FROM: Athletics Department / Athletic Trainers
RE: Concussion Testing/Healthy Roster Initiatives

We hope this letter finds you well and your family is looking forward to a new school year. As the athletic department is preparing for another successful year, we would like to introduce two new initiatives we are proud to offer our student-athletes and their families. We have been working together to launch these programs prior to the beginning of the 2020-2021 athletic seasons.

Baseline Concussion Testing Initiative: During the summer testing dates, your child has the opportunity to take their baseline concussion test, which is required by the Seneca Valley School District. This test is required to be taken AT LEAST every other year for all Raider student athletes. In the past, our district offered a computer-based ImPACT test for all of our student athletes. Now, we will also offer an additional test which incorporates a physical component along with a computer-based component. This new concussion baseline test is called C3 Logix.

While the C3 Logix test is an option for all Raider student-athletes, regardless of insurance carrier, we wanted to clarify the following:

- C3 Logix is a test recognized by all Highmark based insurance companies
- ImPACT is a test recognized by UPMC and all other insurance companies

What does this mean?

- At the time of your child's next concussion test, those families carrying Highmark-based insurance will be tested via C3 Logix and those under a UPMC plan or non-Highmark insurance plan will be tested via ImPACT. However, families may choose either test option.

Healthy Roster Initiative: Healthy Roster is utilized by our Athletic Trainers as a way of documenting injuries and providing direct communication with parents. This is an optional program for all SV student athlete families; you are not required to participate.

All parents will receive an invitation email to enroll in Healthy Roster. For those parents who choose to participate, please follow the directions and prompts provided for you. If you have multiple children participating in SV athletics, you will receive an invitation for each child and need to accept each invitation. As always, if your child sustains a serious injury that requires immediate additional care, we will continue to contact you via phone, as well as Healthy Roster.

If you have any questions regarding either of these initiatives, please feel free to reach out to any Athletic Trainer via email; more information on these initiatives will be available during the summer testing dates.

We are looking forward to another successful year of Raider athletics. As always, GO RAIDERS!

Sincerely ~ Raider Athletic Trainers,

Tara Bayer – bayertl@svsd.net

Marissa Johnson – johnsonma3@svsd.net
