

2020-2021 State Assessments Review for 2022-2023 Budget Considerations

District: 445 Coffeyville

Based upon your schools Needs Assessment and State Assessment results, please identify the following:

- (A) The barriers that must be overcome for each student to achieve grade level proficiency on assessments
- (B) The budget actions that should be taken to address and remove those barriers
- (C) The amount of time the board estimates it will take for each student to achieve grade level proficiency on the state assessments if the budget actions would be implemented.

Date

School	Grades Served	(A) Barriers Related to Student Needs	(B) Budget Actions	(C) Time for students to Achieve	Board Rationale/Comments
Early Learning Center	0-5 Years of age	<ul style="list-style-type: none"> ● Though not necessarily identified as at-risk using the free and reduced lunch calculation, a number of students are at a high risk of falling behind ● Lack of instructional time or changes in instructional opportunities faced during the COVID pandemic created learning loss ● An increasing level of social emotional challenges and needs of students ● Diminishing local control limits our ability to provides supports and services specific to our student and community population ● Current and unique challenges from the various partners in a collaborative efforts. Different partners have different rules and procedures that sometime conflict with other partners. ● Students drop in/out of the center based on a great many issues. Since PK is not required by law, parents remove students for certain reasons, only later to often bring them back to the center later in the year, offer developmentally and behaviorally challenged. 	<ul style="list-style-type: none"> ● Increased funding and time for staff development ● Additional substitute teachers for teacher release time ● Maintain low teacher/pupil ratio for greater individualized instruction ● Additional ESOL teaching staff for bilingual students ● Allocating budget to focus on prevention, identification, and intervention concerning trauma and mental health issues ● Relying on various funding streams is often difficult and utilizing existing funds from within the regular school budget does not always match up with the need of the students. 	<p>We measure growth each year and document in our KESA plans our success on a variety of student success factors. We emphasize growth and strive to lead the world in the success of each student. Although we do this and are proud of the work we do, many factors make it impossible to estimate a time that every student will achieve a definition of grade level proficiency. Such factors include:</p> <ul style="list-style-type: none"> ● The current and future levels of school funding have a significant impact on student learning and any increases or decreases have an affect on student success. Any changes to those funding levels, in either direction, impact the ability of students to meet proficiency criteria. ● Lack of constitutional funding of special education continues to impact our ability to fully meet the needs of all students ● The ELC uses multiple assessments throughout the year to monitor development of each child within the center. ● Many of the factors that affect student success, such as trauma, poverty, mental health and student disabilities, are out of the local board's control, so giving a time estimate on things that consistently change, or are under the control of other agencies, is not a realistic practice of a local school board. 	<ul style="list-style-type: none"> ● Increased support for early childhood would ensure more students received these services. ● Unstable funding hampers our mission. ● There is a need for increased special education funding.

Community Elementary School	K-6th	<p>There are always a number of challenges that should be considered when evaluating student success in a district. Some of the key barriers that impact our School District include, but are not limited to:</p> <ul style="list-style-type: none"> ● Difficulty in scheduling and finding more time to provide teacher/staff collaboration that would support improved student learning ● Though not necessarily identified as at-risk using the free and reduced lunch calculation, a number of students are at a high risk of falling behind ● Lack of instructional time or changes in instructional opportunities faced during the COVID pandemic created learning loss ● High levels or an increase in absenteeism among our student population ● An increasing level of social emotional challenges and needs of students ● Diminishing local control limits our ability to provides supports and services specific to our student and community population ● We do not receive disaggregated and approved state assessment scores until October of a school year, which limits the amount of time we have to make adjustments based on that data ● We believe using one assessment score is not an accurate measure of student success, especially because assessments are written in a way to avoid 100% success for every assessment participant. 	<p>Our students face a growing number of barriers to success and our district continually works to support them. Current budget constraints that impact our ability to successfully remove barriers for our students include:</p> <ul style="list-style-type: none"> ● Increased funding and time for staff development ● Additional substitute teachers for teacher release time ● Increase paraeducator support in special education classrooms ● Increased funding to expand extended school year and summer school programs for students ● Maintain low teacher/pupil ratio for greater individualized instruction ● Additional ESOL teaching staff for bilingual students ● Allocating budget to focus on prevention, identification, and intervention concerning trauma and mental health issues 	<p>We measure growth each year and document in our KESA plans our success on a variety of student success factors.
