Frequently Asked Questions

When is the deadline to register for Summer School Credit Recovery?

All students should be registered by Thursday, June 22, 2023. There is no cost for the program.

Who is eligible for Summer School Credit Recovery?

Any 9th – 12th grade student who receives a final failing mark in a course required to graduate and receive a diploma would be eligible to register for summer school Credit Recovery.

When will classes begin?

Classes will begin on Friday, June 23rd remotely. Students will need their school issued computer.

How many courses can I take?

Students may take up to four courses or 2 credits during summer school. Seniors needing the special 12 session can take up to an additional 2 classes or one credit.

What are the attendance requirements?

Summer school Credit Recovery operates from June 23 – July 21st. Students work remotely from their home. It is imperative that students devote 1.5 hours per day per class, five days a week (Monday – Friday) in order to complete the course work. Teachers are available for students from 7:35am – 2:35pm daily.

What about PSE students and those with a 504 Plan?

PSE students will be assigned to a special education teacher for help with the curriculum and course completion. Students with a 504 Plan will be supported by a regular education teacher with details of the plan.

How many credits can I earn for making up required course work?

Students may earn ½ credit for the successful 30/40-hour completion of each make-up course they take.

How will my credits be calculated?

Students are provided a grade for each course successfully recovered in Edgenuity. Repeating a course for the purpose of receiving credit in a class that was previously failed will not remove the previous mark from the permanent record. A ½ credit will be awarded for the successful completion of any make-up course.

What happens to my transcript and the grade I first received in the failed course?

The prior grade received in the class you are making up will not be edited or removed from your transcript. The new credit recovery grade will appear on the transcript. For example, if you received a failing grade in English 1A during the 2022-23 school year and receive a “B” in the summer school Credit Recovery course for English 1A, you will have two English 1A grades on your transcript (the original grade and the newly earned “B”).
