

SENECA VALLEY K-6 NEW BUILDING NAME SURVEY RESULTS

As part of the K-6 new facility planning process, Seneca Valley officials sent out a survey in March 2021 that featured suggested building names as submitted by students and teachers from Evans City Elementary and Middle School, along with submissions from district staff.

The District asked the community to rank these names based on their top three (3) choices. Approximately 2,646 votes were cast.

The point totals were calculated as three (3) points for the user's first choice, two (2) points for their second choice, one (1) point for their third choice, and zero (0) points for a non-chosen school. The results will serve as additional input to the School Board's final naming decision.
