Please be aware that as of Tuesday, January 18th, we made a change to our isolation and quarantine timeframes. In accordance with updated New Jersey Department of Health (NJDOH) recommendations, we will be reducing our quarantine time frame from ten days down to five days.

Individuals who need to quarantine will now be able to return on day six **if they do not have symptoms of illness**. If you have already been placed into a ten day quarantine, you can now return on day six if you do not have symptoms of illness. If symptoms persist (fever or if other symptoms have not resolved), continue to isolate until fever-free for 24 hours and other symptoms have resolved.

More information about the NJDOH recommendations can be found using the following link:

https://www.nj.gov/health/cd/documents/topics/NCOV/RecommendationsForLocalHealthDepts_K12Schools.pdf

Please don't hesitate to reach out to me with any questions or concerns as we continue to navigate these challenging times.

If your child has a pending Covid-19 test, please make the school nurse aware. Additionally, please keep your child home until the pending test results are finalized.

Nurse's Corner

Sixth grade students are required by NJ law to have the Tdap and Menactra vaccines in order to attend school. If you have not yet done so, please forward proof of vaccination to the school nurse, Mrs. Silletti-Cayer. As a reminder, the nurse must have a current sports physical for the 2021-2022 school year on file in the health office in order for your child to participate in any extracurricular sports. More information regarding extracurricular sports and physicals was emailed to the school community on September 9th.

Please ensure that your child has a *reusable* water bottle with them. This will assist with daily operations at the water stations as well as in the nurse's office.

Student Success

It is no secret that parent involvement in a child's school experience is one of the keys to a successful school experience. It is clear that a) family processes and practices are strongly related to students' academic, social, emotional, and behavioral outcomes while students are in school and beyond, and b) that when schools and families collaborate to support student learning, student outcomes are improved (Henderson & Mapp, 2002). So how can we do this?

Family and School Collaboration is the key to a child's success in school. Open lines of communication and collaboration with your child's teacher is the bridge between home and school allowing strong partnerships between family and school. Strong partnerships are not the only way a family can be involved. Family involvement can look like a variety of ways. At home setting organized routines and plans in place reduces anxiety and stress that can spill over into the classroom making it difficult for your student to focus and perform to the best of their ability. Getting plenty of rest (students 5-12 should be getting at least 10-12 hours of sleep) and making sure the sleeping environment has minimal to no distractions. Develop a homework routine that includes a space to complete homework and expectations, ex: that homework needs to be completed before dinner time or practice, etc. Families can get involved by volunteering for school based activities; such as fund raisers, book fairs, even joining the school's Parent-Teacher Organizations.

Student Success (Cont.)

Most importantly, being your child's cheerleader and showing that you are excited for their school experience is the best way to start navigating your student's journey to a successful and positive year.

I would like to wish all the staff, families, and students a successful and happy school year.
