## CLASS HISTORY

The history of the Class of '52 begins in 1948. The eight girls and seventeen boys in eighth grade proudly elected the following officers for the year: president, Robert Case; vice-president, Howard Harding; secretary and treasurer, Sylvia Graham; Student Council representative, John Kitchen; and class advisor, Mrs. Palmer. The important events of the year were a Christmas party in the music room, and also a Valentine party.

Upon re-entering school as freshmen, we found that we had lost six members; and now had a total of nineteen in class. This year our leaders were: President, David Rose; vice president, Robert Perry; secretary and treasurer, Richard Sortore; Student Council representative, Lorena Mitchell; and class advisor, Mrs. Petrey. The highlights of this year were a Christmas party in the laboratory, and a combination movie-skating party in Wellsville.

During the year we lost one member, and at the end of the year the total stood at five girls and thirteen boys.

On returning to school as sophomores, we quickly took on our responsibilities as routine. With the following leaders we had a very successful year: President, Robert Case; vice president, Robert Perry; secretary and treasurer, Sylvia Graham; Student Council representative, David Rose; and class advisor, Mr. Nasal.

During the year we gained two members; Carolyn Noce, from Cuba; and Franklin Dieter, who was a former member of the class.

At Halloween we staged a "Chamber of Horrors," truly the best one ever. During the Magazine Campaign we raised the largest amount of money ever to be brought in by one class, \$203.50, to beat the Juniors, and win the ten pounds of candy offered the class selling the most magazines. Among our other social activities that year, we enjoyed a combination movie-skating party at Wellsville.

On entering school in September, we were christened the "Jolly Juniors", and elected the following officers to lead us through this, our biggest year to date: President, Robert Case; vice president, Robert Perry; secretary and treasurer, Sylvia Graham; Student Council representatives, Lorena Mitchell and David Rose; and class advisor, Mr. Romanosky.

On October 4, the juniors received their rings, which they had ordered the previous spring. The class was also honored by having the junior girls win the volleyball championship on March 9.

On May 4, the Juniors held their annual Junior Prom. This was a gala affair, and was enjoyed by everyone.

During the summer months the Juniors presented a pageant called "Freedom Forever" at the Fairground during the Fireman's Convention. They also opened a refreshment stand to accommodate the convention. Then came the County Fair, and the Senior Stand. Everyone worked long, hard hours, and we were rewarded by taking in the greatest sum of money ever.

At the beginning of our final year, we twenty seniors elected the following officers: President, Robert Perry; vice president, Robert McKnight; secretary, Sylvia Graham; treasurer, John Kitchen; Student Council representatives, Lorena Mitchell, Sylvia Graham and David Rose; class advisor, Mr. Romanosky.

The senior play, "The Tin Hero", was presented in October. With the exception of one character, the entire cast was chosen from the Senior class. It was well attended for two nights.

At the time of this writing we are anticipating three events: the Senior Trip to Washington, the Senior Speaking Contest and Graduation.

## CLASS PROPHECY

There is seldom found, anywhere, a spirit as strong as the one that united the Seniors of '52. Due to their ability to co-operate, to become of one mind, to meet and overcome obstacles, and take the results together, they soon were bound by a strong bond of class patriotism. So now,

even after twenty years, I still am their creation, and a bond between them although they walk different paths in a new life and a new world. You see, I am the SPIRIT of the CLASS of 1952, Angelica Central School, and although I fade a little each year in importance, I still linger on in memory.

What happened to those eager, fun-loving seniors? On June 23, 1972, twenty years after their graduation from high, I revisited them. Let me tell you what I learned.

I returned to Angelica to learn what I could of their whereabouts. In the vicinity of West Almond, I came upon a huge, rambling prosperous farm which belonged to Raymond Burdick. He owned many champion milk cows and spent much of his time exhibiting them. He took me on a tour of his farm, which had expanded over about half of the West Almond area. He had to go to Hornell to a crop conference and invited me to go along. Imagine my surprise when the chairman of the meeting turned out to be Glen Bullock. It seems that he has a farm near Hornell, which is still his favorite hangout. He said that he didn't have to drive nearly so far for a good time as he did twenty years ago. It probably doesn't take as long either because I noticed he was sporting a new Mercury.

Back in Angelica, I was instantly struck by the magnificent appearance of a new American Hotel. Was I surprised to learn that the proprietor of this beautiful hotel, with its fine room accommodations and delicious foods, was none other than John Kitchen! When he greeted me, I couldn't help noticing that above his elaborate tuxedo, his red curls still shone. With his dry humor he informed me that they were still responsible for his success. I was surprised, also to learn that he was a bachelor, but by the way things looked, he was a popular one. While there, it being early evening, I was not surprised to see many come in for supper. However, I was surprised to hear Mr. Kitchen welcome Mr. and Mrs. Scott. Yes, it was none other than the former Marilyn Maxson. She informed me that they still lived at Transit, and had a large dairy. Although they have four children, only the two oldest ones were with them.

Next I traveled to a small city, where Marilyn had informed me, Sylvia, Carolyn, and Lorena all had offices. I was surprised to find them all in the same building, as Sylvia Graham had reached her goal as a famous doctor, Carolyn Noco as a successful dentist, and Lorena Mitchell as a popular beautician. I talked to the three of them in Sylvia's office. I soon realized that if, when Lorena cut hair the head might suffer, or if Carolyn was a little rough with drill and pliers, they could call in Dr. Graham. If she failed, I was happy to learn that there was a hospital only two blocks away, where Beatrice Harding waited as a capable nurse. In case it was necessary to rush them to the hospital, Howard Harding had a taxi service next door, which was fast, if perilous. This I termed as conspiracy between old classmates even if it was successful. The former Gail Harding, now the mother of three, and wife of a farmer, came in to keep an appointment with Miss Mitchell. She still likes to look beautiful for Lynn! I remarked that farming seemed to agree with her and she replied, "I love it!" As we talked and joked, a phone call came for Dr. Graham, who is a famous surgeon, as well as a private doctor. It was from Buffalo Myers Memorial Hospital, where Robert Perry, the "hot" Hot-Rod driver, had just been admitted. In one of Howard's jet-speeded taxis, Sylvia and I soon reached there. Bob wasn't seriously injured, and I decided that it was just because of a certain nurse that he wanted to get into the hospital.

As long as Howard had put one of his taxis at my service, I decided to revisit the nation's Capitol, where the seniors had so much fun 20 years ago. In the Senate, Senator Harold Criss, was making a speech. I wasn't surprised to learn that he was going to run for President. I left the taxi and joined Mr. Criss in his private airplane on a trip out West. Just outside of Chicago, Harold pointed out an airfield belonging to Robert Case and Richard Sortore. As we dropped down to say "Hello," I saw not only Bob and Dick, but also Gary Harding and David Rose. I learned from them that Case and Sortore were private pilots and instructors, while Gary was their mechanic and David, their carpenter. It seems that Dick can never get his plane into a hangar without knocking part of it down, thus the reason for employing a carpenter. I inquired about the remaining class mates. Robert Crandall, who became a Marine, is still a faithful servant of Uncle Sam. Robert McKnight, they told me had stayed with the Navy, becoming a salt-water sailor, with bow-legs and a rolling gait, and commander of Fleet 27.

I had now found them all but one, and following a hunch, I took one of the new jet streamlined trains back toward our old Alma Mater. When I commented to the conductor on the fineness of this method of travel, he told me that Kenneth Patterson was responsible for that particular railway line. Kenny had risen from an engineer to a first vice-president, with a salary well above the \$50,000 line.

When I reached Angelica, I was happy to see the still smiling and joking advisor of our Junior and Senior years. Yes, Mr. Romanosky, who helped us become successful graduates, was still there, helping and encouraging others.

Well, I made a trip didn't I, considering I did it all in one day? Now, I shall contentedly rest here, where I was created, and continue to fade away, until I am no longer in existence, not even in the memories of those Seniors of '52.

Sincerely yours,

The SPIRIT OF THE CLASS OF '52!

## SIXTH GRADE

When school opened in September we found that we had lost some of our members but had gained Roy Palmer. Roy had moved from the Adirondack region to Angelica during the summer. Upon glancing about the room, we noticed that the ceiling had been repaired and newly decorated during the summer.

The summer had brought many changes in the building and we had to inquire our way to the principal's and nurse's offices. We found that a dental hygienist had an office where supplies had been kept. All of us had our teeth cleaned and received instruction about caring for our teeth.

At the end of the second week of school La Ray O'Hara returned to Belmont. Philip Beebe came back the latter part of September and Elsie Gordon entered from Arkport for the first time. Gary Magee, who had at one time been a pupil in our school, returned the last of October. After a few weeks Philip left us to attend school elsewhere.

During the year we have enjoyed the usual parties consisting of games and refreshments.

Many parents visited our room on Parent's Night. We were glad they could have an opportunity to see our visual aids. The opaque projector, which was new this year has been very helpful to us—particularly, in social studies and science.

All but four of our grade have attended "released time" religious instruction at the various churches. Two of us could not go because our church is out in the country.

Fourteen have joined the "Varsity A" and have enjoyed the "pep" meetings.

During the Junior Red Cross Drive we obtained a 100% membership and packed two boxes.

Several have been taking instrumental lessons from Mr. Enos so that we shall be able to play in the band when we are older.

Our grade contributed a play and a monologue to the Christmas program. The various committees handled the number by themselves.

An invitation has been extended to us to attend most of the outside assemblies during the year. We have found them to be both enjoyable and helpful.

## FIFTH GRADE

The opening of school in September found twenty-nine children ready for enrollment in the fifth grade—twelve boys and seventeen girls. Five of this number were entering Angelica Central for the first time. They were Edward Blish from Wayland Central, Mary Ann Welton from Dansville Central, Wrexie Balcom from Andover Central, Mary Palmer from Olmstedville Central, and Judith Sutter from St. Mary's in Olean. In October Marilyn Magee came from Dalton Central School.

Twenty of us joined Varsity A. All of us joined the Junior Red Cross. This year our grade contributed the largest amount to this organization of any of the grades. We also packed two gift boxes.

Eleven of our grade took instrumental music lessons from Mr. Enos.

We had parties on Hallowe'en, Christmas, and St. Valentine's Day. The Christmas party with the tree, lights, and gifts, and the delicious dinner served us by the cafeteria staff and their helpers was enjoyed most.

A new globe, bookshelves, and reading table were added to our equipment. Besides this several attractive and interesting story books and reference books were added to our library.

Many film strips were shown throughout the year to give us a better understanding of our regular work.

## FOURTH GRADE

When school began in September, thirty-three pupils were enrolled. Since then there have been some changes. During September Roy Lamb moved into the district and Stuart Strang moved out. Ann Miles left in December to spend the winter months in Florida. In January Karen Corsaw, with her mother and brothers, left for Japan to be with her father. There are more boys than girls in our grade.

Anna Palmer, Ellen Balcom, and Billy Schultz are attending Angelica Central School for the first time.

Two small bulletin boards were added to our room this year and several new library books.

We were proud to have one hundred per cent of our room enrolled in the Junior Red Cross. We packed a box to send to a foreign boy.

The usual parties of the year were enjoyed on Halloween, Christmas, and St. Valentine's Day.

We took part in the Thanksgiving program by putting on a play and helping with the singing of some Thanksgiving songs. Suzanne Deming had a part in the Christmas play.

All except one of us attended released time religious education classes.

We enjoyed the special assemblies which we attended, especially the Marionette Circus.

Several film strips were shown during the year in connection with our different subjects. We saw a few movies. The opaque projector was also used to show us pictures.

## THIRD GRADE

We are the third grade of Angelica Central School. At present we number an even forty. Larry Whitney and Mavis Magee entered our grade several weeks after school started. Then on December 22, 1951, Joan Basco, a Polish D. P., entered our grade. Joan was with us but a short time before she moved to Wellsville.

We had a very busy year, indeed. At Halloween and Christmas time our grade had parties.

Our grade has taken several field trips as part of our Science work. We did some very interesting science experiments too. Mr. Farnsworth taught some of our science classes.

Miss Daley comes to our room one half hour each day. She comes in right after lunch. Sometimes Miss Daley reads to us, some times we read and sometimes we play games.

We've enjoyed the outside assemblies that we've attended. The most outstanding one, in our opinion, was the puppet show.

Some of us have read stories to the rest of the grade over the P. A. system.

We use the film strips and the opaque projector a great deal. Often our teacher lets us operate these machines.

Our grade has done some choral speaking and we hope to do more. Third grade helped to put on the Thanksgiving program.

We have received many new books throughout the year. We are allowed to take library books home.

These are some of our activities. Don't you agree that we have had a busy as well as interesting school year? So, good-bye, friends. We'll see you in fourth grade.

## SECOND GRADE

We, the Class of 1962, of Angelica Central School, were born in 1944. This year we came back to the old Wilsonian High building where Mrs. Muriel Coombs "exposed" twenty-three of us to second grade work. Edgar Schwartz joined our class because he was sick so much last year. Emily Lamb moved here in September. Margaret Prior came from Maryland, then moved to Buffalo after two months.

Tuesday mornings we all went to our churches from 8:50 to 9:30. We ate lunch at 11:05. Mr. Harold Enos came to our room for music Mondays, Wednesday, and Fridays (20 min.). Mr. Ambrose Dewey took us to the playground or gymnasium on Tuesdays and Thursdays.

The year 1951-1952 was memorable because:

The second grade room was redecorated.

An October windstorm felled a branch and smashed the merry-go-round. Winter weather came to stay November first.

School lunches cost us only 12c apiece. We read all the (12) textbooks and most of the (165) library books in our room. We filled eight fat workbooks. We studied 100 film strips.

We ourselves wrote the play, "Carol Learns to Tell Time", which we gave at Thanksgiving time. We changed from manuscript to script writing. We made booklets about Occupations, Clothing, etc.

We learned more about social studies when we visited the Angelica Advocate, Angelica Bank, the new broom factory, the Commission Sale, the Allegany County Home and Farm, the new watch repair and jewelry shop, and the gift shop. We saw a puppet circus in assembly. We watched people vote. We saw a new bridge being built and a gas pipe line laid.

We had Halloween, Thanksgiving, Christmas, Valentine, Easter and birthday parties. There were big dinners at Thanksgiving and Christmas. We enjoyed the school picnic in June.

We have had several birthday parties in our room, also parties at Halloween and Valentine's Day.

We have many new library books for our room.

Mr. Dewey has taught us to square dance and to tumble in our gym classes.

We played our rhythm band and sang songs for the Thanksgiving assembly program.

During the year we have enjoyed going over to the high school to movies and special assemblies.

## KINDERGARTEN

This year we have forty-three pupils in the Kindergarten, eighteen girls and twenty-five boys. Our class is the largest one since the kindergarten was started four years ago. Since there were so many children, Miss Doris Dodge was chosen to help Mrs. Stannard.

We have learned many songs and games such as: Humpty Dumpty, Little Jack Horner, Round the Village, and The Farmer in the Dell. All of us can count up to ten.

In art we draw and make things according to the season. For Halloween we made jack-o'-lanterns and false faces out of paper sacks and at Christmas we made Santa Claus's and candles; for Easter, of course, Easter eggs.

We use modeling clay and paint on our easels every day.

Many of us have had birthday parties at school. Shirley Mott's mother made us a cake train called "Little Toot", and at Christmas she made us a Gingerbread House. We all enjoyed both very much.

We enjoy seeing movies of our favorite stories. We have attended the plays the juniors and seniors have put on and have been to assemblies.

In the fall and spring we spent much of our time out-of-doors. We like to go out and play on the playground and to take walks. In the winter or when it rains we play in the gymnasium.

We made a farm out of our blocks and paper houses and barns. We went to the fire station, to see the fire trucks, and to the library. We also went shopping at Halloween and bought some decorations for our room.

The new cheerleaders had to have new suits and they made them. These suits were the same as the others have.

As usual the cheerleaders had a pep assembly, so they could get the students to keep with them and also to learn the cheers. The cheerleaders this year acquired much skill and grace by practicing many days and nights out of the week.

## PRESS CLUB

The Press Club of A. C. S. has three main duties: it publishes the school yearbook, the Echo, it prints the Keyhole, our mimeographed quarterly, and it is responsible for reporting the news to the weekly paper.

This year a new idea was tried by the Press Club. In order to show the future editors, assistants and members how the "Keyhole", school quarterly, is put out, the 7th, 8th and 9th grades organized a Junior Press Club under the direction of Miss Kirby and the senior members. It was their duty to put out the third issue of the school quarterly, the Keyhole.

It was hoped that this would give them the experience needed for a good Press Club Staff.
