I understand that, if I violate the guidelines, my access can be terminated and I may face other disciplinary measures. I also understand that while school personnel generally do not monitor my Internet activity on a personal device during non-school hours, I may be disciplined when my online behavior has a direct and immediate effect on school safety or maintaining order and discipline in the schools, even if no school system technological resources are used.

### **Parent/Guardian Section**

As the parent/guardian of this student, I have read the Duplin County School District's Technology Responsible Use Policy 3225/4312/7320, the Use of Wireless Communication Devices Policy 4318, the BYOT Plan, and the AI Guidelines which can be found at <https://www.duplinschools.net/departments/digital-learning-media/policies-forms-and-documents>. By signing below, I affirm that I understand that this policy governs my child's use of all school system technological resources both on and off school property, and I accept full responsibility for my child's compliance with this policy. I also consent to school personnel monitoring my child's Internet activity, email communication, personal devices and other use of school system technological resources. I understand that the school system takes reasonable efforts to filter inappropriate content on the Internet accessible via school system devices but that the school system is not responsible for Internet content accessed by my child via his/her personal mobile technology (e.g. 3G, 4G service). The school district is not responsible for the theft, loss or damage of a cellular phone or other personal wireless device(s).

I understand that it may be necessary to use student information to create educational web-based on-line accounts and that my child may create online websites or content when necessary for educational purposes.

I GRANT permission for my student to independently access the Internet. In addition, I acknowledge that while school system personnel will take reasonable precautions to prevent my child from accessing inappropriate material, it is possible that my child will access inappropriate material while engaged in independent use of the Internet.
