

Problem Solving 2-3

Read and solve each problem. Write your answer on the line.

1. Jimmy woke up every school day at 7:00 A.M. It took him fifteen minutes to dress, fifteen minutes to eat breakfast, and thirty minutes to complete his morning chores. After Jimmy did his chores, he left for school. What time did Jimmy leave for school?

2. Tara and her father went fishing on Saturday. They caught three large fish and five small fish. How many fish did they catch altogether?

3. Tom needed eleven apples to make a pie. He counted the apples he had in his fruit basket. He then went to the orchard and picked seven apples. Now Tom had enough apples to make a pie. How many apples were in his fruit basket?

4. Lucy and Larry wanted to give their teacher a bouquet of flowers. They each picked six beautiful, fragrant flowers. How many flowers were in the bouquet?

5. Doris read 15 books in four weeks. The first week she read four books. The third week she read two books. On the fourth week she read five books. How many books did Doris read during the second week?

6. The mail carrier delivered eleven packages in one week. Two packages were delivered on Monday, three packages were delivered on Wednesday, one package was delivered on Thursday and five packages were delivered on Friday. The mail carrier did not deliver any packages on Saturday or Sunday. How many packages did the mail carrier deliver on Tuesday?

7. Tina wrote a poem with three sentences. Each sentence contained five words. How many words were in the poem?

8. Martha had two gerbils. They had five babies in June and six babies in December. If Martha sold three of the babies in January, how many babies would she have left?

9. Aaron collects postcards. In January, he received three postcards each from, California, Hawaii and New York. How many postcards did Aaron receive in January?

Product Puzzle

Find the products and write the answers in the puzzle.

Across
