

# 24-25 HS SUPPLY LIST

**All students will need a charged chromebook, water bottle, pens, and pencils.**

## SOCIAL STUDIES

- Students need a binder with tab dividers, plus:
- Global 10: composition notebook

## ENGLISH

- English 9: pocket folder
- English 11: 2 pocket folders
- English w/ Greco: pocket folder
- AP: pocket folder
- Reading: pocket folder

## SCIENCE

- All students need a binder plus:
- Earth Science: 5 tab dividers & a folder
  - Living Env: pocket folder
  - Chemistry: folder
  - Physics: folder

## LANGUAGE

- French: folder and spiral notebook
- Spanish: folder

\*Graphing Calculators - If you are purchasing a new calculator, we recommend the TI-84+CE model. They feature color screens and rechargeable batteries. If you are acquiring a "hand me down" calculator any model of TI-84+ will be adequate for the initial HS math courses. but only the CE models continue to be updated by TI so students may not have access to all the features of a CE model.

Please do not purchase older calculator models. Please see attached information regarding "Which Calculator Should I Buy?"

## MATH

All students need a graphing calculator (see below) plus:

- Algebra w/Bodak: 1.5 in. binder, highlighters
- Mrs. Keymel & Mr. Comstock's classes: binder
- Geometry: binder & ruler, can bring own compass
- Pre-Calc: 1 in. binder, 100+ page notebook, and binder or folder

## ELECTIVES

- Project Lead the Way  
Tech courses: folder
- Sports Officiating:  
binder
- Stress Reduction:  
notebook

## MUSIC

- Band:
  - Woodwinds= box of reeds, cleaning swab
  - Brass= valve oil, slide grease, brass cleaning kit
  - Trombones= slide oil and small slide spray bottle
  - Percussion= Vic Firth SD general sticks and hard plastic mallets

## Calculator Information

Please be informed that a graphing calculator is needed for your child's math class this school year. It will be used extensively for classroom activities, homework and assessments, including Regents Exams, in high school math classes. Civil Engineering/ Architecture and Physics are courses that also require the use of a graphing calculator. The graphing calculator recommended for use in the High School is the Texas Instruments Model: TI-84 Plus CE which features a rechargeable battery, a color screen, and higher resolution than previous models. Prices can range from approximately \$80-\$140.

The TI-84 Plus, TI-84 Plus Silver Edition, TI-84 Plus C Silver Edition are older models that will be sufficient if you have a hand me down available to you, however they are no longer being updated by the company and are soon going to be obsolete. We recommend that you do not purchase one of these obsolete models, even as new stock. **Please DO Not purchase a different calculator than what is recommended.** It is better to borrow from school than have a calculator with a different operating system or that is obsolete.

If purchasing a graphing calculator at this time is not feasible, the District provides students the opportunity to sign out a graphing calculator during the school year. The High School has two different models that are loaned to students:

- 1) TI-84+ which requires 4 AAA batteries. Students will need to provide their own set of four AAA batteries if assigned a TI-84+ calculator.
- 2) TI-84 Plus CE calculators which are rechargeable. These require a USB Cable, Type A to Mini 5-Pin Type B for charging. Students may request a charging cable which will be given to the student and needs to be returned with the calculator. Charging stations are also readily available in math classrooms as well as the Study Hall room and Learning Center.

Students will be accountable for taking care of district owned calculators and will be responsible if they are lost or damaged. If a District calculator is damaged or not returned when requested, an invoice will be sent for payment for the damaged or lost calculator. The replacement cost is approximately \$100.

In order to assist us with the planning for this coming school year, please fill out the form and return to the High School over the summer prior to the first day of school. Students enrolled in Algebra 1 and Algebra 2 will need their calculator as soon as possible. It will be required for class and homework the first week of school in September. <https://forms.gle/fWqmgA89Qp3Ko7ue7> or scan the code with your phone.

If you have any questions or concerns, please do not hesitate to contact your child's math teacher or the High School Main Office.
