

SWAY

CONCUSSION TESTING

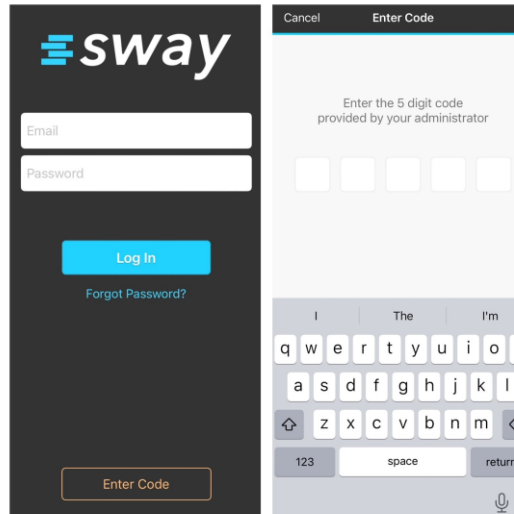

Benefits of Sway vs. ImPACT

- Taken on the athlete's smartphone, no need for a computer
- Faster baseline test-taking process – consistency in 1st two trials removes the need for a 3rd trial
- Can be done on the field/court
- Smartphone allows for a balance component - a key objective measure which can't be assessed via ImPACT
- Modules (balance, reaction time, memory, impulse control, etc.) are saved as they are completed, no need to retake the entire test if the system crashes or the test is interrupted
- Modules can be tested individually, if needed, instead of a full assessment
- Symptom tracker can be sent remotely if athlete isn't feeling well enough attend school

New Testing Process:

- Athletes will need to upload the Sway Medical app to their phone
 - Athletes who don't have access to a smartphone or are unable to upload the app can see Steph or Tom to schedule a time for baseline testing

- Codes have been generated by graduation year

Seniors (2025)	W3RUW
Juniors (2026)	J6SM4
Sophomores (2027)	MCCS2
Freshmen (2028)	TSXU9
8 th Graders (2029)	U2DYP
7 th Graders (2030)	5N92Y

- Be sure to set phone to “DO NOT DISTURB” mode – test will be invalid if modules are interrupted while testing
- Must have access to wifi or cell service throughout testing process
