MANAGEMENT SERVICES**

Issuance Date: September 19, 2016

Submission Date: October 7, 2016

Introduction

The School District of Pittsburgh is soliciting your firm to provide it with a proposal for a comprehensive insurance broking and risk management program. This program should encompass the placement of all commercial insurance policies, staff training programs, participation in the formal safety program, claims consultation, and maintenance of a Risk Management Information System for the School District.

The School District serves the City of Pittsburgh and Mt. Oliver borough. For the 2015/2016 school year, it will operate 53 schools with a projected enrollment of 25,003 students. The School District is staffed with 1,962 teachers, an administrative staff of 184, 42 counselors, and 17 psychologists. The annual budgeted revenue and generalized expenditures of the School District is \$572 Million for 2016. Currently it has an operating fund balance of \$133 Million and has a Bond Rating of Aa3 from Moody. It currently has an outstanding debt principal of \$327 Million. The School District does not use a third party administrator for Worker's Compensation.

The School District currently self-insures various locations throughout the District. Of those self-insured locations, roughly 12 buildings are closed. Through the traditional insurance market, the District insures 18 locations valued at \$959,651,445 plus \$43,033,185 in Equipment/Contracts. For its Workers Compensation Program it retains \$750,000 per claim. At the present time the School District retains no School Leaders Legal Liability coverage.

Attached hereto is:

- Pittsburgh Public Schools Coverage Overview for 2015-2016
- Detailed Loss Report for Auto Coverage
- Summary Loss Report for Auto Coverage

The School District is managed by a Superintendent who reports to a School Board of 9 community leaders who serve a 4 year term.

The School District intends to select a single firm for this service. The engagement will begin January 7, 2017. By submitting a response to the RFP the bidder indicates that it has full knowledge of the scope, nature, quantity and quality of work to be performed, as well as the detailed requirements and specifications. The District envisions a five-year engagement, with an option to renew for an additional three years. The District reserves the right to discontinue service at any time in the event that for any reason the services rendered by the successful bidder is no longer satisfactory.

The School District will not be liable for any costs incurred by a bidder in preparing proposals or other associated expenses. The bidder shall furnish such additional information as the School District may reasonably require. The District reserves the right to conduct pre-contract negotiations with any or all potential bidders.
