Review and Discussion of Board Policies in the 1000 Series

Name	Comment
Gary Kasik	The added language to BP1330 regarding is poorly defined ("normal athletic schedule"). Additionally the board implied requiring a super or full majority vote. "normal ...defined by CIF" includes nearly ANY high school aquatic event in the entire state by any CIF school. There is no reference to the event including LBHS as a participant, number of teams, length of event, times, etc, This is inconsistent with prior public statements by the board. The language should be revised before being included.
