<b>10</b>	Add Lines 8 and 9. Report this number of allowances to your employer on Delaware Form W-4.	<b>10</b>		

**H SPECIAL INSTRUCTIONS**

If the total on Line 10 is less than zero you may need additional withholding as a result of non-wage income to avoid owing tax on your income tax return. You can calculate the amount of additional withholding as follows:

- (1) Multiply number on Line 10 by \$110;
- (2) Divide the result by the number of pay periods during the year (e.g., if you are paid monthly, divide by 12); The result is the additional amount of withholding required per pay.

**EXAMPLE:** Total on Line 10 is "-2" and you are paid once a month.

- (1) Line H = 2 x \$110 = \$220.00
- (2) Number of pay periods = \$220.00/12 = \$18.33

You should notify your employer on a Delaware Form W-4 that your withholding allowance should be "0" and an additional \$18.33 per pay should be withheld for the current year.
