INDEPENDENT AUDITORS' REPORT

To the Board of Directors
Coeur d'Alene Charter Academy, Inc.
Coeur d'Alene, ID 83814

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Coeur d'Alene Charter Academy, Inc. as of and for the year ended June 30, 2010, which collectively comprise the Academy's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Coeur d'Alene Charter Academy, Inc.'s management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Coeur d'Alene Charter Academy, Inc. as of June 30, 2010, and the respective changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 4, 2010, on our consideration of Coeur d'Alene Charter Academy, Inc.'s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing on internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 3 through 7 and 27 through 28 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standard generally accepted in the United States of America, which consisted of inquiries of management and the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Count On Us To Care

INDEPENDENT AUDITORS' REPORT (CONCLUDED)

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Coeur d'Alene Charter Academy's financial statements as a whole. The combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the financial statements. The combining and individual nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Coeur d'Alene Charter Academy, Inc.

MANAGEMENT'S DISCUSSION AND ANALYSIS For the Year Ended June 30, 2010

The following discussion and analysis provides an overview of Coeur d'Alene Charter Academy's ("the Academy") financial performance for activities during the fiscal year ended June 30, 2010.

FINANCIAL HIGHLIGHTS

- The Academy had another year of increased student population, the 10th of our 11 year history. The year over year increase in beginning enrollment was just over 6%.
- As a result of our increase in student population and assistance from the federal government stimulus funds our revenue increased both from government and non-government sources.
- Conservative use of funds led to significant increases in net assets and fund balances.

OVERVIEW OF FINANCIAL STATEMENTS

The Academy's annual financial statements are comprised of four parts: management's discussion and analysis, basic financial statements, required supplementary information, and other supplementary information.

- The basic financial statements include two accounting formats and related notes that provide further details to the information presented in those statements.
- Government-wide statements report a compilation of the Academy's financial information.
- Fund financial statements focus on individual parts of the Academy's financial activities and provide more details on operations.
- Notes to the financial statements provide explanations and disclosures to some of the information in the statements so that readers have a deeper understanding of the Academy's financial picture.
- Required supplementary information contains the general fund budgetary comparison schedule. This statement shows a condensed version of the budget planning for the fiscal year and how the actual results varied from the plan.
- The statements conclude with other supplementary information on non-major and fiduciary funds that are utilized by the Academy for special purposes or held in trust for other organizations. This section provides more detail on the funds reported in aggregate in the previous fund financial statements.

Government-wide Statements

The government-wide statements report information in an accounting method similar to statements provided by private sector companies. The statement of net assets indicates the financial position of the Academy at a given point in time (in this case the last day of the fiscal year). The statement of activities reports programmatic expenses and revenues that result in the change in net assets over a period in time (fiscal year).

Coeur d'Alene Charter Academy, Inc.

MANAGEMENT'S DISCUSSION AND ANALYSIS For the Year Ended June 30, 2010

OVERVIEW OF FINANCIAL STATEMENTS (CONTINUED)

Government-wide Statements (Continued)

- The bottom line on these statements, net assets, is one measure of the overall financial position of the Academy. An increase or decrease from a prior year may indicate improvement or decline of the financial position.
- To gain a complete picture of the overall financial condition of the Academy the reader should consider additional factors that include student enrollment, community growth, legislative appropriations, and State economic conditions.
- In the government-wide financial statements, the Academy's activities are all classified as governmental activities. These activities are largely supported by Idaho State general fund revenue derived from income and sales tax. The Academy does not receive funding from local property tax revenues.

Fund Financial Statements

The fund financial statements provide detailed information about the general fund, a compilation of the non-major funds (other governmental), and fiduciary funds. Funds are accounting devices used to track the source of funding and spending on particular programs. This enables the Academy to demonstrate compliance with various regulatory requirements. A balance sheet and statement of revenues, expenditures and changes in fund balances is provided along with reconciliation to the government-wide statements. The reconciliation statements provide a tie between fund statements and government-wide statements that allow the user to connect the overall financial picture with the more detailed one.

Fund Types

Governmental Funds - Most of the Academy's basic services are included in governmental funds. They generally focus on the sources and the uses of cash and other financial assets that provide the basic programmatic services of the Academy. The governmental funds statements provide a more detailed view as to whether there were sufficient resources to finance the Academy's programs. It can also indicate the availability of resources for future use. Governmental fund information does not report on long-term commitments as is reported on the government-wide statements. Therefore, an explanation of the differences between the governmental funds and the government-wide statements is included as a separate statement.

Fiduciary/Agency Funds - The Academy is responsible as a trustee, or fiduciary, for student organizations and the scholarship and a building trust fund. These funds may only be used for their intended purpose and only by those to whom the assets belong. The Academy excludes these activities from government-wide statements because they cannot be used for its operations.

FINANCIAL ANALYSIS

Net Assets

One indicator of the Academy's financial position is net assets. Assets exceeded liabilities by \$2,561,605 as of June 30, 2010. This represented a 15.7% increase in net assets over last year. The largest portion of net assets is reflected in investment in capital assets (e.g. buildings and real property, electronic equipment, furniture and fixtures). Table 1 on the following page provides a summary of the Academy's net assets.

For the Year Ended June 30, 2010**

FINANCIAL ANALYSIS (CONTINUED)

Governmental Funds

The Academy completed the year with a total governmental fund balance of \$1,071,001 which is up from the prior year fund balance by \$232,703, or 27.8%. The change can be attributed to an increase in revenue (largely due to federal assistance) and reduced capital asset related expenditures. Capital asset related expenditures were also offset by proceeds from notes and local revenue donations.

**Table 3
Statement of Revenues and Expenditure
Governmental Funds
For the Year Ended June 30, 2010 and 2009**

	<u>2010</u>	<u>2009</u>	<u>Total % Change</u>

General Fund Budgetary Highlights

The beginning budget for the Academy is presented to the public and adopted in June of the preceding year. Typically, an amended budget is adopted in December or January of the fiscal year based on attendance and employment figures that are not available earlier. Revenue received by the State is largely based on those figures. The budget for 2009-2010 was amended January 12, 2010, to reflect projected changes in revenues and expenses.

The Schedule of Revenues, Expenditures and Changes in Fund Balances – Budget and Actual – General Fund (page 26) shows the changes in the budget and a comparison with actual results. The net change in the general fund balance at year end was due to revenue increases and conservative planning and budgeting.

Coeur d'Alene Charter Academy, Inc.

MANAGEMENT'S DISCUSSION AND ANALYSIS For the Year Ended June 30, 2010

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

An overview of capital asset changes for the fiscal year is contained in note 5 on page 22 (notes to financial statements). The majority of changes are due to the remodel of a building purchased in 2009; construction of a new parking lot; and, the depreciation of assets. Total capital assets, after accumulated depreciation, at the end of the fiscal year are \$3,828,482.

Long-Term Debt

Four notes are currently held by bankcda on Academy real property (note 7, pg 23). Terms of the largest note are on a variable interest rate (currently 5.5%). The rate will not be subject to change until November 2013. This note with bankcda allowed us to lower our interest rate on debt and extend the payoff on long-term debts. The smaller notes with bankcda provided funds for the purchase of modular classrooms and a new building with land. The rates on these notes are 5.95%, 5.55%, 4.7% and are subject to changes in 2011, 2018 and 2019. There are no early pre-payment penalties on these notes. We will continue to use debt with prudence and maintain it at a level that meets the capital needs of the institution and is not detrimental to our overall financial health.

FACTORS BEARING ON THE ACADEMY'S FUTURE

Currently known circumstances that will impact the Academy's financial status in the future:

- The economy continues to be the primary driver in determining future state tax revenues. The State of Idaho, as with the rest of the nation, is experiencing continued difficulties that will likely result in uncertain tax revenues. We will continue to operate in a manner that is conservative in relation to expenditures and the known sources of revenue.
- Projected enrollment for the coming year (2010-2011) is up again. Our anticipated increase in enrollment should offset some of the State revenue cuts. New Federal funding will limit some State cuts as well.
- Growth will continue to put pressure on our facilities. Plans to improve or add classroom and common space in the near future are on-going.

CONTACTING THE ACADEMY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens with a general overview of the Academy's finances and to demonstrate our accountability for the resources we receive from all sources. If you have questions about this report or need additional information, contact the Coeur d'Alene Charter Academy, 4904 N. Duncan Dr., Coeur d'Alene, ID 83815 or email gmabile@cdacharter.org.

Coeur d'Alene Charter Academy, Inc.

NOTES TO THE FINANCIAL STATEMENTS

June 30, 2010

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Coeur d'Alene Charter Academy, Inc. ("the Academy") operates under the direction of a Board of Directors, who oversees the operation of the Academy and governs the decisions made by the Principal. The Academy is engaged in the education of students on the secondary level. Coeur d'Alene Charter Academy, Inc. does not exercise sufficient control over other governmental agencies and authorities to warrant including them as a part of the Academy's entity.

A. Reporting Entity

A reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure the financial statements are not misleading. The primary government of the Academy consists of all funds, departments, boards, and agencies that are not legally separate from Coeur d'Alene Charter Academy. For the Academy this includes general operations, debt service, and student and supportive service activities.

Component units are legally separate organizations for which the Academy is financially accountable. Component units may also include organizations that are fiscally dependent on the Academy, that is, the Academy approves their budget, the issuance of their debt, or the levying of taxes. The Academy has no component units.

The financial statements of the Academy have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental entities. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The most significant of the Academy's accounting policies are described below:

B. Fund Accounting

The Academy uses funds to maintain its financial records during the fiscal year. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain Academy functions or activities. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The various funds of the Academy are grouped into the categories governmental and fiduciary.

Governmental Funds – Governmental funds focus on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the Academy's major governmental funds:

General Fund – The general fund is used to account for all financial resources except those required to be accounted for in another fund. The general fund is available for any purpose provided it is expended or transferred according to the laws of the state of Idaho.

Capital Projects Fund – The capital projects fund is used to account for financial resources used to construct or acquire capital improvements/additions.

Albertsons Fund – The Albertsons fund is used to account for financial resources provided to the Academy through a grant from the Albertsons' Foundation.

The other governmental funds (non-major funds) of the Academy account for other resources in which the use is restricted to a particular purpose.

(Continued)

Coeur d'Alene Charter Academy, Inc.

NOTES TO THE FINANCIAL STATEMENTS June 30, 2010

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Fund Accounting (Continued)

Fiduciary Funds – Fiduciary fund reporting focuses on net assets and changes in net assets. The funds accounted for in this category by the Academy are the agency and trust funds. The trust funds are an expendable building fund and a scholarship fund maintained and distributed by the Academy. The agency fund accounts for assets held by the Academy as an agent for school organizations. These funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

C. Basis of Presentation

Government-wide Financial Statements – The statement of net assets and the statement of activities display information about the Academy as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The Academy has activities that are considered to be governmental as opposed to business-type activity.

The government-wide statements are prepared using the economic resources measurement focus. This differs from the manner in which governmental fund financial statements are prepared. Therefore, governmental fund financial statements include reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the Academy's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and are therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues of the Academy, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the Academy.

Fund Financial Statements – Fund financial statements report detailed information about the Academy. The focus of governmental fund statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by fund type.

The accounting and reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are a balance sheet, which generally includes only current assets and current liabilities, and a statement of revenues, expenditures and changes in fund balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

Fiduciary funds are reported using the economic resources measurement focus.

Coeur d'Alene Charter Academy, Inc.

NOTES TO THE FINANCIAL STATEMENTS June 30, 2010

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Fiduciary funds also use the accrual basis of accounting.

Revenues – Exchange and Non-exchange Transactions – Revenues resulting from exchange transactions, in which each party receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenues are recorded in the fiscal year in which the resources are measurable and available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the Academy available means expected to be received within 60 days of the fiscal year-end.

Non-exchange transactions, in which the Academy receives value without directly giving equal value in return, include grants, entitlements and donations. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the Academy must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the Academy on a reimbursement basis. On a modified accrual basis, revenues from non-exchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: interest, tuition, grants, student fees, and rentals.

Expenses/Expenditures – On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation, are not recognized in governmental funds.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

E. Cash and Cash Equivalents

On the financial statements, cash received by the Academy is pooled for investment purposes and is presented as "Cash and Cash Equivalents" for the following funds: General fund and Non-major funds. Interest earned in the pooled accounts is allocated to the General fund.

During the fiscal year ended June 30, 2010, investments were limited to money market accounts and certificates of deposit.

(Continued)

Coeur d'Alene Charter Academy, Inc.

**NOTES TO THE FINANCIAL STATEMENTS
June 30, 2010**

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

E. Cash and Cash Equivalents (Continued)

For presentation on the financial statements, investments with an original maturity of three months or less at the time they are purchased by the Academy are considered to be cash equivalents. Investments with an initial maturity of more than three months are reported as investments.

F. Capital Assets

General capital assets usually result from expenditures in the governmental funds. These assets are reported in the government-wide statement of net assets but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair market values as of the date received. The Academy maintains a capitalization threshold of \$500 to \$50,000 depending on the nature of the item (i.e. buildings with a cost of \$50,000 or more are capitalized and equipment with a cost of \$500 or more are capitalized). The Academy does not possess any infrastructure. Improvements and interest incurred during the construction of capital assets are capitalized. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized.

All reported capital assets are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Estimated Lives</u>
Land Improvements	40 yrs
Buildings/Improvements	40 yrs
Modular equipment	10 yrs
Improvements	10 yrs
Furniture	7 yrs
Equipment	5 yrs

G. Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements.

In general, payables and accrued liabilities that will be paid from governmental funds are reported on the governmental fund financial statements regardless of whether they will be liquidated with current resources. However, claims and judgments and the noncurrent portion of notes, which will be paid from governmental funds, are reported as a liability in the fund financial statements only to the extent that they will be paid with current, expendable, available financial resources.

In general, payments made within 60 days after year end are considered to have been made with current available financial resources. Bonds and other long-term obligations paid from governmental funds are not recognized as a liability in the fund financial statements until due.

(Continued)

Coeur d'Alene Charter Academy, Inc.

NOTES TO THE FINANCIAL STATEMENTS June 30, 2010

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

H. Fund Balance Reserves

Coeur d'Alene Charter Academy, Inc. reserves those portions of fund equity that are legally segregated for a specific future use or that do not represent available expendable resources and therefore are not available for expenditure or appropriation. Unreserved fund balance indicates that portion of fund equity that is available for appropriation in future periods.

I. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the Academy, or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

J. Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

K. Extraordinary and Special Items

Extraordinary items are transactions that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the Board of Directors and that are either unusual in nature or infrequent in occurrence. Neither type of transactions occurred during the fiscal year ended June 30, 2010.

L. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

M. Income Taxes

Coeur d'Alene Charter Academy, Inc. is a nonprofit organization exempt from federal income tax under Internal Revenue Code Section 501(c)(3). In accordance with generally accepted accounting principles, the organization is required to disclose certain information regarding potential liabilities regarding its tax positions it currently takes or has taken in prior years. Currently, there are no unrecognized tax benefits or liabilities that need to be recognized during current year or due to a tax position taken in a prior year. Therefore, the cumulative effect of the change on net assets of applying provisions of the requirement in this first year of adoption is none. If the organization were to have a potential liability for such taxes, it would also accrue interest and penalties as a liability in the financial statements. The organization expects no unrecognized tax benefits that will be incurred within the next year of the date of these financial statements. There are no tax years that are currently under examination by federal or state tax authorities.

(Continued)

Coeur d'Alene Charter Academy, Inc.

NOTES TO THE FINANCIAL STATEMENTS June 30, 2010

NOTE 2: STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. Budgetary Information

Budgets are adopted on a basis consistent with generally accepted accounting principles. Annual budgets are adopted for the general, special revenue, debt services, and capital project funds. Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is not employed as an extension of formal budgetary integration in the general fund, special revenue funds, and debt service funds. This is in conformance with Idaho State Statutes which require that appropriations lapse at the end of a fiscal year and are not available to be carried forward to be used in addition to the succeeding year's appropriation.

The following procedures are followed in establishing the budgetary data reflected in the financial statements:

- a) The Academy publishes a proposed budget for public review.
- b) Public hearings are set for comments.
- c) Prior to July 1, the budget is adopted by resolution of the Board of Directors and published.
- d) The final budget is then filed with the State Department of Education. Expenditures may not legally exceed budgeted appropriations at the fund level.

During the fiscal year ended June 30, 2010, the budget was amended to reflect revised revenue and expense estimates. The amendment was properly approved by the Board of Directors.

Lapsing of Appropriations – At the close of each year all unspent appropriations revert to the respective funds from which they were appropriated and become subject to future appropriation.

NOTE 3: CASH AND INVESTMENTS

The carrying amount of the Academy's deposits with financial institutions was \$1,600,808 and the bank balance was \$1,607,638. Investments of the Academy are funds held by bankcda, Mountain West Bank, U.S. Bank and Washington Trust Bank. The bank balance and investments are categorized as follows:

Amount insured/collateralized by the FDIC or other agencies	\$1,595,660
Amount uninsured	<u>11,978</u>
Total bank balance	<u>\$1,607,638</u>

The carrying amount is displayed as follows in the financial statements:

Statement of net assets (pg 8)	\$1,456,646
Statement of net assets - fiduciary funds (pg 14)	
Expendable building trust	75,320
Expendable scholarship trust	17,254
Student body agency funds	<u>51,588</u>
Total	<u>\$1,600,808</u>

Market value materially approximates cost at June 30, 2010. Idaho State Code allows the Academy to invest idle monies in certain categories. No violations of those categories have occurred during the year. Custodial credit risk is the risk that in the event of a bank failure, the Academy's deposits may not be returned to it. The Academy does not have a deposit policy for custodial credit risk.

Total	<u>\$2,150,495</u>	<u>\$296,220</u>	<u>\$108,836</u>	<u>2,337,878</u>
Less amount due within one year				<u>(120,507)</u>
				<u>\$2,217,371</u>

Long-term debt maturities are as follows:

<u>Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2011	\$ 120,507	\$124,985	\$ 245,492
2012	396,442	108,624	505,066
2013	112,477	95,629	208,106
2014	912,121	63,021	975,142
2015	34,542	41,473	76,015
2016-2020	313,012	174,957	487,969
2021-2025	133,172	107,368	240,540
2026-2030	175,651	64,889	240,540
2031-2033	<u>139,954</u>	<u>16,378</u>	<u>156,332</u>
	<u>\$2,337,878</u>	<u>\$797,324</u>	<u>\$3,135,202</u>

NOTE 8: DEFINED BENEFIT PENSION PLAN

The Public Employee Retirement System of Idaho (PERSI) – The PERSI Base Plan, a cost sharing multiple-employer public retirement system, was created by the Idaho State Legislature. It is a defined benefit plan requiring that both the members and the employer contribute. The Plan provides benefits based on members' years of service, age, and compensation. In addition, benefits are provided for disability, death, and survivors of eligible members or beneficiaries. The authority to establish and amend benefit provisions is established in Idaho Code. Designed as a mandatory system for eligible state and school district employees, the legislation provided for other political subdivisions to participate by contractual agreement with PERSI. After 5 years of credited service, members become fully vested in retirement benefits earned to date. Members are eligible for retirement benefits upon attainment of the ages specified for their employment classification. For each month of credited service, the annual service retirement allowance is 2.0% of the average monthly salary for the highest consecutive 42 months.

PERSI issues publicly available stand alone financial reports that include audited financial statements and required supplementary information. These reports may be obtained from PERSI's website at www.persi.idaho.gov.

(Continued)

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2010

NOTE 8: DEFINED BENEFIT PENSION PLAN (CONTINUED)

The actuarially determined contribution requirements of Coeur d'Alene Charter Academy, Inc. and its employees are established and may be amended by the PERSI Board of Trustees. For the year ended June 30, 2010, the required contribution rate as a percentage of covered payrolls for members was 6.23% for general members. The employer rate as a percentage of covered payroll was 10.39% for general members. Coeur d'Alene Charter Academy, Inc.'s contributions required and paid were \$224,523, \$200,588 and \$186,858 for the three years ended June 30, 2010, 2009, and 2008, respectively.

NOTE 9: FUND BALANCE RESERVES AND DESIGNATIONS

Reservations of fund balances are created to identify a portion of the fund balance that is not appropriable for other future expenditures and are explained as follows:

Reserved for Grant Purposes – This reserve relates to amounts to be used for grant programs.

NOTE 10: RISK MANAGEMENT

The Academy pays the State Workers' Compensation System a premium based on a rate per \$100 of salaries. This rate is calculated based on accident history and administrative costs.

The Academy is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees and natural disasters. The Academy contracts with an insurance company for property insurance (including boiler and machinery) and general liability insurance.

An outside insurance company protects professional liability with a \$3,000,000 liability per occurrence and a \$5,000,000 aggregate umbrella. Vehicles are also covered by the same insurance company with no deductible for comprehensive or collision. Automobile liability has a \$3,000,000 single limit of liability.

The Academy provides life, with accidental death and dismemberment insurance, as well as medical, dental and vision insurance to most employees through an insurance company.

NOTE 11: SUBSEQUENT EVENTS DATE OF MANAGEMENT ELECTION

Management has evaluated subsequent events through November 4, 2010, the date on which the financial statements were available to be issued.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND
OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the Board of Directors
Coeur d'Alene Charter Academy, Inc.
Coeur d'Alene, ID 83814

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Coeur d'Alene Charter Academy, Inc., as of and for the year ended June 30, 2010, which collectively comprise Coeur d'Alene Charter Academy, Inc.'s basic financial statements and have issued our report thereon dated November 4, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Coeur d'Alene Charter Academy, Inc.'s internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Coeur d'Alene Charter Academy, Inc.'s internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Coeur d'Alene Charter Academy, Inc.'s internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Coeur d'Alene Charter Academy, Inc.'s financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, the Board of Directors, others within the entity and is not intended to be and should not be used by anyone other than these specified parties.
