To the Board of Education Seneca Valley School District

Independent Auditor's Report

Report on Financial Statements

I have audited the accompanying financial statements of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the Seneca Valley School District as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express opinions on these financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Seneca Valley School District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Seneca Valley School District's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinions.

Opinions

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the Seneca Valley School District as of June 30, 2014 and the respective changes in financial position and, where applicable, cash flows thereof and the budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages iv-xiii be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

My audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Seneca Valley School District's basic financial statements. The supplementary information, and the schedule of expenditures of federal awards required by Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplementary information and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the supplementary information and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, I have also issued my report dated February 10, 2015 on my consideration of the Seneca Valley School District's internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Seneca Valley School District's internal control over financial reporting and compliance.

Mark C. Turnley, CPA

INTRODUCTION

The discussion and analysis of the Seneca Valley School District's financial performance provides an overall review of the district's financial activities for the fiscal year ended June 30, 2014. This discussion and analysis presents the district's financial performance as a whole. The financial statements and the notes to the basic financial statements provide a more detailed look at the finances for the 2013-2014 school year.

The Management Discussion and Analysis (MD&A) is a requirement of the Comprehensive Annual Financial Report (CAFR) conforming to the model adopted by the Governmental Accounting Standards Board (GASB) in Statement No. 34 Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments issued June 1999. GASB 34 requires a comparison of certain information between the current year and the prior year.

FINANCIAL HIGHLIGHTS

Key financial highlights for the 2013-14 fiscal year are as follows:

- In total, net position increased by \$8,606,835. Net position of governmental activities increased by \$8,476,582, whereas net position of business-type activities increased by \$130,253.
- Total revenues were \$104,519,463 for all governmental funds, of which the general fund accounted for \$104,507,208 worth of revenues.
- The School District had \$98,593,289 in expenditures for all governmental funds, of which the general fund accounted for \$97,214,889 of those expenditures and capital project funds accounted for the balance.
- At the end of the current fiscal year, the fund balance of the General Fund was \$24,836,916 of which \$3,075,447 was classified as restricted because for an advance payment on the District's July 1, 2014 debt obligation, \$6,000,000 was committed for anticipated retirement increases, \$8,011,469 was assigned for adoption of new texts and learning resources as well as anticipated healthcare cost increases, and the balance of \$7,750,000 was unassigned.

USING THE ANNUAL FINANCIAL REPORT (GASB 34)

The Annual Financial Report consists of this Management Discussion and Analysis and a series of financial statements and notes to those statements. The statements are organized so that the reader can understand Seneca Valley School District as an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

USING THE ANNUAL FINANCIAL REPORT (GASB 34) (Continued)

Figure A-1 shows how the required parts of the Financial Section are arranged and relate to one another:

Type of inflow- outflow information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter	All revenues and expenses during year, regardless of when cash is received or paid	All revenues and expenses during year, regardless of when cash is received or paid

OVERVIEW OF FINANCIAL STATEMENTS

Government-wide Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the District's net position and how they have changed. Net position, the difference between the District's assets and liabilities, are one way to measure the District's financial health or position.

Over time, increases or decreases in the District's net position are an indication of whether its financial health is improving or deteriorating, respectively.

To assess the overall health of the District, the reader needs to consider additional non-financial factors, such as changes in the District's property tax base and the performance of the students.

The government-wide financial statements of the District are divided into two categories:

- Governmental activities All of the District's basic services are included here, such as instruction, student support, administration and community services. Property taxes, state and federal subsidies, and grants finance most of these activities.
- Business type activities –The District operates a food service operation and charges fees to students, staff and visitors to help it cover the costs of the food service operation.

Fund Financial Statements

The District's fund financial statements, which begin on Page 3, provide detailed information about the most significant funds – not the District as a whole. Some funds are required to be reported separately by state law and by bond requirements.

Governmental funds – Most of the District's activities are reported in governmental funds, which focus on the determination of financial position and change in financial position, not on income determination. They are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's operations and the services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Proprietary funds – These funds are used to account for the District activities that are similar to business operations in the private sector; or where the reporting is on determining net income, financial position, changes in financial position, and a significant portion of funding through user charges. When the District charges customers for services it provides – whether to outside customers or to other units in the District – these services are generally reported in proprietary funds. The Food Service Fund is the District's proprietary fund and is the same as the business-type activities we report in the government-wide statements, but provide more detail and additional information, such as cash flows.

OVERVIEW OF FINANCIAL STATEMENTS (Continued)

Fund Financial Statements (Continued)

Fiduciary funds - The District is the trustee, or fiduciary, for some private purpose trust funds and student activity funds. All of the District's fiduciary activities are reported in separate Statements of Fiduciary Net Position and Changes in Net Position on Pages 11 and 12. We exclude these activities from the District's other financial statements because the District cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

A comparative breakdown of assets, liabilities and net position of the District for the past two fiscal years is as follows:

Table A-1
Fiscal Year Ended June 30, 2014 and 2013

Unrestricted		6,810,046		1,345,906		8,155,952		137,535
TOTAL NET POSITION	\$	19,158,757	\$	1,515,412	\$	20,674,169	\$	12,027,993

The above financial information for the fiscal year ended June 30, 2013 has been restated to reflect the prior period adjustments related to 1) accumulated depreciation and 2) the District's required implementation of Governmental Accounting Standards Board (GASB) Statement No. 65.

The results of this year's operations as a whole are reported in the Statement of Activities on Page 2. All expenses are reported in the first column. Specific charges, grants, revenues and subsidies that directly relate to specific expense categories are represented to determine the final amount of the District's activities that are supported by other general revenues. The two largest general revenues are the Basic Education Subsidy provided by the State of Pennsylvania, and the local taxes assessed to community taxpayers.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE (Continued)

The following Table A-2 takes the information from the Statement of Activities, rearranges it slightly, so you can see our total revenues, expenses, and change to the net position for the past two fiscal years.

Table A-2

See the District Funds section of this report for explanation of the major variances from the prior year.

Table A-3 shows the District's eight largest functions - instructional programs, instructional student support, administrative, operation and maintenance of plant, pupil transportation, student activities, community services, long-term debt, as well as each program's net cost (total cost less revenues generated by the activities) for the past two fiscal years. This table also shows the net costs offset by the other unrestricted grants, subsidies and contributions to show the remaining financial needs supported by local taxes and other miscellaneous revenues.

While operating expenses decreased \$39,942 (1.5%), operating revenues decreased \$17,901 (1%) in 2013-2014.

THE DISTRICT FUNDS

At June 30, 2014, the District's governmental funds reported a combined fund balance of \$29,138,583 compared to \$23,212,409 for the year ended June 30, 2013. The general fund balance increased by \$7,292,319. The capital project fund and debt service balances decreased by \$1,366,145. The following is additional information concerning revenues, expenses and fund balance.

REVENUES

The revenues received into the general fund during 2013-2014 came from three major sources: local, state, and federal revenues. Of total revenues, local revenues account for 72.7%, state revenues are 27.1% and federal revenues only .2%.

Local revenues can be grouped in two major categories, tax revenues and non-tax revenues. Local real estate tax accounted for 81% of total tax revenues and 78% of total local revenues in 2013-2014. Other forms of tax revenue include earned income tax, flat occupation assessment tax, real estate transfer tax and delinquent tax collections. Tax revenue increased in the 2013-2014 fiscal year by approximately \$4,177,491. The increase was most notable in current real estate tax collections, which increased by 2,746,782. Non-tax revenues, including federal monies received through the intermediate unit, athletic admissions and fees, interest earnings, tuition from other PA school districts and other miscellaneous revenues accounted for 5% of total local revenues.

Basic education subsidy and special education subsidy are the two largest sources of state revenue with basic education subsidy providing 46.9% of the total and special education subsidy providing 12.0% of the total. Subsidies increased overall \$1,725,400 due to an increase in the retirement reimbursement monies of \$1,412,505, increase in social security reimbursement of \$232,913, and a decrease in the transportation subsidy of \$151,918.

Federal revenues accounted for just .2% of the total revenues, and decreased from 2012-2013 by \$312,370. This decrease was due to a reduction in ACCESS federal funding in the 2013-2014 fiscal year.

FUNCTION	REVENUES	VARIANCE FROM PRIOR YEAR	% CHANGE	OV 2	AMOUNT ER (UNDER) 2013-2014 BUDGET
Local Sources State Sources Federal Sources	\$ 75,942,633 28,339,739 224,836	\$ 4,304,474 1,725,400 (312,370)	5.7% 6.1% -138.9%	\$	3,537,617 197,374 (235,164)
TOTAL	\$104,507,208	\$ 5,717,504		\$	3,499,827

THE DISTRICT FUNDS (Continued)

EXPENSES

The revenues received during the 2013-2014 fiscal year were used to pay general fund expenses of \$97,084,888 (excluding transfers). These expenses were categorized into five major functions: instruction, support services, non-instructional operations, construction/improvements, and other financing uses. Additionally the District expended \$1,370,767 for capital improvements funded through prior year bond proceeds and its capital reserve fund.

The 2013-2014 general fund expenditures (excluding transfers) increased by \$3,368,697 or 3.61% from the past fiscal year mainly due to increases in retirement contributions and other employee benefits.

FUNCTION	 EXPENSES	/ARIANCE FROM RIOR YEAR	% CHANGE	OV	AMOUNT 'ER (UNDER) 2013-2014 BUDGET
Instructional Services	\$ 60,401,452	\$ 2,270,601	3.9%	\$	(2,471,258)
Support Services	25,760,364	1,165,503	4.7%		(833,486)
Non-instructional Services	1,608,150	(67,535)	-4.0%		(89,724)
Construction/Site Improvements	22,774	22,774	100.0%		(2,226)
Other Financing Uses/Debt Service	 9,292,149	(22,646)	-0.2%		(7,851)
TOTAL	\$ 97,084,889	\$ 3,368,697		\$	(3,404,545)

GENERAL FUND BUDGET

During the fiscal year, the Board of School Directors (The Board) authorizes revisions to the original budget (transfers) to accommodate differences from the original budget to the actual expenditures of the District. A schedule showing the District's original and final budget amounts compared with amounts actually paid and received is provided on Page 7 of the financial statements.

The District applies for federal, state, and local grants and these grants cannot always be anticipated exactly during the budget development process.

The Budgetary Reserve includes amounts that may be used for unplanned opportunities and/or unexpected costs for improvements/repairs to the District. These amounts will only be appropriated into expenditure categories if the fiscal results of the current year warrant doing so and the Board approves such transfers.

CAPITAL ASSET AND DEBT ADMINISTRATION

CAPITAL ASSETS

At June 30, 2014, the District had \$77,734,777 invested in a broad range of capital assets, including land, buildings and furniture and equipment, net of depreciation. This amount represents a net decrease (including additions, deletions and depreciation) of \$2,037,430 from 2012-2013 which is as a result of depreciation expense exceeding new asset additions.

DEBT ADMINISTRATION

As of July 1, 2013 the District had total outstanding bond principal of \$79,655,000 on its General Obligation Bond Issues. The District made payments against principal during the year of \$6,395,000. At June 30, 2014 the District had outstanding debt of \$73,260,000.

Other long-term obligations include accrued vacation pay and sick leave for specific employees of the District, as well as retirement incentive and retiree health insurance obligations. More detailed information about our long-term liabilities is included in Notes 9 and 13 to the financial statements.

MAJOR FINANCIAL ISSUES

The District has experienced significant growth over the last 10 years; however, current economic conditions have significantly slowed the rate of growth. The District continues to review the adequacy of facilities and plan for potential future needs.

Retirement contribution rates are projected by PSERS to increase rapidly from the current 16.93% to 32% by the year 2019. While recent legislation changing the PSERS program has slowed the rate of increase, significant increases are anticipated for the foreseeable future. Such increases would have a significant negative impact on District finances and therefore, educational programs. In an attempt to mitigate the short-term financial impact of the increase, the District has committed a portion of the fund balance to be applied to PSERS incrementally through 2022. District officials continue to closely monitor this issue.

The District currently has contracts in place with all bargaining units.

CONTACTING THE DISTRICT FINANCIAL MANAGEMENT

The financial report is designed to provide our citizens, taxpayers, parents, students, investors, and creditors with a general overview of the District's finances and to show the School District's accountability for the money it receives. If you have questions about this report, or wish to request additional financial information, please contact Ms. Lynn Burtner, Business Manager at (724) 452-6040 ext. 1615 or Mrs. Celeste R. Foley, Director of Accounting Services at (724) 452-6040 ext. 1622 or by mail at Seneca Valley School District, Administrative Office, 124 Seneca School Road, Harmony, PA, 16037-9134.

SENECA VALLEY SCHOOL DISTRICT RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET POSITION JUNE 30, 2014

Total Fund Balances - Governmental Funds

\$ 29,138,583

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities are not financial resources, and therefore, are not reported as assets in governmental funds. The cost of assets is \$153,226,408, and the accumulated depreciation is \$75,661,136.

77,565,271

Long term liabilities, including bonds payable, are not due and payable in the current period, and therefore, are not reported as liabilities in the governmental funds. Long-term liabilities at year end consist of:

Bonds Payable, Net	\$ 72,737,086
Unamortized Bond Discount	(143,412)
Accrued Interest on Debt	1,184,040
Accrued Compensated Absences	579,293
Accrued Retiree Health Benefits	13,188,090

SENECA VALLEY SCHOOL DISTRICT RECONCILATION OF THE GOVERNMENT FUNDS STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2014

TOTAL NET CHANGE IN FUND BALANCES - GOVERNMENTAL FUNDS

\$ 5,926,174

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation expense (\$3,552,644) exceeded capital outlays (\$1,465,010) during the fiscal year.

(2,087,634)

Repayment of bond and lease principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.

6,395,000

Interest on long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the statement of activities, however, interest expense is recognized as the interest accrues, regardless of when it is due.

(332,896)

Bond issuance costs are reported in governmental funds as expenditures. However, in the statement of activities, these costs are capitalized and amortized over the life of the bond issue as amortization expense.

466,722

In the statement of activities, certain operating expenses - compensated absences and retiree benefits - are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (paid). This it the amount by which compensated absences and retiree health benefits earned exceeded the amount paid.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Seneca Valley School District was established under the authority of an act of the state legislature that designated a school board as the governing body. The District serves the following municipalities:

Cranberry Township Evans City Borough
Forward Township Harmony Borough
Jackson Township Seven Fields Borough
Lancaster Township Zelienople Borough
Callery Borough

The School District operates under a locally-elected nine member Board form of government and provides educational services as mandated by the Commonwealth of Pennsylvania and selected federal agencies. The Board of Education has complete authority over the operations and administration of the School District's activities.

The financial statements of the Seneca Valley School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). During the 2013-2014 year, the School District adopted the provisions of Governmental Accounting Standards Board (GASB) No. 65, 'Items Previously Reports as Assets and Liabilities' and GASB No. 66, 'Technical Corrections, and Amendment of GASB Statements No. 10 and 62'. The most significant of the School Districts accounting policies are as follows:

REPORTING ENTITY

A reporting entity is comprised of the primary government, component units and other organizations that are included to ensure the financial statements are not misleading. The primary government of the Seneca Valley School District consists of all funds, departments, boards and agencies that are not legally separate from the School District. As defined by GASB Statement No. 14, component units are legally separate entities that are included in the School District's reporting entity because of the significance of their operating or financial relationships with the School District. Based on the application of these criteria, the Seneca Valley School District has no component units.

The School District is associated with two jointly governed organizations (Note 12) and one public entity risk pool (Note 14). These organizations are:

- Jointly Governed Organizations:
 Midwestern Intermediate Unit IV
 Butler County Area Vocational Technical School
 - Public Entity Risk Pool:
 Mid-Western Health Insurance Consortium

BASIS OF PRESENTATION

GOVERNMENT-WIDE FINANCIAL STATEMENTS – The statement of net position (Exhibit A) and the statement of activities (Exhibit B) display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements distinguish between those activities of the School District that are governmental and those that are considered business-type activities.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

BASIS OF PRESENTATION (Continued)

The government-wide statements are prepared using the economic resources measurement focus. That is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include reconciliations, (Exhibits D and F), with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of activities (Exhibit B) presents a comparison between direct expenses and program revenues for the District's business-type activities (food service operations) and for each function of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and are therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, and grants, subsidies and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues of the School District. The comparison of direct expenses with program revenues identifies the extent to which the business-type activity or government function is self-financing or draws from the general revenues of the School District.

FUND FINANCIAL STATEMENTS – Fund financial statements report detailed information about the School District. The focus of governmental and enterprise fund financial statements is on major funds rather than reporting funds by type. Major funds represent the School District's most important funds and are determined based on percentages of assets, liabilities, revenues, and expenditures/expenses. For the Seneca Valley School District, the General Fund is always considered a major fund. Each major fund is presented in a separate column. Non-major funds are segregated and presented in a single column. Fiduciary funds are reported by fund type.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are a balance sheet, which generally includes only current assets and current liabilities, and a statement of revenues, expenditures and changes in fund balances, which reports on the sources (revenues and other financing sources) and uses (expenditures and other financing uses) of current financial resources.

All proprietary fund types are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the statement of net position. The statement of revenues, expenses, and changes in fund net position presents increases (revenues) and decreases (expenses) in total net position. The statement of cash flows provides information about how the School District finances and meets the cash flow needs of its proprietary activities.

Fiduciary funds are reported using the economic resources measurement focus.

FUND ACCOUNTING

The School District uses funds to report on its financial position and the results of its operations during the year. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain School District functions or activities. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. Funds are classified into three categories: governmental, proprietary and fiduciary. Fund categories are defined as follows:

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

FUND ACCOUNTING (Continued)

<u>Governmental Funds</u> – Governmental funds focus on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the School District's major and non-major governmental funds:

MAJOR GOVERNMENTAL FUNDS:

GENERAL FUND - The General Fund is used to account for all financial resources not required to be accounted for in some other fund. The General Fund balance is available for any purpose provided it is expended according to the Commonwealth of Pennsylvania Public School Code.

CAPITAL PROJECT FUND - The Capital Project Fund is used to account for financial resources used for the acquisition, construction, or improvement of capital facilities and other assets financed through the issuance of general obligation bonds. This Fund includes Capital Reserve Fund monies transferred from the General Fund restricted for capital purposes as restricted by the Municipal Code Section 1431 or the Pa. Public School Code Section 690.

NON-MAJOR GOVERNMENTAL FUNDS:

DEBT SERVICE FUND - The Debt Service Fund is used to account for the proceeds of General Obligation Bonds, Series 2012D and 2013.

<u>Proprietary Funds</u> - used to account for activities similar to those found in the private sector, where the determination of net income is necessary and useful to sound financial administration. Goods or services from such activities can be provided either to outside parties (enterprise funds) or to other departments or agencies within the school district (internal service funds). The School District's major and sole enterprise fund is its Food Service Fund, which accounts for the financial transactions related to the food service operations of the District.

Fiduciary Funds – Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the School District's own programs. Agency funds are custodial in nature and do not involve measuring income or any other results from operations. The School District maintains two private purpose trust fund. One private purpose trust fund accounts for student scholarships and is funded through the Music Scholarship Fund. The second private purpose trust fund account is for compensatory education expenses for an individual special needs student established to comply with an administrative adjudication and was funded by a one-time transfer of monies from the School District's General Fund during the 2013-14 fiscal year. The School District also maintains an Agency Fund which accounts for various student organization activity accounts administered by the District on behalf of the various student organizations.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

BASIS OF ACCOUNTING AND MEASUREMENT FOCUS (Continued)

The basis of accounting determines when transactions are recorded in the financial records and reported in the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Government funds use the modified accrual basis of accounting. Proprietary and fiduciary funds use the accrual basis of accounting.

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within sixty days of fiscal year-end.

Revenue resulting from non-exchange transactions, in which the School District receives value without directly giving equal value in return, includes property taxes, grants and contributions. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenues from grants and contributions are recognized in the fiscal year in which all eligibility requirements have been satisfied. On a modified accrual basis, revenue from non-exchange transactions must also be 'available' before it can be recognized.

The management of the Seneca Valley School District has determined that the revenues most susceptible to accrual (measurable and available) at June 30, 2014 under the modified accrual basis are 1) delinquent real estate taxes collected by the District within 60 days following the close of the fiscal year, 2) certain Act 511 taxes, 3) federal and state subsidies earned in the fiscal year 2013-2014, and 4) other miscellaneous revenues earned in fiscal year 2013-2014 but received subsequent to June 30, 2014. On the governmental fund financial statements, receivables that will not be collected within the 'available' period have been reported as 'deferred revenue'.

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. The primary expenditures deemed susceptible to accrual at June 30, 2014, are those for which the Board of Education's intention was to expense these items as budgeted for the 2013-2014 official budget, and for which the District has incurred an obligation during 2014, but has not paid as of June 30, 2014.

Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds but are included as part of expenses in the government-wide statement of activities. Unused donated commodities are reported as unearned revenue.

BUDGETS

In June of 2013, the Seneca Valley School District adopted its fiscal year June 30, 2014 annual budget for the general fund totaling \$101,007,381 in accordance with the provisions of the Pennsylvania School Code. The budget is prepared utilizing the modified accrual method of accounting. Budgetary transfers among various expenditure line items can be performed by the District, as approved by the Board of Education, only during the last nine months of the fiscal year. The original and adjusted budgetary amounts are reflected in these financial statements (Exhibit G). All annual appropriations of the general fund lapse at fiscal year end.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

CASH AND CASH EQUIVALENTS

For the purposes of these basic financial statements, cash and cash equivalents include amounts in demand deposit accounts and any other highly liquid, short-term investments, with original maturity terms of less than three months.

INVESTMENTS

Investments include certificates of deposit with original maturity terms in excess of three months, deposits pooled for investment purposes with the Pennsylvania Local Government Investment Trust (PLGIT) and the Pennsylvania School District Liquid Asset Fund (PSDLAF). Investments are stated at fair value. State statutes authorize the School District to invest in:

- I. U.S. Treasury Bills.
- **II.** Short-term obligations of the United States Government of its agencies or instrumentalities
- III. Deposits in savings accounts, time deposits and share accounts of institutions insured by the Federal Deposit Insurance Corporation (FDIC), Federal Savings and Loan Insurance Corporation and National Credit Union Share Insurance Fund.
- IV. Obligations of the United States of America, the Commonwealth of Pennsylvania or any political subdivision of the Commonwealth of Pennsylvania, or any of their agencies or instrumentalities backed by the full faith and credit of the governmental units.
- V. Shares of an investment company registered under the Investment Company Act of 1940, and registered under the Securities Act of 1933.
- VI. Any investment authorized by 20 Pa. C.S. Ch. 73 relating to fiduciaries investments.

Pooled investments (PLGIT and PSDLAF) do not operate under the provisions of the Public School Code. These investments are authorized under the Intergovernmental Cooperation Act of 1972.

SHORT-TERM INTERFUND RECEIVABLES/PAYABLES

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as 'due from/to other funds' on the governmental funds balance sheet. For the purposes of the government-wide statement of net position, governmental interfund receivables and payables have been eliminated. Amounts due between governmental activities and business-type activities, if any, are presented as off-setting internal balances on the statement of net position.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

INVENTORIES

Inventories on the government-wide statement of net position (Exhibit A) and the proprietary fund statement of net position (Exhibit H) are recorded at a combination of actual cost and fair value on a first-in first-out basis. This inventory consists of purchased food and supplies and donated commodities from the U.S. Department of Agriculture as part of the food service program. The School District does not inventory the cost of such items as books and supplies, but rather records these items as expenditures in the governmental funds and an expense in the government-wide statement of activities at the time of purchase.

CAPITAL ASSETS AND DEPRECIATION

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets are reported in the governmental activities column of the government-wide statement of net position. Capital assets used by the proprietary fund are reported in both the business-type activity column of the government-wide statement of net position and on the proprietary fund statement of net position.

All capital assets are recorded at cost (or estimated historical cost). Donated fixed assets are recorded at fair value at the time of receipt. The School District maintains a capitalization threshold of \$5,000. The cost of infrastructure is included as part of site improvements in the government-wide statement of net position. Routine repair and maintenance costs that do not add to the value of the asset or extend its useful life are charged as an expense in the government-wide statement of activities.

All reported capital assets, except land and construction in progress, are depreciated using the straight-line method over the following useful lives:

CATEGORY	GOVERNMENTAL ACTIVITIES	BUSINESS TYPE ACTIVITIES
Site Improvements	20 years	N/A
Buildings and Improvements	30 Years	N/A
Furniture and Equipment	5-20 years	5-12 years
Vehicles	8 Years	N/A

The accounting and reporting treatment applied to the capital assets associated with a fund are determined by its measurement focus. Capital assets purchased by governmental funds are recorded as expenditures in the fund financial statements (Exhibit E). The results of capitalizing fixed assets net of depreciation on the government-wide statement of net position and statement of activities, as opposed to recording these same assets as an expenditure in the fund financial statements (Exhibit E), is reflected in the required reconciliations of fund balance to net position (Exhibit D) and the changes in fund balances to the changes in net position (Exhibit F).

LONG-TERM DEBT FINANCING COSTS

Bond issue costs are recorded as expenditures in the governmental fund financial statements in the year paid. The School District did not incur any bond issuance costs during the 2013-2014 fiscal year.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

COMPENSATED ABSENCES

The School District reports compensated absences in accordance with the provisions of GASB Statement No. 16, 'Accounting for Compensated Absences'. Sick leave benefits are accrued as a liability for teachers at the time of superannuation retirement, or retirement with 25 years of public school service and the age of 55 years, at the rate of \$40 per day if the District is notified prior to November 1 for mid-year or March 1 for year-end retirements. Teachers are eligible for \$15 per unused sick day severance with 7 years of District service and 75 days' notice. Secretaries with 10 years of service with the district are reimbursed for unused sick days at the rate of \$22 per day (\$27 per day at the time of superannuation or any retirement under PSERS). Paraprofessionals with 10 years of service with the district are reimbursed for unused sick days at the rate of \$13 per day (\$18 per day at the time of superannuation or any retirement under PSERS).

Custodians with at least ten consecutive years of service to the District are reimbursed at the rate of \$38 per day, provided written notice of retirement is made no later than September 1 of the last school year of service or at least 90 days prior to retirement (\$28 per day if employee does not meet notification requirements). Administrators with 8 years of service with the District are reimbursed for unused sick days at the rate of \$10 per day (\$25 per day at the time of superannuation retirement with less than 90 calendar days' notice to the District, \$35 per day if notice is received by November 15). Act 93 participants with 8 years of service with the District are reimbursed for unused sick days at the rate of \$50 per day (\$100 per day at the time of superannuation retirement if notice is received by November 15).

The entire compensated absences liability of \$579,811 is shown as a non-current liability in the government-wide statement of net position. For governmental fund financial statements, compensated absences are recorded as expenditures when paid rather than accrued when earned as the likelihood of payment in the immediate fiscal year with available expendable resources is not assured.

ACCRUED LIABILITIES AND LONG-TERM OBLIGATIONS

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements. For the business-type activities, these obligations and all similar obligations are reported again on the proprietary fund statement of net position (Exhibit H).

In general, payables and accrued liabilities that will be paid from governmental funds are reported on the governmental fund financial statements regardless of whether they will be liquidated with current resources. However, the non-current portion of compensated absences and retiree health benefits that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they will be paid with current, expendable, available financial resources. In general, liabilities that mature or come due for payment during the fiscal year are considered to have been paid with current available financial resources. Bonds and other long-term obligations that will be paid from governmental funds are not recognized as a liability in the fund financial statements when due. The District's General Fund is typically used to liquidate long-term liability obligations.

The results of recognizing these long-term obligations as liabilities on the government-wide statement of net position and statement of activities, as opposed to recording these same obligations as an expenditure in the fund financial statements (Exhibit E) only when paid, is reflected in the required reconciliations of fund balance to net position (Exhibit D) and the changes in fund balances to the changes in net position (Exhibit F).

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

UNEARNED REVENUE

Unearned Revenue arises when the District receives resources before it has legal claim to them. This occurs when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the School District has a legal claim to the resources, the unearned revenue liability is removed and revenue is recognized.

<u>DEFERRED OUTFLOWS AND INFLOWS OF RESOURCES</u>

In addition to assets and liabilities, the statement of net position and/or the balance sheet will sometimes report a separate section for deferred outflows and/or inflows of resources. These separate financial statement elements represent a decrease and/or increase in net position that applies to a future period and will not be recognized as an outflow and/or inflow of resources (expense/expenditure or income/revenue) in the current period.

NET POSITION

Net position is classified into three categories according to external donor or legal restrictions or availability of assets to satisfy District obligations. Net position is classified as follows:

- Net Investment in Capital Assets This component of net position consists of capital assets net
 of accumulated depreciation, and reduced by the outstanding balances of debt that is attributable
 to the acquisition, construction and improvement of the capital assets, plus deferred outflows of
 resources less deferred inflows of resources related to those assets.
- Restricted Net Position This component of net position consists of restricted assets reduced by liabilities and deferred inflows related to those assets.
- Unrestricted Consists of net position that does not meet the definition of 'restricted' or 'net investment in capital assets'

When an expense is incurred that can be paid using either restricted or unrestricted resources (net position), the School District's policy is to first apply the expense toward restricted resources and then toward unrestricted resources.

FUND EQUITY

In the Balance Sheet – Governmental Funds (Exhibit C) fund balances are reported in specific categories to make the nature and extent of the constraints placed on any entity's fund balance more transparent in accordance with GASB No. 54, Fund Balance Reporting and Governmental Fund Type Definitions. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

 Nonspendable fund balance – amounts that are not in a spendable form (such as inventory) or are required to be maintained intact

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

FUND EQUITY (Continued)

- Restricted fund balance amounts constrained to specific purposes by their providers (such as grantors, bondholders, and high levels of government), through constitutional provisions, or by enabling legislation. As of June 30, 2014, the District has \$3,075,447 restricted for debt service obligations, and \$152,095 of capital reserve funds restricted in accordance with the Municipal Code Section 1431 or the Pa. Public School Code Section 690.
- Committed fund balance amounts constrained to specific purposes by the School District itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the School District takes the same highest level action to remove or change the constraint. At June 30, 2014, the District committed \$6,000,000 of the General Fund balance for the purpose of mitigating the budgetary impact of increasing PSERS rates.
- Assigned fund balance amounts the School District intends to use for a specific purpose; intent
 can be expressed by the governing body or by an official or body to which the governing body
 delegates the authority. At June 30, 2014, management of the Seneca Valley School District has
 assigned \$8,011,469 of the General Fund balance for adoption of new texts and learning resources
 as well as anticipated healthcare cost increases, and \$4,149,572 of the Capital Project Fund
 balance for capital related acquisitions and improvements.
- Unassigned fund balance amounts that are available for any purpose

Act 48 of 2003 prohibits school districts from increasing real property taxes for the school year 2006-2007 or any subsequent school year, unless the school district has adopted a budget for such school year that includes an estimated ending unassigned fund balance which is not more than a specified percentage of the district's total budgeted expenditures. For the Seneca Valley School District, estimated ending unassigned fund balance must not exceed 8% of total budgeted expenditures. The District's unassigned General Fund balance at June 30, 2014 was approximately 7.7% of its 2013-2014 budgeted expenditures.

The School District establishes (and modifies or rescinds) fund balance commitments by passage of an ordinance or resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund. The Board of Education has given authority to assign fund balance to the Business Manager.

When expenditures/expenses are incurred for purposes for which unrestricted (committed, assigned, and unassigned) resources are available, and amounts in any of these unrestricted classifications could be used, it is the District's general policy to spend the committed resources first, followed by assigned amounts and then unassigned amounts.

ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires the District's management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

OPERATING REVENUES AND EXPENSES

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary fund. For the Seneca Valley School District, these revenues are food service charges for lunch and breakfast service. Operating expenses are the necessary costs incurred to provide the aforementioned food service. Non-operating revenues of the District's food service proprietary fund are 1) investment earnings and 2) state and federal subsidies, including donated commodities, received from the U.S. Department of Agriculture. The District did not have non-operating expenses during the fiscal year.

NOTE 2 - CASH DEPOSITS AND INVESTMENTS

CASH DEPOSITS:

At June 30, 2014, the Seneca Valley School District had the following carrying values on its cash and cash equivalents accounts:

		BANK	С	ARRYING
	E	BALANCE		VALUE
General Fund	\$	4,111,199	\$	4,219,623
General Fund - Restricted		3,075,447		3,075,447
Capital Project Funds		152,095		152,095
Enterprise Fund		1,412,981		1,141,553
Private Purpose Trust Funds		128,711		128,711
Agency Funds		223,339		220,440
	\$	9,103,772	\$	8,937,869

The difference between the bank balance and carrying value represents year-end reconciling items such as deposits in transit and outstanding checks. The Federal Deposit Insurance Corporation (FDIC) coverage threshold for government accounts is \$250,000 per official custodian. This coverage includes checking and savings accounts, money market deposits accounts, and certificates of deposit.

Custodial Credit Risk:

Custodial credit risk is the risk that in the event of a bank failure, the School District's deposits may not be returned to it. The District does not have a separate policy for custodial credit risk in addition to the requirements of State Law. As of June 30, 2014, \$5,778,325 of the School District's bank balance total is exposed to custodial credit risk as this amount represents uninsured deposits collateralized with securities held by the pledging financial institution or by its trust department or agent, but not in the School District's name. In accordance with Act Number 72-1971 Session of the Commonwealth of Pennsylvania, the aforementioned deposits, in excess of \$250,000, are collateralized by securities pledged to a pooled public funds account with the Federal Reserve System. General Fund cash restricted represents funds held by Wilmington Trust at June 30, 2014 to pay the District's debt service obligation at the beginning of July 2014.

NOTE 2 - CASH DEPOSITS AND INVESTMENTS (Continued)

INVESTMENTS:

The fair value and maturity term of the District's investments as of June 30, 2014 are as follows:

	Fair Value	No Stated Maturity	1-5 Years
Governmental:			
PSDLAF	\$ 27,610,355	\$ 4,140,355	\$ 23,470,000
PLGIT	38,840	38,840	-
	\$ 27,649,195	\$ 4,179,195	\$ 23,470,000

The purpose of the Pennsylvania Local Government Investment Trust (PLGIT) and the Pennsylvania School District Liquid Asset Fund (PSDLAF) is to enable their available funds for investments authorized under the Intergovernmental cooperation Act of 1972. The funds operate in a manner consistent with the SEC's Rule 2(a)7 of the Investment Company Act of 1940. The funds use amortized cost to report net position to compute share prices. These funds maintain net asset values of \$1 per share. Accordingly, the fair value of the position in these funds is the same as the value of these shares.

Custodial Credit Risk:

For an investment, custodial credit risk is the risk that in the event of the failure of the counterparty, the School District will not be able to recover the value of its investments or collateral security that are in the possession of an outside party. The District's investments in PLGIT and PSDLAF are not exposed to custodial credit risk because their existence is not evidenced by securities that exist in physical or book entry form. The School District does not have a specific policy that would limit its investment choices to those with certain credit ratings.

Interest Rate Risk:

The District has no formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. At June 30, 2014, the District's certificates of deposit investments with PSDLAF have maturity terms of 12-15 months.

Credit Risk:

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The District has no formal policy, in addition to the requirements of the Pennsylvania School Code that limits its investment choices based on credit ratings by nationally recognized rating organizations. As of June 30, 2014, PLGIT and PSDLAF were rated AAAm by the Standard & Poors nationally recognized statistical rating organization.

NOTE 3 - PROPERTY TAXES

The Seneca Valley School District levies property taxes July 1 of each fiscal year. The tax millage assessment for the 2013-2014 fiscal year was 112.75 mills, which represents \$112.75 of revenue for every \$1,000 of assessed property value. Taxpayers are entitled to a 2% discount if taxes are paid prior to October 1. Collections beginning December 1 are assessed a 10% penalty. Tax collectors are required under Act 169 of the Commonwealth of Pennsylvania to submit a reconciliation of their tax duplicate to the District by January 15th of the year following levy. Unpaid taxes are submitted to Butler County Tax Claim Bureau for collection (See Note 15).

The final tax collector reconciliations reflected \$807,354 in unpaid 2013 property taxes, which represent 1.30% of the total assessed property taxes (\$60,245,626) for the current fiscal year.

Taxes receivable are comprised of the following at June 30, 2014:

Real Estate Transfer Taxes	\$ 179,481
Wage Taxes	19,843
OPT	 3,880
	\$ 203,204

NOTE 4 – DUE FROM OTHER GOVERNMENTS

The amount of 'due from other governments', as reflected on the government-wide statement of net position and the governmental funds balance sheet, is comprised of the following:

Glade Run Tuition	\$ 1,842,630
Mid-Western IU	762,712
Tuition from other LEA's	88,567
Miscellaneous	67,125
Commonwealth of Pennsylvania:	
State Subsidies	1,607,043
Federal Pass-Through Grants	 156,907
	\$ 4,524,984

NOTE 5 - INTER-FUND RECEIVABLES/PAYABLES

Inter-fund receivables and payables as reflected on the governmental funds balance sheet (Exhibit C) are operating funds due to the General Fund from the District's Food Service Fund and monies due the Food Service Fund from the General Fund for subsidies deposited to the General Fund account. These inter-fund obligations have been eliminated in the government-wide statement of net position. At June 30, 2014 the General Fund owed the Food Service Fund a net amount of \$152,150 for subsidy payments less bills paid on behalf of Food Service Fund. The General Fund transferred \$130,000 to the Private Purpose Trust Fund for compensatory education expenses.

NOTE 6 - CAPITAL ASSETS

A summary of the governmental and business-type fixed asset activity for the 2013-2014 fiscal year was as follows:

	Balance 7/1/2013		Additions Deductions			Balance 6/30/2014
Governmental Activities						
Land	\$	5,182,287	\$ -	\$	-	\$ 5,182,287
Site Improvements		4,818,951	21,106		-	4,840,057
Buildings & Building Improvements		128,034,677	684,362		-	128,719,039

Infrastructure		1,405,961	-		-	1,405,961
Construction in Progress		-	661,812		-	661,812
	\$	151,940,649	\$ 1,465,010	\$	179,251	\$ 153,226,408
Less: Accumulated depreciation Site Improvements	\$	(2,884,767)	\$ (167,429)		-	\$ (3,052,196)
Buildings		(58,176,359)	(2,955,326)		-	(61,131,685)
Furniture and Equipment		(10,492,525)	(380,787)		(179,251)	(10,694,061)
Infrastructure		(734,093)	 (49,102)			(783,195)
	\$	(72,287,744)	\$ (3,552,644)	\$	(179,251)	\$ (75,661,137)
Governmental Activities						
Capital Assets, Net	\$	79,652,905	\$ (2,087,634)	\$	-	\$ 77,565,271

The July 1, 2013 balance for accumulated depreciation has been restated to reflect the prior period adjustment as described in Note 16.

Business-Type Activities Capital Assets, Net	\$ 119,302	\$ 50,204	\$ 	\$ 169,506
Depreciation	 (606,699)	(30,298)		 (636,997)
Business-Type Activities Furniture and Equipment Less: Accumulated	\$ 726,001	\$ 80,502	\$ -	\$ 806,503

Depreciation expense was charged to governmental functions as follows:

Instruction	\$ 372,187
Instructional Student Support	57,193
Administrative and Financial Support Services	45,508
Operation and Maintenance of Plant Services	45,696
Building Acquisition/Construction/Improvement	2,994,289
Student Activities	 37,771
	\$ 3,552,644

NOTE 7 – OTHER RECEIVABLES

The amount of 'other receivables', as reflected on the government-wide statement of net position and the governmental funds balance sheet, is comprised of the following:

AJ Myers - Fuel	\$ 115,032
School Claims - Medical/Dental/Vision	75,877
Evans City PTO	18,705
Seneca Valley Foundation - EITC/Uniforms	21,500
Band Boosters - Uniforms	10,000
Miscellaneous	 10,769
	\$ 251,883

NOTE 8 - UNEARNED REVENUE

Unearned revenue as of June 30, 2014 is comprised of the donated commodities inventory of the District's Food Service Fund totaling \$30,719.

NOTE 9 - LONG-TERM LIABILITIES

GENERAL OBLIGATION BONDS – SERIES OF 2005

In August 2005, the Seneca Valley School District issued General Obligation Bonds – Series 2005 in the amount of \$31,115,000 for the purpose of advance refunding the School District's General Obligation Bonds, Series of 2001, and payment of the costs of the issuance of the Bonds. The bonds were issued in denominations of \$5,000 with interest payable on January 1 and July 1 each year through maturity. The bond issue interest rates range between 2.60 and 5.0% with maturity scheduled for January 1, 2022. The bonds provide for early redemption options as detailed in the official statement of issue.

GENERAL OBLIGATION BONDS - SERIES A OF 2007

In November 2007, the Seneca Valley School District issued General Obligation Bonds – Series A of 2007 in the amount of \$15,325,000 for the purpose of currently refunding of the School District's General Obligation Bonds, Series AA of 1998, and payment of the costs of the issuance of the Bonds. The bonds were issued in denominations of \$5,000 with interest payable on February 15 and August 15 each year through maturity. The bond issue interest rates range between 4.0 and 5.0% with maturity scheduled for February 15, 2020. The bonds provide for early redemption options as detailed in the official statement of issue.

GENERAL OBLIGATION BONDS - SERIES OF 2008

In April 2008, the Seneca Valley School District issued General Obligation Bonds – Series 2008 in the amount of \$22,220,000 for the purpose of currently refunding of the School District's General Obligation Bonds, Series A of 1998, and payment of the costs of the issuance of the Bonds. The bonds were issued in denominations of \$5,000 with interest payable on January 1 and July 1 each year through maturity. The bond issue interest rates range between 4.0 and 5.0% with maturity scheduled for July 1, 2014. The bonds provide for early redemption options as detailed in the official statement of issue.

NOTE 9 - LONG-TERM LIABILITIES (Continued)

GENERAL OBLIGATION BONDS - SERIES A & B 2010

In July of 2010, the Seneca Valley School District issued General Obligation Bonds – Series A & B of 2010 in the amount of \$3,255,000 and \$1,290,000 respectively. The purpose of the bonds was to pay the School District's portion of the Butler County Area Vocational-Technical School project, to fund certain capital projects within the School District, and payment of the costs of the issuance of the Bonds. The bonds were issued in denominations of \$5,000 with interest payable on October 1 and April 1 each year through maturity. The bond issue interest rates range between 2.6 and 3.8% with maturity scheduled for April 1, 2023. The bonds provide for early redemption options as detailed in the official statement of issue.

GENERAL OBLIGATION BONDS - SERIES OF 2011

In November of 2011, the Seneca Valley School District issued General Obligation Bonds – Series of 2011 in the amount of \$9,895,000. The purpose of the bonds was to currently refund the School District's Series of 2007 General Obligation Bonds, and payment of the costs of the issuance of the Bonds. The bonds were issued in denominations of \$5,000 with interest payable on January 1 and July 1 each year through maturity. The bond issue interest rates range between .35 and 3% with maturity scheduled for January 1, 2023. The bonds provide for early redemption options as detailed in the official statement of issue.

GENERAL OBLIGATION BONDS - SERIES A, B, AND C OF 2012

In April of 2012, the Seneca Valley School District issued General Obligation Bonds – Series A, B, and C of 2012 in the amount of \$1,635,000, \$1,595,000, and \$1,560,000 respectively. The purpose of Series A of 2012 was to currently refund the School District's Series B of 2002 General Obligation Bonds, and payment of the costs of the issuance of the Bonds. The purpose of Series B of 2012 was to advance refund the School District's Series B of 2003 General Obligation Bonds, and payment of the costs of the issuance of the Bonds. The purpose of Series C of 2012 was to advance refund the School District's Series of 2004 General Obligation Bonds, and payment of the costs of the issuance of the Bonds. The bonds were issued in denominations of \$5,000 with interest payable on March 1 and September 1 each year through maturity. The Series A and B interest rates range between .50% and 2.4% with maturity scheduled for March 1, 2022. The Series C interest rates range between .50% and 2.0% with maturity scheduled for March 1, 2020. The bonds provide for early redemption options as detailed in the official statement of issue.

GENERAL OBLIGATION BONDS - SERIES D OF 2012

In October of 2012, the Seneca Valley School District issued General Obligation Bonds – Series D of 2012 in the amount of \$5,155,000. The purpose of the bonds was to provide the School District with the funds required for the costs of acquiring and constructing renovations, repairs, replacements and improvements to and of various components of District capital facilities, purchasing equipment for School District programs, and payment of the costs of the issuance of the Bonds. The bonds were issued in denominations of \$5,000 with interest payable on March 1 and September 1 each year through maturity. The bond issue interest rates range between 1.0 and 2.25% with maturity scheduled for March 1, 2024. The bonds provide for early redemption options as detailed in the official statement of issue.

NOTE 9 - LONG-TERM LIABILITIES (Continued)

GENERAL OBLIGATION BONDS – SERIES OF 2013

In April of 2013, the Seneca Valley School District issued General Obligation Bonds – Series of 2013 in the amount of \$8,875,000. The purpose of the bonds was to currently refund the School District's Series A of 2003 General Obligation Bonds, and payment of the costs of the issuance of the Bonds. The bonds were issued in denominations of \$5,000 with interest payable on April 1 and October 1 each year through maturity. The bond issue interest rates range between .35 and 2% with maturity scheduled for October 1, 2017. The bonds are not subject to mandatory or optional redemption prior to their stated dates of maturity.

A summary of the Seneca Valley School District's general obligation bonds outstanding at June 30, 2014 is as follows:

SERIES												
YEAR END	2005	2007A	2008	2010A	2010B	2011

	\$ 14,941,366	\$ 88,201,366

NOTE 9 - LONG-TERM LIABILITIES (Continued)

In connection with the School District's various general obligation bond issues, the District paid approximately \$264,207 in bond discount costs. These costs are being amortized on a straight-line basis over the life of the bond issue. The unamortized amount of bond discount totaling \$143,412 is reflected in the governmental activities column on the government-wide statement of net position as a reduction to the long-term portion of bonds payable. Amortization expense for the year ended June 30, 2014 was \$23,460. This amount is included as part of interest on long-term debt in the statement of activities.

The School District's general obligation bond issues – Series of 2005, 2007A, 2008, 2011, 2012, and 2013 were issued at premiums totaling \$3,931,292. The un-accreted amount of bond premiums totaling \$1,500,913 is added to the long-term portion of bonds payable on the government-wide statement of net position. Premium accretion for the year ended June 30, 2014 was \$316,571. This amount is included as part of interest on long-term debt in the statement of activities.

In connection with the District's General Obligation Bond Issues – Series A of 2003 and the Series of 2005, the District entered into irrevocable trust agreements with the Bank of New York Trust Company to purchase U.S. Government Securities in an amount sufficient to fully service the defeased Series A of 1999 and Series 2001 General Obligation Bond Issue debt as it matures or is called. For financial reporting purposes, this debt is considered defeased and therefore removed as a liability from the District's financial statements. The difference between the remaining outstanding balance of the Series A of 1999 and the Series of 2001 bonds at the time of refunding and the reacquisition price (amount deposited with escrow agent for refunding purposes) is considered 'deferred interest on refunding' and is being amortized over the life of the new bond issue. The annual amortization of this deferred interest is reflected as a component of interest on long-term debt in the statement of activities. The remaining unamortized portion of this deferred interest totaling \$2,023,826 is reflected as a deferred outflow of resources of the government-wide statement of net position.

The following represents the changes in the District's long-term liabilities during the 2013-2014 fiscal year:

	Balance 7/1/2013			Additions	Reductions			Balance 6/30/2013	Due Within One Year	
General Obligation Bonds	\$	79,655,000	\$	-	\$	6,395,000	\$	73,260,000	\$ 6,595,000	
Compensated Absences		625,429		13,976		60,112		579,293	-	
Net OPEB Liability		11,251,170		1,936,920		-		13,188,090		
	\$	90,275,127	\$	1,950,896	\$	6,455,112	\$	87,027,383	\$ 6,595,000	

NOTE 10 - OPERATING LEASES

The Seneca Valley School District has entered into two operating leases for vehicles to be used within the District. The leases mature at varying dates. The total outstanding minimum lease payments at June 30, 2014 were \$12,260.

NOTE 11 - PENSION PLAN

The Seneca Valley School District participates in the Public School Employees' Retirement System (PSERS). PSERS is a component unit of the Commonwealth of Pennsylvania. A brief description of the plan, and summary of the plan's provisions, are as follows:

PLAN DESCRIPTION

Name of Plan: Public School Employees' Retirement System (the System)

Type of Plan: Governmental cost-sharing multiple-employer defined-benefit plan

Benefits: Retirement and disability, legislatively mandated ad hoc cost-of living adjustments, healthcare insurance premium assistance to qualifying annuitants

Authority: The Public School Employees' Retirement Code (Act No. 96 of October 2. 1975, as amended) (24 Pa. C.S. 8101-8535)

Annual Financial Report: The System issues a *Comprehensive Annual Financial Report (CAFR)* that includes financial statements and required supplementary information for the plan. A copy of the report may be obtained by writing to Beth Girman, Office of Financial Management, Public School Employees' Retirement System, 5 N 5th Street, Harrisburg PA 17101-1905 or by emailing Beth Girman at bgirman@pa.gov. The CAFR is also available on the Publications page of the PSERS website, www.psers.state.pa.us.

FUNDING POLICY

Authority: The contribution policy is established in the Public School Employees' Retirement Code and requires contributions by active members, employers, and the Commonwealth.

Contribution Rates:

Member Contributions - Active members who joined the System prior to July 22, 1983, contribute at 5.25% (Membership Class TC) or at 6.5% (Membership Class TD) of the member's qualifying compensation. Members who joined the System on or after July 22, 1983 and who were active or inactive as of July 1, 2001, contribute 6.25% (Membership Class TC) or at 7.5% (Membership Class TD) of the members qualifying compensation. Members who joined the System after June 30, 2001 and before June 1, 2011, contribute at 7.5% (automatic Membership Class TD). For all new hires and for members who elected Class T-D membership, the higher contribution rates began with service rendered on or after January 1, 2002. Members who joined the System after June 30, 2011 automatically contribute at the Membership Class T-E rate of 7.5% (base rate) of the member's qualifying compensation. All new hires after June 30, 2011, who elect Class T-F membership, contribute at 10.30% (base rate) of the member's qualifying compensation. Membership Class T-E and Class T-F are affected by a 'shared risk' provision in Act 120 of 2010 that in future years could cause the Membership Class T-E contribution rate to fluctuate between 7.50% and 9.50% and Membership Class T-F contribution rate to fluctuate between 10.3% and 12.30%.

NOTE 11 - PENSION PLAN (Continued)

FUNDING POLICY (Continued)

Employer Contributions - Contributions required of employers are based upon an actuarial valuation. For fiscal year ended June 30, 2014, the rate of employer's contribution was 16.93% of covered payroll. The 16.93% is comprised of a pension contribution rate of 16.00% for pension benefits and .93% for healthcare insurance premium assistance.

Seneca Valley School District pension expense and employee contributions to PSERS, as well as, total covered (pension eligible) payroll for the three most recent fiscal years is as follows:

	[DISTRICT	E	MPLOYEE	(COVERED				
YEAR	E	EXPENSE	CON	TRIBUTIONS		PAYROLL				
2013-2014	\$	7,757,190	\$	3,423,759	\$	45,819,197				
2012-2013		5,681,492		3,355,155		45,023,440				
2011-2012		3,677,246		3,260,486		43,917,821				

NOTE 12 – JOINTLY GOVERNED ORGANIZATIONS

MIDWESTERN INTERMEDIATE UNIT IV

The Seneca Valley School District participates with 26 other School Districts located in the Counties of Butler, Lawrence and Mercer in the Midwestern Intermediate Unit IV (IU IV). The IU IV was established in 1971 by Act 102 of the Commonwealth of Pennsylvania to function as a regional educational service agency for 27 school districts, as well as nonpublic schools and other institutions, located within the aforementioned counties. The IU IV provides services relative to curriculum development, continuing education, educational planning, instructional materials, pupil personnel, state and federal agency liaison and managerial oversight. The Midwestern Intermediate Unit IV is governed by a thirteen (13) member board appointed by the 27 participating school districts on a rotating basis. The School District contributed \$135,498 to IU IV through state subsidy withholdings for the year-ended June 30, 2014. Midwestern Intermediate Unit IV issues separate financial statements annually which can be obtained by contacting the IU IV directly.

BUTLER COUNTY AREA VOCATIONAL TECHNICAL SCHOOL

The Seneca Valley School District, in conjunction with six other Western Pennsylvania School Districts, fund the operating and capital budget of the Butler County Area Vocational Technical School. The technical school is designed to teach students trade related professions. Each district's share of the operating budget is based on its' average daily membership. Each district's share of the capital budget is based on the ratio of the district's market valuation to the total market valuation of all participating districts. The Butler County Area Vocational Technical School issues separate financial statements annually which can be obtained by contacting the Vo-Tech directly.

NOTE 13 - POSTEMPLOYMENT BENEFITS OTHER THAN PENSION

PLAN DESCRIPTION

The Seneca Valley School District provides post-retirement healthcare benefits, for eligible employees, and their spouse, who elect early retirement.

The single-employer retiree benefit plan ('the Plan') was established by the authority of the collective bargaining agreements between the Seneca Valley School District Board of Education and the various unions. The program entitles eligible employees to health care benefits during the period between retirement and either attaining age 65 or becoming eligible for Medicare benefits.

Any increase in the premium costs for the aforementioned insurance that occurs after retirement, shall be borne by the retired employee. The plan is unfunded and does not issue a publicly available financial report. These benefits are accounted for in accordance with GASB Statement No. 45, Accounting and Financial Reporting by Employers for Post-employment Benefits Other Than Pensions.

FUNDING POLICY

The contribution requirements of plan members and the School District are negotiated between the District and the union representatives and may be amended by the Seneca Valley Board of Education. The plan is funded on a pay-as-you-go basis, i.e. premiums are paid to fund the health care benefits provided to current retirees. There are no assets that have been segregated and restricted to provide for retiree medical benefits. During the 2013-2014 fiscal year, the Seneca Valley School District contributed \$1,455,913 for 104 participants. Total retiree contributions made by plan members were \$26,802 for the year ending June 30, 2014.

ANNUAL OPEB COST AND NET OPEB OBLIGATION

The District's annual other post-employment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years.

The following show the components of the Seneca Valley School District's annual OPEB cost for the year, the amount actually contributed to the plan and changes in the Seneca Valley School District's net OPEB obligation:

Annual required contribution	\$ 3,837,882
Interest on net OPEB obligation	506,303
Adjustment to annual required contribution	(690,726)
Annual OPEB cost (expense)	3,653,459
Contributions made (estimate)	(1,716,539)
Increase in net OPEB obligation	 1,936,920
Net OPEB obligation at July 1, 2013	11,251,170
Net OPEB obligation at June 30, 2014	\$ 13,188,090

NOTE 13 - POSTEMPLOYMENT BENEFITS OTHER THAN PENSION (Continued)

FUNDED STATUS AND FUNDING PROGRESS

The District's annual OPEB cost, the percentage of the annual OPEB cost contributed to the plan, and the net OPEB obligation is as follows:

FISCAL YEAR ENDED	AN	NNUAL OPEB	PERCENTAGE CONTRIBUTED	NET OPEB OBLIGATION		
2014	\$	3,653,459	28%	\$ 13,188,090		
2013		3,686,925	33%	11,251,170		
2012		3,195,109	35%	9,209,471		

As of March 1, 2012, the most recent actuarial valuation date, the District unfunded actuarial accrued liability (UAAL) was \$34,060,922. The annual payroll for active employees covered by the plan in the actuarial valuation was \$38,803,256 for a ratio of UAAL to covered payroll of 87.8%.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the health care cost trend. Actuarial amounts determined regarding the funded status of the plan and the annual required contributions of the school district are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, as shown below, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

	(A)		(B)		(B-A) (UAAL)	(A/B)		(C)	(B-A)/C		
					UNFUNDÉD				UAAL AS A		
ACTUARIAL	ACTUARIA	L	ACTUARIAL		ACTUARIAL				% OF		
VALUATION	ION VALUE OF		ACCRUED		ACCRUED	FUNDED	COVERED		COVERED		
DATE	ASSETS		LIABILITY		LIABILITY	RATIO		PAYROLL	PAYROLL		
3/1/12	\$	- ;	34,060,922	\$	34,060,922	0%	\$	38,803,256	87.8%		
3/1/10		-	26,675,396		26,675,396	0%		39,424,446	67.7%		
3/1/08		-	26.594.066		26.594.066	0%		36.352.857	73.2%		

ACTUARIAL METHODS AND ASSUMPTIONS

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used to include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The March 1, 2012 actuarial valuation report utilized the Unit Credit Actuarial Cost Method. The actuarial assumptions included a 4.5% investment rate of return (net of administrative expenses), which is a blended rate of the expected long-term investment returns on plan assets and on the employer's own investments calculated based on the funded level of the plan at the valuation date. The UAAL, if any, is being amortized as a level dollar amount over 30 years. The remaining amortization period at June 30, 2014 was 30 years.

NOTE 14 - RISK MANAGEMENT

GENERAL INSURANCE CLAIMS

The Seneca Valley School District is exposed to various risks of loss related to tort; theft of, damage to, and destruction of assets, errors and omissions; injuries to employees; and natural disasters. These risks are covered by commercial insurance purchased from independent third parties. Settled claims for these risks have not exceeded commercial insurance coverage for the past three years.

HEALTH INSURANCE

The Seneca Valley School District is a member of the Midwestern Health Combine. The Consortium is a public entity risk pool designed to administer health and medical insurance risks on a pooled risk basis. The Consortium elected to finance these health care benefits using a self-insured approach known as an Administrative Service Contract (ASC) arrangement. Under this arrangement, the consortium contracts for an insurer (Highmark Blue Cross/Blue Shield) to settle the payment for benefits at their provider discounted contract amounts plus a fee for administration rather than paying for benefits at non-discounted claims rates. The Reschini Group performs billing and collection services for the Consortium's deposit (medical) and premium (supplemental) amounts. Billing administration is provided through Crown benefits Administration who also monitors and submits to Highmark all enrollment and eligibility changes for all coverages. Contributions from participating schools are determined annually in advance by the Consortium's operating committee. These contributions are based on amounts required to fund anticipated benefits and claims, as well as operational costs. The monthly payments of each member are determined by the terms of the medical benefit chosen by such members.

Participating school districts are permitted to withdraw from the Consortium, and are entitled to a vested interest in the Consortium fund balance after settlement of all claims related to that district over a period of 12 months from the date of withdrawal. As of June 30, 2014, the Consortium net position available for benefits reflected a deficit balance of \$385,251. During the 2013-2014 fiscal year, the Seneca Valley School District contributed \$10,192,611 to the Midwestern Health Combine.

NOTE 15 - CONTINGENCIES

STATE AND FEDERAL SUBSIDIES

The Seneca Valley School District state and federally funded programs are subject to audit by various governmental agencies. The District is potentially liable for any expenditure disallowed by the results of these audits. Management is not aware of any items of noncompliance which would result in the disallowance of program expenditures.

SALE OF TAX CLAIMS

On July 1, 2011, the Seneca Valley School District sold its outstanding delinquent real estate tax liens through June 30, 2011 to the Northwest Pennsylvania Incubator Association (NPIA). The District has continued to sell its outstanding delinquent real estate tax liens through June 30, 2014. NPIA borrowed the necessary funds from Firstrust Savings Bank. Section 3.02 of the agreement of sale between the District and NPIA provides for a mandatory repurchase clause by the District in the event of default by NPIA on its loan obligation to Firstrust Savings Bank. In the event of default, the District would be responsible for the outstanding balance due Firstrust Savings Bank by NPIA.

NOTE 16 - PRIOR PERIOD ADJUSTMENT

The prior period adjustment of \$332,247 to the July 1, 2013 net position of the Seneca Valley School District's governmental activities represents 1) the effect of implementing GASB Statement No. 65 which required the write-off of the remaining balance of unamortized bond issue costs against the net position of the School District totaling \$1,451,329, and 2) adjustments to the balance of accumulated depreciation on the District's capital assets totaling \$1,783,576. The prior period adjustment of \$39,341 to the July 1, 2013 net position of the Seneca Valley School District's business-type activities represents 1) implementing the requirements for handling balances due on student accounts per direction from the Department of Education totaling \$36,163, and 2) recognizing the effects of recording accumulated compensated absences as a liability on the Districts Food Service Fund totaling \$3,178.

NOTE 17 – PENDING GASB PRONOUNCEMENTS

In June 2012, GASB issued Statement No.68, 'Accounting and Financial Reporting for Pensions', which amends GASB Statement No.27. The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities.

In November of 2013, GASB issued Statement No. 71, 'Pension Transition for Contribution Made Subsequent to Measurement Date – an Amendment to GASB 68'. The primary objective of this Statement is to address an issue regarding application of the transition provisions of GASB 68.

The provisions of these Statements are effective for the Seneca Valley School District's June 30, 2015 financial statements. The effects of implementing GASB Statements No.68 and 71 on Seneca Valley School District's financial statements have not yet been determined.

NOTE 18 – SUBSEQUENT EVENTS

Management has determined that, other than the above, there are no events subsequent to June 30, 2014 through the date of the financial statements that would require additional disclosure.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Education Seneca Valley School District

I have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standard* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Seneca Valley School District as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise Seneca Valley School District's basic financial statements, and have issued my report thereon dated February 10, 2015.

Internal Control over Financial Reporting

In planning and performing my audit of the financial statements, I considered the Seneca Valley School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing my opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Seneca Valley School District's internal control. Accordingly, I do not express an opinion on the effectiveness of the Seneca Valley School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Seneca Valley School District's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

My consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during my audit I did not identify any deficiencies in internal control that I consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

To the Board of Education Seneca Valley School District

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Seneca Valley School District's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit, and accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

This purpose of this report is solely to describe the scope of my testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Seneca Valley School District's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Seneca Valley School District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

To the Board of Education Seneca Valley School District

Report on Compliance for Each Major Federal Program

I have audited Seneca Valley School District's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of Seneca Valley School District's major federal programs for the year ended June 30, 2014. Seneca Valley School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirement of laws, regulations, contracts and grants applicable to its federal programs.

Auditor's Responsibility

My responsibility is to express an opinion on compliance for each of Seneca Valley School District's major federal programs based on my audit of the types of compliance requirements referred to above. I conducted my audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that I plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Seneca Valley School District's compliance with those requirements and performing such other procedures as I considered necessary in the circumstances.

I believe that my audit provides a reasonable basis for my opinion on compliance for each major federal program. However, my audit does not provide a legal determination on Seneca Valley School District's compliance.

Opinion on Each Major Federal Program

In my opinion, Seneca Valley School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2014.

To the Board of Education Seneca Valley School District

Report on Internal Control over Compliance

Management of Seneca Valley School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing my audit of compliance, I considered Seneca Valley School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing my opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, I do not express an opinion on the effectiveness of Seneca Valley School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

My consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. I did not identify any deficiencies in internal control over compliance that I consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of my testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

SENECA VALLEY SCHOOL DISTRICT NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS JUNE 30, 2014

NOTE 1 - FEDERAL AWARD PROGRAMS

The accompanying schedule of expenditures of federal awards presents the activity of all federal award programs of the Seneca Valley School District.

NOTE 2 - BASIS OF ACCOUNTING

The accompanying schedule of expenditures of federal awards is presented using the accrual method of accounting. Under this method, grant revenue is recognized to the extent expenditures are incurred. Expenditures are recognized when the liability for the expenditure is incurred rather than when the disbursement is actually made.

NOTE 3 - RELATIONSHIP TO FINANCIAL STATEMENTS

Federal financial award revenues are included in the financial statements as 'federal source' revenues.

NOTE 4 – FEDERAL GRANTS RECEIVABLE

Federal grants receivable are included as part of 'due from other governments' in Exhibit A and Exhibit C, and are disclosed in Note 4 to the basic financial statements.

NOTE 5 - NON-CASH ASSISTANCE

The Seneca Valley School District received donated commodities from the Department of Agriculture in connection with its food service program. The amount of non-cash assistance expended in the accompanying schedule of expenditures of federal awards reflects the fair market value of the commodities used during the 2013-2014 fiscal year.

SENECA VALLEY SCHOOL DISTRICT SCHEDULE OF FINDINGS AND QUESTIONED COSTS FOR THE YEAR ENDED JUNE 30, 2014

A. SUMMARY OF AUDIT RESULTS

- **1.** The audit report expresses an unmodified opinion on the financial statements of the Seneca Valley School District.
- 2. No significant deficiencies relating to internal controls over financial reporting were disclosed in the 'Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards'.
- **3.** No instances of noncompliance material to the financial statements of the Seneca Valley School District were disclosed during the audit.
- **4.** No significant deficiencies relating to the audit of the major federal award programs are reported in the 'Independent Auditor's Report on Compliance for each Major Program and on Internal Control over Compliance required by OMB Circular A-133'.
- **5.** The auditor's report on compliance for the major federal award programs for the Seneca Valley School District expresses an unmodified opinion.
- **6.** The programs tested as major programs include:

U.S. Department of Agriculture:

- National School Lunch Program CFDA# 10.555
- National School Breakfast Program CFDA# 10.553
- 7. The Threshold for distinguishing Types A and B programs was \$300,000.
- 8. Seneca Valley School District does qualify as a low-risk auditee.

B. FINDINGS - FINANCIAL STATEMENT AUDIT

None

C. FINDINGS AND QUESTIONED COSTS - MAJOR FEDERAL AWARD PROGRAM AUDIT

None

SENECA VALLEY SCHOOL DISTRICT STATUS OF PRIOR YEAR AUDIT FINDINGS FOR THE YEAR ENDED JUNE 30, 2014
