Submitted by: Waterbury Public School System

Issue: The need to establish statewide strategies and appropriate state funding for policies related to the recruitment, retention and support for a diverse workforce for all state public schools.

Resolution: CABA urges the Legislature to relieve the Alliance school districts from the compounding impact of the fiscal obligations of the language of CS Section 10-156gg, the Minority Candidate Certification, Retention or Residency Year Program.

Rationale: The current structure of the statutory language limits the focus of the state's efforts to Alliance Districts. Historically these Districts have been successful in Minority Teacher Recruitment (MTR). We believe the MTR is a state obligation and should not be focused solely on and funded by the Alliance Districts. The current law erodes funding to the Alliance Districts and "withholds from Alliance Districts...ten percent of any increase in funding for fiscal year

ending June 30, 2020". If fully implemented by 2028, \$135 million will be taken, placing an undue burden on the already distressed districts. In addition, the Connecticut State Department of Education (CSDE) has established rules regarding the use of the funds that is too narrow and cannot be used for high yield, research based MTR initiatives. Additionally, this funding will be difficult to expend if the current lack of MTR candidates does not improve. The candidate pool must be addressed for recruitment to be successful.
