

## LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Buena Park Elementary School District

CDS Code: 30-66456-0000000

School Year: 2024-25

LEA contact information:

Dr. Julienne Lee

Supertintendent

ycantu@bpsd.us

(714) 522-8412

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

### **Budget Overview for the 2024-25 School Year**

## Projected Revenue by Fund Source

This chart shows the total general purpose revenue Buena Park Elementary School District expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Buena Park Elementary School District is \$77,689,485, of which \$53,845,603 is Local Control Funding Formula (LCFF), \$13,758,086 is other state funds, \$7,231,176 is local funds, and \$2,854,620 is federal funds. Of the \$53,845,603 in LCFF Funds, \$13,636,700 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

# LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Buena Park Elementary School District plans to spend for 2024-25. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Buena Park Elementary School District plans to spend \$83,634,497.45 for the 2024-25 school year. Of that amount, \$22,839,234 is tied to actions/services in the LCAP and \$60,795,263.45 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

The Budgeted expenditures that are not included in the LCAP will be used for the cost of Certificated, Classified, and Management staff related to the general education program and services provided by the District. In addition, the overhead and administrative expenditures such as utilities, property and liability insurance, payroll, and other contracted services and supplies are required for the operations of the school and district.

## Increased or Improved Services for High Needs Students in the LCAP for the 2024-25 School Year

In 2024-25, Buena Park Elementary School District is projecting it will receive \$13,636,700 based on the enrollment of foster youth, English learner, and low-income students. Buena Park Elementary School District must describe how it intends to increase or improve services for high needs students in the LCAP. Buena Park Elementary School District plans to spend \$13,709,981 towards meeting this requirement, as described in the LCAP.

# LCFF Budget Overview for Parents

## Update on Increased or Improved Services for High Needs Students in 2023-24

This chart compares what Buena Park Elementary School District budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Buena Park Elementary School District estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2023-24, Buena Park Elementary School District's LCAP budgeted \$14,385,421 for planned actions to increase or improve services for high needs students. Buena Park Elementary School District actually spent \$14,391,934 for actions to increase or improve services for high needs students in 2023-24.

## 2023–24 Local Control and Accountability Plan Annual Update

The instructions for completing the 2023–24 Local Control and Accountability Plan (LCAP) Annual Update follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Buena Park Elementary School District	Dr. Julienne Lee Supertintendent	juliennelee@bpsd.us (714) 522-8412

# Goals and Actions

## Goal

Goal #	Description
1	Increase student achievement in ELA, Math, and language proficiency through implementation of state standards-based instruction and assessment taught by highly qualified teachers. An emphasis will be placed on English language learners, special needs students, and students that are at promise, including our Foster youth.

## Measuring and Reporting Results

				compared to 97% from the prior year.	
EL Reclassification Rate (Dataquest)	The annual Reclassification rate for EL students in 2021 was 9.6% (152 students)	Based on district 2022 data, RFEP Rate 9% (121 students)	Based on district 2022-2023 data, the current RFEP rate is 10.8% (135 students) as of May 31, 2023. This is based on 1249 English Learners enrolled this year.	Based on current district 2023-2024 data, the current RFEP rate is approximately 13% (159 students) as of May 10, 2024. This is based on 1225 English Learners enrolled this year.	Increase the annual Reclassification rate for EL students by 5% yearly.
Student Surveys on Access to Programs and Services (Panorama, LCAP, and additional M.S. survey)	All 6-8 grade students, including unduplicated pupils and students with exceptional needs, will be surveyed annually on access to programs, services, and honors classes designed to help prepare them for the rigors of high school will be collected. Baseline data will be collected during the 21-22 school year.	In May, 2022, 6-8 grade students were surveyed and results indicated that:  84% responded that they had access to programs and services that their school offered  94% replied that their school offered opportunities to take honors or advanced courses  86% said their school offered elective classes to help explore interest and future careers	In March, 2023, 6-8 grade students were surveyed and results indicated that:  89% responded that they had access to programs and services that their school offered  93% replied that their school offered opportunities to take honors or advanced courses  92% said their school offered elective classes to help explore interest and future careers	In February, 2024, 6-8 grade students were surveyed and results indicated that:  91% (+2%) responded that they had access to programs and services that their school offered  96% (+3%) replied that their school offered opportunities to take honors or advanced courses  94% (+2%) said their school offered elective classes to help explore interest and future careers	All 6-8 grade students, including unduplicated pupils and students with exceptional needs, will be surveyed annually on access to programs, services, and honors classes designed to help prepare them for the rigors of high school will be collected. Percentages will increase from baseline by 5% annually.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
		87% felt that their classes were preparing them academically for high school	88% felt that their classes were preparing them academically for high school	92% (+4%) felt that their classes were preparing them academically for high school	
Physical Fitness State Test (Dataquest)	All 5th and 7th grade students take the CA PFT annually. Data results form 2018 are currently unavailable on Dataquest.	The majority of our 5th and 7th grade students have taken the 21-22 PFT. The following shows the preliminary percentage of students tested in each area: Aerobic Capacity 97% Abdominal Strength 98% Trunk Strength 98% Upper Body Strength 98% Flexibility 96%	Almost all of our 5th and 7th grade students have taken the 22-23 PFT. The following shows the percentage of students who participated in testing for each area: Aerobic Capacity 98.2% Abdominal Strength 98.3% Trunk Strength 98.1% Upper Body Strength 97.7% Flexibility 98.9%	Students in grades 5 and 7 have completed the 2023-24 PFT. The following shows the percentage of students who participated in testing for each area:  Aerobic Capacity - 97.4% Abdominal Strength - 95.7% Trunk Strength - 92.8% Upper Body Strength 97.6% Flexibility 98.7%	All 5th and 7th grade students will take the CA PFT annually. Percentages of students tested will be maintained.

## Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

All actions listed in our 23-24 LCAP plan were carried out during the 23-24 school year to meet the desired outcomes for Goal 1.

Successes:

BPSD successfully implemented the Cognitively Guided Instruction (CGI) approach and CGI professional development, as evidenced by the 2023 and 2024 performance results. Also in the 2022-23 school year, the sub-groups Homeless and Foster were added to the LCAP for monitoring, having met the criteria for differentiated assistance. However, in the 2023-24 school year, these sub-groups showed academic improvement and no longer met the criteria for differentiated assistance in this area. This progress highlights the effectiveness of the CGI approach and professional development in enhancing academic outcomes for diverse student groups.

BPSD successfully continued the use of iReady diagnostics as a district benchmark, allowing for consistent monitoring of student progress in Reading and Math across all grade levels. Comparable to CAASPP assessments, this tool helps teachers analyze student data, identify those needing tiered intervention, and provide tailored lessons based on individual skill levels. Additionally, as a Reader's and Writer's Workshop district, BPSD attributed improved results to the consistent implementation of these high-leverage strategies. Instructional coaches supported teachers with training in both Workshops and Math, further enhancing instructional effectiveness and student outcomes

BPSD continues to see academic growth across all grade levels in reading and math, as evidenced by local i-Ready assessment results. Staff have collaboratively analyzed student data and artifacts during PLCs and data days to plan for additional academic support and targeted interventions. Additionally, staff have worked closely with families to partner in students' learning and well-being. Students needing extra academic support received additional learning time through tutorials and interventions both during and outside the academic day.

With the adoption of a designated ELD curriculum and additional ELA/ELD PD and materials, we have seen success in our ELPAC scores and RFEP rate. Based on data from the CA 2023 Dashboard, 50.4% of English Language Learners (ELLs) are making progress toward English language proficiency. This improvement indicates that these targeted actions have effectively contributed to enhancing the instructional quality and supporting ELLs in their language development.

#### Challenges:

While improvements have been observed in academic achievement through our local assessment, iReady, there remains a need to raise CAASPP scores in both ELA and Math. Despite progress, we recognize the importance of further enhancing performance on state assessments to ensure comprehensive academic success.

Another challenge we faced pertains to vacancies in positions, particularly in the TOSA (Teacher on Special Assignment) role and the Behavior Team Instructional Assistant (IA) positions. Filling these positions is important to maintain the effective delivery of educational services and support, ensuring we meet the diverse needs of our student population.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

The following are explanations for the expenditure variances:

Action 1: Training Highly Qualified Teachers: Increased expenditures due to a bonus to the certificated staff to maintain highly qualified teachers.

Action 2: Early Learning Program: Fewer expenditures due to fewer number of early admission TK students and unfilled positions.  
Action 4: Music Instruction Teacher: Increased expenditures due to increase in salary and benefit costs  
Action 5: Library Media Clerks: Increased expenditures due to increase in salary and benefit costs  
Action 7: Middle School College: Expenditures were lower due to less online curriculum subscription cost.  
Action 8: Outdoor Science Camp: Expenditures were lower due to less numbers of students attending camp.  
Action 10: ELA/ELD PD and Materials: Expenditures were lower due to the PD being provided through other funding sources.  
Action 13: Professional Learning Communities: There was an increase in contract costs for PLC consultants to extend PD on PLCs.  
Action 14: Technology and Curriculum Support: Expenditures were lower due to the vacancy of the position majority of this school year.  
Action 19: Instructional Coaches: Increased expenditures due to increase in salary and benefit costs.  
Action 20: PE staff: Increased expenditures due to increase in salary and benefit costs.  
Action 23: Behavior Team: Expenditures were lower due to a vacancy in behavior staff.  
Action 25: Educational Programs: Expenditures were lower due to the vacancy of the position majority of this school year.  
Action 26: State Preschool Program: Expenditures were lower due to changes funds for staffing.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

While there have been notable advancements in student achievement, including significant progress in i-Ready ELA/Math assessments from Fall 2023 to Winter 2024 and improved performance across various subgroups such as ELL, low socio-economic, and students with special needs, we were unable to meet our three goals in CAASPP and i-Ready. The data for i-Ready ELA/Math demonstrates growth from Fall 2023 to Winter 2024. Moreover, subgroups including ELL, low socio-economic, and students with special needs also displayed increased achievement, albeit with a notable 5% decrease among Foster Youth in ELA.

**Effectiveness:**

Class size reductions, the addition of PE teachers, and Kindergarten Instructional Assistants (IAs) were instrumental in creating smaller class sizes and facilitating small group instruction. This approach proved effective as it allowed small group targeted interventions, thereby increasing academic achievement. The implementation of Cognitively Guided Instruction (CGI) and Professional Learning Communities (PLCs) provided robust support for teachers. These initiatives offered ongoing professional development, giving teachers essential training as well as time to analyze data, share best practices, and refine instructional strategies. This collaborative environment enabled teachers to enhance their instructional practices and better address the diverse learning needs of their students. Together, these strategies fostered an environment where individualized attention and professional growth were prioritized, leading to notable improvements in student outcomes.

In addition, the adoption of a new designated ELD curriculum, along with additional ELA/ELD professional development and materials, has also proven successful based on the ELPAC and RFEP data. These targeted actions have effectively enhanced instructional quality and supported ELLs in their language development, demonstrating overall positive outcomes in student achievement.

**Ineffectiveness:**

While the mentioned actions above have been effective, there remains room for improvement and a need for increased effectiveness for all subgroups. Although improvements have been observed in academic achievement through our local assessment, iReady, there remains a need to raise CAASPP scores in both ELA and Math to ensure comprehensive academic success.

Although not identified as Differentiated Assistance in ELA, we need to address the specific needs in ELA for our Homeless students and Students with Disabilities. These subgroups have shown less progress compared to their peers, highlighting the necessity for targeted interventions and tailored support. By focusing on these areas, we can work towards ensuring that all students have the opportunity to succeed academically.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

In our ongoing commitment to student success and educator support, we will be refining our LCAP goals for the upcoming 2024-25 school year. To increase and improve services to students and have focused goals, we have decided to split our current Goal 1 into two goals to ensure a focus on both student-centered interventions and comprehensive support for our dedicated staff members.

We recognize the importance of implementing targeted interventions to address the diverse needs of our student population. By splitting our current Goal 1 into two separate goals, we aim to place a stronger emphasis on student-centered interventions. These interventions may include tailored instructional approaches, differentiated learning opportunities as well as access to specialized programs or resources designed to meet the unique needs of each student. Additionally, we are committed to enhancing our tiered intervention system, which provides a multi-tiered framework of support to address the varying needs of students across different levels of intervention intensity.

Furthermore, we recognize the importance of providing comprehensive support for our dedicated staff members who play a vital role in implementing these interventions and supporting student success. To this end, we will be providing additional staff to support educators in effectively implementing intervention strategies, providing professional development opportunities, mentorship programs, and access to resources and tools that enable educators to effectively meet the diverse needs of their students.

Our goal is to ensure that every student receives the support and resources they need to thrive. By refining our focus on interventions and providing additional staff support for our educators, we seek to create a learning environment where all students feel valued, supported, and empowered to reach their full potential.

**A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.**

# Goals and Actions

## Goal

Goal #	Description
2	Create and maintain positive, safe, and culturally responsive learning environments that result in high levels of attendance and student engagement that lead to college and career readiness.

## Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
District-wide suspension rates (CALPADS)	Per CALPADS there were 125 suspensions in the 19-20 school year.	Per CALPADS there were 0 suspensions in the 20-21 school year and 130 suspensions in the 21-22 school year to date.	<p>Per CALPADS there were 130 suspensions in the 21-22 school year and 87 suspensions in the 22-23 school year to date (April 2023- AERIES).</p> <p>Students with Disabilities: 22 students or 25.3% of the total suspensions to date.</p> <p>Homeless: 11 students or 12.6% of the total suspensions to date.</p> <p>Foster: 0 of the total suspensions to date.</p> <p>The total number of suspensions in the 22-23 school year as of</p>	<p>According to the 2023 California Dashboard, 2.8% of students were suspended at least one day, an increase of .3% from the prior year.</p> <p>Number of Suspensions by Subgroup:            *Students with Disabilities: 3.7% (-0.7%)            *Homeless: 5.8% (+2.6%)            *Foster: 0% (-6.1%)            *English Learners: 2.6% (-0.1%)</p>	There will be a 15% reduction in suspensions per CALPADS.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
			<p>June 2, 2023 (AERIES Data) was 141 suspensions.</p> <p>*English Learners: 46 suspensions or 32.6%</p> <p>*Socio-economically Disadvantaged: 129 suspensions or 91.4%</p> <p>*Foster Youth: 0</p>	<p>*Socio-economically Disadvantaged: 3.2% (0)%</p> <p>*Race - African American: 7.2% (+1.6%)</p> <p>The sub-group, African-American, was added this year as the sub-group qualified for State Differentiated Assistance.</p>	
District-wide expulsion rates (CALPADS)	Per CALPADS there was 1 expulsion in the 19-20 school year.	Per CALPADS there were 0 expulsions in the 20-21 school year and 0 expulsions in the 22-23 school year to date.	<p>Per CALPADS there were 0 expulsions in the 21-22 school year and 2 expulsions in the 22-23 school year to date.</p> <p>Students with Disabilities: 0 total expulsions to date.</p> <p>Homeless: 0 total expulsions to date.</p> <p>Foster: 0 total expulsions to date.</p>	Per CALPADS there have been 0 expulsions in the 23-24 school year to date (August 2023 - May 2024).	We will maintain or decrease the number of expulsions.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Safety and School Connectedness based on SEL Surveys	<p>Panorama Survey results show that 77% of students feel supported through their relationships with friends, family, and adults at school.</p> <p>Panorama Survey results show that 41% of students feel they regulate their emotions well.</p>	<p>Spring 2022 Panorama Survey: Panorama Survey results show that 86% of students feel supported through their relationships with friends, family, and adults at school.</p> <p>Panorama Survey results show that 44% of students feel they regulate their emotions well.</p>	<p>Spring 2023 Panorama Survey: Panorama Survey question - Do students feel supported through their relationships with friends, family, and adults at school: Grades 3 - 5: 87% Grades 6 - 8: 82%</p> <p>Panorama Survey question - How well students regulate their emotions: Grades 3 - 5: 46% Grades 6 - 8: 44%</p>	<p>Spring 2024 SEL Survey results indicate that: SEL Survey question - Do students feel supported through their relationships with friends, family, and adults at school: Grades 3 - 5: 88% (+1%) Grades 6 - 8: 82% (0%)</p> <p>SEL Survey question - How well students regulate their emotions: Grades 3 - 5: 48% (+2%) Grades 6 - 8: 46% (+2%)</p>	<p>Panorama Survey results will show a minimum of 92% of students feel supported through their relationships with friends, family, and adults at school.</p> <p>Panorama Survey results will show a minimum of 56% of students feel they regulate their emotions well.</p>
Safety and School Connectedness based on LCAP Surveys	<p>District-wide LCAP Survey results indicate that:  61.44% of parents strongly agree/agree their child/children can get counseling services when they need it.</p>	<p>Spring 2022 District-wide LCAP Survey results indicate that:  88.5% of parents strongly agree/agree their child/children can get counseling services when they need it.</p>	<p>Spring 2023 District-wide LCAP Survey results indicate that:  69.1% of parents strongly agree/agree their child/children can get counseling services when they need it.</p>	<p>Spring 2024 District-wide LCAP Survey results indicate that:  91% of parents strongly agree/agree their child/children can get counseling services when they need it. (+21.9%)</p>	<p>District-wide LCAP Survey results will indicate that:  A minimum of 77% of parents will strongly agree their child/children can get counseling services when they need it.</p>

Attendance Rates	Attendance rate for 20-21 is 96%	Attendance rate for 21-22 school year to date is 93%	<p>Attendance rate for 22-23 school year to date is 92.2%</p> <p>Students with Disabilities: 90.4%</p> <p>Homeless: 89.0%</p> <p>Foster: 75.9%</p>	<p>The current attendance rate to date (August 2023 - March 2024) for 23-24 school year to date is 93.59%</p> <p>Students with Disabilities: 91.86%</p> <p>Homeless: 88.14%</p> <p>Foster: 94.88%</p> <p>English Learner: 94.14%</p> <p>Race-African American: 88%</p>	Maintain or improve attendance rate of 96%.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
				For the 2023-24 school year, the subgroup Race: African-American met the State Differentiated Assistance eligibility criteria in at least two different State Priority Areas. The qualifying priority areas are suspensions and chronic absenteeism.	
Middle School Drop Out Rates (CALPADS 8.1c)	Per CALPADS current middle school drop out rate is 0.	Per CALPADS current middle school drop out rate is 2 students.	Per CALPADS current middle school drop out rate is 1 student.  Students with Disabilities: 0%  Homeless: 100.0%  Foster: 0%	Per CALPADS current middle school drop out rate is 0 students.	Maintain current middle school drop out rate is 0.
School Facilities are Maintained in Good Repair	Per SARC 20-21 Facilities Report, all school facilities are maintained in good repair.	Per SARC 21-22 Facilities Report, all school facilities are maintained in good repair.	Per SARC 22-23 Facilities Report, all school facilities are maintained in good repair.	Per SARC 23-24 Facilities Report, all school facilities are currently maintained in good repair.	Maintain all school facilities are in good repair per 23-24 SARC Facilities Report.

## Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

All actions listed in our 23-24 LCAP plan were implemented fully or to some extent.

Create and maintain positive, safe, and culturally responsive learning environments that result in high levels of attendance and student engagement that lead to college and career readiness.

#### Success:

Conducting the Universal SEL Survey twice a year has helped BPSD gauge and identify our students' social-emotional needs. Students requiring additional SEL support were able to work with counselors at each school site or through referrals to comprehensive services from external mental health agencies and maintaining positive and safe school sites, resulting in high student engagement and preparing students for college and career readiness.

The Spring 2024 SEL Survey results indicated district-wide strengths in the following areas: Emotional Regulation: Students' ability to regulate their emotions increased by 2%.

Spring 2024 District-wide LCAP Survey results indicate that:

91% of parents strongly agree/agree their child/children can get counseling services when they need it. (+21.9%)

93.7% of staff strongly agree/agree that students can get counseling services when they need it. (+6.7%)

87.5% of students strongly agree/agree that they can see a counselor when they need it. (+4.5%)

These successes highlight the district's effectiveness in fostering environments that support student well-being and readiness for future academic and career endeavors.

A significant success was also seen in the implementation of passion programs. Notably, one of our sites became authorized as an International Baccalaureate (IB) school. This authorization will enhance the learning experience for our students by fostering international-mindedness and providing an additional language course. These programs contribute to creating engaging, diverse, and enriching educational environments that support academic achievement and personal growth.

#### Challenges:

Despite creating many actions aimed at improving attendance and decreasing suspension rates, the current data for the 2023-24 school year indicates ongoing challenges. The overall attendance rate stands at 93.59%, with specific subgroups such as Students with Disabilities (91.86%), Homeless students (88.14%), and African-American students (88%) lagging behind. Additionally, the African-American subgroup met the State Differentiated Assistance eligibility criteria for suspensions and chronic absenteeism. Suspension rates have also posed a challenge. According to the 2023 California Dashboard, 2.8% of students were suspended at least one day, an increase of 0.3% from the prior year. Subgroup data shows varied results, with Homeless students experiencing a significant increase in suspensions (5.8%, +2.6%) and African-American students also seeing a rise (7.2%, +1.6%).

These challenges highlight the need for targeted interventions to improve attendance and reduce suspensions, particularly for the most affected subgroups.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

The following are explanations for a few expenditure variances:

- Action 1-Nurse/Health Services: Increase in expenditure due to increasing salary and benefit costs and the addition of health clerks in estimated actuals to meet the action.
- Action 2-Student Community Service: Attendance and Situational Support - Less expenditures due to the salary of SEOCs being lower than budgeted and eliminating the Community Supervisor position.
- Action 3-Continuum of Mental Health Support: Increase in expenditure due to increasing salary and benefit costs.
- Action 6-Technology Support: Increase in expenditure due to increasing salary and benefit costs.
- Action 7-County Tuition (ACCESS Prog.): More expenditures due to the increased number of students referred.
- Action 8-Custodial Services Increase in expenditure due to increasing salary and benefit costs.
- Action 9-Transportation: Less expenditures due to bus driver position vacancies.
- Action 12-Facilities Maintenance: Increase in expenditure due to increasing salary and benefit costs.
- Action 15-Passion Program - International Baccalaureate: Increase in expenditure due to increasing salary and benefit costs.
- Action 16- Additional Middle School Program Support: Less expenditures due to the salary cost being less than allocated.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

Our actions have been consistently focused on creating and maintaining positive, safe, and culturally responsive learning environments to enhance attendance and student engagement. One significant step in this direction was the increase in the number of counselors at each site, enabling better support for students. However, it has become evident that the need for social-emotional learning and mental health services remains critical.

Throughout the year, students continued to have access to technology devices and connectivity, facilitating their learning experiences.

Despite our efforts, there was a slight decrease in the attendance rate compared to the previous year. While improvements have been observed in chronic absenteeism for Foster Youth, Students with Disabilities, and students experiencing homelessness, leading to their removal from the designation of Differentiated Assistance (DA), our African American student subgroup remains in DA status for chronic absenteeism and suspensions.

Addressing these challenges requires ongoing commitment and targeted interventions. We are dedicated to implementing strategies that support all students, particularly those facing barriers to consistent attendance and participation. By fostering a supportive and inclusive environment, we aim to improve attendance rates.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

For the next three-year LCAP cycle, we will reorganize our focus into Goal 3: "Increase student outcomes through impactful instruction of core subjects and expand college and career pathway programs," and Goal 4: "Promote emotional engagement and connectedness among students, families, and staff by fostering safe and culturally responsive learning environments."

Under Goal 3, our efforts will center around enhancing the quality of instruction in science and social studies, and expand our college and career pathway programs to provide students with diverse opportunities for post-secondary education and career readiness.

Under Goal 4, our focus will be on fostering social-emotional engagement and connectedness among our school community. This includes creating safe and culturally responsive learning environments where all students feel valued, supported, and included. Specifically, we will prioritize addressing attendance and suspension rates, particularly for our African American student subgroup, given our current designation in DA status for chronic absenteeism and suspensions.

By implementing targeted strategies to improve attendance and reduce suspension rates, we aim to create a more inclusive and supportive environment for all students, especially those who may be disproportionately affected by these issues. Through collaborative efforts with students, families, staff, and community partners, we are committed to addressing these challenges and promoting positive outcomes for all members of our school community.

In addition, in response to the challenges of chronic absenteeism and suspension rates, a root cause analysis revealed the need to enhance emotional connectedness for students, particularly those of color and those experiencing homelessness. The District is committed to focusing on adult behaviors to foster a greater sense of belonging for students and families by raising cultural competency among school staff and exploring alternatives to suspension that incorporate restorative practices and trauma-informed interventions. Additionally, school-based counseling and the support of Student and Family Outreach Coordinators (SEOCs) at each site play crucial roles in mentoring students and providing families with essential resources. These efforts aim to create a supportive and inclusive school environment where every student can thrive.

**A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.**

# Goals and Actions

## Goal

Goal #	Description
3	BPSD will increase authentic parent and pupil engagement to support academic achievement and social-emotional development.

## Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Attendance Rate	Attendance rate for 20-21 year is 96%	Attendance rate for 21-22 school year to date is 93%	Attendance rate for 22-23 school year to date is 92.2%  Differentiated Assistance Sub-groups: Students with Disabilities: 90.4% Homeless: 89% Foster: N/A	The current attendance rate to date (August 2023 - March 29, 2024) is 93.59%  Differentiated Assistance Sub-group: Race-African American: 88%	Maintain or increase attendance rate of 96%.

				<p>belonging by inviting families and community members.</p> <p>Parent and Family Engagement events are planned at the schools sites for students with exceptional needs.</p>	

## Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

All actions listed in our 23-24 LCAP plan were implemented to most of its extent.

### Successes:

BPSD saw success in increasing authentic parent and pupil engagement, which played a crucial role in supporting academic achievement and social-emotional development. By implementing various initiatives that fostered communication, provided targeted support, and addressed community needs, the district effectively enhanced both student and parent involvement. These efforts created a supportive environment that promoted educational success and well-being for all students. We also continue to make great efforts to engage our parents and community partners through offering a wide variety of workshops and training based on parent needs and interests, opportunities to participate in site/district advisory groups such as ELAC/DELAC, SSC, PTA, and even conference attendance such as CAFE.

### Challenges:

Despite significant efforts to improve attendance and reduce chronic absenteeism, challenges remain in meeting pupil engagement goals. The current attendance rate from August 2023 to March 29, 2024, is 93.59%. However, specific sub-groups, such as African American students, have lower attendance rates at 88%. The overall chronic absenteeism rate is 17.6%, with African American students facing a much higher rate of 28.7%, as reported by the 2023 CA Dashboard. These figures highlight the need for continued and targeted interventions to address the disparities and improve engagement across all student groups.

There was also a challenge in convening all members of the Extended Leadership Team. This underscores the need to reassess this action for the next LCAP cycle, ensuring better engagement of key stakeholders in understanding district instructional goals and systems of improvement.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

The following are explanations for a few expenditure variances:

Action 1-Parent Workshops: Less expenditures due to other funding utilized for parent training.

Action 2-Extended Leadership Team: There was a decrease in the Extended Leadership Team members during the 23-24 school year.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

All efforts were focused on cultivating authentic engagement among parents, students, and educators to enhance academic achievement and socio-emotional development.

Effective:

The implementation of parent workshops, advisory meetings, and additional support services was effective in increasing parent engagement. Nineteen PK-8th grade workshops and four sessions for English Learner families, all with live translation, enhanced family support for academics and socio-emotional development. Regular advisory meetings (ELAC, DELAC, LCAP) and participation in the CAFE conference increased parent involvement. Support for students with exceptional needs included bi-monthly presentations and Special Olympics events, promoting inclusivity. Partnering with OCDE to collect feedback ensured the LCAP met community needs, while additional translation services improved access and communication for English Learner families. These initiatives effectively fostered greater engagement and support.

Ineffective:

The action item on the Extended Leadership Team proved minimally effective in the 2023-24 school year as there was a reduction in the team's membership, which necessitates reassessing approaches to engage the district management team, site-level certificated and classified leaders, as well as staff representatives, parent, and community partners to cultivate a deeper understanding of district instructional goals and systems of improvement.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

In the 2025-27 LCAP cycle, this goal will now be redirected towards Goal 4: "Promote emotional engagement and connectedness among students, families, and staff by fostering safe and culturally responsive learning environments." Particularly due to our designation in Differentiated Assistance for chronic absenteeism and suspension, in our African American student subgroup, actions will be concentrated on addressing the needs of this subgroup, as well as other subgroups that may require support based on current data trends. By addressing social-emotional wellness, fostering a positive school climate, and enhancing parent engagement, we aim to create an inclusive and supportive learning environment where every student feels valued, respected, and empowered to succeed. Through collaborative efforts with students, families, educators, and community stakeholders, we are committed to promoting the holistic development and well-being of all members of our school community.

**A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.**

# Instructions

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education’s (CDE’s) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at [lcff@cde.ca.gov](mailto:lcff@cde.ca.gov).

Complete the prompts as instructed for each goal included in the 2023–24 LCAP. Duplicate the tables as needed. The 2023–24 LCAP Annual Update must be included with the 2024–25 LCAP.

## Goals and Actions

### Goal(s)

#### Description:

Copy and paste verbatim from the 2023–24 LCAP.

#### Measuring and Reporting Results

- Copy and paste verbatim from the 2023–24 LCAP.

#### Metric:

- Copy and paste verbatim from the 2023–24 LCAP.

#### Baseline:

- Copy and paste verbatim from the 2023–24 LCAP.

#### Year 1 Outcome:

- Copy and paste verbatim from the 2023–24 LCAP.

#### Year 2 Outcome:

- Copy and paste verbatim from the 2023–24 LCAP.

#### Year 3 Outcome:

- When completing the 2023–24 LCAP Annual Update, enter the most recent data available. Indicate the school year to which the data applies.

#### Desired Outcome for 2023–24:

- Copy and paste verbatim from the 2023–24 LCAP.

Timeline for completing the “Measuring and Reporting Results” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for Year 3 (2023–24)
Copy and paste verbatim from the 2023–24 LCAP.	Copy and paste verbatim from the 2023–24 LCAP.	Copy and paste verbatim from the 2023–24 LCAP.	Copy and paste verbatim from the 2023–24 LCAP.	Enter information in this box when completing the 2023–24 LCAP Annual Update.	Copy and paste verbatim from the 2023–24 LCAP.

### Goal Analysis

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

A description of any substantive differences in planned actions and actual implementation of these actions.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

- Describe the effectiveness or ineffectiveness of the specific actions in making progress toward the goal during the three-year LCAP cycle. “Effectiveness” means the degree to which the actions were successful in producing the desired result and “ineffectiveness” means that the actions did not produce any significant or desired result.
  - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
  - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
  - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
  - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:
    - The reasons for the ineffectiveness, and
    - How changes to the action will result in a new or strengthened approach.

California Department of Education  
November 2023

# Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Buena Park Elementary School District	Dr. Julienne Lee Supertintendent	juliennelee@bpsd.us (714) 522-8412

## Plan Summary [2024-25]

### General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

Buena Park School District's mission is to "Inspire and Ignite all students to pursue high achievement; empowering them to follow their passions". BPSD consists of five PK through 5th-grade elementary schools, and two 6th through 8th-grade middle schools that are all identified as Title 1 schools. There are also preschool programs at the Buena Park Learning Center. We serve a diverse ethnic and socio-economic student population of approximately 3757 students who speak over 28 primary languages at home with a majority speaking Spanish, Korean, and Tagalog. Our children live in the diverse cities of Buena Park, Fullerton, La Mirada, Anaheim, and La Palma. Based on the most current data from the California Department of Education's Data Quest database, BPSD's numbers from the 2023-2024 school year indicate that approximately 31% of our students are English language learners, 79% are considered low-income, about 1% are foster youth, 7% are students experiencing homelessness, and 16% receive Special Education services.

Students in our district experience a rigorous and comprehensive curriculum taught through integrated, standards-based instruction and supported by technology. All students in grades PK through 8th have access to devices to support and individualize learning. We will strive to increase the number of students who meet or exceed grade-level standards as measured by state and local assessments. BPSD is proud of its over 510 committed staff members who strive to provide a safe and positive learning environment daily for students. Approximately 243 are certificated teachers and administrators. Another 232 are classified employees and management that support our goal of providing outstanding academic programs for students. Parents are supported by offering quality before and after-school programs through Kid Connection and the Expanded Learning Opportunities program (ELO-P) in partnerships with community organizations, and through our grant-funded After-School Education and Safety (ASES) program run in collaboration with Cal State Fullerton. These options will continue to grow through the ELOP funding to offer more enrichment opportunities and academic intervention. Parent engagement is always encouraged and welcome at both site and district levels through many engaging events, workshops, and opportunities to participate both online and in-person (when safe to do so) in various advisory committees such as SSC, ELAC/DELAC, LCAP Steering Committee, and other groups.

## Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

A critical part of developing a responsive LCAP is the comprehensive analysis of state and local data. Therefore, a review of the California Dashboard performance indicators and key local data was completed. The data analysis revealed both significant achievements and areas of disparities among subgroups. Additionally, other barriers to achievement were identified during each stage of the LCAP development process.

The District has successfully achieved the 'Standard Met' level for three local indicators, marking significant progress in our educational objectives. The District has reached the 'Standard Met' level in several critical areas: the percentage of appropriately assigned teachers, student access to curriculum-aligned materials, and maintaining safe and functional school facilities. Additionally, we have met standards for parent and family engagement, which includes fostering strong relationships between families and community partners. Based on the local climate survey administered annually, which focuses on topics such as school safety and connectedness, the District has met the standard.

Although the annual surveys indicate relatively strong connectedness for our overall student population, the District's chronic absenteeism and suspension rates by school site and subgroup suggest that for some students, we have yet to develop a strong connection with others. For instance, the overall district rate of chronic absenteeism declined by 1.4% across school sites, but Whitaker Elementary School has the lowest performance level on the California Dashboard. In addition, the following district areas have the lowest performance indicators for student subgroups:

Chronic Absenteeism: African Americans and Two or more races

Suspension: African American and homeless

ELA: Homeless and students with disabilities

Chronic absenteeism, although it has been a focus at the levels with the highest rate, TK and kindergarten, there continues to be a need to support students and families of specific subgroups. The district is working toward schools within the district that received the lowest performance level on the dashboard:

Buena Park Middle School: African American and homeless

Whitaker Elementary School: English Language Learner, Hispanic, Special Education

Pendleton Elementary: English Language Learner

Emery Elementary School: English Language Learner

Corey Elementary School: English Language Learner, Special Education

For suspension rates, the data also indicates a disparity between the majority of our student subgroups and our African-American and homeless students. Although we are encouraged by the decrease in suspension rates for other student groups, including students with disabilities, English language learners, foster youth, and socioeconomically disadvantaged students, there remains work to be done. The following are student groups within a school that received the lowest performance level for suspension:

Beatty Middle School: White students

Buena Park Middle School: Homeless and African American

In response to the low levels of chronic absenteeism and suspension rates, a root cause analysis highlighted the need to enhance emotional connectedness for our students, particularly those of color and those experiencing homelessness. Being data-informed, the District is committed to intensifying efforts that focus on adult behaviors, aiming to foster a greater sense of belonging for both students and families. Two key areas have been identified for improvement. First, there is an urgency to raise cultural competency among adults within the school community. Second, we are exploring effective alternatives to suspension that incorporate restorative practices and evidence-based interventions related to trauma and emotional management. Students also have access to school-based counseling delivered by the school psychologist, site counselor, or by the other agency partners available at each school site. In addition, each school site is equipped with a dedicated staff member, the SEOC (Student and Family Outreach Coordinator), whose primary responsibility is to foster relationships with students and families. This role involves mentoring students, as well as providing families with valuable information and resources to support their educational journey and well-being. This initiative is integral to creating a supportive and inclusive school environment where every student has the opportunity to thrive.

In regards to the state core subjects of ELA/ELD and math, Dashboard indicators reveal that none of our schools are at the lowest performance level, showcasing math growth that merits celebration. However, there is still a need to focus attention on the specific needs of several subgroups. Indicators for our multilingual students (English learners) show that their progress in English proficiency has increased by 3.6%, which is higher than the state progress rate. Indicators for ELA show that the number of multilingual learners who have recently reclassified increased by 6.5 points and are 39.8 points above grade level compared to English-only students who maintained their level at 21.3 points above grade level. African American and White students are not only at a higher level than the state, they increased by 12 points. In contrast, the district performance level of students experiencing homelessness and students with disabilities is at the lowest level. The following are student groups within a school that received the lowest performance level for ELA:

Buena Park Middle School: English Language Learners, homeless

Pendleton Elementary School: English Language Learner, Students with Disabilities

Whitaker Elementary School: English Language Learners, Students with Disabilities, Hispanic, Low-income

In response to the low ELA performance levels, the District has thoughtfully revised its Multi-Tiered System of Supports (MTSS) to align with the California MTSS framework, emphasizing enhanced tier supports.

The District has taken a year to develop a Multi-Tiered System of Support (MTSS) designed to provide a clear roadmap for effective academic interventions at every level. This system is structured into three tiers defined by distance from grade level, durations, and frequency: Tier 1 focuses on evidence-based, first-best instruction delivered to all students; Tier 2 offers targeted remedial instructional support for students who require additional help; and Tier 3 provides intensive support tailored to the needs of individual students who face the greatest challenges. Instructional coaches are integral to enhancing the quality of both Tier 1 and Tier 2 instruction, ensuring that all teaching is effective and aligned with best practices. Additionally, learning coaches will deliver direct, targeted instruction to those in need. To support this framework, the District conducted a thorough curriculum audit to evaluate the effectiveness of current materials. Based on this research, curriculum selections were made to include foundational reading skills grounded in the science of reading, as well as materials that support authentic, culturally responsive texts and methods aimed at developing comprehension skills.

The District has identified foundational reading skills as a central focus area, underscoring our commitment to enhancing literacy across all grade levels. To ensure that every student receives the best possible first instruction, a coaching model is being developed to equip classroom teachers with the skills necessary to deliver effective Tier 1 initial instruction and Tier 2 targeted interventions. These interventions address the specific needs of students who require an intensive program to achieve reading proficiency. This dual approach ensures that all students have the support they need to succeed in developing essential reading skills.

Learning Coaches will receive PD focused on the curriculum and strategies essential for elevating the reading skills of students significantly behind their expected level. All teachers will engage in professional development sessions designed to deepen their understanding of how students learn to read, the critical foundational skills involved, and how to best utilize resources and strategies.

Additionally, diagnostic screeners, along with formative and summative assessments, play a crucial role in effective instruction across all tiers. To ensure data-driven instructional decisions, teachers will continue to refine their practices and receive additional protected time for collaboration. This allows grade-level teams to analyze student work, assess student needs accurately, and plan lessons effectively.

## Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

The Buena Park School District is eligible for Differentiated Assistance(DA) due to the increase in suspension rate and chronic absenteeism of our African American students. The DA is to address multifaceted challenges within the learning environment, aiming to foster a more equitable, engaging, and supportive learning community for all students, especially our students of color, who experience an increasing rate of chronic absenteeism and suspension. In partnership with the Orange County Office of Education, the district works to refine the systems and define specific supports and solutions that address the unique needs of our students of color and

other students not represented by the mainstream. Focus areas include:

- Analyzing data from all subgroups to ensure equitable support.
- We are implementing strategies to increase both emotional and cognitive engagement to reduce absenteeism.
- Simultaneously decreasing suspension rates while boosting academic achievement.

The following is a summary of the planned outcomes from the DA work with our County partners:

1. Analyzing Data from All Subgroups: We focus on gathering and analyzing data across various demographic subgroups within the student population, including performance, attendance, and behavioral metrics. This analysis helps identify patterns and disparities, allowing for targeted interventions that address specific challenges and ensure equitable support for all students.
2. Decreasing Suspension while Increasing Academics: To boost student engagement across the District, expand the use of Universal Design for Learning (UDL) strategies. Additionally, provide academic tutoring and targeted instruction to enhance engagement further and prevent disengagement.
3. Decreasing Absenteeism with Tiered Interventions: Our approach to reducing absenteeism includes incentives for attendance, clear policies, support for logistical barriers, and outreach to families. Increasing student and family engagement through culturally relevant social opportunities is crucial to motivating regular attendance.
4. Decreasing Suspension Using Alternative Corrective Measures: With County support, we are committed to restorative justice as an alternative to traditional disciplinary measures. We will continue to train staff in behavior management techniques and implement SEL programs that address root causes. Our strategy includes behavior response teams and school counselors trained in de-escalating problematic behaviors and helping students develop emotional management and self-advocacy skills.
5. Mentorship Program: Elevate the current mentorship program to include experienced mentors working with students to build strong, supportive relationships. This program is designed to help students navigate school challenges, enhance their academic and social skills, and connect them more deeply with the school community.

By organizing our efforts across these focused areas, we aim to create a more supportive, engaging, and equitable learning environment for all students. To effectively monitor efforts aimed at reducing suspensions and chronic absenteeism, several strategies are being planned to be implemented to ensure continuous progress and timely interventions:

1. Data Tracking System: Establish a robust data management system to track and analyze suspension rates and absenteeism patterns regularly. This system should be able to disaggregate data by student demographics, reasons for absenteeism or suspensions, and interventions applied.
2. Regular Data analysis: Develop a schedule for regular reports that provide insights into trends and problem areas. These reports should be shared with school leaders, staff, and parent groups to ensure transparency and collective responsibility.
3. Early Warning Indicators: Utilize an early warning system that flags students at risk of becoming chronically absent or frequently suspended. Factors such as academic performance, attendance records, and behavioral reports should be integrated into this system.
4. Feedback Loops: Create mechanisms for receiving feedback from students, families, and teachers about the effectiveness of interventions and the overall school environment. This could be through surveys, focus groups, or community forums.
5. Success Metrics: Define clear, measurable outcomes for interventions aimed at reducing suspensions and absenteeism. Regularly review these metrics to gauge success and adjust strategies as necessary.

6. Parent and Community Involvement: Engage parents and community members in monitoring and support efforts. Their involvement can increase accountability and provide additional resources and support for students.

By employing these strategies, schools can maintain a vigilant and responsive approach to managing and reducing suspensions and chronic absenteeism, ensuring that interventions are effective and students receive the support they need to succeed.

The District's partnership with the Orange County Office of Education has moved the District toward our goal of creating a more inclusive, supportive, and engaging learning environment that fosters all students' academic success and well-being. Strengthening systems that foster connectedness for students will reduce suspensions and chronic absenteeism for our African American students and other student subgroups.

## Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

### ***Schools Identified***

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

N/A

### ***Support for Identified Schools***

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

N/A

### ***Monitoring and Evaluating Effectiveness***

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

N/A

# Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
<p>All Educational Partners-            Site Administrators            District Administrators            Certificated Staff            Classified Staff            Parents from each school site in the district            District Office Staff            Parents and Community Members            DELAC Officers            SELPA Representative</p>	<p>A total of four LCAP meetings were held on November 30, 2023, January 18, 2024, February 29, 2024, and March 14, 2024 and were facilitated in collaboration with a consultant from OCDE.</p> <p>Meetings covered the following topics:</p> <ul style="list-style-type: none"> <li>• Overview of the purpose of Steering Committee</li> <li>• Background information on LCFF funds</li> <li>• A review of the purpose of LCAP and the timeline for completion to the Board of Education and OCDE</li> <li>• A review of district LCAP survey questions from the previous year to see if any questions needed to be added, updated, or were no longer relevant and should be removed from the 2024 survey</li> <li>• Internal data review and suggestions from educational partners based on most current CAASPP, iReady, ELPAC, and SEL Data</li> <li>• Review of 2024 LCAP survey results from parents including EO, ELL, and Unique Needs, Certificated/Classified staff, K-8th grade students, and site/district admin</li> <li>• Review of focus group feedback from parents including EO, ELL, and SWD, Certificated/Classified staff, K-8th grade students, and site/district admin</li> </ul> <p>* Overview and information on BPSD's Differentiated Assistance status.</p>

DELAC	A special LCAP overview was presented at a DELAC Meeting on April 26, 2024 to provide information on the LCAP Steering Committee findings and to gain further input from EL parents.
Governing Board and Community	<ul style="list-style-type: none"> <li>• Mid-Year Report was presented to the Governing Board at a regularly scheduled meeting on February 13, 2024</li> <li>• The 2024-25 LCAP draft will be posted publicly on the district website on June 7, 2024.</li> <li>• The 2024-25 LCAP draft will be presented at a regularly scheduled Board of Education meeting on June 10, 2024, for the Public Hearing.</li> <li>• The 2024-25 LCAP and Budget will be adopted at a regularly scheduled Board of Education meeting on June 24, 2024.</li> </ul>

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

The following is a summary of feedback provided directly by the LCAP Steering Committee comprised of multiple educational partners, including staff, parents (EO, English Learners, Low Socio-economic, Unique Needs), bargaining unit representatives from BPTA and CSEA in the areas of SEL, ELA/Math, Designated English language development, and other suggestions. In addition, advisory committee groups such DELAC gave input via surveys and feedback gathered during meetings. Feedback from our Director of Special Education, the SELPA Director, and parents of students with unique needs was also included.

Feedback on Priority 1

- Explore a math curriculum for middle school.
- Hire Counselors at each site
- Teacher PD on student discourse
- Recognizing biases- consistency
- Cultural learnings
- Further investigate if BPSD is disproportionately assigning IEPs to EL status
- Explore what appropriate tier 1 services should be provided
- All schools need an AP

- Career and college ready -beyond passion projects.

#### Feedback on Priority 2

- Vertical articulation: 5th grade to middle school
- Scope and Sequence for middle school.

#### Feedback on Priority 3

- Explore ways to enhance communication with families (re: importance of attending school)
- Ensure language access
- More welcoming routines for parents.
- Make it easy to engage more parents in the decision-making process (i.e. responding to the LCAP survey)
- Enhance communication with parents: On multiple items: i.e. available social-emotional supports available, student progress, student learning, etc.
- Parent information nights and trainings for middle school parents

#### Feedback on Priority 4

- Provide further support for SwD, LTEL and upgrade students with ELA and MATH
- Provide further support for English Learner students who are also SwD and eligible for McKinney Vento homeless student services
- Focus attention on deeper conceptual learning and developing the essential skills of problem-solving and critical thinking in preschool and TK

#### Feedback on Priority 5

- Explore transportation issue needs for homeless and foster youth
- Further understand and support students in various subgroups with belonging and engagement
- Identify ways to encourage students coming onto campus

#### Feedback on Priority 6

- Increase support for SEL services/programs in middle school and upper elementary grades
- Focus on Belonging & Engagement
- Provide Alternatives to Suspension/Other means of correction
- Restorative Practices
- Cultural learnings
- Provide mini lessons within the TK/K classroom to help with social-emotional skills.
- Provide SEL lessons for upper Elementary Students
- Provide McKinney Vento/Foster Mentors

A number of actions in our LCAP plan were influenced by our various educational partner groups including:

#### Goal 1

- Middle School Classroom Mathematics Materials

- \* MTSS Tiered Intervention Systems and Supports
- \* Reading and writing workshop professional learning specific to site needs
- \* Professional Development for Tier 3 Intervention
- \* Professional Development for Professional Learning Communities
- \* Professional Learning Time for teachers to analyze student work and share effective strategies
- \* Math Professional Development on CGI

#### Goal 2

- \* Special Education Support Staff
- \* Elementary PE time to provide PLC time for classroom teachers to have PLC
- \* Instructional Coaches
- \* Kindergarten Support
- \* Early Learning Department

#### Goal 3

- \* STEM Instruction and PD
- \* Passion Programs
- \* District Passion Programs
- \* Middle School College Course
- \* Music Instruction Teacher

#### Goal 4

- \* Student Engagement and Outreach Clerk to address chronic absenteeism
- \* Parent Workshops
- \* LCAP Advisory Groups
- \* Enhanced Student Climate
- \* Program Specialist
- \* Behavior Response Team
- \* Middle School Guidance Specialist
- \* School Climate
- \* Welcoming Campus Environment

In summary, the feedback from our educational partners has significantly influenced our initiatives and resource allocation towards enhancing academic support. This includes targeted interventions, the introduction of instructional coaches, and the provision of professional development opportunities. Their input also highlighted the necessity of revisiting the math curriculum in middle schools, a process guided by teacher-led evaluations and selections.

Moving forward, our commitment to professional development in CGI Math and Reading and Writing Workshop remains steadfast, complemented by ongoing coaching from instructional coaches and Cotsen Mentors in core content areas. Furthermore, in response to our

educational partner requests, we are continuing counselor support across all sites and implementing SEL surveys and lessons for students. In alignment with parent feedback, we're expanding parent training workshops and engagement opportunities to better assist students in both academic and social-emotional realms.

Our dedication to behavior support continues, with the establishment of behavior teams and planned professional development in restorative practices. Consequently, our efforts are geared towards fostering authentic parent engagement through sustained parent workshops and leadership opportunities.

# Goals and Actions

## Goal

Goal #	Description	Type of Goal
1	Develop critical competencies in ELA, math, and language proficiency using evidence-based instruction tailored to increase cognitive engagement for all students while diminishing disparities among subgroups, such as multilingual and multicultural learners, low-income students, students with disabilities, and foster youth.	Broad Goal

**State Priorities addressed by this goal.**

- Priority 1: Basic (Conditions of Learning)
- Priority 2: State Standards (Conditions of Learning)
- Priority 4: Pupil Achievement (Pupil Outcomes)
- Priority 7: Course Access (Conditions of Learning)

**An explanation of why the LEA has developed this goal.**

The goal was developed following input from educational stakeholders, including the LCAP Steering Committee, composed of a variety of educational partners, who reviewed both state and local data. Examination of CAASPP and i-Ready results highlighted the necessity for continuous efforts to diminish the achievement gap among student subgroups, aiming to guarantee proficiency in grade-level standards for all students.

2023 CAASPP ELA data:  
 The overall Performance Level Color was Orange (-26 points below standard) in ELA.

- English Learners: -57.3 points Distance from Standards (DFS)
- Socioeconomically Disadvantaged: - 41.5 points DFS
- Foster Youth: - 76.7 points DFS

2023 CAASPP Math data:  
 The overall Performance Level Color was Yellow (-46.3 points below standard) in ELA.

- English Learners: -72.3 points Distance from Standards (DFS)
- Socioeconomically Disadvantaged: - 62.3 points DFS
- Foster Youth: - 61.8 points DFS

Progress towards language proficiency based on ELPAC for our ELLs was 50.4% in 2023.

For the 23-24 school year, the Winter i-Ready data results indicate that:

- Overall, 44% of students are on or above grade level in reading, and 35% are on or above grade level in math, again showing a need to increase academic proficiency for all students.

- Our subgroup data showed that the percentage of English learners on or above grade level in reading was 17%, and 14% are on or above grade level in math.
- The percentage of socio-economically disadvantaged students on or above grade level in reading is 39%, and 28% are on or above grade level in math.
- For students with disabilities, 13% were on or above grade level in reading, and 12% were on or above grade level in math.
- For students identified as foster, 12% are on or above grade level in reading, and 13% are on or above grade level in math.
- For students identified as homeless, 24% are on or above grade level in reading, and 12% are on or above grade level in math.

The data highlights the necessity to enhance academic proficiency. The district will enhance both academic and language proficiency by implementing actions aimed at supporting and enhancing student learning, with a particular focus on English Language Learners (ELLs), students from low socio-economic backgrounds, foster youth, and those with special needs.

Progress will be assessed using the metrics outlined below.

## Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
1.1	CAASPP ELA - Distance from Standard (DFS) Source: CA Dashboard and DataQuest	Overall Performance Level Color: Orange Overall DFS: -26 points below standard  Subgroups DFS: <ul style="list-style-type: none"> <li>• Socioeconomically Disadvantaged*: -41.5</li> <li>• English Learners*: -57.3</li> <li>• Students with Disabilities: -120.2</li> <li>• Homeless: -84.4</li> </ul>			Overall District Performance in CAASPP-ELA will increase by 3 points or performance level annually. ## Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Base Materials	Supplemental curriculum to support math, foundational literacy skills, reading and writing, and foreign language studies.	\$225,622.00	No
1.2	iReady Diagnostic and Instruction	The iReady diagnostic tool will function as a district benchmark to monitor students' progress in Reading and Math across for all students across grade levels including EL students, low socio-economic students, foster youth, and special education students., serving as a metric comparable to CAASPP assessments. Supplemental instructional materials will include iReady lessons.	\$148,245.00	Yes
1.3	Middle School Classroom	Mathematics classroom materials which are culturally responsive to increase academic discourse and connection to the shifts in mathematical	\$17,378.00	No

Action #	Title	Description	Total Funds	Contributing
	Mathematics Materials	instruction for all students including EL students, low socio-economic students, foster youth, and special education students.		
1.4	ELD Supplemental Materials	Supplemental ELD curriculum needs as our English Learner population fluctuates, including student workbooks and online resources. Emphasis will be placed on supporting Long-Term English Learners (LTELs) to ensure they receive the additional resources and support.	\$7,000.00	Yes
1.5	MTSS Tiered Intervention Systems and Supports	Students will have tiered support to increase academic progress. These supports will be structured according to the Multi-Tiered System of Supports (MTSS) framework, encompassing a range of interventions tailored to meet the diverse needs of all students including EL students, low socio-economic students, foster youth, and special education students.	\$62,280.00	Yes
1.6	Reading and Writing Workshop Professional Learning	Reading and Writing Workshop Professional Learning specific to site needs to support all students including EL students, low socio-economic students, foster youth, and special education students.	\$57,540.00	Yes
1.7	Professional Development for Tier 3 Reading Intervention	Professional development will target Tier 3 reading intervention, intervention curriculum, effective strategies, and alignment with the BPSD CARE Roadmap to strengthen foundational literacy skills for all students including EL students, low socio-economic students, foster youth, and special education students.	\$41,380.00	Yes
1.8	Professional Development for Professional Learning Communities	Site leaders and teachers Pre-K - 8th grades will increase practices related to PLC instructional inquiry model for determining essential standards, common assessments, evidence-based practices, and data analysis, leading to direct interventions and enrichments to meet the needs of our English Learners, low-income students, and foster youth. EDI data I-ready assessment data and will be utilized to determine student strengths and needs.	\$65,000.00	No

Action #	Title	Description	Total Funds	Contributing
<b>1.9</b>	ACCESS	Tuition expense for students enrolled in the Orange County ACCESS Program, which provides an alternate educational option for students for whom the traditional school setting has not met their needs.	\$310,000.00	No
<b>1.10</b>	Professional Learning Communities	Teachers will have PLCs to work together to analyze student data, share instructional strategies, and develop interventions to support student success based on BPSD's CARE Roadmap to support all students including EL students, low socio-economic students, foster youth, and special education students.	\$1,051,879.00	Yes
<b>1.11</b>	Math Professional Development	Professional development in the Cognitively Guided Instruction (CGI) approach will be provided to educators, focusing on enhancing their understanding and implementation of CGI. CGI emphasizes the development of children's mathematical ideas and provides opportunities to build on their own thinking and understanding to support all students, including English Learners, foster youth, and low-income students.	\$30,000.00	Yes

# Goals and Actions

## Goal

Goal #	Description	Type of Goal
2	Highly qualified staff will deliver standards-based instruction and support district systems designed to increase cognitive engagement for all students, especially those with unique needs, within clean, well-maintained school facilities that foster a positive learning environment.	Broad Goal

State Priorities addressed by this goal.

<p>Priority 1: Basic (Conditions of Learning)</p> <p>Priority 2: State Standards (Conditions of Learning)</p> <p>Priority 4: Pupil Achievement (Pupil Outcomes)</p> <p>Priority 7: Course Access (Conditions of Learning)</p>
---

An explanation of why the LEA has developed this goal.

<p>The goal was shaped by insights from the School Facilities Dashboard report, LCAP Survey, and report on Fully Credentialed and Appropriately Assigned Teachers and professional development needs. It aims to ensure clean, well-maintained facilities conducive to learning, while empowering highly qualified staff to deliver standards-based instruction and support systems that engage all students, especially those with unique needs. The targeted professional development aims to enhance staff capacity to deliver standards-based instruction that engages all students, with particular attention to those with unique needs. Through this multifaceted approach, the goal seeks to create an inclusive and enriching learning environment where every student can thrive academically and personally.</p> <p>Progress will be assessed using the metrics outlined below</p>
---

## Measuring and Reporting Results

## Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Special Education Support Staff	Staff to provide intensive intervention for students in special education including EL students, low socio-economic students, and foster youth.	\$317,845.00	Yes

Action #	Title	Description	Total Funds	Contributing
2.3	Class Size Reduction	Create smaller class sizes in the primary classes, K-3rd grade, and 6th-8th, to provide students with more individualized support to improve academic outcomes for students in need of language development support, such as English language learners, students with disabilities, foster youth, and low-income students.	\$1,221,968.00	Yes
2.4	Elementary PE Teachers	Elementary PE teachers and instructional aides will be provided beyond the district's staffing ratio. During PE sessions, classroom teachers will engage in PLCs to analyze data and refine instructional strategies. This will allow timely remediation and targeted instruction tailored to the needs of low-income students, foster youth, and English Learners, all based on data-driven insights.	\$678,093.00	Yes
2.5	Instructional Coaches	Provide instructional support and coaching to teachers in elementary sites to strengthen Tier 1 instruction and to increase academic achievement in ELA/ELD and/or math for all students, including our English language learners, foster youth, and low socio-economic students.	\$494,852.00	Yes
2.6	Kindergarten Support	Enhance the kindergarten support by implementing Instructional Assistants (IAs) dedicated to providing differentiated support. IAs will offer support tailored to the diverse learning needs of kindergarten students, ensuring that all students, including our English language learners, foster youth, and low socio-economic students. receives the attention and guidance necessary for their academic growth and development.	\$305,353.00	Yes
2.7		.		
2.8	Library Media Clerks	Library Media Clerks support student access to high quality curriculum. materials, resources, and technology. Library media clerks will ensure that foster youth, English learners, and low-income students to have access to quality literature that represents our	\$416,812.00	Yes

Action #	Title	Description	Total Funds	Contributing
		students, and their interests, is aligned with the subject matter, and their level of reading is imperative for the mastery of grade-level standards.		
<b>2.9</b>	Ed. Services Division	The Chief Academic Officer and Director of Curriculum and Instruction provide guidance in the implementation of district-adopted curriculum, instructional practices, and assessment of student academic progress. A percentage (Chief Academic Officer 20% and Director of Curriculum and Instruction 10%) of the division's time will be utilized to address the specific and unique needs of foster youth, English learners, and low-income students when identifying best practices; core adopted textbooks, materials, resources, and professional learning opportunities.	\$130,513.00	Yes
<b>2.10</b>	Tier 2 Intervention	Students will have Tier 2 intervention in targeted skills in a small group setting to increase academic progress. These supports will be structured according to the Multi-Tiered System of Supports (MTSS) framework, encompassing a range of interventions tailored to meet students' diverse needs of all students including EL students, low socio-economic students, foster youth, and special education students.	\$621,251.00	Yes
<b>2.11</b>	District Support Services	Staff within each department (Human Resources, Business, Operations, Educational Services, Operations, Custodial, and Safety) will collaborate to assist school sites in ensuring quality instruction and maintaining a safe, positive learning environment.	\$7,847,930.00	No
<b>2.12</b>	Technology	To ensure that English Learners, low-income students, and foster youth, and teachers continue to build upon innovative practices that move up the SAMR model, sites will have increased technology support.	\$1,026,676.00	Yes

Action #	Title	Description	Total Funds	Contributing
2.13	Systematic and Strategic Use of Data	The use of a district coordinator to support, increase and improve services for at-promise students (low-income, foster youth, and English Language Learners, not reaching grade-level expectations by implementing the PLC inquiry model for determining students' needs.	\$179,958.00	Yes
2.14	Early Learning Department	Provide additional support for State preschool program development and implementation across all elementary sites. Preschool staff will ensure that all students, including English learners, low socioeconomic, and foster youth, are actively encouraged to enroll in preschool programs. In addition, BPSD recognizes the barriers to accessing early education for our low-income students, foster youth, and English Language Learners; therefore, this action will be principally directed to unduplicated pupils, and they will take priority in enrollment. Our program will include district-wide curriculum alignment to ensure a consistent progression of instruction between grade levels, PK through 3rd (P-3). This P-3 alignment is a key feature of the UPK implementation plan and ongoing actions with district curriculum, instruction, and data analysis. The district will use the Early Development Index (EDI) to monitor student progress and increase awareness and engage parents in improving outcomes for their young children. These actions will make an important contribution to ensuring that all young children and their families have the necessary services to be successful academically and with their social-emotional learning.	\$121,830.00	Yes
2.15	Transportation	Bussing services for all students including ELL, low socio economic, Foster youth students who do not live within a safe walking distance from their school.	\$1,067,946.00	Yes
2.16	Special Education Transportation	Bussing services for special education students who do not live within a safe walking distance from the school that provides the services designated in the IEP. This includes transportation to students enrolled in non-public schools.	\$274,531.00	No

# Goals and Actions

## Goal

Goal #	Description	Type of Goal
3	Increase student outcomes through impactful instruction of core subjects and expand college and career pathway programs.	Broad Goal

State Priorities addressed by this goal.

- Priority 1: Basic (Conditions of Learning)
- Priority 2: State Standards (Conditions of Learning)
- Priority 4: Pupil Achievement (Pupil Outcomes)
- Priority 7: Course Access (Conditions of Learning)
- Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

The goal to increase student outcomes through impactful instruction of core subjects and expand college and career pathway programs is deeply rooted in feedback from a variety of educational stakeholders. This feedback includes data from district-wide LCAP Surveys, recommendations from the LCAP Steering Committee, insights gained from focus group interviews, and specific data from PFT and CAST-Science assessments. Educational partners have expressed a clear desire to expand College and Career Readiness programs, highlighting a community-wide interest in enhancing educational offerings that prepare students for post-secondary success. This is further supported by the 2023-24 LCAP Student Survey results, which show strong student engagement and satisfaction with existing programs that promote college and career readiness:

- 91% of students reported having access to programs and services such as after-school sports, which contribute to a well-rounded educational experience.
- 94% confirmed that their schools offer elective classes designed to help them explore future career interests, indicating a robust framework to support career exploration.
- 96% stated that their schools provide opportunities to take honors or advanced courses, which are crucial for academic advancement and college preparation.

These survey results not only validate the existing programs but also underscore the need for continued and expanded efforts in these areas. The goal of enhancing instruction and expanding pathway programs directly addresses these needs and desires, ensuring that all students have the resources and opportunities to excel academically and prepare for future careers. Progress towards this goal will be meticulously assessed using the metrics provided, ensuring that the programs not only exist but are effective and continue to meet the evolving needs of students.

Progress will be assessed using the metrics outlined below.

## Actions

Action #	Title	Description	Total Funds	Contributing
3.1	STEM Instruction and PD	School sites will provide professional development designed to increase content knowledge of STEM, including but not limited to training, coaching, and planning for math and science content and instructional strategies that engage our English Learners, low-income students, and foster youth with diverse needs. Sites will also create unique	\$57,540.00	Yes

Action #	Title	Description	Total Funds	Contributing
3.2	Outdoor Science Camp	6th grade students will have an opportunity to experience science instruction in a setting most conducive to learning STEM by attending an overnight outdoor science camp. This provides greater access for students with disabilities, foster youth, English Learners, and low income students.	\$258,000.00	Yes
3.3	Passion Programs /CTE Pathways	Each site will have a well-defined and articulated school focus that complements, extends, and enriches the core curriculum for all students including EL students, low socio-economic students, foster youth, and special education students. Readiness knowledge skills, college career exploration, community partnerships, and highly trained staff are the hallmark of each site's passion program.	\$67,500.00	Yes
3.4	District Passion Programs / CTE Pathways	To promote college and career readiness for all students including EL students, low socio-economic students, foster youth, and special education students, staff will receive training and support for the IB Primary Years Programme (PYP), alongside the implementation of AVID strategies.	\$215,685.00	Yes
3.5	GATE	District-Wide GATE Allocation	\$44,350.00	No
3.6	GATE Scholar Program	Providing increased access to GATE program for English Learners, foster youth, and economically disadvantaged students,	\$7,500.00	Yes
3.7	Middle School College Course	Partnership with Fullerton College that allows middle school students to enroll in college courses and access the necessary textbooks, resources, and materials in support of low-income students, English Learners, and foster youth.	\$14,149.00	Yes
3.8	Alternative Learning Programs	Independent Studies - Virtual program provides virtual teaching and learning model of standards based instruction.	\$35,000.00	No

Action #	Title	Description	Total Funds	Contributing
<b>3.9</b>	Outdoor Wellness Activities	Increase the health and wellness of students by adhering to the mandated instructional minutes for outdoor physical activities with extra attention given to inclusive activities designed to increase skills, build stamina, and promote positive peer interaction for all students including EL students, low socio-economic students, foster youth, and special education students.	\$19,180.00	Yes
<b>3.10</b>	Elementary Music Instruction Teacher	Students, including foster youth, English language learners, and low-income students, will have access to standards-aligned music instruction representative of the school's cultures, traditions, and celebrations.	\$174,138.00	Yes
<b>3.11</b>	Educational Programs	The Director of Educational Services provides support district-wide to various district programs such as Expanded Learning Opportunities, GATE Instruction, and interventions. Educational Programs focus on support systems for Students with Disabilities, English Learners, low-income students, and foster youth, including academic intervention, wellness, and enrichment activities.	\$258,216.00	Yes
<b>3.12</b>	Program Specialist	To enhance the development of elementary passion programs and CTE Pathways at the middle schools for all students including EL students, low socio-economic students, foster youth, and special education students., staff will support programs created to capture students' personal interests and provide experiences designed to elevate academic skills while developing their strengths and talents.	\$474,064.00	Yes

# Goals and Actions

## Goal

Goal #	Description	Type of Goal
4	Promote emotional engagement and connectedness among students, families, and staff by fostering safe and culturally responsive learning environments.	Focus Goal

State Priorities addressed by this goal.

- Priority 3: Parental Involvement (Engagement)
- Priority 4: Pupil Achievement (Pupil Outcomes)
- Priority 5: Pupil Engagement (Engagement)
- Priority 6: School Climate (Engagement)
- Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

Promoting emotional engagement and connectedness among students, families, and staff by fostering safe and culturally responsive learning environments is an essential goal for school districts within the Local Control and Accountability Plan (LCAP). This initiative is crucial as data from the district highlights disparities in suspension rates and chronic absenteeism, which can be mitigated by enhancing student connectedness and the inclusivity of the educational setting. Culturally responsive practices and the establishment of secure, supportive environments encourage students to participate actively and feel valued within their educational community. This not only leads to improved academic outcomes but also reduces behavioral issues and absenteeism.

Suspension and chronic absenteeism data by student subgroups at the district level and within schools substantiates the need for a goal that promotes specific strategies designed to eliminate disparities and increase attendance for all students if necessary. Additionally, student, parent, and staff surveys also indicate a need to continue efforts that are in place that are supportive of safe and healthy habits of mind and body, connections with adults, and parent engagement. By integrating family and staff into the development of this goal, the school strengthens its community, enhancing communication and cooperation, which are pivotal for sustaining student cognitive and emotional engagement, which is critical to academic success.

Progress will be assessed using the metrics outlined below.

## Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
4.1	Attendance Source: Calpads	Attendance rate to date (August 2023 - March 2023) for 23-24 school year to date is 93.59% <ul style="list-style-type: none"> <li>• Students with Disabilities: 91.86%</li> <li>• Homeless: 88.14%</li> <li>• Foster: 94.88%</li> <li>• English Learner: 94.14%</li> <li>• Race-African American: 88%</li> </ul>			Improve overall attendance rate to 96%.  Improve sub-group attendance rate 3% or higher.	
4.2	Chronic Absenteeism Source: Dashboard	2023 Dashboard: 24.7% of students are considered chronically absent. Performance Level: Orange  Subgroups: <ul style="list-style-type: none"> <li>• Socioeconomically Disadvantaged : 27.1%</li> <li>• English Learners: 24.2%</li> </ul>			Overall District Performance level in Chronic Absenteeism will improve by 3% or performance level.  Each Subgroup in Chronic Absenteeism will improve by 3%.

## Actions

Action #	Title	Description	Total Funds	Contributing
4.1	Student and Community Services:	The Department of Student and Community Services is committed to effectively boosting the district's daily attendance rate through the multi-tiered system of support and intervention for all students including EL students, low socio-economic students, foster youth, and special education students. This comprehensive approach encompasses awareness initiatives, recognition, and proactive and responsive measures programs.	\$483,095.00	Yes
4.2	Student Engagement and Outreach Clerk	To address the need to improve Chronic Absenteeism for all students, specifically African American Two or More Races, Foster Youth, Students experiencing homelessness, and Students with Disabilities, a Student Engagement and Outreach Clerk will be at each site to provide support to students and families to improve attendance.	\$195,697.00	Yes

Action #	Title	Description	Total Funds	Contributing
4.3	Middle School Attendance Clerks	The middle school attendance clerks will track student attendance daily and periodically to monitor it closely. This will help identify patterns of chronic absenteeism and share this data with staff and parents in a timely manner. By prioritizing attendance tracking, the goal is to adopt a proactive approach, improve communication with families, and better determine effective interventions and supports. This intentional monitoring extends to all students, including English language learners, foster youth, low-income students, and students with exceptional needs.	\$193,190.00	Yes
4.4	Continuum of Mental Health Support Staff	Site school psychologists and site counselors will provide direct intervention tailored to the specific needs of students, as identified through diagnostic assessments. Student outcomes will be closely monitored and documented. Culturally responsive school-based intervention and other evidence-based strategies, a curriculum designed to meet the needs of our student subgroups, including English Learners, low-income students, and foster youth who often have limited access to mental health supports outside of school.	\$1,226,065.00	Yes
4.5	Nurses and Health Services	School nurses and health care aides provide access to basic health care and support, helping to bridge disparities in health access and promote overall student well-being for students with disabilities, English language learners, and foster youth.	\$635,022.00	Yes
4.6	Parent Workshops	Parent workshops from PK-8th grade will increase a family's ability to support student academics, wellness, and social-emotional development. This will prepare parents to be leaders in supporting site and district academic and SEL goals, focusing on the specific needs of foster youth, low-income students, English Language Learners, and students with disabilities.	\$43,210.00	Yes
4.7	LCAP Advisory group	The District will partner with OCDE to collect and analyze educational partner data from parents, students, and staff, to inform the BPSD instructional program plans, and to facilitate advisory group meetings to	\$23,438.00	No

Action #	Title	Description	Total Funds	Contributing
		ensure that the LCAP responds to the needs of our students, staff, and parents.		
<b>4.8</b>	Translation and Interpreting Services	Additional translating and interpreting support will be provided to English Learner families to better access information and resources, and to facilitate communication. Services will allow for greater support of Student with , English Learners, low-income students, and foster youth.	\$196,846.00	Yes
<b>4.9</b>	Enhanced Condition of Learning	Schools will create a fair, respectful, and inclusive school climate that creates a sense of belonging for students and families by implementing tiered PBIS, social-emotional learning, alternative to suspensions such as restorative practices, anti-bias culturally responsive strategies, trauma-sensitive, and authentic engagement for students, families, and the community. Middle School Assistant Principals will support school operations, safety, implementation of PBIS, SEL, restorative practices, family engagement, and community partnerships for English Learners, low-income students, and foster youth.	\$377,399.00	Yes
<b>4.11</b>	Behavior Response Team	A behavior support team, comprised of a Behavior Specialist, an Instructional Assistant for Behavior, and a Board Certified Behavior Analyst (BCBA), will provide Tier 3 intervention support for students (Special Education and General Education) with behavioral needs. This team will also train site staff on effective behavior modification strategies. A review of various data points indicates that English Learners, low-income students, and foster youth often experience levels of emotional stress that can manifest in disruptive behaviors, impeding their academic success.	\$232,376.00	Yes
<b>4.12</b>	Middle School Guidance Specialist	Guidance Specialists at each middle school focus on the wellness of English Learners, low-income students, and Foster Youth at the middle schools and serve in the capacity of a mentor. They monitor school activities throughout the day.	\$128,635.00	Yes

Action #	Title	Description	Total Funds	Contributing
<b>4.13</b>	Positive School Climate	Schools will create a fair, respectful, and inclusive school climate that creates a sense of belonging for all students including EL students, low socio-economic students, foster youth, special education students, and families by implementing tiered PBIS, social-emotional learning, restorative practices, anti-bias culturally responsive strategies, trauma-sensitive, and authentic engagement for students, families, and the community. Staff will support with training and implementation related to cultural competencies, PBIS, SEL development, restorative practices, family engagement, and increasing community partnerships.	\$38,360.00	Yes
<b>4.14</b>	TOSA Special Projects	TOSA- Special Projects will provide support to district educational programs. Educational Programs focus on support systems for English Learners, low-income students, and foster youth, including academic intervention, wellness, and enrichment activities.	\$188,182.00	Yes
<b>4.15</b>	Wellness Teacher on Special Assignment	The Teacher on Special Assignment (TOSA) will provide input for and oversee physical and social-emotional wellness initiatives, including monitoring nutrition grants. These grants, intended for student wellness programs, will be managed to support initiatives like gardening. Additionally, staff will facilitate a district wellness committee to ensure wellness initiatives are implemented across all sites. This comprehensive approach aims to promote holistic student development and improve academic and personal success for all students including English Learners, low-income students, and foster youth, including academic intervention, wellness, and enrichment activities.	\$39,004.00	No
<b>4.16</b>	Well-Maintained and Welcoming Campus Environment	Creating welcoming spaces that are well-maintained, clean, and free of weekend and evening litter, graffiti, and the effects of vandalism is critical to a positive learning environment. This includes designing and maintaining outdoor learning spaces that complement the District STEAM program and wellness initiatives targeted to the specific needs of English Learners, Foster Youth, and Low-income students at each school site.	\$244,511.00	Yes

Action #	Title	Description	Total Funds	Contributing
4.17	Specialized Staff	A positive school climate is supported by the partnership with community members. SROs will collaborate with school staff to maintain a positive learning environment and provide mentoring support to students. Crossing Guards will assist students in safely navigating traffic near school premises, prioritizing their safety during arrival and departure times. These measures aim to enhance student well-being and help to create an educational environment conducive to learning and growth for all students.	\$247,000.00	No

# Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students [2024-25]

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p><b>Need:</b> This action is provided to benefit all students districtwide. However, BPSD recognizes the barriers to accessing early education for our low-income students, foster youth, and English Language Learners; therefore, this action will be principally directed to unduplicated pupils, and they will take priority in enrollment.</p> <p>The Early Development Index (EDI) is used to monitor student progress and increase awareness and engage parents in improving outcomes for their young children. These actions will make an important contribution to ensuring that all young children and their families have the necessary services to be successful academically and with their social-emotional learning.</p> <p>This goal was supported by our most current Early Development Instrument (EDI) data from 2021-2022, which is conducted every three years.</p> <p>Our EDI data on each of the 5 domains in the Developmental Area show:(Children are considered "on track" if their scores are above the 25 percentile)</p> <p>*49% of BPSD students are ready "On Track" for Kindergarten, lower than the Orange County rate of 52.9%. *Physical Health and Well-being: 68% On Track *Social Competence: 75% On Track</p>	<p>development with instructional support provided by district staff to increase language and literacy development for English language learners, foster youth, and low-income students. Our program includes district-wide curriculum alignment to ensure a consistent progression of instruction between grade levels, PK through 3rd (P-3). This P-3 alignment is a key feature of the UPK implementation plan and ongoing actions with district curriculum, instruction, and data analysis.</p>	

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>*Emotional Maturity: 74% On Track            *Language and Cognitive Development: 73% On Track            *General Knowledge and Communication: 73% On Track            *Advanced Literacy Skills: 87% Ready/Somewhat Ready            *Basic Numeracy: 87% Ready/Somewhat Ready            *Communication Skills &amp; General Knowledge: 57% Ready/Somewhat Ready            *Gross &amp; Fine Motor Skills: 57% Ready/Somewhat Ready            *Prosocial &amp; Helping Behavior: 67% Ready/Somewhat Ready            *Overall Social Competence: 87% Ready/Somewhat Ready</p> <p>In addition, iReady Data is also analyzed for this action.</p> <p><b>Scope:</b> LEA-wide</p>		
2.15	<p><b>Action:</b> Transportation</p> <p><b>Need:</b> Many of our school sites and neighborhoods have hazardous conditions such as proximity to freeways, water channels, major boulevards that are heavily congested, railroad crossings, and far distances from students' home school that would make it unsafe for students to walk to/from daily. In addition, our district data</p>	<p>In order to mitigate these safety concerns, transportation will be provided free of cost to all students, prioritizing unduplicated pupils who may be especially impacted in accessing school and other enrichment activities without transportation.</p>	<p>4.1 Attendance Rate 4.2 Chronic Absenteeism Rate</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>shows that there is a continuous need to increase student engagement, as shown by our attendance rate of 93.59%, and decrease the chronic absenteeism rate at 24.7%, according to the 2023 CA Dashboard. By providing transportation, we expect to see improvement in both.</p> <p><b>Scope:</b> LEA-wide Schoolwide</p>		
3.1	<p><b>Action:</b> STEM Instruction and PD</p> <p><b>Need:</b> The current scores from the California Science Test (CAST) highlight a significant gap between the science knowledge of 5th and 8th-grade students and the expected grade-level standards, emphasizing the need for targeted professional development in STEM. Overall, only 28.08% of students in these grades met or exceeded the science standards, indicating a widespread need for enhanced instructional strategies and content knowledge among educators.</p> <p>The need for professional development becomes even more apparent when examining the performance of specific student subgroups, where the disparities are more pronounced: English Language Learners achieved a mere 4.5%, students with disabilities scored only 3.77%, socio-economically disadvantaged students reached</p>	<p>This training will encompass coaching and strategic planning for math and science education, focusing on instructional methods that actively engage diverse student groups such as English Learners, low-income students, and foster youth. Such targeted professional development ensures that teachers are equipped with effective strategies to meet the varied learning needs and styles of all students, optimizing their educational outcomes in crucial STEM fields. Additionally, sites should create unique opportunities that foster an inclusive learning environment, allowing students from all backgrounds to thrive in their understanding and application of STEM concepts.</p>	3.2 CAST

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>23.29%, and homeless students scored 11.63%. These statistics underscore the urgency of providing educators with specialized training and resources that cater to the diverse needs of their students, particularly those who are most vulnerable, to bridge these gaps and elevate their scientific understanding and skills.</p> <p><b>Scope:</b> LEA-wide</p>		
3.2	<p><b>Action:</b> Outdoor Science Camp</p> <p><b>Need:</b> There is a pressing need to ensure equity across the District by providing learning experiences that enhance standard-based science and STEM instruction. Currently, such educational opportunities are limited, and without deliberate intervention, students in various parts of the District may lack access to these critical areas of learning. Enhancing these programs is essential to prepare students for future technological and scientific challenges, fostering a well-rounded education that equips them with the necessary skills for the evolving job market and higher education. 28.08% of students in grades 5 and 8 met or exceeded standards for science.</p> <p>Subgroups:</p> <ul style="list-style-type: none"> <li>• ELLs: 4.5%</li> <li>• Socio-Economically Disadvantaged: 23.29%</li> </ul>	<p>By ensuring that all District 6th grade students experience standard-based instruction in an environment most conducive to learning grade-level science, such as attending a science camp, students can engage in hands-on, experiential learning that deepens their understanding of scientific concepts. This immersive experience not only reinforces classroom instruction but also enhances critical thinking, problem-solving skills, and fosters a greater appreciation for the natural world, all of which are integral to developing a strong foundation in science.</p>	<p>3.3 Student Survey 3.2 CAST Data</p>

	<p>category. Additionally, the report notes geographic disparities within the county, with Buena Park having a higher rate of uninsured children compared to other areas.</p> <p>There is also a correlation between student health and low rates of chronic absenteeism. The 2023 Dashboard reveals that 24.7% of our students are chronically absent. There is a notable disparity in chronic absenteeism rates among various student subgroups within the District, including English language learners, students with disabilities, Hispanic students, and African American students.</p> <p><b>Scope:</b> LEA-wide</p>	<p>Connecting Families with Healthcare Services in the Community Developing and Implementing Individualized Healthcare Plans</p> <p>It is important to have services district-wide and school-wide for quick and efficient access to healthcare, which is necessary for the majority of our students and families. All District schools are Title I. Therefore, students across all schools will have access to these services.</p>	
4.6	<p><b>Action:</b> Parent Workshops</p> <p><b>Need:</b> Parents and caregivers are important partners in their child's education, and their knowledge is critical in reaching our vision of developing the whole child. Surveys suggest that parents and teachers see the value in parents understanding the academic goals and instructional strategies being taught in the classroom and how they can use the same strategies at home to support academic progress. Additionally, caregivers surveyed have shown interest in workshops covering topics like social-emotional learning (SEL), healthy habits, and personal growth. There is</p>	<p>By offering a wide range of topics with varying durations and settings, we enable parents and caregivers to engage in learning opportunities that best fit their schedules and learning preferences. This flexibility ensures that more parents can participate, increasing the likelihood that they will acquire the skills needed to support their children's academic and personal development. Additionally, the diversity in course content allows parents to deepen their understanding of different areas, from academic support strategies to personal growth and health. As parents enhance their knowledge and skills, they become more effective in guiding and supporting their children, thereby directly impacting their children's success and well-being. Ultimately, this tailored approach to parent education fosters a stronger, more supportive</p>	<p>4.7 Parent and Family Engagement Dashboard 4.10 Parent Participation for Students with Disabilities 4.11 Parent Workshop Attendance</p>

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	<p>also a need to develop a deeper understanding of the IEP process and parent rights for parents of students with disabilities. Parents and caregivers have requested the option to choose from a customized menu of courses, which allows them to focus on areas that directly align with their interests and needs.</p> <p><b>Scope:</b> LEA-wide</p>	<p>home environment that is conducive to student achievement and personal development. To accomplish the goal of parents and caregivers being highly engaged in personal learning, there must be equity in access to quality and meaningful parent offerings across all schools within the district.</p>	
<p><b>4.8</b></p>	<p><b>Action:</b> Translation and Interpreting Services</p> <p><b>Need:</b> Parent engagement is paramount. In a district with a high percentage of students and families from diverse linguistic backgrounds, providing translation and interpretation services is essential. These services are crucial during teacher-parent conferences, training, workshops, IEP meetings, committee sessions, ceremonies, school events, and other opportunities where families can gain information and participate in school activities. There is a need to ensure that all communications are accessible, the district supports meaningful involvement from all parents, which is key to enhancing student success and building a strong school community. In addition to designated district staff, additional service providers are necessary.</p>	<p>By providing a host of parent workshops and training designed to meet the needs voiced by parents, the action must be Districtwide and schoolwide so that the following is possible: Equitable access to information from the district, schools, and community ensures that all families are well-informed.</p> <p>Effective parental involvement in all aspects of school life is crucial for enhancing student success. Cultural inclusivity, which respects and acknowledges the diversity of the student body, fosters strong relationships between homes and schools. Adherence to legal compliance is essential to uphold standards and avoid liabilities. Enhanced communication builds trust between schools and families, forming the foundation of a supportive educational environment.</p>	<p>4.6 LCAP Survey 4.7 LCAP Survey 4.11 Parent Workshop attendance</p>

	<p><b>Scope:</b> LEA-wide</p>		
<p><b>4.9</b></p>	<p><b>Action:</b> Enhanced Condition of Learning</p> <p><b>Need:</b> A root-cause analysis of suspensions and chronic absenteeism has identified the essential role of fostering emotional engagement in school climates. Enhancing this aspect of the school environment can increase student connectedness and sense of belonging, resulting in reduced disparities among various student subgroups. For example, homeless students, EL students, Hispanic students, students with disabilities, and African American students were found to be in the lowest suspension and chronic absenteeism performance levels, related to the need for Differentiated Assistance.</p> <p>2023 Dashboard: 24.7% of students are considered chronically absent. Performance Level: Orange Subgroups:</p> <ul style="list-style-type: none"> <li>• Socioeconomically Disadvantaged: 27.1%</li> <li>• English Learners: 24.2%</li> <li>• Students with Disabilities: 33.7%</li> <li>• Homeless: 41.7%</li> <li>• Foster Youth: 48.7%</li> <li>• African American: 37.7%</li> </ul> <p>2023 Dashboard: 2.8% suspended at least</p>	<p>Evidence-based practices that replace punitive actions with corrective measures are essential for maintaining strong climates of respect and inclusivity. Practices such as Positive Behavioral Interventions and Supports (PBIS), restorative justice, opportunities for family participation, and community partnerships have all been proven highly effective in creating safe and caring learning environments. These evidence-based practices require training, monitoring, and implementation support from all members of the educational team. Therefore, having a staff member tasked with coordinating effective practices is essential for their strong implementation.</p>	<p>4.2 Chronic Absenteeism 4.3 Suspensions 4.8 LCAP survey 4.6 Student SEL survey 4.7 CA Dashboard</p>

	<p>one day Performance Level: Orange</p> <ul style="list-style-type: none"> <li>• Subgroups:</li> <li>• Socioeconomically Disadvantaged: 3.2%</li> <li>• English Learners: 2.6%</li> <li>• Students with Disabilities: 3.7%</li> <li>• Homeless: 5.8%</li> <li>• African American: 7.2%</li> </ul> <p><b>Scope:</b> LEA-wide</p>		
4.11	<p><b>Action:</b> Behavior Response Team</p> <p><b>Need:</b> According to the SEL survey taken by our upper-grade students, a significant percentage of students have yet to develop the ability to regulate their emotions: 3 - 5: 48% (EL- 42%) 6 - 8: 46% (EL- 42%) Extreme behaviors are linked to higher suspension rates among certain student subgroups, including African-American students, foster youth, and homeless students, who are among the lowest performers on the CA Dashboard. Additionally, there has been an increase in referrals for behavioral assessments for students with disabilities prompted by extreme behaviors observed during instruction and outside of the classroom, which reduces access to learning.</p>	<p>The behavior response team has two primary goals aimed at reducing or eliminating the exhibition of extreme behaviors. These include prescribing and modeling evidence-based strategies to effectively manage and alter such behaviors. The second goal of the behavior response team is to build the capacity of site staff members to create classroom environments that encourage positive behaviors. This involves training staff to implement personalized strategies aimed at reducing or eliminating disruptive student behaviors for referral students.</p>	<p>4.8 LCAP Surveys 4.6 Student SEL Surveys</p>

	<p><b>Scope:</b> Schoolwide</p>		
<p><b>4.13</b></p>	<p><b>Action:</b> Positive School Climate</p> <p><b>Need:</b> Schools need to continue to build positive learning environments that are welcoming to all students and families. The data from the 2023-24 LCAP Student Survey provides insightful feedback on students' perceptions of their emotional and relational support within the school environment:</p> <ul style="list-style-type: none"> <li>• A high percentage of students, 89.3%, report feeling welcomed by teachers and other adults at the school, which suggests a positive and inclusive atmosphere.</li> <li>• Regarding cultural inclusivity, 81.6% of students believe that teachers encourage them to share their personal and cultural stories, which helps foster a sense of belonging and respect for diversity.</li> <li>• A very encouraging 95.6% of students feel that teachers and adults at the school believe in their academic potential, which is critical for student motivation and self-esteem.</li> </ul> <p>These results underline the success of current strategies in fostering supportive relationships in a culturally responsive learning</p>	<p>The data from schools across the district shows a need for a culturally responsive learning environment is essential for fostering an inclusive and equitable educational setting and contributing to a positive school climate. Training and program implementation will be tailored to meet the unique needs of diverse student groups with sensitivity to cultural differences. This approach includes developing strategies to engage with students from varied backgrounds effectively. Additionally, it is important to cultivate an environment where students feel safe expressing their cultural identities.</p> <p>Implementing practices such as a fair and consistent school-wide behavior system, alternatives to suspension, and increasing family involvement aims to reduce the disparities shown in data concerning suspensions and chronic absenteeism. These strategies will help create a more supportive and equitable school environment, promoting better attendance and reducing disciplinary actions.</p> <p>The training and implementation of trauma-informed strategies, tier social-emotional interventions, and agency partnerships address the social issues that foster youth, English learners, and low-income students.</p>	<p>4.2 Chronic Absenteeism 4.3 Suspensions 4.7 CA Dashboard 4.6 Student SEL Survey 4.6 and 4.7 LCAP Survey</p>

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

## **Additional Concentration Grant Funding**

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

All school sites have a high concentration of unduplicated students. The following goals and actions used to increase the number of staff providing direct services to students at schools.

Goal 2:

Action 4- Elementary PE Teachers: Elementary PE teachers and instructional aides will be provided beyond the district's staffing ratio. During PE sessions, classroom teachers will engage in PLCs to analyze data and refine instructional strategies. This will allow timely remediation and targeted

instruction tailored to the needs of low-income students, foster youth, and English Learners, all based on data-driven insights.

Action 5- Instructional Coaches: Provide instructional support and coaching to teachers in elementary sites to strengthen Tier 1 instruction and to increase academic achievement in ELA/ELD and/or math for all students, including our English language learners, foster youth, and low socio-economic students.

Action 6- Kindergarten Support: Enhance kindergarten support by implementing Instructional Assistants (IAs) dedicated to providing differentiated support. IAs will offer support tailored to the diverse learning needs of kindergarten students, ensuring that all students, including our English language learners, foster youth, and low socio-economic students. receives the attention and guidance necessary for their academic growth and development.

Goal 4:

Action 12- Middle School Guidance Specialist: Guidance Specialists at each middle school focus on the wellness of English Learners, low-income students, and Foster Youth at the middle schools and serve in the capacity of a mentor. They monitor school activities throughout the day.

<b>Staff-to-student ratios by type of school and concentration of unduplicated students</b>	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students	0	17.79 to 1
Staff-to-student ratio of certificated staff providing direct services to students	0	15.70 to 1

# Local Control and Accountability Plan Instructions

[Plan Summary](#)

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at [LCFF@cde.ca.gov](mailto:LCFF@cde.ca.gov).

## Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California *Education Code* [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
  - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
  - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
    - **NOTE:** As specified in EC Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to EC Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, EC

Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (*EC* Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (*EC* sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA’s final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity’s budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA’s diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

# Plan Summary

## Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

## Requirements and Instructions

### General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

### Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;
- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

### Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as “Not Applicable.”

### **Comprehensive Support and Improvement**

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

#### *Schools Identified*

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

#### *Support for Identified Schools*

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

#### *Monitoring and Evaluating Effectiveness*

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

## **Engaging Educational Partners**

### **Purpose**

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (*EC* Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

### **Requirements**

**School districts and COEs:** *EC* sections [52060\(g\) \(California Legislative Information\)](#) and [52066\(g\) \(California Legislative Information\)](#) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

**Charter schools:** *EC* Section [47606.5\(d\) \(California Legislative Information\)](#) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the [CDE's LCAP webpage](#).

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see [Education Code Section 52062 \(California Legislative Information\)](#);
  - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).

- For COEs, see [Education Code Section 52068 \(California Legislative Information\)](#); and
- For charter schools, see [Education Code Section 47606.5 \(California Legislative Information\)](#).
- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

## Instructions

### Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

### Complete the table as follows:

#### Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

#### Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.
- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.
- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.
- For the purposes of this prompt, this may also include, but is not necessarily limited to:
  - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
  - Inclusion of metrics other than the statutorily required metrics
  - Determination of the target outcome on one or more metrics
  - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
  - Inclusion of action(s) or a group of actions
  - Elimination of action(s) or group of actions
  - Changes to the level of proposed expenditures for one or more actions
  - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
  - Analysis of effectiveness of the specific actions to achieve the goal
  - Analysis of material differences in expenditures
  - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
  - Analysis of challenges or successes in the implementation of actions

## Goals and Actions

### Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

### Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that

is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
  - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

**Requirement to Address the LCFF State Priorities**

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in EC sections 52060(d) and 52066(d), as applicable to the LEA. The [LCFF State Priorities Summary](#) provides a summary of EC sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

**Focus Goal(s)**

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.
- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

**Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding**

**Description**

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

- (A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and
- (B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school’s educators, if applicable.
- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school’s educators.
  - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,
  - The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school’s educators, if applicable.

**Type of Goal**

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

**State Priorities addressed by this goal.**

Identify each of the state priorities that this goal is intended to address.

**An explanation of why the LEA has developed this goal.**

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
  - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

**Note:** EC Section [42238.024\(b\)\(1\) \(California Legislative Information\)](#) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

## Broad Goal

### Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.
- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

### Type of Goal

Identify the type of goal being implemented as a Broad Goal.

### State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

**Maintenance of Progress Goal**

**Description**

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

**Type of Goal**

Identify the type of goal being implemented as a Maintenance of Progress Goal.

**State Priorities addressed by this goal.**

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

**Measuring and Reporting Results:**

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.
- The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.
- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.

- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
  - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.
- **Required metrics for Equity Multiplier goals:** For each Equity Multiplier goal, the LEA must identify:
  - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or
  - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.

Complete the table as follows:

#### Metric #

- Enter the metric number.

#### Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

#### Baseline

- Enter the baseline when completing the LCAP for 2024–25.
  - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
  - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
  - Indicate the school year to which the baseline data applies.
  - The baseline data must remain unchanged throughout the three-year LCAP.
    - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain

accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.

- If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
- Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

### Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.
  - Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

### Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.
  - Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

### Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
  - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

### Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
  - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
Enter information in this box when completing the LCAP for <b>2024–25</b> or when adding a new metric.	Enter information in this box when completing the LCAP for <b>2024–25</b> or when adding a new metric.	Enter information in this box when completing the LCAP for <b>2025–26</b> . Leave blank until then.	Enter information in this box when completing the LCAP for <b>2026–27</b> . Leave blank until then.	Enter information in this box when completing the LCAP for <b>2024–25</b> or when adding a new metric.	Enter information in this box when completing the LCAP for <b>2025–26</b> and <b>2026–27</b> . Leave blank until then.

**Goal Analysis:**

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. “Effective” means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

**Note:** When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as “Not Applicable.”

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
  - Include a discussion of relevant challenges and successes experienced with the implementation process.
  - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
  - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
  - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
  - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
  - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:
    - The reasons for the ineffectiveness, and
    - How changes to the action will result in a new or strengthened approach.

**Actions:**

Complete the table as follows. Add additional rows as necessary.

Action #

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.

- For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
- As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
- These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

## Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

## Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No.
  - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496 in the Increased or Improved Services section of the LCAP.

**Actions for Foster Youth:** School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

## Required Actions

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
  - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
  - Professional development for teachers.
  - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.
- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
  - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
  - These required actions will be effective for the three-year LCAP cycle.

## Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

### Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

### Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC* Section 52064[b][8][B]; 5 *CCR* Section 15496[a]). This proportionality percentage is also known as the “minimum proportionality percentage” or “MPP.” The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

**LEA-wide and Schoolwide Actions**

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

**For School Districts Only**

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

**Requirements and Instructions**

Complete the tables as follows:

**Total Projected LCFF Supplemental and/or Concentration Grants**

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

**Projected Additional 15 percent LCFF Concentration Grant**

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

**Projected Percentage to Increase or Improve Services for the Coming School Year**

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

**LCFF Carryover — Percentage**

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

### LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

### Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 CCR Section 15496(a)(7).

## Required Descriptions:

### LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

### Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

### How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

### **Metric(s) to Monitor Effectiveness**

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

**Note for COEs and Charter Schools:** In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

### **Limited Actions**

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

### **Identified Need(s)**

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA's needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

### **How the Action(s) are Designed to Address Need(s)**

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

### **Metric(s) to Monitor Effectiveness**

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.
- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

### **Additional Concentration Grant Funding**

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.
- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.
- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.
- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
  - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.

- The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
  - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
  - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

## Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

## Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8).

Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover — Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***
- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action’s number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering “All,” or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type “Yes” if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type “No” if the action is **not** included as contributing to meeting the increased or improved services requirement.
- If “Yes” is entered into the Contributing column, then complete the following columns:
  - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.

- **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
- **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate “All Schools.” If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter “Specific Schools” or “Specific Grade Spans.” Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span:** Enter “ongoing” if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter “1 Year,” or “2 Years,” or “6 Months.”
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.
- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
  - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
  - **Note:** Equity Multiplier funds must be included in the “Other State Funds” category, not in the “LCFF Funds” category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA’s LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as

a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.

- As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

## Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the 'Contributing to Increased or Improved Services?' column will need to be checked to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses.

## Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

## Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the 'Contributing to Increased or Improved Services?' column to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.

- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
  - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

## LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.
- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

## Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

### Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
  - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
  - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**

- This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

### **Contributing Actions Annual Update Table**

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**

- This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.

- **4. Total Planned Contributing Expenditures (LCFF Funds)**

- This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).

- **7. Total Estimated Actual Expenditures for Contributing Actions**

- This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).

- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**

- This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).

- **5. Total Planned Percentage of Improved Services (%)**

- This amount is the total of the Planned Percentage of Improved Services column.

- **8. Total Estimated Actual Percentage of Improved Services (%)**

- This amount is the total of the Estimated Actual Percentage of Improved Services column.

- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**

- This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

### **LCFF Carryover Table**

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**

- This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
  - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**
  - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.  
  
The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.
- **13. LCFF Carryover — Percentage (12 divided by 9)**
  - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

California Department of Education
