Subject line: Access your free MyChoice Find a Provider Account

Finding the right care can be tough. Sometimes it's hard to even know where to start your search. That's why we built MyChoice Find a Provider. With MyChoice Find a Provider, you can search for any healthcare topic, and we'll guide you to the best doctors, facilities, and benefits programs for your needs, all in one app. We'll even book appointments for you.

Here's how you can get started

If you already have a MyNJ Benefits Hub Account, sign in and click on the MyChoice Find a Provider widget to claim your account.

If you don't already have a MyNJBenefits Hub Account, head over to <http://mynjbenefitshub.nj.gov/> and sign up.

Once you've done that, click on the MyChoice Find a Provider widget on the homepage and follow the prompts to claim your account and start searching!

Here's just some of what we can do:

1. Search for care using over 1400 unique topics.
2. Locate the closest COVID-19 vaccine/testing facilities
3. Explore search results with relevant benefit programs and providers.
4. Dig into all the data you need to see if a provider's right for you (quality, experience, location, language, cost ratings).
5. Book an appointment or hop over to a benefit program.
