

School Bus Safety Program

The safety and welfare of student riders will be the first consideration in all matters pertaining to transportation. Safety precautions will include the following:

Children will be instructed as to the proper procedure for boarding and exiting from a school bus and in proper and safe conduct while aboard.

Emergency evacuation drills will be conducted at least three times a year to acquaint student riders with procedures in emergency situations.

All vehicles used to transport children will be inspected periodically to see that they meet safety regulations.

The District will comply with all state laws and regulations pertaining to the operation of school buses and will make these requirements known to bus drivers. It will also cooperate with local safety officials and the district safety coordinator in formulating and accomplishing its school bus safety program.
