Copyright Law Compliance

The Board of Education acknowledges the necessity of complying with federal laws governing the use of copyrighted material.

Infringement on copyrighted material, whether prose, poetry, graphic images, music, video or computer code, is a serious offense against federal law and contrary to the ethical standards required of staff and students alike.

The Board therefore requires that all reproduction of copyrighted material be conducted strictly in accordance with applicable provisions of law. Unless otherwise allowed as "fair use"*, under federal law, permission must be acquired from the copyright owner prior to reproduction of material in any form.

***"fair use"** - An exception to the exclusive rights enjoyed by copyright owners is the doctrine of fair use. The fair use of a copyrighted work for purposes of teaching, scholarship, or research is not an infringement of copyright. The following factors shall be considered in determining fair use:

1. The purpose and character of the use, including whether the use is of a commercial nature or for non-profit educational purposes.
2. The nature of the copyrighted work.
3. The amount and substantiality of the portion used in relation to the copyrighted work as a whole.
4. The effect of the use upon the potential market for or value of the copyrighted work.
