WHITE WATER, WHITE WATER!

On May 17, 1985, the Rafting Club traveled 8 hours to the Lehigh River in White Haven, PA.

Sprawled all over the place on the crowded bus were the members of Biology, Chemistry, and Physics.

Due to the drought, the water level was very low and there weren't many rapids, so we paddled most of our way down the river.

Other unwanted conditions included the forcing of wetsuits on us (though we were grateful later), soggy lunches, cold rain, and the absence of gas by the time we returned to the Angelica intersection.

It was once again a fun trip, with the water fights, free food and being with our friends. We look forward to going again next year with great anticipation.
