## ✓ Section 2: Needs Assessment

Somerset County Vocational & Technical Schools District is committed to supporting novice teachers as they enter the teaching profession as well as experienced teachers new to the district. State regulations require that all public school districts develop plans that provide rigorous mentoring to the following individuals:

- Holders of Certificates of Eligibility with Advanced Standing (traditional route teachers) and Certificates of Eligibility (alternate route teachers) registered in the Provisional Teacher Program who hold provisional instructional certificates; and
- Holders of standard Teacher of the Handicapped certificates who are in their first year of teaching; and
- Experienced teachers new to the district.

Professionals new to teaching encounter a number of special problems and issues. The transition from being a student in education courses to the role of a full time teacher can be, and is often, most difficult. Immersion in learning-teaching theories, no matter how valuable, never fully prepares the beginning teacher for the challenges of meeting their first class.

Successful acclimation to the teaching profession is critical. Data from national surveys of new teachers reveal the following pattern: throughout college preparation, and during student teaching, attitudes toward teaching continue to rise. These positive attitudes peak in the first month of the first year of teaching, then tend to fall during the next four to five months of that initial year. By mid-year, a slow but gradual rise in positive attitudes toward teaching begins, but these attitudes do not reach the level at the time of entry to the profession. This phenomenon has been called "the curve of disenchantment." It is the intent of Somerset County Vocational & Technical Schools, in an environment of collegial support, to maintain the level of positive attitudes at the time of entry to the profession.

The beginning teacher has two major tasks. The first is to develop effective teaching skills. If the teacher has been well prepared with a solid theoretical base in child development, instructional methodology and learning theory, then the task becomes one of application of this knowledge to the classroom. The second task is to adapt to the social system of the school. Each school has its own "culture." This culture reflects the norms of the building, the communication and relationships between students and staff, and staff members' relationships with each other. Neither application of learning theory to the classroom nor a sense of how a school's social system functions can be learned in the college setting or from a textbook.

There are significant differences in the needs of Novice Teachers and Experienced Teachers (Melnick 39). Experienced teachers feel more confident in the areas of classroom management, parent interaction and communication, teaching methods, assessment, etc. (Melnick 54). However, Experienced Teachers report significant struggles with time management due to increasing mandated documentation requirements (Melnick 55). Therefore, we can expect the needs of Experienced Teachers New to the District to be focused more on clerical and procedural issues rather than pedagogy.

## **Current Needs of District Mentoring Program**

Through the use of our <u>New Teacher Needs Assessment</u> and the <u>Year End Evaluation</u> of Mentoring Program by novice/new Teacher, we have determined that our current program needs for Novice Teachers and Experienced Teachers New to the District are:

- Continuing New Teacher (Newbie) PLC
- Adding stronger/more formal PD component to the New Teacher (Newbie) PLC
- Planning for increased observation of experienced teachers

Through the use of our Mentoring Program Evaluation and Year-End Evaluation by Mentor Teachers, we have determined that the improvements in the following areas shall be made:

- Training for mentor teachers
- Communication of mentor plan to all stakeholders

As experience in the program is gained, additional improvements within the mentor training program can be made. Professional Development (PD) is needed for all mentors prior to beginning the mentoring process, with ongoing support throughout the mentoring year.

Formal data collection processes are needed to judge the quality of the growing mentoring program. Once this information is established, a communication tool is needed to share it with administrators, staff, and the community at large.

Coordination between members of the following committees: DEAC and SCiP is needed in order to support the mentoring program and provide/plan professional development. Regular meetings are needed for revised coordination practice to streamline the overall process.

Professional development and support on how the Danielson Evaluation Model informs the mentoring process from both the mentor and mentee perspective are also necessary.

## Section 3: Vision and Goals

"Supporting new teachers is complex and demanding work, and it involves learning skills other than those that most classroom teachers possess. It is critical, therefore, that we think not only about what a new teacher needs to be successful but also what a mentor teacher needs to know and be able to do in order to support a new teacher."

## Moir and Gless, New Teacher Center @ UCSC

#### **Statement of Purpose**

Research demonstrates that many novice teachers lack necessary support in their beginning years. Too often, young teachers leave the profession before having the opportunity to become effective and confident. One in ten teachers who left the profession say the primary reason they left was inadequate support. And one-third of the teachers who have left the profession say that if a high quality-mentoring program had been in place, they would have likely continued teaching. *(Source: NJEA Study of New Jersey Teachers Who Have Left the Profession, Sept. 2000).* 

Somerset County Vocational & Technical Schools has developed this mentor plan for novice teachers to meet the statutory requirements for Provisional Teachers, Administrative Code (6:11-4.3, 6:11-13, 6:11-13(d)). The purpose of this mentoring program is to provide new teachers the opportunity for ongoing support, collegial conversations, supervision, and evaluation by a professional support team. The support team consists of a mentor, school leaders, and district administrators.

## <u>Vision</u>

Somerset County Vocational & Technical Schools will create an environment where teachers new to the district can grow professionally and assimilate confidently through

- Professional Learning Communities
- Effective coaching,
- One-on-one support, and
- Congenial collaboration

which will result in a high quality education for all of Somerset County Vocational & Technical Schools students, notably those taught by novice educators.

#### Goals:

- To enhance teacher knowledge of strategies related to the New Jersey Student Learning Standards in order to facilitate student achievement;
- To identify exemplary teaching skills and educational practices necessary to acquire and maintain excellence in teaching;
- To assist novice teachers in the performance of their duties and adjustment to the challenges of teaching;

- To assist novice teachers in the acculturation process as they acquire experience with the local climate, practices, and educational shareholders within the greater educational community; and
- To provide novice teachers with targeted PD based on specific needs of those teachers.

## Section 4: Mentor Selection

"The heart and soul of mentoring is the outgrowth of belief in the value and worth of people and an attitude toward education that focuses upon passing the torch to the next generation of teachers."

## Head, Reidman, and Theis-Sprintall, 1992

#### **Mentor Selection Process**

The following guidelines have been developed in the selection of mentors:

- Mentor teachers will fill out a <u>Mentor Teacher Application</u> and submit it to their supervisor.
- <u>A letter of Recommendation</u> from a supervisor must accompany all mentor applications.
- Administration will make an assignment from the pool of mentors. Consideration will be given to the compatibility of individual teaching styles of the mentors and novice teachers and their content of teaching.
- The administration shall rotate the mentoring positions among those teachers who meet the criteria.
- Professional development hours will be given to mentors upon completion of mentor program evaluation. Formal mentors will receive 15 professional development hours and informal mentors will receive 30 professional development hours.
- For formal mentors, the stipend for traditional route teachers is \$550 for 30 weeks of mentoring. The mentoring stipend for alternate route teachers is \$450 for the 20-day clinical experience and \$550 for the remaining 30 weeks of mentoring.
- All applications should be submitted in June for the following school year.

#### **Mentor Selection Criteria**

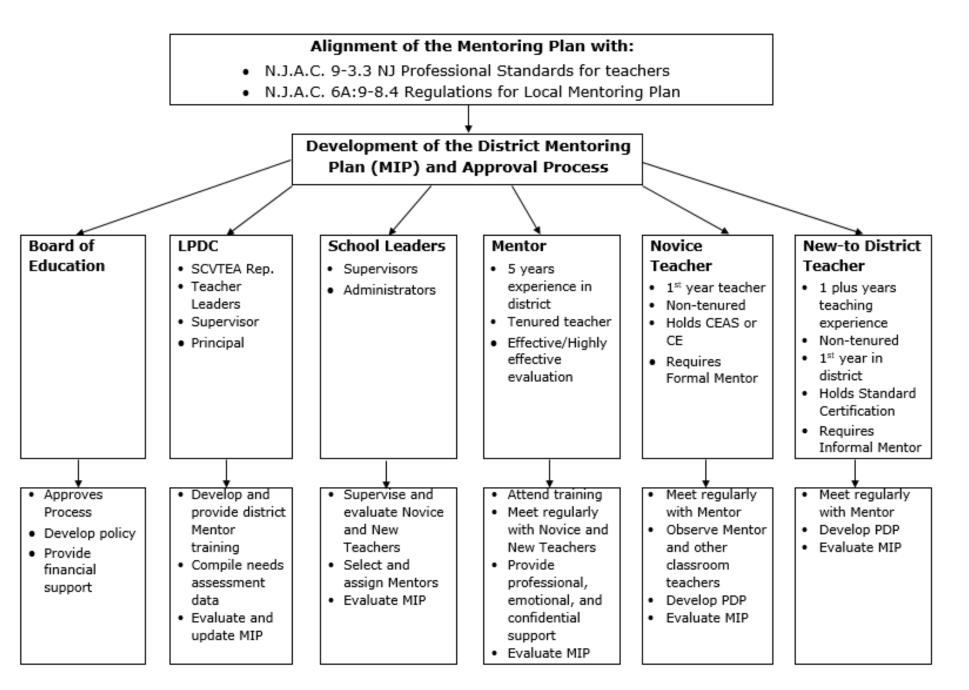

The qualities of effective mentors – as identified in mentoring programs nationwide – are organized into four general categories: Attitude and character, Professional competence and experience, Communication skills, Interpersonal skills

Together with a willingness to serve and the recommendations of colleagues, these characteristics comprise an inventory of the qualities and criteria of effective mentors.

- Each mentor should be a fully certified, tenured teacher with a minimum of five years experience at Somerset County Vocational & Technical Schools.
- The mentor must have earned a summative rating of "effective" or "highly effective" on

their most recent annual evaluation.

- The administrative team will assign a mentor teacher to each novice teacher within two week of his or her start date.
- The mentor teacher is committed to the goals of the local mentor plan including the confidential nature of the relationship.
- Wherever possible, the mentor teacher should be certified in the same areas as the novice teacher and classrooms are in close proximity.
- The mentor teacher is knowledgeable about the resources and opportunities in the Somerset County Vocational Technical High School.
- The mentor teacher is knowledgeable about the social and workplace norms of the district Board of Education and the community Somerset County Vocational Technical High School serves.
- The mentor teacher agrees to participate in a mentor-training program.
- In the event matches do not work, a new match for the novice teacher will be made as soon as possible, and there are no negative repercussions for either party from any district stakeholders.

## Explanation of How the Plan Aligns with NJ Professional Standards for Teachers:

Below is the list of mentor training components. Beside each topic the relationship that exists between the NJ professional standards, ESSA elements, and the novice teacher training components are depicted. A copy of the <u>NJ Professional Standards for Teachers</u> can be found in the Appendix.

During a new-teacher orientation, novice and experienced teachers who are new-to-the-district are required to take training that is given prior to the start of each school year. This New Teacher Induction Program is designed for the purpose of acclimating and orienting our new educators to the district's expectations for teaching and learning. It offers a guide to success in the district and in the teaching profession. It also serves as a way for the new teachers to establish professional relationships which allows them to be empowered and encourages them to contribute to their school community.

These initial training workshops include the following:

- A summary of the history and demographics of Somerset County Vocational & Technical Schools. *(Standards two, three, seven through eleven)*
- A warm welcome from the school administrators throughout the district. (Standards two, six, and eight through eleven)
- A presentation and discussion of the district's vision for education. *(Standards two and four through eleven)*

The evaluation will measure program impact on job satisfaction, the adequacy of time and training for mentoring and offers recommendations for program changes and additions. This evaluation process is ongoing based on the collection of implementation logs, observation interviews, focus groups and staff surveys conducted in various ways (i.e., online or handouts). Evaluation will be conducted by the LPDC throughout the year.

The following evaluation tools will be used to assess the needs of the induction plan:

- Impact on effective teaching
- Impact on student performance
- Adequacy of time and training
- Recommended changes and additions to the Induction Guide

The primary reason for an effective mentor/induction program is student achievement. In reaching this goal, teacher effectiveness must be improved and teacher retention rate must be improved.

In the short term, the New Teacher Orientation Workshop which takes place just before the beginning of each school year uses the following assessment tool to rate participants' reactions.

Somerset County Vocational & Technical Schools will utilize the feedback from the program evaluation to adapt, modify, and refine the ongoing support that is provided to our novice teachers so that we may develop an even stronger community of professional learners.

If we choose to continue our mentoring partnership, we may negotiate a basis for continuation, so long as we have stipulated mutually agreed-upon goals.

In the event one of us believes it is no longer productive for us to continue, or the learning situation is compromised, we may decide to seek outside intervention or conclude the relationship. Our supervisor would be notified and a new mentor would be assigned to the novice teacher. In this event, we agree to use closure as a learning opportunity.
