 Subject: DWFMP and PFMS Project Update  
 Date: July 10, 2024

The administration would like to provide an update on the DWFMP and PFMS Project. The design team including CRA Architects continue to work this summer on these projects. This update is intended to announce upcoming steps for the community and the board related to these projects.

September 9 Update to the Board  
 September 16 Steering Committee  
 September 23 Community Forum prior to Board meeting  
 October 7 Board approval of PFMS project from design concept to schematic design process

Aside from the PFMS project, the DWFMP also includes a review of all school buildings, athletic and recreational/playground facilities as well as sustainability in our buildings and operations. The school building facility assessment will be reviewed with the board in September as will a financial analysis of that assessment. An update on the remainder of this work will occur in October and November as we are prioritizing the PFMS design and MNE preparations for bidding.
