

Policy

GRADUATION REQUIREMENTS

In order to be graduated from grade six, the student must:

- A. Meet both state and district proficiency standards in the core curriculum content areas;
- B. Complete successfully any grade requirements of the district. The proficiencies required must include the Common Core State Standards in mathematics and language arts and literacy and the Core Curriculum Content Standards approved by the State Board of Education;

Successful completion means that the student has demonstrated the degree of proficiency required by the district to indicate achievement of the district goals for the particular course, and has attended the required number of course sessions.

Basic Skills

Students who do not pass the New Jersey Assessment of Skills and Knowledge for grade eight (NJ ASK 8) shall be provided appropriate remediation.

Students with Limited English Proficiency

Students with limited English proficiency must be provided with the program opportunities required by law, and must fulfill the regular state and district requirements for graduation.

Special Education Students

By June 30 of a disabled student's last year in the elementary program, the student's case manager, parent/guardian and teacher(s) shall meet to review the instructional guide and basic plan of the student's IEP in view of the transition to the secondary program. Input from appropriate staff from the secondary school shall be part of the review.

The basic plan of the IEP for the student exiting the elementary program will address all the elements required in the administrative code. The description of the educational program will include exemptions, if any, from regular education program options or state and local graduation requirements including HSPA, along with the rationale for the exemptions. The exemptions must be approved in writing by the superintendent.

Proficiency

In consultation with appropriate professional staff, the superintendent shall develop and present to the board for adoption indicators of achievement and standards of proficiency and attendance demonstrating successful completion of each grade. The subject matter and standards of proficiency shall be articulated with the high school.

Students, parents and guardians shall be informed of proficiency requirements, examinations, class and grade requirements, attendance policies, and any other state and local requirements.
