The 1975 ECHO is dedicated to a man who has earned great respect in the seven years he has been here at Angelica.

He is a man who has given unselfishly of his time both during school and during the summer months. With a never-ending sense of humor, he has inspired in his students: an interest in learning, to his girls' soccer teams he has inspired a sense of pride in their accomplishments, and perhaps to many, his greatest accomplishment was the building of a championship basketball team.

We will never forget college bowls, wind sprints, summer basketball, or the 1973-74 Section V Class D basketball trophy.

It can never be entirely expressed in words what you have done for us.

With these thoughts and many more in mind, the Class of 1975 would like to dedicate this edition of the ECHO to you, Mr. Bruce Voorhis, in hopes that it can express our thanks for everything you have done for us.

Time Out

Success was what the soccer team of 1974 was all about. For "The First Time Ever" Angelica won both County and Section V titles in the same year. The only losses suffered by the team this year were to Fillmore who is playing in League C. The team closed out the season (14-2) which is a school record. Congratulations to the team of 1974 and a special congratulations to the All-Stars Dan Brown, Kevin Ross, Richard Reynolds, and John Lyon who broke the county scoring record with 37 goals.

The girls' soccer team finished with a very impressive record of 9-2 this year.

Undefeated in regular season action, the team went down to its first defeat in a game for the county championship with Alfred-Almond.

Rising again to victory, the team defeated Harley-Allendale-Columbia in the first round of Section V playoffs. The season ended when the girls were defeated by Marion in the quarter finals.

This was a first — being the first sectional victory for Angelica girls in any sport.

The team has much to be proud of; their impressive record, unity as a team, and Mr. Voorhis as a great coach who gave much time and knowledge to the team.

The 1973-74 Basketball season marked the climax of six years of rebuilding. Angelica once again was Section V Class D champions. Like all successes it was not reached without facing adversity. Champions, however, overcome adversity and this team did it again and again. It was a team that played consistent, and at times, even spectacular defense. Around this defensive philosophy, together with intelligent team play and a good deal of enthusiasm, the team was built. It was a team with talented individuals, but individuals willing to sacrifice temporary glory for final team success. It was a team that will not soon be forgotten by those that made it up, those that saw it play, or their coach.

As we look to the 1974-75 basketball season, it can be seen as one of challenge. There are several returnees and it will be necessary to blend these players with our newcomers to form a harmonious team. Much is expected from this team as is always the case for the defending champion. Whether these expectations are falsely high or within the teams capabilities only time will tell. Every team is different from the one that precedes it and this team must establish its own potential. The final measure of success will be determined on that basis — how close did they come to their best possible self.

Coach Chadderdon is very optimistic about this years J. V. team. He feels that, with the talented personnel that he has on the team, they should be unbeatable for the next two years. It is important however, he says, that they stay playing as a team and not become individuals. He has high praise for all the boys on the squad because of their dedication and selflessness. The 7 and 0 record compiled so far by the J.V.'s is a good indication of what Coach Chadderdon is talking about.

Free Time

January 30, 1975 was a special day at Angelica Central School. On that day, Lt. Governor Mary Anne Krupsak visited us. Her purpose for being here was the opening of the Belvidere to Almond section of the Southern Tier Expressway.

Lt. Governor Krupsak addressed the student body and distinguished guests during an afternoon assembly. She urged each one of us to consider a career in government service. She also made the point that government in general does not have a very good name at this time because of the "actions of a few individuals." "However," she added, "our institutions have prevailed and continued."

Lt. Governor Krupsak was made an honorary member of our athletic teams and presented with a Section V Championship shield. She was also presented the "White A" which is the highest honor that the Student Council can bestow on a student for service.

Lt. Governor Krupsak promised to return to the Southern Tier many times during her tenure in office.

Student Council

So far this year, Student Council has put on the annual magazine sale, which went rather poorly. We also went to the board to see if we could get more dances. We set up a rules committee, made some rules and put them into effect at the senior dance. The dance went well which pleased the board and got them considering more dances. We then tried to find something to use for a fund raising project. Someone came up with the idea of having a donkey basketball game, so we are looking into that.

The President of Student Council does not have a very high opinion of Student Council. He says, "Student Council has no power at all. It is supposed to be for the students to run and to help the students. The only thing we do is get told what we can or cannot do, when we can do it and how to do it."

This year's yearbook staff takes pleasure in presenting this edition of the "Echo" to you. It represents many hours of hard work in which we have sorted, categorized, cropped and recropped pictures, rushed to meet deadlines, and developed (and of course, discarded) many ideas, as well as lots of film.

We have tried to be as innovative as possible this year, especially with the new color additions to the book. With all the new space and color, it has been a challenge, to say the least, to come up with good arrangements, ideas, and enough pictures. These innovations have meant extra work and added expense, but we feel it's worth it. We thank you for your support, and hope that you like the new approach.
