governmental activities				
Capital assets not being depreciated				
Land	993,797	-	-	993,797
Construction in progress		4,009,555		4,009,555
Total capital assets not being depreciated	993,797	4,009,555		5,003,352
Capital assets being depreciated				
Buildings and improvements	42,084,471	15,900	-	42,100,371
Equipment	1,419,784	16,973	-	1,436,757
Buses and other vehicles	2,718,002	136,724		2,854,726
Total capital assets being depreciated	46,222,257	169,597		46,391,854
Less accumulated depreciation for				
Buildings and improvements	(14,103,226)	(962,801)	-	(15,066,027)
Equipment	(1,020,940)	(65,740)	-	(1,086,680)
Buses and other vehicles	(2,173,637)	(132,237)		(2,305,874)
Total accumulated depreciation	(17,297,803)	(1,160,778)		(18,458,581)
Total capital assets being depreciated, net	28,924,454	(991,181)		27,933,273
Governmental activities capital assets, net	\$ 29,918,251	\$ 3,018,374	<u>\$</u>	\$ 32,936,625

Capital assets are reported on the statement of net position as follows:

#### NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2017

	Capital Assets			ccumulated Depreciation	Net Capital Assets	
Governmental activities						
Land	\$	993,797	\$	-	\$	993,797
Construction in progress		4,009,555		-		4,009,555
Buildings and improvements		42,100,371		(15,066,027)		27,034,344
Equipment		1,436,757		(1,086,680)		350,077
Buses and other vehicles	_	2,854,726		(2,305,874)		548,852
Total governmental capital assets	\$	51,395,206	\$	(18,458,581)	\$	32,936,625

Depreciation was not charged to specific functions or programs of the District. Capital assets of the District are for the use of the entire District and are therefore unallocated. Depreciation expense is recorded on the statement of activities as follows:

Unallocated depreciation expense

\$ 1,160,778

#### C. Interfund Transfers

Interfund transfers during the year consisted of:

		Transfers in:						
	Special	Debt	Capital	_				
	Projects	Projects Service						
	Fund	Fund	Fund	Total				
Transfers out:								
General Fund	\$ 944,910	\$ 204,565	\$ 237,500	\$ 1,386,975				
Special Projects Fund	75,000			75,000				
	\$ 1,019,910	\$ 204,565	\$ 237,500	\$ 1,461,975				

Transfers were made to cover current year special and capital projects, and debt service payments.

#### D. Compensated Absences

The following is a summary of compensated absences at year end.

	Re	estated							
	Beg	ginning					E	Inding	
	Balance		Additions		Redu	ctions	Balance		
Net compensated absences	\$	58,878	\$	9,037	\$		\$	67,915

Total governmental activities		\$ 65,879,372	\$ 33,258,736	\$ 38,308,211	\$ 2,066,125	\$ 69,500,822	\$ 7,231,430

#### 2. General Obligation Bonds

General obligation bonds are direct obligations that pledge the full faith and credit of the District and are payable from ad valorem debt service levy proceeds. The District issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. The District's outstanding general obligation bonds represent funding primarily for building improvement projects. Interest is due semiannually in June and December. Interest rates increase at fixed rates over the life of the bonds in accordance with the original bond agreements. The Debt Service Fund has traditionally been used to liquidate long-term debt.

#### NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2017

#### 3. General Obligation Refunding Bonds Series 2012

In March 2012, the District issued general obligation bonds of \$21,335,000 (par value) with interest rates of 2% to 5% to advance refund the portion of the Series 2002 general obligation bonds on June 15, 2012. Interest rates increase in accordance with the original bond agreements. The Series 2012 bonds were issued at a premium of \$1,919,606 and, after paying issuance costs of \$260,662, the net proceeds were \$22,993,944. The net proceeds from the issuance of the Series 2012 bonds were used to purchase state and local government securities, which were deposited into an irrevocable trust with an escrow agent to provide debt service payments until the Series 2002 bonds were called on June 15, 2012. The advance refunding met the requirements of an insubstance debt defeasance and the refunded portion of the 2002 bonds was removed from the District's government-wide financial statements. The defeased bonds have been paid in full.

#### 4. General Obligation Refunding Bonds Series 2016

In August 2016, the District issued general obligation bonds of \$35,945,243 (par value) with interest rates of 2% to 5%. Interest rates increase in accordance with the original bond agreements. The bond are being used for facilities improvements and additions.

#### 5. Qualified School Construction Bonds - 2008

The District entered into a financing agreement dated 2008 under the Qualified Zone Academy Bonds (QZAB) Program. The District received financing of \$1,000,000 for upgrades and improvements to school facilities. The agreement requires annual payments, interest is fixed.

#### 6. Qualified School Construction Bonds - 2014

The District entered into a financing agreement dated 2014 under the Qualified Zone Academy Bonds (QZAB) Program. The District received financing of \$2,000,000 for upgrades and improvements to school facilities. The agreement requires annual cash deposits to a sinking fund in the amount of \$133,334 to fund the only payment of \$2,000,000 in 2029.

#### 7. Limited Tax Pension Bond

The District participated in the OSBA Pension Bond Pool for the purpose of funding the District's allocated portion of the PERS Unfunded Actuarial Liability (UAL). A bond in the amount of \$22,630,220 was issued on April 21, 2003. The bond is being amortized over 25 years. Interest is fixed and ranges between 1.4% and 6.27%. Interest rates increase in accordance with the original bond agreements. Interest is due semiannually on June 30 and December 31.

#### NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2017

### 8. Capital Lease Obligations

The District has five capital lease obligations; the proceeds of two of the capital leases were used to purchase buses and the remaining leases were for copy machines and computer equipment. The effective interest rates on the capital lease obligations range from 3.3 percent to 10.28 percent and payments end at varying dates through 2020.

### 10. General Obligation Debt Capacity

ORS 328.245 establishes a parameter of bonded indebtedness for school districts. Kindergarten through twelfth grade school districts may issue an aggregate principal amount up to 7.95% of the Real Market Value of all taxable properties within the district.

Information on the District's general obligation debt capacity is presented below.

Real Market Value (Fiscal Year 2017) (1)	\$ 1,442,250,882		
Debt Capacity			
General Obligation Debt Capacity (7.95% of Real Market Value) Less: Outstanding Debt Subject to Limit	\$ 114,658,945 (66,954,313) <sup>(2)</sup>		
Remaining General Obligation Debt Capacity	\$ 47,704,632		
Percent of Capacity Issued	58.39%		

<sup>(1)</sup> The District's fiscal year commences July 1 and ends on June 30 of the following year (the "Fiscal Year"). *Source: Linn County Department of Assessment and Taxation.* 

#### 11. Tax Abatements

Lane County has established an enterprise zone under ORS 285C that abates property taxes on properties within the enterprise zone. As a result, the property taxes that the District will receive for the 2016-2017 levy year has been reduced by \$5,524.

<sup>(2)</sup> Represents voter-approved, unlimited-tax general obligations of the District.

#### NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2017

#### III. OTHER INFORMATION

#### A. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the District carries commercial insurance. In addition, the District maintains an Insurance Fund for the payment of future unemployment claims. No liability for unpaid unemployment claims has been recorded, as management is unable to reasonably estimate the amount or timing of future claims.

#### **B.** Retirement Plans

#### 1. Oregon Public Employees Retirement System

General Information about the Pension Plan

#### Name of Pension Plan

The Oregon Public Employees Retirement System (PERS) consists of a single cost-sharing multiple-employer defined benefit plan.

#### Description of Benefit Terms

Plan Benefits - PERS Pension (Chapter 238)

Plan benefits of the System are established by the legislature pursuant to Oregon Revised Statute (ORS) Chapters 238 and 238A

PERS Pension

The ORS Chapter 238 Defined Benefit Pension Plan is closed to new members hired on or after August 29, 2003.

Pension Benefits

The PERS retirement allowance is payable monthly for life. It may be selected from 13 retirement benefit options. These options include survivorship benefits and lump-sum refunds. The basic benefit is based on years of service and final average salary. A percentage (2.0 percent for police and fire employees, 1.67 percent for general service employees) is multiplied by the number of years of service and the final average salary. Benefits may also be calculated under either a formula plus annuity (for members who were contributing before August 21, 1981) or a money match computation if a greater benefit results.

Death Benefits

Upon the death of a non-retired member, the beneficiary receives a lump-sum refund of the member's account balance (accumulated contributions and interest). In addition, the beneficiary

#### NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2017

will receive a lump-sum payment from employer funds equal to the account balance, provided one or more of the following conditions are met:

- Member was employed by a PERS employer at the time of death
- Member died within 120 days after termination of PERS-covered employment
- Member died as a result of injury sustained while employed in a PERS-covered job, or
- Member was on an official leave of absence from a PERS-covered job at the time of death

#### Disability Benefits

A member with 10 or more years of creditable service who becomes disabled from other than duty-connected causes may receive a non-duty disability benefit. A disability resulting from a job-incurred injury or illness qualifies a member (including PERS judge members) for disability benefits regardless of the length of PERS-covered service. Upon qualifying for a either a non-duty or duty disability, service time is computed to age 58 (55 for police and fire members) when determining monthly benefit.

#### Benefit Changes after Retirement

Members may choose to continue participation in a variable equities investment account after retiring and may experience annual benefit fluctuations due to changes in the market value of equity investments.

Under ORS 238.360 monthly benefits are adjusted annually through cost-of-living changes. The cap on the COLA in fiscal year 2015 and beyond will vary based on the amount of the annual benefit.

#### OPSRP Pension Program (OPSRP DB)

#### Pension Benefits

The ORS Chapter 238A Defined Benefit Pension Program provides benefits to members hired on or after August 29, 2003. This portion of OPSRP provides a life pension funded by employer contributions. Benefits are calculated with the following formula for members who attain normal retirement age: police and fire – 1.8 percent is multiplied by the number of years of service and the final average salary. Normal retirement age for police and fire members is age 60 or age 53 with 25 years of retirement credit. To be classified as a police and fire member, the individual must have been employed continuously as a police and fire member for at least five years immediately preceding retirement.

General Service: 1.5 percent is multiplied by the number of years of service and the final average salary. Normal retirement age for general service members is age 65, or age 58 with 30 years of retirement credit.

#### NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2017

A member of the pension program becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, and, if the pension program is terminated, the date on which the termination becomes effective.

#### Death Benefits

Upon the death of a non-retired member, the spouse or other person who is constitutionally required to be treated in the same manner as the spouse receives for life 50 percent of the pension that would otherwise have been paid to the deceased member.

#### Disability Benefits

A member who has accrued 10 or more years of retirement credits before the member becomes disabled or a member who becomes disabled due to job-related injury shall receive a disability benefit of 45 percent of the member's salary determined as of the last full month of employment before the disability occurred.

### Benefit Changes After Retirement

Under ORS 238A.210 monthly benefits are adjusted annually through cost-of-living changes. The cap on the COLA in fiscal year 2015 and beyond will vary based on the amount of the annual benefit.

#### Contributions

PERS funding policy provides for monthly employer contributions at actuarially determined rates. These contributions, expressed as a percentage of covered payroll, are intended to accumulate sufficient assets to pay benefits when due. This funding policy applies to the PERS Defined Benefit Plan and the Other Postemployment Benefit Plans.

Employer contribution rates during the period were based on the December 31, 2014 actuarial valuation, which became effective July 1, 2015. The State of Oregon and certain schools, community colleges, and political subdivisions have made unfunded actuarial liability payments, and their rates have been reduced.

Employer contributions for the year ended June 30, 2017 were \$225,660.

#### Pension Plan Comprehensive Annual Financial Report (CAFR)

Oregon PERS produces an independently audited CAFR which can be found at: <a href="http://www.oregon.gov/pers/Pages/section/financial\_reports/financials.aspx">http://www.oregon.gov/pers/Pages/section/financial\_reports/financials.aspx</a>

#### <u>Actuarial Valuations</u>

The employer contribution rates effective July 1, 2015, through June 30, 2017, were set using the entry age normal actuarial cost method.

#### NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2017

For the Tier One/Tier Two component of the PERS Defined Benefit Plan, this method produced an employer contribution rate consisting of (1) an amount for normal cost (the estimated amount necessary to finance benefits earned by the employees during the current service year), (2) an amount for the amortization of unfunded actuarial accrued liabilities, which are being amortized over a fixed period with new unfunded actuarial accrued liabilities being amortized over 20 years.

For the OPSRP Pension Program component of the PERS Defined Benefit Plan, this method produced an employer contribution rate consisting of (a) an amount for normal cost (the estimated amount necessary to finance benefits earned by the employees during the current service year), (b) an actuarially determined amount for funding a disability benefit component, and (c) an amount for the amortization of unfunded actuarial accrued liabilities, which are being amortized over a fixed period with new unfunded actuarial liabilities being amortized over 16 years.

#### Actuarial methods and assumptions used to determine the Total Pension Liability:

Valuation date	December 31, 2014
Measurement date	June 30, 2016
Experience Study	2014, published September 2015
Actuarial Assumptions:	
Inflation rate	2.50 percent (reduced from 2.75%)
Long-term expected rate of return*	7.50 percent (reduced from 7.75%)
Discount rate	7.50 percent (reduced from 7.75%)
Projected salary increases	3.50 percent (reduced from 3.75%)
Cost of living adjustment (COLA)	Blend of 2.00% COLA and graded COLA (1.25%/.015%) in accordance with <i>Moro</i> decision; blend based on service.
Mortality	Healthy retirees and beneficiaries: RP-2000 sex-distinct, generational per Scale BB, with collar adjustments and set-backs as described in the valuation.  Active members:

#### NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2017

Mortality rates are a percentage of healthy retiree rates that vary by group, as described in the valuation.
<b>Disabled retirees:</b> Mortality rates are a percentage (70% for males, 95% for females) of the RP-2000 sex-distinct, generational per Scale BB, disabled mortality table.

<sup>\*</sup> At its September 25, 2015 meeting, the PERS Board reduced the assumed rate of return on investments from 7.75 percent to 7.50 percent.

Actuarial valuations of an ongoing plan involve estimates of the value of projected benefits and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Experience studies are performed as of December 31 of even numbered years. The methods and assumptions shown above are based on the 2014 Experience Study, which reviewed experience for the four-year period ended on December 31, 2014.

#### Discount Rate

The discount rate used to measure the total pension liability of the Plan was 7.50 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current Plan members. Therefore, the long-term expected rate of return on pension plan investments for the Defined Benefit Pension Plan was applied to all periods of projected benefit payments to determine the total pension liability.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2017, the District reported a liability of \$15,908,640 for its proportionate share of the net pension liability. The net pension liability was measured at June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2016 the District's proportion was 0.10597055%.

#### NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2017

For the year ended June 30, 2017, the District recognized pension expense of \$2,924,040. At June 30, 2017, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	 erred Outflows f Resources	Deferred Inflows of Resources		
Differences between expected and actual				
experience	\$ 526,327	\$	-	
Changes of assumptions	3,392,931		-	
Net difference between project and actual				
earnings on investments	3,142,880		-	
Changes in proportionate share	915,421		-	
Differences between employer				
contributions and employer's proportionate				
share of system contributions	 60,466		745,271	
Total (prior to post-MD contributions)	8,038,025		745,271	
Contributions subsequent to the MD	 225,660			
Total	\$ 8,263,685	\$	745,271	
Net Deferred Outflow/(Inflow) of Resources	 	\$	7,518,414	

Amounts reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2017. Other amounts reported by the District as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in subsequent years as follows:

		I	Deferred			
		Outflo	w/(Inflow) of			
		Resource	es (prior to post-			
		meas	urement date			
_	Year ended June 30:	cor	tributions)			
_			_			
	2018	\$	1,344,378			
	2019	\$	1,344,378			
	2020	\$	2,493,819			
	2021	\$	1,854,562			
	2022	\$	255,618			

#### NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2017

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.50 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a higher discount rate that is 1-percentage-point lower (6.50 percent) or 1-percentage-point higher (8.50 percent) than the current rate:

1% Decrease		Γ	Discount Rate	1% Increase			
	(6.5%)	(7.5%)		(8.5%)			
\$	25,687,149	\$	15,908,640	\$	7,735,517		

Changes Subsequent to the Measurement Date

GASB 68 requires the Total Pension Liability to be determined based on the benefit terms in effect at the Measurement Date. Any changes to benefit terms that occurs after that date are reflected in amounts reported for the subsequent Measurement Date. However, paragraph 80f of GASB 68 requires employers to briefly describe any changes between the Measurement Date and the employer's reporting date that are expected to have a significant effect on the employer's share of the collective Net Pension Liability, along with an estimate of the resulting change, if available.

We are not aware of any changes subsequent to the June 30, 2016 Measurement Date that meet this requirement.

#### 2. Tax Deferred Annuities

The District provides tax deferred annuity contracts established under Section 403(b) of the Internal Revenue Code. Participation in the program is voluntary. Contributions are made from salary deductions from participating employees within the limits specified in the Code.

#### 3. Early Retirement

#### Plan Description

The District's collective bargaining agreements with certified personnel and administrators include provisions for early retirement benefits for personnel who have been regularly employed for a minimum of 15 consecutive years with the District. The early retirement allows qualified employees to be entitled to a one time stipend payment of \$5,000, upon retirement. As of June 30, 2017 2 former employees received a one-time \$5,000 stipend upon retirement.

#### NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2017

#### Contributions and Funding Policy

The benefits from this program are fully paid and, consequently, no contributions by employees are required. There is no obligation to fund these benefits in advance. The only obligation is to make current benefit payments due each fiscal year. Payments are made on a pay-as-you-go basis each year out of the Speical Projects Fund. An estimate of this liability for current retirees is done annually. There is no separately issued financial report for the plan. The annual expenditures recognized on a budgetary basis for the years ended June 30, 2015, 2016 and 2017 were \$230,949, \$192,339, and \$126,447 respectively.

#### Funded Status

The District accounts for the early retirement benefits in accordance with GASB Statement No. 27, *Accounting and Financial Reporting by Employers for Pensions*. As of June 30, 2017, the actuarial accrued liability (AAL) for benefits was \$231,595, and the actuarial value of assets was \$0, resulting in an unfunded accrued liability (UAAL) of \$231,595, and a funded ratio of 0%.

#### Annual Cost and Net Benefit

The District's annual post-employment benefit cost is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 27. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 3 years. The following table shows the components of the District's annual stipend costs for the year, the amount actually contributed to the plan, and changes in the District's early retirement obligation.

#### Methods and Assumptions

The projection of future benefit payments for an ongoing plan involves estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer (ARC) are subject to continual revision, as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time, relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs

#### NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2017

between the employer and plan members to that point. The methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. The unfunded accrued liability is being amortized over an open three-year amortization period.

#### C. Restatement

#### Government-Wide Statements

			Governmental Activities		
Net position - beginning, as originally reported		\$	(8,927,255)

<sup>(2)</sup> Assessed value does not exclude offsets such as urban renewal and farm tax credits

# AUDIT COMMENTS AND DISCLOSURES REQUIRED BY STATE REGULATIONS

# INDEPENDENT AUDITOR'S REPORT REQUIRED BY OREGON STATE REGULATIONS

Board of Directors South Lane School District No. 45J3 Cottage Grove, Oregon 97424

We have audited the basic financial statements of South Lane School District No. 45J3 as of and for the year ended June 30, 2017, and have issued our report thereon dated December 28, 2017. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and Government Auditing Standards.

#### Compliance

As part of obtaining reasonable assurance about whether South Lane School District No. 45J3's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes, as specified in Oregon Administrative Rules 162-010-0000 through 162-010-0320 of the Minimum Standards for Audits of Oregon Municipal Corporations, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion.

We performed procedures to the extent we considered necessary to address the required comments and disclosures, which included, but were not limited to, the following:

Deposit of public funds with financial institutions (ORS Chapter 295)

Indebtedness limitations, restrictions, and repayment

**Budgets legally required (ORS Chapter 294)** 

Insurance and fidelity bonds in force or required by law

Programs funded from outside sources

Authorized investment of surplus funds (ORS Chapter 294)

Public contracts and purchasing (ORS Chapters 279A, 279B, 279C)

State school fund factors and calculation

In connection with our testing, nothing came to our attention that caused us to believe the District was not in substantial compliance with certain provisions of laws, contracts, and grants, including the provisions of Oregon Revised Statutes, as specified in Oregon Administrative Rules 162-010-0000 through 162-010-0320 of the Minimum Standards for Audits of Oregon Municipal Corporations.

#### OAR 162-010-0230 Internal Control

In planning and performing our audit, we considered the District's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the basic financial statements, but not for the purpose of expressing an opinion on the internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses, as defined above. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

This report is intended solely for the information and use of the board of directors and management of South Lane School District No. 45J3 and the Oregon Secretary of State, and is not intended to be, and should not be used by anyone other than these parties.

#### SOUTH LANE SCHOOL DISTRICT NO. 45J3 Cottage Grove, Oregon

#### NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

For the Year Ended June 30, 2017

#### I. PURPOSE OF SCHEDULE

The accompanying schedule of expenditures of federal awards (the "schedule") includes the federal award activity of South Lane School District No. 45J3's under programs of the federal government for the year ended June 30, 2017. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirement, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of South Lane School District No. 45J3, it is not intended to and does not present the financial position, changes in net position, or cash flows of South Lane School District No. 45J3.

#### II. SIGNIFICANT ACCOUNTING POLICIES

#### A. Basis of Presentation

Expenditures reported on the schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. South Lane School District No. 45J3 has elected not to use the 10 percent de minimis indirect cost rate allowed under the Uniform Guidance.

#### B. Federal Financial Assistance

Pursuant to the Uniform Guidance, federal financial assistance is defined as assistance provided by a federal agency, either directly or indirectly, in the form of grants, contracts, cooperative agreements, loans, loan guarantees, property, interest subsidies, insurance, or direct appropriations. Accordingly, non-monetary federal assistance, including federal surplus property, is included in federal financial assistance and, therefore, is reported on the schedule of expenditures of federal awards, if applicable. Federal financial assistance does not include direct federal cash assistance to individuals. Solicited contracts between the state and federal government for which the federal government procures tangible goods or services are not considered to be federal financial assistance.

#### C. Major Programs

The Uniform Guidance establishes criteria to be used in defining major federal financial assistance programs. Major programs for the District are those programs selected for testing by the auditor using a risk assessment model, as well as certain minimum expenditure requirements, as outlined in the Uniform Guidance.

#### D. Reporting Entity

The reporting entity is fully described in the notes to the District's basic financial statements. Additionally, the schedule of expenditures of federal awards includes all federal programs administered by the District for the year ended June 30, 2017.

#### E. Revenue and Expenditure Recognition

The receipt and expenditure of federal awards are accounted for under the modified accrual basis of accounting.

# INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Directors South Lane School District No. 45J3 Cottage Grove, Oregon 97424

We have audited the basic financial statements of South Lane School District No. 45J3 as of and for the year ended June 30, 2017, and have issued our report thereon dated December 28, 2017. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

#### **Internal Control Over Financial Reporting**

In planning and performing our audit, we considered the District's internal control over financial reporting (internal control) in order to determine our auditing procedures for the purpose of expressing our opinion on the basic financial statements, but not for the purpose of expressing an opinion on the effectiveness of the internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether South Lane School District No. 45J3's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

# INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Board of Directors South Lane School District No. 45J3 Cottage Grove, Oregon 97424

#### Report on Compliance for Each Major Federal Program

We have audited South Lane School District No. 45J3 compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2017. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

#### Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

#### **Auditor's Responsibility**

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations Part 200 Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures, as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

#### Opinion on Each Major Federal Program

In our opinion, South Lane School District No. 45J3 complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2017.

#### **Report on Internal Control Over Compliance**

Management of South Lane School District No. 45J3 is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, of combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that a material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
