## Overview of Weekly Assignments:

Lab Learning Objectives

Lab Review Sheets

Computer Lab Simulations

1. Students must read each lab prior to coming to the class.
2. Learning objectives are to be used as study guides for the lab exams.
3. Lab review sheets are to be handed in on the designated due date (no excuses). Failure to hand in the assignment will result in a zero for that assignment.
4. Computer simulation labs will be given several weeks in advance. These labs are due on the assigned due date. **Do not** wait until the last minute to complete these assignments.
5. All learning objectives and labs will be your source when studying for the exams.
6. **Remember: Organization and time management during labs and at home is very crucial in getting a good grade.**
