

Data Privacy and Security Practices

Leadership Practices

Ensure school system leaders make informed decisions based on an understanding of data privacy and security.

Business Practices

Implement and enforce data privacy and security protocols in all business operations and contracts.

Data Security Practices

Build technical, physical, and administrative safeguards for securing data.

Professional Development Practices

Provide data security and privacy trainings showing a commitment to ongoing education and awareness.

Classroom Practices

Instruct and model digital literacy, data privacy and security practices at the classroom level.
