## **CCHS Distinguished Alumnus Stephen Bardo**

By Ginger Golz, Multimedia Student

---

Stephen Bardo always strived to be the best at anything he did. This included school and especially sports. Bardo's passion for success all started with his educational career at Carbondale Community High School (CCHS).

Bardo was born on April 5, 1968 in Henderson, Kentucky. After moving to

Carbondale he attended CCHS, where he always endeavored to do the best he could. Bardo worked hard academically and was a part of the Cross Country, Track, and Basketball team throughout his high school career. Bardo was also Class Treasurer and a part of Students of Success (SOS), a club that promoted positive social and academic behavior. His hard work paid off when he led his basketball team to the State Tournament and received several awards, being named All-State and honorable mention All-American basketball player. His dedication resulted in Bardo receiving a scholarship to the University of Illinois (U of I).

Playing for the Fighting Illini, Bardo started all four years at point guard and con-

tributed to the team making it to the NCAA tournament each season. He continued his hard work and was rewarded by earning Big Ten Defensive Player of the year and making all conference twice during his collegiate career. Bardo was a part of one of the most memorable teams in the NCAA, referred to as the "The Flyin' Illini," making the Final Four in 1989. In his time at U of I, Bardo scored 909 points and had 495 assists.

After a very successful college career at U of I, Bardo graduated and was drafted 41<sup>st</sup> by the Atlanta Hawks in the 2<sup>nd</sup> Round in 1990. During the preseason, Bardo was cut from the team. Expecting to make it straight to the NBA, he was stunned when he found out that wasn't continued on page 6

## Haven't You Heard...

# New CCHS Principal Steve Murphy

By Emily Uffelman, Multimedia Student

---

New CCHS Principal,  
Steve Murphy

There is new administration in the halls of Carbondale Community High School (CCHS). Steve Murphy is now the principal of CCHS, taking over for newly retired principal, Vicky King.

However, Murphy hasn't always been in education. Upon graduation from the University of Illinois with a Bachelor of Science in Chemical Engineering. He then worked for Archer Daniels Midland from 1994 to

2002.

In 2002, Murphy began his teaching career at CCHS. Shortly thereafter, past principal Dr. John Dively suggested to Murphy that he would make a great administrator. A year later Murphy started taking classes towards that end. Murphy taught science and was an assistant football coach for 5 years before becoming assistant principal in the 2007-2008 school year.

When asked about being in the classroom, Murphy stated, "I enjoyed being a teacher but I think being a principal allows you to interact with a lot more students and a lot different kinds of students." Being principal is a much different job than being a teacher. As principal, Murphy has the opportunity to lead the entire school, not just the students in his classroom.

So far the switch to principal has gone really well. Murphy said, "So far it's been great, I really love being principal. We have a great faculty, awesome students and CCHS is a great place to be."

As far as changes go, Murphy doesn't anticipate many changes at CCHS. "The biggest change I hope students see is that I want Carbondale Community High School to be a positive place for them to come." Another change Murphy wants to make is to get the faculty to use more technology and less paper.

CCHS students, faculty, staff and the community are fortunate to have Murphy as the new principal. There will be challenges ahead, as well as the fact that Murphy has big shoes to fill from former principal Vicky King. Don't worry though, Murphy wears a size 12 shoe.

---

## Vicky King, CCHS Principal & Long Time Employee Retires

By Rory Palmer, Multimedia Student

Retiring Principal,  
Vicky King

One of CCHS' long time faculty and friends has left the building. Ms. Vicky King retired in August, ending 30 years of employment at CCHS.

King has a lot of experience when it comes to public education. She graduated from SIU with a Bachelor of Science degree in Physical Education, a Masters' in Sports Administration, and a Secondary Educa-

tion Certification in Administration. King then took a job at Murphysboro High school as a basketball coach and physical education teacher. Afterwards, she returned to SIU to become an assistant women's basketball coach and graduate teaching assistant.

King came to CCHS in the fall of 1979, going from a part-time in-school suspension teacher, to a full-time PE/driver's education teacher. In 1980 King became head softball coach, a position she remained in until becoming Athletic Director.

In 1994, King replaced Tim Bleyer as CCHS's Athletic Director, resigning her teaching and coaching positions to keep up with the challenge of being

head of CCHS' athletic department. In 2004, King was appointed principal replacing Dr. John Dively. The principalship provided her with the opportunity to show her true skill and dedication to CCHS. Under King, CCHS flourished. Besides all the athletic awards won, CCHS made adequate yearly progress for the No Child Left Behind Act and won the IHSA State Scholar Bowl Championship among other state and local awards across the many curricular departments at CCHS.

With all of her experience and devotion to CCHS through the years, King has put her mark on all CCHS Terriers!

## CCHS Foundation Establishes Halls of Achievement and Service

The Carbondale Community High School District 165 Education Foundation recognizes graduates who have accomplished distinguished records in their chosen fields of endeavor, over a substantial period of time, by naming them to a Hall of Achievement. The Foundation's Board of Directors spent hours planning and refining the program, and forming a committee to evaluate those persons who are nominated by teachers, family, or friends for inclusion.

While revisiting the Hall of Achievement process, the Board came

to the realization that it was equally desirable to establish a Hall of Service, to give recognition to graduates and other persons who have made outstanding contributions to CCCHS. The executive committee of the Board is responsible for identifying those who have been of great service to the school.

The actual Halls are currently being established in the principle building of the school's campus. The construction of the CCCHS Hall of Achievement and the CCCHS Hall of Service is the result of generous con-

tributions made by members of the CCCHS Education Foundation Board of Directors, led by long-time board member Wesley Gibson ('75).

Those desiring to put forward the names of individuals for these recognitions can submit nominations to the superintendent's Administrative Office. Forms for this purpose can be obtained from the Office at 330 S. Giant City Road in Carbondale (618) 457-4722. Forms can also be obtained by going to <http://cchsterriers.com/> and clicking on Hall of Achievement.

On the left, our 2008-2009 IHSA State Scholar Bowl Champions celebrate their victory and proudly display their trophy.

On the right, the 2009-2010 CCCHS Faculty and Staff display their Terrier pride.

### 2009 Education Foundation Grant Awards

Dr. David Kenney, Chairman of the Grant Review Committee of the Carbondale Community High School District 165 Education Foundation, announced today that the CCCHS Education Foundation awarded 39 grants, totaling \$8,232.00, to faculty and staff of CCCHS for projects and activities for the 2008-2009 school year.

The Foundation grant program was initiated in 1999 to assist and enhance the educational programs of CCCHS. Since its inception, the CCCHS Foundation has awarded 261 grants to faculty and staff, totaling over \$96,000.00.

A complete listing of the 2009 grant awards can be found at <http://cchsterriers.com/>. Click on the Education Foundation Web Site, and then click on Foundation Grants.

### Students Involved with the Creation of the Newsletter

As a project, students of the CCCHS Multimedia Class design the Education Foundation newsletter. Creating the foundation newsletter gives the class a valuable hands-on experience that they are able to translate into the business world.

Students relate how classroom activities such as writing, photography, scanning photos, editing, and layout apply to the real world.

**Save the Date**

## CCHS Education Foundation Gala Recognition Event

Please 'SAVE the DATE'! The CCHS Education Foundation is excited to host a truly extraordinary weekend planned for August 27th and 28th of next year.

On Friday, August 27th the football Terriers will kick off our Gala weekend and the 2010 football season when they host Murphysboro at Bleyer Field. Prior to the game, the CCHS Hall of Achievement and CCHS Hall of Service, which are soon to be completed in the Carbondale High School, will be officially dedicated and the first inductees will be recognized and honored.

The following day, Saturday, August 28<sup>th</sup>, the Foundation will host a fundraising golf tournament and pool party, with a dinner and dance planned for the evening. This dinner will be the highlight of the weekend with hors d'oeuvres, drinks, dinner, music, and additional recognition of our honored inductees. This is an event you won't want to miss. Details for the entire weekend will be forthcoming, and the latest updates can always be found at [www.cchsterriers.com](http://www.cchsterriers.com).

So, mark your calendar for August 27 - 28, 2010, and make your plans to be in Carbondale for this spectacular weekend. Classes having reunions or planning less formal get-togethers may want to coordinate with this occasion. This is a "come one, come all" event to commemorate our Hall of Achievement and Hall of Service inductees, the new facility to recognize them, and to highlight the CCHS Foundation that continues to strive for the betterment of our high school.

### Three Retiring Board of Education Members

At the end of April, the CCHS Board of Education had three retiring board members. Those members were: Barbara Bennett, Linda Brandon, and Barbara Levine. Among the three ladies, they had a total of 77 years of service dedicated to the district.

Barbara Bennett was a member for 32 years, beginning her tenure in 1977. During her time on the board, Bennett served as secretary for four years, president for six years, and vice-president for ten years.

Linda Brandon was a member for 26 years, starting in 1983. During her time on the board, Brandon served as president for four years and secretary for 20 years.

Barbara Levine was a member for 19 years. She began her tenure in 1990. During her time on the board, Levine served as vice-president for six years and president for 10 years.

The entire CCHS family would like to thank these ladies for their support and dedication.

Retiring Board of Education members, Barbara Levine and Barbara Bennett.

### CCHS Education Foundation Requests Continued Support

Dear CCHS Alumni and Friends –

As the year comes to a close, we are mindful of the generous contributions many of you have made to the CCHS Education Foundation. You have continued to contribute to our efforts to maintain the quality of education for our present and future students. Considering that this financial support has been made during uncertain times, we are extremely grateful and "Thank You" for making the educational support of CCHS a priority.

With the holidays approaching, in the tradition of giving, it is our hope that each of you will consider a gift to help further the education of our future generations. For those who have made multi-year pledges or are considering a multi-year gift, there is no better time to make your gift to the CCHS Education Foundation. Your holiday gift of \$25.00, \$50.00, \$100.00 or more will ensure our ability to meet the educational needs of our students in the years ahead.

We would like to thank you for your continued support of CCHS. Please accept our best wishes for a joyous holiday season and our hopes for a happy and prosperous 2010.

Sincerely,

David Coracy, Chairman  
CCHS Education Foundation Board of Directors

Joe Hudgins, Chairman  
Community Education and Fund Development

## Haven't You Heard...

# CCHS Hall of Achievement

---

**Jerry Hinkley:** Professor Hinkley graduated from CCHS in 1959. He received his Bachelor of Science from SIU in 1964 and his Masters of Science in 1965.

Professor Hinkley began his career in 1965 teaching at Jefferson R-7 Schools in Festus, Missouri. He eventually went on to become a Professor of Biology and Microbiology at College of Lake County in Grayslake, Illinois. In his career at College of Lake County, Professor Hinkley was awarded National Foundation Grants, the National Teaching Excellence Award twice by National Institute for Staff and Organizational Development, the Biology Teacher of the Year by the National Association of Biology Teachers, and International Educator of the Year for "Contributions to the Understanding of Cellular Metabolism and Molecular Genetics" by the Consortium for Biotechnology Education. Professor Hinkley was also the Department Chair, Acting Associate Dean and Acting Dean at the College of Lake County.

Professor Hinkley has participated on the editorial board of two widely used college-level biology textbooks, a microbiology laboratory manual, and a microbiology study guide. He has also had several interesting adventures, such as crossing the Everglades National Park by canoe and standing in a rookery among a million penguins in Antarctica.

Jerry Hinkley

**Russell W. Martin:** Mr. Martin graduated from CCHS in 1956. He was a 3 sport athlete, who received All-State special mention in football and third team All-State in basketball. Mr. Martin received his Bachelor of Science in Civil Engineering from the University of Illinois (U of I) in 1961. While at U of I, he played three sports: football, basketball, and baseball. Mr. Martin was a three year starter in baseball, earning second team-All Big Ten his sophomore year, and ending his career with a .303 batting average.

Mr. Martin began his career in the US Army Corps of Engineers, where he was a First Lieutenant. He then went on to work for several engineering firms and the city of Springfield as their city engineer. In 1971, he was selected as the Young Engineer of the Year by the Capital Chapter Illinois Society of Professional Engineers. Mr. Martin then began his own engineering firm, Martin & Vasconcelles, Inc. in Springfield, Illinois. In 1982, the firm changed to Martin Engineering Company of Illinois.

Mr. Martin is a licensed professional engineer in Illinois and Indiana and is also a licensed professional surveyor in Illinois. His numerous affiliations include: the Economic Development Council of Springfield and Sangamon County, the Public Building Commission of Springfield and Sangamon County, the University of Illinois Presidents Council, and the American Business Club.

Russell Martin

**Wendell R. O'Neal:** Dr. O'Neal graduated from Attucks High School in 1960. He received a Bachelor of Arts in Chemistry in 1965 from SIU and a Master of Science Degree in Biochemistry from the University of Rochester Medical Center in Rochester, New York in 1968. In 1974, Dr. O'Neal earned his Ph.D. in Biochemistry from Loyola University of Chicago Medical Center in Maywood, Illinois.

In 1968, Dr. O'Neal began his career as a clinical chemist for the National Institutes of Health, Clinical Pathology Department in Bethesda, Maryland. He then worked for many laboratories and agencies as a biochemist, lab supervisor, engineering associate, and clinical science associate. In 1992, Dr. O'Neal moved to SmithKline Beecham Clinical Laboratories in Philadelphia, Pennsylvania, where he became the Technical Director of the Philadelphia Laboratory. He was soon promoted to the Director of Technical Communications and Regulatory Affairs and then served as the Special Consultant to the Provost at Temple University. Dr. O'Neal then moved to Affiance Laboratory Services in Cincinnati, Ohio in 1997, followed by LabOne where he was Senior Vice President for Corporate Relations.

Dr. O'Neal is presently the President of The WHISK Group. The WHISK Group a Consulting business in Wilmington, Delaware and Cincinnati, Ohio, that provides services for the clinical laboratory industry, specializing in laboratory consolidations and operations, growing outreach programs, regulatory affairs, and placing products in this market. The WHISK group also provides consulting services in managing complex organizations for optimum productivity and personnel retention, and positioning products and services to support such laboratories.

Dr. O'Neal is and has been affiliated with many professional communities. The World Congress of Clinical Chemistry, Co-Chair, the US Department of Health and Human Services, the American Board of Clinical Chemistry, and the CLMA Health Care Policy Committee are among these.

Wendell O'Neal

## Haven't You Heard...

### Classes of '78, '79, & '80 Hold Monster 30th Reunion Bash

---

The CCHS Classes of '78, '79 & '80 converged on Carbondale on Friday, July 10 and Saturday, July 11. They decided that combining three classes was a great way to hold down the costs and get maximum attendance. The reunion participants would encourage any class that is planning a reunion to consider working with other classes for the same reasons.

The Friday night event at

Giant City Lodge had over 250 people as did the Saturday night event at the Carbondale Civic Center. Between the two events, there were approximately 350 different people that participated.

It was interesting how much interaction there was between the classes. Both the Maleike and Crouse Families had a sibling in each of the three classes. In addition, there were several married couples from different classes such

as Dexter Johnson, class of '78 and Stacy Vogler Johnson, class of '80. Additionally, there was camaraderie among the old feeder schools such as Unity Point and District 95. The three classes are planning to get together again in 2014.

If any class needs help getting started on their reunion, please go to the alumni website. Class rosters can also be requested by emailing [webmaster@cchsterriers.com](mailto:webmaster@cchsterriers.com).

CCHS class of 1978 at their 30th reunion.

CCHS class of 1979 at their 30th reunion.

CCHS class of 1980 at their 30th reunion.

## Distinguished Alum Stephen Bardo

Continued from page 1

going to happen. Still wanting to pursue a career in basketball, Bardo joined the Developmental league for the NBA, the CBA. A year later, the Dallas Mavericks took in Bardo. He continued to play basketball for ten years, playing for teams including Detroit, Dallas, and San Antonio in the NBA. Bardo also played in the CBA, and overseas in France, Italy, Japan, Spain, and Venezuela.

Bardo now resides in Chicago and has two sons. He works as a sports reporter for CBS 2

Chicago, is a color analyst for college basketball on ESPN and for the Illini Sports Network. Bardo shares his knowledge on winning, teamwork, and performing like an athlete with organizations through Bardo Communications. He has spoken at school assemblies, sports award events, large corporate functions and professional networking functions. Bardo has been an inspiration to many and is a very successful and hardworking CCHS alumni.

# Haven't You Heard... CCHS Technology Update

By Virginia Appuhn, Curriculum/Instruction and Technology Coordinator

Carbondale Community High School is proud and excited to be selected for participation in the 2009-2010 EETT Grant. This project will enable school-wide technology integration with the purchase of equipment including data projectors, interactive tablets and boards, student response systems, and other components as needed to involve students.

CCHS has had a long history in the use of technology that parallels the history of computers. Here are some of the highlights:

In the 70's, computers were a rarity with mainframes used at SIU and punchcards as input devices. Computer access at CCHS was not in place at this time except for special projects with SIU and a few experimental devices.

In the 80's computer systems started to be used for bookkeeping and student record keeping at CCHS. A few computers appeared in classrooms and the vocational areas began to explore the new technology with programming and specific tape and floppy based programs. An Apple IIE lab was used for early word processing and some math programs.

In the 90's the technology world changed. In 1990, CCHS purchased their first lab that had an educational package for math lessons and typing instruction. This first lab was at "East", and in the following years, additional labs were installed at "Central" to support math and reading in the Title I program, and keyboarding and programming in the vocational area.

The Internet began around 1993. By the mid 90's, CCHS connected to the World

Wide Web through a long range wireless connection to the ROE in Murphysboro. Eventually that was replaced with a T1 line and connections were made to a new library computer lab, business labs and limited numbers of classrooms and offices. The infrastructure limitations of the buildings built in 1923 and the 60's made it difficult to wire the entire campus. CCHS also had one of the first mobile labs in the area – a cart of laptops that could be moved to classrooms for word processing and other applications. The CCHS website, TerrierNet, was created during this time, beginning in 1997, through the work of students and faculty members. The first digital camera was purchased through a grant in 1998 and since then, photos of school events and activities have been popular additions to the site.

At the turn of the century, major changes were underway at CCHS. A new building was built at the "East" campus site equipped with state of the art data wiring to all offices and classrooms. When the building was populated in the summer of 2003, new computers were installed in all classrooms and offices, along with new or existing machines placed in eight new computer labs. Teachers began taking attendance and posting grades electronically in their classroom and technological integration began. Increased electronic communication included parent access to student grades and information through the Parent Link and e-mail contact. Computer labs and several portable lab systems are used regularly to integrate technology into the curriculum.

The increase in equipment and technol-

ogy usage required additional support and coordination. In 2000, math teacher Virginia Appuhn was scheduled as Technology Facilitator for several hours each day. That position was changed to a full-time Technology Coordinator in 2003 as CCHS opened their new building and the number of computers increased dramatically. Several years later, 1993 CCHS Grad Matt Young was hired as the Network Administrator with additional emphasis on electronic communication and security.

Currently, the Enhancing Education Through Technology (EETT) grant will provide funding and training to truly integrate technology in the classroom. Mounted data projectors and interactive boards will be mounted in classrooms in conjunction with replacement of the original teacher computers in every classroom. Extensive technology training and the formation of a technology team of teachers will assure widespread adaptation of technology into all areas of the curriculum. Educational videos will be produced for use in the classroom and to be placed on the TerrierTube website, available to parents, students, and the community.

Technology has changed the world and changed education at CCHS. The 21<sup>st</sup> Century classroom has to prepare students for competition in a world economy. Carbondale Community High School is using technology to improve communication and educational delivery systems in order to meet the needs of all students and address emerging technologies.

## CCHS Education Foundation GREAT IDEAS FOR CHRISTMAS, BIRTHDAYS OR CCHS GRADUATIONS!
