Asbestos Control

The New London Board of Education will implement and maintain procedures necessary to comply with the Asbestos Hazard Emergency Response Act of 1986 (AHERA) by adhering to the following guidelines:

1. Use specifically accredited/certified persons to conduct inspections as required on all school buildings for asbestos-containing material.
2. Take appropriate action to control the release of asbestos fibers, upon completion of inspection.
3. Describe corrective steps and long-range maintenance in a management plan, to be made available to all concerned persons and filed with the Department of Public Health
4. Post warning(s) on all areas containing asbestos, and send appropriate written notice to parents and employees, apprising them of the conditions.

Any further information concerning the school districts procedures for asbestos control can be found in the school district offices. The Director of Facilities shall be responsible for implementing this policy, and is authorized to issue regulations outlining the required procedures.
