INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees of
South San Antonio Independent School District:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of South San Antonio Independent School District (the "District") as of and for the year ended August 31, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

THIS PAGE LEFT BLANK INTENTIONALLY.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District as of August 31, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, budgetary comparison information for the general fund, and the Teacher Retirement System pension and OPEB information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the Required Supplementary Information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

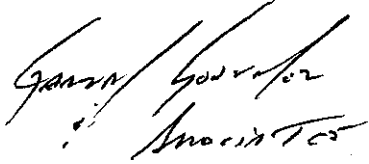

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining statements and the required Texas Education Agency (TEA) schedules, as listed in the table of contents, are presented for purposes of additional analysis and are not required parts of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The combining statements, the required TEA schedules, and the schedule of expenditures of federal awards, are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining statements, the required TEA schedules, and the schedule of expenditures of federal awards, are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

THIS PAGE LEFT BLANK INTENTIONALLY.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 8, 2021 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Handwritten signature of the auditor, appearing to read "Gordon G. Gordon" with "Auditor" written below it.

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended August 31, 2020

This discussion and analysis of South San Antonio Independent School District's (the "District") financial performance provides an overview of the District's financial activities for the year ended August 31, 2020. It should be read in conjunction with the District's financial statements.

FINANCIAL HIGHLIGHTS

- The District's total combined net position reflected in the government-wide Statement of Net Position was a deficit of (\$36,696,083) at August 31, 2020. This balance reflects a decrease in net position of \$6,055,804 from the prior year's balance. Deficits in net position have resulted primarily due to the recognition of the District's share of net pension liability and other post-employment benefits (OPEB).
- For the fiscal year ended August 31, 2020, the District's general fund reported a total fund balance of \$27,692,374 of which \$26,534,268 is unassigned. This represents a decrease in unassigned fund balance of \$2,127,939 from the prior year. The decrease would be reduced had the District been reimbursed for the Coronavirus Relief Fund costs that are being reviewed by the Texas Division of Emergency Management. The District may be reimbursed \$845,605 when the review is completed in fiscal year 2021.
- At the end of the fiscal year, the District's governmental funds (the general fund plus all state and federal grant funds, the debt service fund, and the capital projects fund) reported combined ending fund balances of \$32,241,490, a decrease of \$5,148,026 from the prior year. Decreases in the debt service fund and in the non-major funds were of \$1,155,172 and \$1,236,711, respectively.

OVERVIEW OF THE FINANCIAL STATEMENTS

The annual report consists of three parts — *Management's Discussion and Analysis* (this section), the *Basic Financial Statements*, and *Required Supplementary Information*. The basic statements include two kinds of statements that present different views of the District.

- The first two statements are *government-wide financial statements* that provide both *long-term* and *short-term* information about the District's overall financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the government, reporting the District's operations in more detail than the government-wide statements.
- The *governmental funds* statements tell how *general government* services were financed in the *short-term* as well as what remains for future spending.
- *Proprietary fund* statements offer *short-* and *long-term* financial information about the activities the government operates *like businesses*. The District's proprietary type funds include the worker's compensation self-insurance fund and the medical self-insurance fund.
- *Fiduciary fund* statements provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others, to whom the fiduciary resources belong. This fund includes student activity funds.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The notes to the financial statements are followed by a section entitled *Required Supplementary Information* that further explains and supports the information in the financial statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended August 31, 2020

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Position includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the Statement of Activities regardless of when cash is received or paid.

The government-wide statements report information about the District's *net position* and the changes from the previous year. Net position (the difference between the District's assets, deferred outflows and liabilities and deferred inflows) is one way to measure the District's financial health or position.

- Over time, increases or decreases in the District's net position is an indicator of whether the financial position is improving or deteriorating, respectively.
- To assess the overall health of the District, one needs to consider additional non-financial factors, such as changes in the District's tax base, staffing patterns, enrollment, and attendance.

The governmental-wide financial statements of the District include the *Governmental Activities*. The District's basic services such as instruction, extracurricular activities, curriculum and staff development, health services, general administration, and plant operation and maintenance are included. Locally assessed property taxes, together with State foundation program entitlements, which are based upon student enrollment and attendance, finance most of these activities.

FUND FINANCIAL STATEMENTS

The fund financial statements provide more detailed information about the District's most significant funds — not the District as a whole. Funds are simply accounting devices that are used to keep track of specific sources of funding and spending for particular purposes.

- Some funds are required by State law and other funds are mandated by bond agreements or bond covenants.
- The Board of Trustees establishes other funds to control and manage money set aside for particular purposes or to show that the District is properly using certain funds.
- Fiduciary funds are used to account for assets held by the District in a trust and/or custodial capacity. These assets do not belong to the District, but the District is responsible to properly safeguard and account for them.

SOUTH SAN ANTONIO INDEPENDENT SCHOOL DISTRICT
San Antonio, Texas

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended August 31, 2020

The District has three kinds of funds:

- *Governmental funds* — Most of the District's basic services are included in governmental funds, which focus on (1) how *cash and other financial assets* that can readily be converted to cash flow in and out and (2) the balances left at year end that are available for spending. Consequently, the governmental fund statements provide a detailed *short-term* view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information on the subsequent page to the governmental funds statement that explain the relationship (or differences) between them.
- *Proprietary funds*—Services for which the District charge customers a fee are generally reported in proprietary funds. Proprietary funds, like the government-wide statements, provide both long- and short-term financial information.
- *Fiduciary funds* — The District serves as the trustee, or *fiduciary*, for certain funds such as student activity funds and private purpose trust funds. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the District's fiduciary activities are reported in a separate statement of fiduciary net position. We exclude these activities from the District's government-wide financial statements because the District cannot use these assets to finance its governmental operations.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

The District's combined net position was (\$36,696,083) at August 31, 2020. *Table 1* focuses on net position while *Table 2* shows the revenues and expenses that changed net position during the fiscal year ended August 31, 2020. The District reported a decrease of \$6,055,804 in net position from the prior year. This change can be attributed primarily to the current year effects of accounting and reporting GASB Statement No. 75 and GASB Statement No. 68 and the overall effects of the pandemic.

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended August 31, 2020

Financial Analysis of the District' Funds

At the close of the fiscal year ending August 31, 2020, the District's governmental funds reported a combined fund balance of \$32,241,490. This compares to a combined fund balance of \$37,389,516 at August 31, 2019. The fund balance in the general fund decreased (\$2,756,143) primarily due to increased operating costs due to the Pandemic. The debt service fund decreased (\$1,155,172) primarily due to a decrease in state revenues. The non-major fund balance decreased by (\$1,236,711) due primarily to decreased federal revenue earned as the pandemic limited activities.

Budgetary Highlights

In accordance with State law and generally accepted accounting standards, the District prepares an annual budget for the general fund, the food service special revenue fund, and the debt service fund. Special revenue funds have budgets approved by the funding agency and are amended throughout the year as required.

During the period ended August 31, 2020, the District amended its budget as required by State law and to reflect current levels of revenue and anticipated expenses. There were no material changes between the original budget and the final amended budget. The general fund's actual revenues were less than the budgeted revenues by \$1,457,200 and the budgeted expenditures exceeded actual expenditures by \$6,071,262.

Capital Assets

The District, at the end of the fiscal year, had a historical capital asset valuation of \$307,392,828 which represents an increase of \$4,793,364 due to the addition of equipment purchased in the current year and construction in progress. Depreciation expense for the year of \$9,882,873 was also recognized together with the capital asset additions resulted in a net decrease to capital assets of (\$5,089,509). For capital asset activity, please refer to Note III (D) of the notes to the basic financial statements on page 39.

Compensated Absences	1,345,175	1,240,291
Total Long-Term Debt	\$ 164,400,704	\$ 172,058,066

In addition, the District reports a net pension liability of \$30,284,965 a decrease of \$3,189,847 from the prior year and a net OPEB liability of \$35,932,429 a decrease of \$3,088,632.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The following factors were considered in establishing the District's budget for 2020-2021:

- The District budgeted revenues of \$75,501,654 and expenditures of \$74,984,057 for a surplus budget of \$517,597 in the general fund.
- The District estimated ADA to be 7,128 in the development of the 2020-2021 budget which was well below the 7,203 hold harmless that was granted by the State.
- The District's Board of Trustees adopted a Maintenance & Operation tax rate of \$0.9112 and an Interest & Sinking tax rate of \$0.48 for a total of \$1.3912 per \$100 of property valuation.
- The District has implemented staffing standards that will allow administration to be more prescriptive in their staffing allotments. This should ensure that staffing moves in correlation with enrollment.
- The District has issued a call for quality schools in order to form some targeted partnerships. This should spawn innovation and aid in recruitment and retention.

RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE
STATEMENT OF NET POSITION
AUGUST 31, 2020

EXHIBIT C-2

Total Fund Balances - Governmental Funds	\$ 32,241,490
The District uses internal service funds to charge the costs of certain activities, such as self-insurance, to appropriate functions in other funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position. The net effect of this consolidation is to increase net position.	2,981,989
Capital assets used in governmental activities are not financial resources, and; therefore, are not reported in governmental funds. At the beginning of the year, the cost of these assets was \$302,599,464 and the accumulated depreciation was (\$140,736,036). In addition, long-term liabilities, including bonds payable, are not due and payable in the current period, and; therefore, are not reported as liabilities in the funds. At the beginning of the year, bonds payable, other long-term liabilities, and compensated absences were (\$161,817,988), interest payable was (\$256,663), the unamortized balances of premium and deferred charge on refunding were (\$10,240,078) and \$6,703,524, respectively. In addition, the net pension liability was (\$33,474,812) and the related deferred outflows and inflows of resources were \$17,099,120 and (\$2,328,505), respectively; and, the net OPEB liability was (\$39,021,061) and the related deferred outflows and inflows of resources were \$3,268,079 and (\$13,855,346), respectively. The net effect of recognizing the government-wide beginning balances is to (decrease) net position.	(72,060,302)
Transactions related to current year capital outlay, bonds payable, and other long-term liabilities, and changes in interest payable and compensated absences are necessary to convert from the modified accrual basis of accounting to the accrual basis of accounting, as follows: <ul style="list-style-type: none"> ● Acquisition of capital assets of \$4,793,364. ● Issuance of refunding bonds was (\$44,345,000) with associated premium of (\$4,987,059) and resulted in a deferred charge on refunding of \$2,540,786. ● Bond refunding transactions resulted in the payment of bonds outstanding of \$46,085,000 and the write-off of unamortized premium of \$3,662,793. ● Principal payments on bonds payable of \$6,996,187 and changes in interest payable of \$23,847. ● Accretion on capital appreciation bonds of (\$777,805). ● Amortization of bond premium of \$1,128,130 and deferred charge on refunding was (\$3,124,850). ● Changes in compensated absences of (\$104,884). The net effect is to increase net position.	11,890,509
Transactions in the current year related to the District's net pension liability were as follows: <ul style="list-style-type: none"> ● Recognize a net decrease in the District's proportionate share of the net pension liability of \$3,189,847. ● Recognize a net (decrease) in deferred outflows of resources in the amount of (\$3,097,511). ● Recognize a net (increase) in deferred inflows of resources in the amount of (\$3,828,799). The net effect is to (decrease) net position.	(3,736,463)
Transactions in the current year related to the District's net OPEB liability were as follows: <ul style="list-style-type: none"> ● Recognize a net decrease in the District's proportionate share of the net OPEB liability of \$3,088,632. ● Recognize a net increase in deferred outflows of resources in the amount of \$1,063,940. ● Recognize a net (increase) in deferred inflows of resources in the amount of (\$4,217,611). The net effect is to (decrease) net position.	(65,039)
Depreciation is not recognized as an expense in governmental funds since it does not require the use of current financial resources. The net effect of the current year's depreciation is to (decrease) net position.	(9,882,873)
Various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. These include recognizing unavailable revenue from the current year tax levy as revenue in the amount of \$603,995 and from prior year tax levies in the amount of \$1,330,611. The net effect of these reclassifications and recognitions is to increase net position.	1,934,606

NOTES TO THE FINANCIAL STATEMENTS

For The Year Ended August 31, 2020

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Reporting Entity

The South San Antonio Independent School District (District) is a public educational agency operating under the applicable laws and regulations of the State of Texas. The District serves over 8,000 students in 10 elementary schools, 4 middle schools, and 2 high schools.

The Board of School Trustees (Board), a seven-member group, has governance responsibilities over all activities related to public elementary and secondary education within the jurisdiction of the South San Antonio Independent School District, San Antonio, Texas. Members of the Board of Trustees are elected by the public, and have the authority to make decisions, appoint administrators and managers, significantly influence operations, and have the primary accountability for fiscal matters. Accordingly, the District is not included in any other governmental "reporting entity" as defined by Governmental Accounting Standards Board (GASB), Statement No. 61, "The Financial Reporting Entity: omnibus – an amendment of GASB Statements No. 14 and No. 34".

The District prepares its basic financial statements in conformity with generally accepted accounting principles (GAAP) promulgated by the Governmental Accounting Standards Board (GASB), and it complies with the requirements of the appropriate version of Texas Education Agency's Financial Accountability System Resource Guide (FASRG) and the requirements of contracts and grants of agencies from which it receives funds.

2. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e. statement of net position and the statement of activities) displays the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the effect of internal activities. All interfund transactions between governmental funds and internal service funds are eliminated in the government-wide statements. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function; and therefore, are clearly identifiable to a particular function. The District does not allocate indirect expenses in the statement of activities. Charges for services consist of charges to customers or applicants that purchase, use, or directly benefit from goods or services provided by a given function or segment of the District. Operating grants and contributions include amounts paid by organizations outside the District that are restricted to meeting the operational requirements of a particular program. Property taxes, State aid-formula grants, and other items not included in program revenues are presented as general revenues. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds. Fiduciary funds are excluded

from the government-wide financial statements since the District cannot use those funds for District operations. Major individual governmental funds are reported as separate columns in the fund financial statements. Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses result from providing services in connection with the internal service funds of the worker's compensation fund and medical insurance fund. Operating expenses for the internal service funds include the related administrative expenses. All other revenues and expenses are nonoperating.

The District reports the following major governmental funds:

General Fund: This is the District's primary operating fund. This fund accounts for all financial resources of the District except those required to be accounted for in another fund. It is a budgeted fund, and fund balances are considered resources available for current operations. General Fund primary revenue sources include property taxes and state foundation funds.

Debt Service Fund: The Debt Service Fund accounts for the accumulation of resources for, and the payment of, bonded debt principal and interest. The primary revenue source is local property taxes levied specifically for debt service and state funding. The fund balance of this fund represents amounts that will be used for retirement of bonds and payment of interest in the future. The Debt Service Fund is a budgeted fund.

Emergency Relief Fund: This special revenue fund was established to account for the Elementary and Secondary Emergency Relief federal grant funds passed through Texas Education Agency (TEA) in response to the pandemic.

In addition, the District reports the following fund types:

Special Revenue Funds: These funds are used to account for the majority of federal and state funded grants. These grants are awarded to the District with the purpose of accomplishing specific educational tasks. Unused balances in reimbursement type grant programs are returned to the grantor at the close of specified project periods.

Capital Projects Fund: The Capital Projects Fund was established to account for the proceeds from the sale of bonds including earnings on investments of the fund. Proceeds are used for acquiring school sites, constructing and equipping new school facilities, and renovating existing facilities.

The Internal Service Fund: This fund is used to account for the financing of services provided by one fund to other funds of the District, on a cost-reimbursement basis. This activity includes the worker's compensation fund and the medical insurance fund of the District.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fiduciary funds are reported in the fiduciary fund financial statements. However, because their assets are held in a trustee or agent capacity and are therefore not available to support District programs, these funds are not included in the government-wide statements. Included in the Fiduciary Fund type is the Private Purpose Trust fund used to account for assets acquired for purposes of awarding scholarships to qualified students pursuing attendance at institutions of higher education.

Agency Funds: These funds are reported in the fiduciary fund statements and are used to report student activity funds and other resources held in a purely custodial capacity (assets equal liabilities). The agency fund consists of funds set aside from fund raising activities of the school sponsored groups (student activities).

3. Measurement Focus Basis of Accounting and Financial Statement Presentation

The government-wide and the proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. The Fiduciary Funds utilize the accrual basis of accounting and the economic resources measurement focus; however, agency funds do not have a measurement focus as they report only assets and liabilities. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. Revenue from property taxes is recognized on the accrual basis in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when they are both measurable and available. For this purpose, the District considers all revenues to be available if the revenues are collected within sixty (60) days after year-end. Expenditures generally are recorded when the related fund liability is incurred, if measurable, except for debt service expenditures, claims and judgments, and compensated absences, which are recognized as expenditures only when payment is due. Property tax revenue and revenues received from the State are recognized under the susceptible to accrual concept. Miscellaneous revenues are recorded as revenues when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available. General capital asset acquisitions are reported as expenditures in governmental funds.

Grants funds are considered to be earned to the extent of expenditures made under the provisions of the grant. Accordingly, when such funds are received, they are recorded as unearned revenues until related and authorized expenditures have been made. If balances have not been expended by the end of the project period, grantors may require the District to refund all or part of the unused amount.

4. Other Accounting Policies

a. Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from date of acquisition. Investments are reported at fair value or when applicable at amortized cost as allowed by GASB Statement No. 31 (GASB 31) and GASB Statement No. 72 (GASB 72).

For the purposes of the Statement of Cash Flows for the Internal Service Funds, funds held in the District's depository accounts and in local government pools are considered cash and cash equivalents.

b. Property Taxes

Property taxes are levied by October 1, on the basis of assessed value as of January 1, in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 1 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. Property tax revenues are considered available when they become due and receivable within the current period, and those expected to be collected during a 60-day period after the close of the fiscal year.

Delinquent taxes are prorated between maintenance and debt service based on rates adopted for the year of levy. Allowances for uncollectible tax receivables within the general and debt service funds are based on historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

c. Inventories and Prepaid Items

Inventories of food commodities are recorded at market values supplied by the Texas Department of Agriculture Services but are provided at no cost to the District. Food commodities are used only in the food service program and are recorded as inventory and unearned revenue when received. When requisitioned, inventory and unearned revenue are relieved, expenditures are charged, and revenue is recognized for an equal amount based on the values provided.

d. Capital Assets

Capital assets, which include land, buildings and improvements, furniture and equipment, and construction in progress, are reported in the government-wide financial statements. Capital assets are defined by the District as assets with an initial individual cost of more than \$5,000 and an estimated useful life of more than one year. Such assets are recorded at historical cost or estimated historical cost. Donated capital assets are recorded at their estimated fair value at the date of the donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized.

NOTES TO THE FINANCIAL STATEMENTS

For The Year Ended August 31, 2020

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Capital assets are being depreciated using the straight-line method over the following estimated useful lives:

Asset Class	Estimated Useful Lives
Building Improvements	15-30
Furniture & Equipment	3-7

e. Indirect Expenses

School districts are required to report all expenses by function. General administration and other intergovernmental expenditures reported in functions 41 and 99, respectively, and data processing service expenditures reported in function 53 include indirect expenses of other functions.

f. Compensated Absences

An employee who separates from employment with the District is eligible for reimbursement for state leave after they have been employed with the District for 10 years.

g. Use of Estimates

The preparation of financial statements in conformity with Generally Accepted Accounting Principles requires management to make estimates and assumptions that affect certain report amounts and disclosures. Accordingly, actual results could differ from those estimates.

h. Data Control Codes

Data Control Codes refer to the account code structure prescribed by the Texas Education Agency (TEA) in the resource guide. TEA requires the display of these codes in the financial statements to ensure accuracy in building a state-wide database for policy development and funding plans for Texas school districts.

i. Fund Balance

In the fund financial statements, the District uses the following criteria when classifying fund balance amounts:

Nonspendable – amounts not available for appropriation or legally earmarked for a specific use. Examples include inventories and prepaid items. At August 31, 2020, the amount of \$64,384 disclosed as nonspendable fund balance related to inventory.

Restricted – amounts that have been legally separated for a specific purpose; such as, grants and long-term debt. Bond proceeds not spent are restricted for the intended purpose, similarly grant funds and program income are restricted for the purpose of the programs.

SOUTH SAN ANTONIO INDEPENDENT SCHOOL DISTRICT
San Antonio, Texas

NOTES TO THE FINANCIAL STATEMENTS

For The Year Ended August 31, 2020

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Committed – amounts that require Board action to be used for a specific purpose; such as, certain amounts for construction and capital acquisition. Formal action to commit funds must occur prior to fiscal year end and can only be modified or removed by the same formal action.

Assigned – amounts that do not require Board approval but are intended to be used for a specific purpose, as determined by an official or body to which the Board has delegated authority; such as, the Superintendent. These amounts do not meet the criteria to be classified as restricted or committed.

Unassigned – residual amount in the general fund that is available to finance operating expenditures.

j. Spending Order

Fund balance amounts that are restricted, committed, or assigned are considered to have been spent when an expenditure is incurred for the respective purpose. If an expenditure is incurred that meets the criteria in more than one fund balance category, then the District considers fund balance to be relieved in the following order: restricted, committed, assigned, and then unassigned.

k. Restricted/Unrestricted Resources

Under the terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenditures are incurred, there are both restricted and unrestricted resources available. It is the District's policy to first apply cost-reimbursement grant (restricted) resources to such programs.

l. Pensions

The fiduciary net position of the Teacher Retirement System (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

m. Other Post Employment Benefit (OPEB) Plan

The fiduciary net position of the Teacher Retirement System of Texas (TRS) TRS-Care Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about assets, liabilities and additions to/deductions from TRS-Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as-you-go plan and all cash is held in a cash account.

II. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. Budget Data

The official budget was prepared for adoption for the General Fund, Debt Service Fund and the Child Nutrition Program, a special revenue fund of the District. The following procedures are followed in establishing the budgetary data reflected in the basic financial statements:

- 1) Prior to August 20 of the preceding fiscal year, the District prepares a budget for the next succeeding fiscal year beginning September 1. The operating budget includes proposed expenditures and the means of financing them.
- 2) A meeting of the Board is then called for the purpose of adopting the proposed budget. Ten days of public notice of the meeting is required.
- 3) Prior to September 1, the budget is legally enacted through passage of a resolution by the Board.

The legal level of budgetary control is at the major functional expenditure level by fund type. As required by TEA, annual budgets are adopted for the General Fund, Debt Service and the Child Nutrition Program, on a basis consistent with generally accepted accounting principles. All budget appropriations lapse at year end. Encumbrances are commitments to purchase goods or services that were not fully executed at year end. Encumbrance accounting is used to ensure effective budgetary control and accountability. While encumbrances lapse at year end, valid, outstanding encumbrances are re-appropriated and become part of the subsequent year's budget.

The original budget was approved by the Board on August 21, 2019. The budget may be amended by management without Board approval within a major functional expenditure category and can be amended at the function and fund level only by approval of a majority of the members of the Board. Amendments at the function and fund level are presented to the Board at its regular meetings. Such amendments, required to be made before the fact, are reflected in the official minutes of the Board and are made before the fiscal year end as required by law.

The budget amounts included in this report reflect various amendments made by management or adopted by the Board throughout the year through the final amended budget, which was approved by the Board on August 19, 2020.

B. Excess of Expenditures over Appropriations

During the year, the budget was properly amended in accordance with the above procedures; however, the District exceeded the budget in the debt service fund for function 73 Bond Issuance Cost and Fees by \$680,564.

Deposits

The District's funds are required to be deposited under the terms of a depository contract or invested under the terms of the Public Funds Investment Act (PFIA). The depository bank places approved pledged securities for safekeeping and trust with the District's agent bank in an amount sufficient to protect District funds on a day-to-day basis. The pledge of approved securities is waived only to the extent of the depository bank's Federal Deposit Insurance Corporation (FDIC) insurance. Deposits were held with the contracted depository bank in demand and interest-bearing accounts. Deposits were secured at the balance sheet date by FDIC coverage and pledged U.S. Government securities held by the Bank of New York Mellon in the District's name. Funds were properly secured with pledged collateral at all times during the year.

The following is disclosed:

- a. Name of Contracted Depository Bank: Wells Fargo
- b. The highest combined balances of cash, savings, and time deposit accounts at the Wells Fargo Bank amounted to \$14,433,598 and occurred during July 2020.

Investments

The Public Funds Investment Act (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports and establishment of appropriate policies. Among other things, it requires the District to adopt, implement, and publicize an investment policy. The policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date of the portfolio, (8) investment staff quality and capabilities, (9) and bid solicitation preferences for certificates of deposit. Statutes authorize the District to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas, (2) certificates of deposit, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) bankers acceptances, (7) Mutual Funds, (8) Investment pools, (9) guaranteed investment contracts, (10) and common trust funds. The Act also requires the District to have independent auditors perform test procedures related to investment practices as provided by the Act. The District is in substantial compliance with the requirements of the Act and with local policies.

Temporary investments consist of funds invested in local government investment pools. The investment pools used by the District are organized under the authority of the Interlocal Cooperation Act, Chapter 791, Texas Government Code, and the Public Funds Investment Act, Chapter 2256, Texas Government Code. The investment pools are public funds investment pools created to provide a safe environment for the placement of local government funds in authorized short-term investments.

SOUTH SAN ANTONIO INDEPENDENT SCHOOL DISTRICT
San Antonio, Texas

NOTES TO THE FINANCIAL STATEMENTS

For The Year Ended August 31, 2020

III. DETAILED NOTES ON ALL FUNDS (Continued)

The District's investments in investment pools, which are exempt from regulation by the Securities and Exchange Commission, have as one of their objectives the maintenance of a stable net asset value of \$1.00. The book value of the position in the pools is the same as the number of shares in each pool; the market value of a share should approximate the book value of a share.

GASB Statement No. 31 provides an exception to the fair value reporting for investments in external pools that operate as "2a7-like" pools. The exception applies to portfolio securities held by external investment pools and allows the use of amortized cost rather than market value to report net assets and to compute share prices.

Texas Local Government Investment Pool (TexPool): operates in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940. Accordingly, the fair value of the District's position in TexPool is the same as the value of TexPool shares and does not include any unrealized gains and losses.

TexPool is organized in conformity with the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code, and the Public Funds Investment Act, Chapter 2256 of the Texas Government Code. The Texas Comptroller of Public Accounts exercises oversight responsibility over TexPool. Oversight includes the ability to significantly influence operations, designation of management and accountability for fiscal matters. Additionally, the State Comptroller has established an advisory board composed of both participants in TexPool and other persons who do not have a business relationship with TexPool. The Advisory Board members review the investment policy and management fee structure. TexPool is rated AAAM by Standard & Poors. As a requirement to maintain the rating weekly portfolio, information must be submitted to Standard & Poors, as well as the Office of the Comptroller of Public Accounts for review. Financial information for TexPool can be accessed on the Internet (<http://www.texpool.com>).

Lone Star Investment Pool (the Lone Star Pool): The Lone Star Pool's Corporate overnight plus and Government overnight fund operate in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940. Accordingly, the fair value of the District's position in the Lone Star Pool is the same as the value of the Lone Star Pool's shares and does not include any unrealized gains and losses.

The Lone Star Pool is governed by an eleven-member Board of Trustees (Board) made up of active participants in the Lone Star Pool. The Board has the responsibility of adopting and monitoring compliance with the investment policy, appointing investment officers, overseeing the selection of an investment advisor, custodian, investment consultant, administrator, and other service providers. The Board is also responsible for monitoring performance of the Lone Star Pool. Standard and Poor's has assigned its "AAA" bond fund risk rating and "AAAF" credit quality rating to the Lone Star Pool's Corporate overnight and Government overnight fund, respectively.

III. DETAILED NOTES ON ALL FUNDS (Continued)

The "AAA" rating is the highest possible ranking and indicates each fund's low sensitivity to changing market conditions. The "AAAF" credit quality rating reflects the high credit quality of the corporate overnight plus and the government overnight fund's eligible investments and counterparts. Standard and Poor's reviews investments of the corporate overnight plus and government overnight fund monthly. Financial information for the Lone Star Pool can be obtained by writing 12007 Research Blvd., Austin, TX 78759 or by calling 1-800-558-8875.

The Texas Term Local Government Investment Pool (TexasTERM): TexasTERM is a local government investment pool organized under the authority of the interlocal Cooperation Act, Chapter 791, Texas Government Code, and the Public Funds Investment Act, Chapter 2256, Texas Government Code. TexasTERM is administered by PFM Asset Management LLC which also serves as the investment advisor. The reported value of the pool is the same as the fair value of the pool shares. The District's investments are held in the Texas DAILY fund, a money market portfolio. Texas DAILY is rated "AAAm" by Standard & Poor's.

Interest Rate Risk – Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. In accordance with its policy, one of the ways the District manages its exposure to interest rate risk is by investing in investment pools which have no stated maturity date; therefore, the funds are available to meet operational needs. Information about the District's investments is provided by the table below that shows the specific investments and their maturity as of August 31, 2020.

Credit Risk – Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized financial rating organization. Presented below is the minimum rating required (where applicable) by the District's investment policy and the Act and the actual rating as of August 31, 2020 for each investment.

As of August 31, 2020, the District had the following investments:

Investment	Fair Value	Weighted Average Maturity (Days)	** Standard & Poors Rating
The Lone Star Pool	\$ 34,371,988	1	AAA
Texpool	163,513	1	AAAm
Texas TERM	37,036	1	AAAm
Total	<u>\$ 34,572,537</u>

III. DETAILED NOTES ON ALL FUNDS (Continued)

Custodial Credit Risk – Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The Act, the District's investment policy, and Government Code Chapter 2257, Collateral for Public Funds, contain legal or policy requirements that would limit the exposure to custodial risk for deposits or investments. To be eligible to receive funds from and invest funds on behalf of an entity under this Chapter, a public funds investment pool created to function as a money market mutual fund must mark its portfolio to market daily and, to the extent reasonably possible, stabilize at a \$1 net asset value. If the ratio of the market value of the portfolio divided by the book value of the portfolio is less than 0.995 or greater than 1.005, portfolio holdings shall be sold as necessary to maintain the ratio between 0.995 and 1.005.

GASB Statement No. 72 regarding Fair Value Measurement and Application for financial reporting purposes categorizes financial instruments within three different levels of risk dependent upon the measure of their fair value and pricing.

Because the investments are restricted by Policy and state law to active secondary market, when applicable the market approach is being used for valuation. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets, liabilities, or a group of assets and liabilities.

The exit or fair market prices used for these fair market valuations when applicable represent unadjusted quoted prices in active markets for identical assets and liabilities that have been accessed at the measurement date.

The District has adopted GASB 72. As of August 31, 2020; however, in accordance with GASB 72 as amended, the District reports its investments in local government pools at amortized cost.

K. Pension Plan

Plan Description. The District participates in a cost-sharing multiple-employer defined benefit pension plan (Plan) that has a special funding situation. The Plan is administered by the Teacher Retirement System of Texas (TRS). TRS's Plan is established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The Plan's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the Plan.

Detailed information about the TRS’s fiduciary net position is available in a separately-issued Comprehensive Annual Financial Report (CAFR) that includes financial statements and required supplementary information. That report may be obtained on the Internet at <http://www.trs.state.tx.us/about/documents/cafr.pdf#CAFR>; by writing to TRS at 1000 Red River Street, Austin, TX 78701-2698; or by calling (512) 542-6592. The information provided in the Notes to the Financial Statements in the TRS 2019 CAFR provides the following information regarding the Plan’s fiduciary net position at August 31, 2019.

Net Pension Liability	Total
Total Pension Liability	\$ 209,961,325,288
Less: Plan Fiduciary Net Position	(157,978,199,075)
Net Pension Liability	\$ 51,983,126,213
Net Position as a percentage of Total Pension Liability	75.24%

Benefits Provided. TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member’s age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member’s age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description above.

Texas Government Code section 821.006 prohibits benefit improvements, if, as a result of the particular action, the time required to amortize TRS’ unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

In May 2019, the 86th Texas Legislature approved the TRS Pension Reform Bill (Senate Bill 12) that provides for gradual contribution increases from the State, participating employers, and active employees to make the pension fund actuarially sound. This action causing the pension fund to be actuarially sound, allowed the legislature to approve funding for a 13th check in September 2019. All eligible members retired as of December 31, 2018, received an extra annuity check in either the matching amount of their monthly annuity of \$2,000, whichever was less.

Contributions. Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas Legislature to establish a member contribution rate of not less than 6% of the member’s annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to TRS members during the fiscal year. Texas Government Code section 821.006 prohibits benefit improvements, if as a result of the particular action, the time required to amortize TRS’s unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

Employee contribution rates are set in state statute, Texas Government Code 825.402. Senate Bill 1458 of the 83rd Texas Legislature amended Texas Government Code 825.402 for member contributions and established employee contribution rates for fiscal years 2020 through 2025.

	Contribution Rates & Amounts	
	2020	2019
Member	7.7%	7.7%
Non-Employer Contributing Entity (NECE) (State)	7.5%	6.8%
Employer	7.5%	6.8%
Employer (District) Contributions (2)	\$ 2,209,438	\$ 2,039,143
Member (Employee) Contributions (1)	\$ 4,813,922	\$ 4,456,889
NECE On-Behalf Contributions (2)	\$ 3,279,979	\$ 2,524,061

(1) Amounts obtained from District’s records.

(2) 2019 amounts provided by TRS; 2020 amounts obtained from District’s records.

Contributions to the Plan include members, employers, and the State of Texas, as the only NECE. The State contributes to the Plan in accordance with state statutes and the GAA.

As the NECE for public education, the State of Texas contributes to the Plan an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year, reduced by the amounts described below which are paid by the employers. Employers, including public schools, are required to pay the employer contribution rate in the following instances:

- On the portion of the member’s salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member’s first 90 days of employment.
- When any part or all of an employee’s salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public school, the employer shall contribute 1.5% of covered payroll to the pension fund beginning in fiscal year 2020. This contribution rate called the Public Education Employer Contribution will replace the Non (OASDI) surcharge that was in effect in fiscal year 2019.

III. DETAILED NOTES ON ALL FUNDS (Continued)

In addition to the employer contributions listed above, there are two additional surcharges an employer is subject to:

- When employing a retiree of the Plan, the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.
- When a school district does not contribute to the Federal Old-Age, Survivors and Disability Insurance (OASDI) Program for certain employees, they must contribute 1.5% of the state contribution rate for certain instructional or administrative employees, and 100% of the state contribution rate for all other employees.

Actuarial Assumptions. The total pension liability in the August 31, 2018 actuarial valuation rolled forward to August 31, 2019 was determined using the following actuarial assumptions:

Valuation Date	August 31, 2018 rolled forward to August 31, 2019
Actuarial Cost Method	Individual Entry Age Normal
Asset Valuation Method	Market Value
Single Discount Rate	7.25%
Long-term Expected Investment Rate of Return	7.25%
Municipal Bond Rate*	2.63%
Inflation	2.30%
Salary Increases	3.05% to 9.05% including inflation
Benefit Changes During the Year	None
Ad hoc Post-Employment Benefit Changes	None

* Source for the rate is the Fixed Income Market Data/Yield Curve/Data Municipal Bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-Year MunicipalGO AA Index."

The actuarial methods and assumptions used in the determination of the total pension liability are the same assumptions used in the actuarial valuation as of August 31, 2018.

Discount Rate. A single discount rate of 7.25% was used to measure the total pension liability. The single discount rate was based on the expected rate of return on plan investments of 7.25%. The projection of cash flows used to determine this single discount rate assumed that contributions from active members, employers and the non-employer contributing entity will be made at the rates set by the Legislature during the 2019 legislative session. It is assumed that future employer and state contributions will be 8.50% of payroll in fiscal year 2020 gradually increasing to 9.55% of payroll over the next several years. This includes all employer and State contributions for active and rehired retirees.

Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term rate of return on pension plan investments is 7.25%. On September 19, 2019, the TRS Board of Trustees approved an amended Investment Policy Statement effective October 1, 2019. The amendments include revised asset class target weights, establishing benchmark for Asset Allocation Leverage, and updating asset class ranges. The target asset allocation set forth in the Investment Policy Statement dated October 1, 2018 is shown as of August 31, 2019. Additionally, the target asset allocation set forth in the amended Investment Policy Statement dated October 1, 2019 and the expected long-term portfolio returns resulting from the updated asset allocation set forth in the amended Investment Policy Statement is shown for comparison and relevance. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the Systems target asset allocation as of August 31, 2019 (see page 52 of the TRS CAFR) are summarized below:

Discount Rate Sensitivity Analysis. The following schedule shows the impact of the Net Pension Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (7.25%) in measuring the 2019 Net Pension Liability.

	1% Decrease in Discount Rate (6.25%)	Discount Rate (7.25%)	1% Increase in Discount Rate (8.25%)
District's proportionate share of the net pension liability:	\$ 46,552,391	\$ 30,284,965	\$ 17,105,210

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At August 31, 2020, the District reported a liability of \$30,284,965 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the collective net pension liability	\$ 30,284,965
State's proportionate share that is associated with the District	<u>37,488,457</u>
Total	<u>\$ 67,773,422</u>

The net pension liability was measured as of August 31, 2018 and rolled forward to August 31, 2019 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of August 31, 2018 rolled forward to August 31, 2019. The employer's proportion of the net pension liability was based on the employer's contributions to the Plan relative to the contributions of all employers to the Plan for the period September 1, 2018 through August 31, 2019.

At August 31, 2019, the District's proportion of the collective net pension liability was .0582592224% which was a decrease of (.0025571581%) from its proportion measured as of August 31, 2018.

Changes Since the Prior Actuarial Valuation - The changes to the actuarial assumptions or other inputs that affected measurement of the total pension liability since the prior measurement period.

- The single discount rate as of August 31, 2018 was a blended rate of 6.907% and that has changed to the long-term rate of return of 7.25% as of August 31, 2019.
- With the enactment of SB 3 by the 2019 Texas Legislature, an assumption has been made about how this would impact future salaries. It is assumed that eligible active members will each receive a \$2,700 increase in fiscal year 2020. This is an addition to the salary increase expected based on actuarial assumptions.

III. DETAILED NOTES ON ALL FUNDS (Continued)

- In May, 2019, the 86th Texas Legislature approved the TRS Pension Reform Bill (Senate Bill 12) that provides for gradual contribution increases from the state, participating employers and active employees to make the pension fund actuarially sound. This action causing the pension fund to be actuarially sound, allowed the legislature to approve funding for a 13th check in September 2019. All eligible members retired as of December 31, 2018 received an extra annuity check in either the matching amount of their monthly annuity or \$2,000, whichever was less.

There were no changes in benefit terms that affected measurement of the total pension liability during the measurement period.

For the year ended August 31, 2020, the District recognized pension expense of \$5,888,908 and \$3,279,979 for support (revenue/expenditures) provided by the State.

At August 31, 2020, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pension from the following sources:

Description	Deferred Outflows of Resources	Deferred Inflows of Resources	Net Amount
Differences between expected and actual economic experience	\$ 127,224	\$ (1,051,542)	\$ (924,318)

N. DEFINED OTHER POST EMPLOYMENT BENEFIT PLAN

Plan Description. The District participates in the Texas Public School Retired Employees Group Insurance Program (TRS-Care). It is a multiple-employer, cost-sharing defined Other Post-Employment Benefit (OPEB) Plan that has a special funding situation. The OPEB Plan is administered through a trust by the Teacher Retirement System of Texas (TRS) Board of Trustees. It is established and administered in accordance with the Texas Insurance Code, Chapter 1575.

OPEB Plan Fiduciary Net Position. Detail information about the TRS-Care's fiduciary net position is available in the separately-issued TRS Comprehensive Annual Financial Report (CAFR) that includes financial statements and required supplementary information. That report may be obtained on the Internet at <http://www.trs.state.tx.us/about/documents/cafr.pdf#CAFR>; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

Components of the net OPEB liability of the TRS-Care plan as of August 31, 2019 are as follows:

Net OPEB Liability	Total
Total OPEB Liability	\$ 48,583,247,239
Less: Plan Fiduciary Net Position	(1,292,022,349)
Net OPEB Liability	\$ 47,291,224,890
Net Position as a percentage of Total OPEB Liability	2.66%

Benefits Provided. TRS-Care provides a basic health insurance coverage (TRS-Care 1), at no cost to all retirees from public schools, charter schools, regional education service centers and other educational districts who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

Eligible non-Medicare retirees and their dependents may enroll in TRS-Care Standard, a high-deductible health plan. Eligible Medicare retirees and their dependents may enroll in the TRS-Care Medicare Advantage medical plan and the TRS-Care Medicare Rx prescription drug plan. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. The Board of Trustees is granted the authority to establish basic and optional group insurance coverage for participants as well as to amend benefit terms as needed under Chapter 1575.052. There are no automatic post-employment benefit changes; including automatic COLAs.

The premium rates for the optional health insurance are based on the member's years of service. The schedule below shows the monthly rates for a retiree with 20 to 29 years of service; and, with and without Medicare coverage.

TRS-Care Plan Premium Rates				
	Medicare		Non-Medicare	
Retiree or Surviving Spouse	\$	135	\$	200
Retiree and Spouse		529		689
Retiree or Surviving Spouse and Children		468		408
Retiree and Family		1,020		999

Contributions. Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and school districts based upon public school district payroll. The TRS Board of Trustees does not have the authority to set or amend contribution rates.

Texas Insurance Code, section 1575.202 establishes the state's contribution rate which is 1.25% of the member's salary. Section 1575.203 establishes the active member's rate which is 0.75% of pay. Section 1575.204 establishes an employer contribution rate of not less than 0.25% and not more than 0.75% of the salary of each active member. The actual employer contribution rate is prescribed by the Texas Legislature in the General Appropriations Act. The following table shows contributions to the TRS-Care plan by type of contributor.

	Contribution Rates & Amounts	
	2020	2019
Member	0.65%	0.65%
Non-Employer Contributing Entity (NECE) (State)	1.25%	1.25%
Employer	0.75%	0.75%
Federal/Private Funding remitted by Employers	1.25%	1.25%
Employer Contributions (2)	\$ 569,468	\$ 539,256
Member Contributions (1)	\$ 406,371	\$ 376,231
NECE On-behalf Contributions (2)	\$ 858,379	\$ 716,507

(1) Amounts obtained from District's records.

(2) 2019 amounts provided by TRS; 2020 amounts obtained from District's records.

Included in the employer contributions listed above, is an additional surcharge all TRS employers are subject to (regardless of whether or not they participate in the TRS-Care OPEB program). When hiring a TRS retiree, employers are required to pay to TRS-Care, a monthly surcharge of \$535 per retiree.

TRS-Care received supplemental appropriations from the State of Texas as the Non-Employer Contributing Entity in the amount of \$73.6 million in fiscal year 2019. The 86th Texas Legislature, House Bill 1 provided an additional \$231 million in one-time supplemental funding for fiscal years 2019-2020 biennium to continue to support the program.

Actuarial Assumptions. The total OPEB liability in the August 31, 2018 actuarial valuation was rolled forward to August 31, 2019. The actuarial valuation was determined using the following actuarial assumptions and other inputs used for members of TRS-Care and are identical to the assumptions used in the August 31, 2018 TRS pension actuarial valuation that was rolled forward to August 31, 2019:

Rates of Mortality	General Inflation
Rates of Retirement	Wage Inflation
Rates of Termination	Salary Increases
Rates of Disability Incidence	

Additional Actuarial Methods and Assumptions:

Valuation Date	August 31, 2018 rolled forward to August 31, 2019
Actuarial Cost Method	Individual Entry Age Normal
Inflation	2.30%
Discount Rate	2.63% as of August 31, 2019
Aging Factors	Based on plan specific experience
Expenses	Third-party administrative expenses related to the delivery of health care benefits are included in the age-adjusted claims costs.
Salary Increases	3.05% to 9.05% including inflation
Healthcare Trend Rates	Initial medical trend rates of 10.25% for Medicare retirees and 7.50% for non-Medicare retirees. There was an Initial prescription drug trend rate of 10.25% for all retirees. The initial trend rates decrease to an ultimate trend rate of 4.50% over a period of 13 years.
Election Rates	Normal Retirement: 65% participation prior to age 65 and 50% after age 65. 25% of pre-65 retirees are assumed to discontinue coverage at age 65
Ad hoc Post-Employment Benefit Charges	None

Discount Rate. A single discount rate of 2.63% was used to measure the total OPEB liability. There was a decrease of 1.06 percent in the discount rate since the previous year. Because the plan is essentially a “pay-as-you-go” plan, the single discount rate is equal to the prevailing municipal bond rate. The projection of cash flows used to determine the discount rate assumed that contributions from active members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the OPEB plan’s fiduciary net position was projected to not be able to make all future benefit payments of current plan members. Therefore, the municipal bond rate was applied to all periods of projected benefit payments to determine the total OPEB liability.

Discount Rate Sensitivity Analysis. The following schedule shows the impact of the Net OPEB Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (2.63%) in measuring the Net OPEB Liability.

	1% Decrease in Discount Rate (1.63%)	Current Single Discount Rate (2.63%)	1% Increase in Discount Rate (3.63%)
District’s proportionate share of the net OPEB liability:	\$ 43,381,969	\$ 35,932,429	\$ 30,104,643

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs. At August 31, 2020, the District reported a liability of \$35,932,429 for its proportionate share of the TRS’s Net OPEB Liability. This liability reflects a reduction for State OPEB support provided to the District. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

District’s proportionate share of the collective Net OPEB Liability	\$ 35,932,429
State’s proportionate share that is associated with the District	47,746,158
Total	\$ 83,678,587

The Net OPEB Liability was measured as of August 31, 2018 and rolled forward to August 31, 2019 and the Total OPEB Liability used to calculate the Net OPEB Liability was determined by an actuarial valuation as of that date. The employer’s proportion of the Net OPEB Liability was based on the employer’s contributions to the OPEB plan relative to the contributions of all employers to the plan for the period September 1, 2018 through August 31, 2019.

At August 31, 2020, the District’s proportion of the collective Net OPEB Liability was 0.0759811722% which was a decrease of (.0021689295%) from its proportion measured as of August 31, 2019.

Changes Since the Prior Actuarial Valuation – The following were changes to the actuarial assumptions or other inputs that affected measurement of the Total OPEB liability since the prior measurement period:

- The discount rate changed from 3.69% as of August 31, 2018 to 2.63%, as of August 31, 2019. This change increased the total OPEB liability (TOL).
- The health care trend rates were reset to better reflect the plan's anticipated experience. This change increased the TOL.
- The participation rate for pre-65 retirees was lowered from 70% to 65%. The participation rate for post-65 retirees was lowered from 75% to 50%. 25% of pre-65 retirees are assumed to discontinue their coverage at age 65. There was no lapse assumption in the prior valuation. These changes decreased the TOL.
- The percentage of retirees who are assumed to have two-person coverage was lowered from 20% to 15%. In addition, the participation assumption for the surviving spouses of employees that die while actively employed was lowered from 20% to 10%. These changes decreased the TOL.
- Change of Benefit Terms Since the Prior Measurement Date – There were no changes in benefit terms since the prior measurement date.

For the year ended August 31, 2020, the District recognized OPEB expense of \$1,258,393 and revenue of \$853,379 for support provided by the State.

At August 31, 2020, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

Description	Deferred Outflows of Resources	Deferred Inflows of Resources	Net Amount

L. Medicare Part D Subsidies

The Medicare Prescription Drug, Improvement, and Modernization Act of 2003, which was effective January 1, 2006, established prescription drug coverage for Medicare beneficiaries known as Medicare Part D. One of the provisions of Medicare Part D allows for the Texas Public School Retired Employee Group Insurance Program (TRS-Care) to receive retiree drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants. For the fiscal years ended August 31, 2020, 2019, and 2018, the subsidy payments received by TRS-Care on behalf of the District were \$296,537, \$228,947, and \$194,067, respectively.

N. Employee Health Care Coverage

As of November 1, 2018, the District's employee health benefits, including medical and pharmacy became partially self-funded. To protect the self-funded medical and pharmacy benefit plan assets, the District has in place a stop-loss coverage with the contracted administrator of the plan (Blue Cross Blue Shield of Texas). The Individual Stop Loss (ISL) policy protects the District from catastrophic claims that exceed \$200,000 per covered person and aggregate protection at 115% of expected claims through October 31, 2019.

As of November 1, 2019, the District's employee health benefits, including medical and pharmacy were contracted with a new administrator (Aetna Life Insurance, of Hartford Connecticut). An Individual Stop Loss (ISL) policy to protect the District from catastrophic claims that exceed \$200,000 per covered person and aggregate protection at 115% of expected claims through October 31, 2020.

The provision for unpaid self-funded medical losses at August 31, 2020, in the amount of \$400,000 is reported in current liabilities as part of claims payable in the Internal Service funds Statement of Net Position. The estimated liability is based upon actual prior claims cost experience and projected time lags (less than 60 days) in settling such claims and actual claims paid after year end attributable to the year ended August 31, 2020. All premiums collected are accounted for as expenditures in the operating funds affected.

O. Commitments and Contingencies

1. Contingencies

The District participates in grant programs which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, refunds of any money received may be required and the collectability of any related receivable may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying basic financial statements for such contingencies.

2. Litigation

The District is the defendant in a number of lawsuits arising principally in the normal course of operations. In the opinion of management, the outcome of these lawsuits will not have a material adverse effect on the accompanying combined financial statements and accordingly, no provisions for losses have been recorded.

3. Construction Contracts

The District is obligated under certain construction contracts in the amount of \$103,495 as of August 31, 2020.

P. Shared Services Arrangement

The District participates in a shared services arrangement (SSA) which provides services to the District and other member districts. All services are provided by the fiscal agent. The member districts provide the funds to the fiscal agent for the purpose of the SSA. The District has neither a joint ownership interest in capital assets purchased by the fiscal agent nor a net equity interest in the fiscal agent. The fiscal agent is neither accumulating significant financial resources nor fiscal exigencies that would give rise to a future additional benefit or burden to the District.

Q. Risk Management

1. Auto, Liability, and Property Programs

During the year ended August 31, 2020, the District participated in the TASB Risk Management Fund (the "Fund") programs: Auto Liability, Auto Physical Damage, Legal Liability, Privacy & Information Security, and Property.

The Fund was created and is operated under the provisions of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code. All members participating in the Fund execute Interlocal Agreements that define the responsibilities of the parties.

The Fund purchases stop loss coverage for protection against catastrophic and larger than anticipated claims for its Auto, Liability and Property Programs. The terms and limits of the stop loss program vary by line of coverage. The Fund uses the services of an independent actuary to determine the adequacy of reserves and fully funds those reserves. For the year ended August 31, 2020, the Fund anticipates that the District has no additional liability beyond the contractual obligation for payment of contributions.

The Fund engages the services of an independent auditor to conduct a financial audit after the close of each plan year on August 31. The audit is accepted by the Fund's Board of Trustees in February of the following year. The Fund's audited financial statements as of August 31, 2019, are available on the TASB Risk Management Fund website and have been filed with the Texas Department of Insurance in Austin.

2. Unemployment Compensation Pool

During the year ended August 31, 2020, the District provided unemployment compensation coverage to its employees through participation in the Texas Association of School Board's Risk Management Fund (the "Fund"). The Fund was created and is operated under the provisions of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code. The Fund's Unemployment Compensation Program is authorized by Section 22.005 of the Texas Education Code and Chapter 172 of the Texas Local Government Code. All members participating in the Fund execute Interlocal Agreements that define the responsibilities of the parties.

The Fund meets its quarterly obligation to the Texas Workforce Commission. Expenses are accrued monthly until the quarterly payment has been made. Expenses can be reasonably estimated; therefore, there is no need for specific or aggregate stop loss coverage for the Unemployment Compensation pool.

For the year ended August 31, 2020, the Fund anticipates the District has no additional liability beyond the contractual obligation for payment of contributions.

III. DETAILED NOTES ON ALL FUNDS (Continued)

The Fund engages the services of an independent auditor to conduct a financial audit after the close of each plan year on August 31. The audit is accepted by the Fund's Board of Trustees in February of the following year. The Fund's audited financial statements as of August 31, 2019, are available on the TASB Risk Management Fund website and have been filed with the Texas Department of Insurance in Austin.

The District reports risk management activities in the general fund.

There were no significant reductions in coverage from the past fiscal year and settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

R. Worker's Compensation

The District utilizes an internal service fund to account for the worker's compensation self-insurance fund. During fiscal year 2020, a total of \$182,002 was incurred in benefits and operating costs. An excess coverage insurance policy covers individual claims in excess of \$400,000 up to a maximum limit of \$1,000,000 for any one event, this policy was in effect as of November 1, 2019 through November 1, 2020.

The District policy related to the aggregate excess insurance is as follows:

Self-Insured Retention per Occurrence \$400,000

Maximum Limit of Indemnity for the Liability Period: \$1,000,000

Claims payable reported in the amount of \$238,191 was actuarially determined based on the requirements of GASB Statement No. 10 as amended by GASB Statement No. 30 which requires that a liability for claims be reported if information prior to the issuance of the financial statements and the amount of the loss can be reasonably estimated. Since claim payments and current year changes in estimates approximate the claims payable liability, the claim liability is reported as a current liability. The liability includes provisions for the following:

- Reserves on open claims on an individual case basis
- The expected ultimate value of future development on reported claims
- The expected ultimate value of claims yet to be reported
- The expected ultimate value of reopened claims
- The allocated loss adjustment expenses; and
- Net of projected recoveries from excess insurance, salvage, and subrogation.

S. Deficit Unrestricted Net Position/Deficit Fund Balances

The deficit unrestricted net position of \$36,696,083 in the governmental activities results from the effects of the recognition of GASB Statement No. 68 and GASB Statement No. 75.

T. Subsequent Event

Pursuant to the Resolution adopted by the Board of Trustees of the District on November 18, 2020 and a Pricing Certificate executed on December 17, 2020; the District issued the Maintenance Tax Notes, Series 2020 (Tax Notes), in the original aggregate principal amount of \$2,000,000. The Tax Notes are payable from all available funds including, but not limited to, revenue from the maintenance and operations (M&O) tax levy limited to \$0.91 per \$100 of taxable assessed valuation (TAV) on all taxable property located within the district. The maintenance tax notes are not enhanced by the Texas Permanent School Fund guaranty. The proceeds of the Tax Notes are to be used for the purpose of financing the costs of repair, rehabilitation, renovation or equipping of various school facilities including but not limited to heating, air conditioning, and roofing systems, and to pay the costs associated with the issuance of the Tax Notes.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

For The Year Ended August 31, 2020

Following are notes to Exhibit G-6 at pages 64-65:

Changes of Benefit Terms

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period, except for the following:

- In May 2019, the 86th Texas legislature approved the TRS Pension Reform Bill (SB12) that provides for gradual contribution increases from the state, participating employers, and active employees to make the pension fund actuarially sound. These increases immediately made the pension fund actuarially sound and the legislature approved funding for a 13th check. All eligible members retired as of December 31, 2018 received an extra annuity check in September 2019 in either the matching amount of their monthly annuity payment or \$2,000, whichever is less.

Changes of Assumptions

The following were changes to the actuarial assumptions or other inputs that affected measurement of the total pension liability since the prior measurement period.

- The single discount rate as of August 31, 2018 was a blend rate of 6.907 percent and that has changed to the long-term rate of return of 7.25 percent as of August 31, 2019.
- With the enactment of SB3 by the 2019 Texas Legislature, an assumption has been made about how this would impact future salaries. It is assumed that eligible active members will each receive a \$2,700 increase in fiscal year 2020. This is in addition to the salary increase expected based on the actuarial assumptions.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

For The Year Ended August 31, 2020

Following are notes to Exhibit G-8 at page 68:

Changes of Benefit Terms

There were no changes in benefit terms since the prior measurement date.

Changes of Assumptions

The following were changes to the actuarial assumptions or other inputs that affected measurement of total OPEB liability since the prior measurement period:

- The discount rate changed from 3.69 percent as of August 31, 2018 to 2.63 percent, as of August 31, 2019. This change increased the total OPEB liability (TOL).
- The participation rate for pre-65 retirees was lowered from 70 percent to 65 percent. The participation rate for post-65 retirees was lowered from 75 percent to 50 percent. 25 percent of pre-65 retirees are assumed to discontinue their coverage at age 65. There was no lapse assumption in the prior valuation. These changes decreased the TOL.
- The trend rates were reset to better reflect the plan's anticipated experience. This change increased the TOL.
- The percentage of retirees who are assumed to have two-person coverage was lowered from 20 percent to 15 percent. In addition, the participation assumption for the surviving spouses of employees that die while actively employed was lowered from 20 percent to 10 percent. These changes decreased the TOL.

The impact of the Cadillac Tax that is returning in fiscal year 2023 has been calculated as a portion of the trend assumption. Assumptions and methods used to determine the impact of the Cadillac Tax include:

- 2018 thresholds of \$850/\$2,292 were indexed annually by 2.30 percent.
- Premium data submitted was not adjusted for permissible exclusions to the Cadillac Tax.
- There were no special adjustments to the dollar limit other than those permissible for non-Medicare retirees over 55.

Results indicate that the value of the excise tax would be reasonably represented by a 25-basis point addition to the long-term trend rate assumption.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Trustees of
South San Antonio Independent School District:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of South San Antonio Independent School District (the District), as of and for the year ended August 31, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated January 8, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

THIS PAGE LEFT BLANK INTENTIONALLY.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Other Matters

We noted certain matters that we reported to management of the District in a separate letter dated January 8, 2021.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Board of Trustees of
South San Antonio Independent School District:

Report on Compliance for Each Major Federal Program

We have audited South San Antonio Independent School District's (the District) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended August 31, 2020. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

THIS PAGE LEFT BLANK INTENTIONALLY.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended August 31, 2020.

Report on Internal Control Over Compliance

Management is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we considered to be material weaknesses. However, material weaknesses may exist that have not been identified.

We noted a certain matter that we reported to management in a separate letter dated January 8, 2021.

Purpose of this Report

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

For The Year Ended August 31, 2020

1. The District utilizes the fund types specified in the Texas Education Agency's Financial Accountability System Resource Guide (FASRG). Special Revenue Funds are used to account for resources restricted to, or designated for, specific purposes by a grantor. Federal and state financial assistance generally is accounted for in a Special Revenue Fund. Generally, unused balances are returned to the grantor at the close of specified project periods.
2. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The Governmental Fund types are accounted for using a current financial resources measurement focus. Federal grant funds are primarily accounted for in the Special Revenue Funds. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

The modified accrual basis of accounting is used for the Governmental Fund types. This basis of accounting recognizes revenues in the accounting period in which they become susceptible to accrual (i.e., both measurable and available), and expenditures in the accounting period in which the fund liability is incurred, if measurable, except for certain compensated absences, which are recognized when the obligations are expected to be liquidated with expendable, available financial resources.

Federal grant funds are generally considered to be earned to the extent of expenditures made under the provisions of the grant and, accordingly, when such funds are received, they are recorded as unearned revenues until earned.

3. The period of availability for federal grant funds for the purpose of liquidation of outstanding obligations made on or before the ending date of the federal project period extended 90 days beyond the federal project period ending date, in accordance with 2 CFR Part 200 Period of Performance.
4. Expenditures for the Junior ROTC Program, the Medicaid Administrative Claiming Program, and the National School Lunch and Breakfast Program are not specifically attributed to the revenue source and are shown on this schedule in an amount equal to revenue. Commodity Supplemental Food Program receipts represent USDA donated commodities received during the year. The related expenditures relate to the issuance of the commodities to the District's campuses.
5. The School Health and Related Services (SHARS) revenues are reported as federal revenues in the general fund; however, in accordance with TEA requirements, SHARS revenue is not considered federal financial assistance and is therefore not included in the schedule.
6. The District has elected not to use the 10% de minimis indirect cost rate as provided by the Uniform Guidance.
