Please note, by accessing this system and reports, you are acknowledging that you have read, understood, and will comply with the following statement.

I acknowledge that it is my responsibility with access to PII, private or confidential information to do the following:

- I will take all reasonable precautions to prevent unauthorized access to passwords, user identifications, or other information that may be used to access the Student Information Repository System (SIRS) Level 2 Reporting Environment (L2RPT) or Level 1 Reporting Environment systems and reports.
- I will not access any restricted information if such access is not required to perform my job.
- I will not disclose any information I access to those not authorized to receive it.
- I will use all reasonable efforts to protect confidential information from unauthorized or unlawful disclosure.
- I will seek guidance from my Superintendent, CEO, District Data Coordinator or my Regional Information Center whenever I am unsure of the correct decision regarding use, confidentiality, or access, and will do so BEFORE I take any action to release potentially sensitive information.
- I will not attempt to access, alter, change, modify, add, or delete from any record, report, or information system including audit trails and logs outside of the scope of my job responsibilities.
- I will immediately report any incidents of personal non-compliance or the non-compliance of colleagues with the terms of this standard to my District Data Coordinator, Superintendent or CEO.

The NYSED will not tolerate illegal, dishonest, improper, or irresponsible use of privileged access to information to which users may have been granted. Failure to do so will result in loss of access privileges and may result in further administrative action.

Access to 9 Reports

NYSESLAT/ELL Quick Reference

The following reports contain NYSESLAT/ELL data. Most reports will contain NYSESLAT assessment data. NYSESLAT and MYSTELL dashboard is interactive dashboard. Click the Report Name links to open each report.

Report Name	Report Description	Sample Report Image
NYSESLAT Dashboard	Displays aggregated NYSESLAT data for students at each performance level, along with percentage of students whose performance levels increased, decreased, or stayed the same when compared with last year's test. Individual student data are available when drilling-through from the charts. Numerous filtering options are available. Data available for total NYSESLAT scores only.	
NYSESLAT and NYSITELL Dashboard	Multi-tabbed dashboard that was built with a newer Cognos Dashboard tool. Tabs are available for NYSESLAT and NYSITELL performance data, along with information on grade level distribution and home language spoken. NYSESLAT tab is similar to the original NYSESLAT dashboard described above. The NYSITELL tab displays aggregated data for students at each performance level, along with percentage of students whose performance levels on the SAME YEAR'S NYSESLAT increased, decreased, or stayed the same when compared to their NYSITELL. Individual student data are available when drilling-through from the charts. Numerous filtering options are available. Data available for total NYSESLAT and NYSITELL composite scores only.	NYSESLAT Proficiency	Student-level report that displays scores for each NYSESLAT component (Listening, Speaking, Reading, Writing) and the total composite score. Total NYSESLAT proficiency scores are included, with commanding students highlighted in green. ELL duration along with each student's original NYSITELL performance level are included. Please note that the NYSITELL score is only included if the student was tested in your district.	NYSESLAT Percent of Students Tested by	Displays the number and percentage of NYSESLAT students in each

Student Assessment Scores Report Options

Purpose This report displays a list of students and their overall score on a particular assessment. This report gives a general overview of how students performed. Data may be filtered by Ethnicity, LEP Eligibility, Disability Status, Poverty Status and Gender.

Report Options

Select a Test Type from the dropdown (*required*). The test type will filter what is available in the "Select an Assessment" dropdown.
Select an assessment from the dropdown (*required*). Only assessments that match the selected test type will be shown.
Select a report type. The District report displays all students in the district. The All Buildings report displays all students in the district, but is grouped by school building. The All Teachers report displays all students in the district, but is grouped by school building and teacher name.
Optional demographic filters may be used to select only certain students based on ethnicity, LEP eligibility, poverty status and disability status. Only one option in each filter may be selected, but you may use all five filters at the same time. To remove a filter, select the first option in each list (e.g. "All Ethnicities")

Annual Student Assessment Summary Download Options

Purpose: This CSV download to Excel lists all students taking assessments in a selected year or years. The report includes test scores, performance levels and student demographic information.

Report Options

Select One or More School Years. To select multiple school years, hold down the Ctrl key on the keyboard while selecting the school years you wish to include in the download. Click the **Submit School Years** button to populate or refresh the list of Test Types.
Select One or More Test Types. Some of the test types include:

- NYS - Grades 3-8 SED Assessment scores in Math, ELA, Science and Social Studies
- Regents - Official High School Regents exam scores
- DW Regents - Unofficial scores from the optional Nassau BOCES Regents project
- Local - Scores from optional Nassau BOCES sponsored assessments

To select multiple test types, hold down the Ctrl key on the keyboard while selecting the test types you wish to include in the download. Click the **Submit Test Types** button to populate or refresh the list of Assessments.
Select One or More Assessments. To select multiple assessments, hold down the Ctrl key on the keyboard while selecting the assessnebts you wish to include in the download.
Click the Finish Button on the bottom of the page to execute the report.

TIPS: The more years/tests selected, the longer it will take the report to run. Selecting too many years and too many tests may result in the report failing to run.

This download requires that Pop-ups are not blocked and that "Automatic Prompting for File Downloads" is set to "Enable" in your browser's security settings.

Prompt Page Disclaimers

Comparison of Advanced Placement Course Participation Across Districts iReport

Purpose:

This multi-tabbed report displays the percentage of Advanced Placement (AP) course participation for each Nassau County public school district. The data reflect the number of students enrolled in a AP course, which is not necessarily the same as the number of students taking the AP Assesment. Note that some AP courses span multiple years, and some students may have been accidentally misassigned to AP courses by some districts. Data come from multiple NYSED State Report Card databases: course data are sourced from the "Advanced Placement (AP) and International Baccalaureate (IB) databases; grade enrollment data are sourced from the Enrollment database.

The “Course Participation by Grade Level” tab displays both a column chart and table comparing the percentage of students enrolled in a particular AP course for each of the selected Nassau County public schools. Percentage of enrollment is the number of students enrolled in the course divided by the number of students enrolled in the selected grade.

The "All Grade Levels" tab displays a table containing AP course participation for each individual grade level (9th, 10th, 11th, 12th and All Grades) for the selected AP Course. If the grade level column is blank, that indicates there aren't any AP Course Participants for that District / Grade Level. Average Grade Enrollment used for 'All Grades' is always based on a district's average enrollment for grades 10-12.

The 'Grade Enrollments' tab provides the grade enrollment values used in our "average grade enrollment" calculations. These data are sourced from the NYSED Enrollment database.

Please note that there are differences between the data on this report and the data found in the NYSED database and online platform. The following notes were written based on the format of the 2022 data.

1. The “All Students” subgroup was not provided directly in the NYSED database and was aggregated by Nassau BOCES.

2. NYSED did not provide grade enrollment totals in the AP course database. Enrollment data on this report were taken from the NYSED Enrollment Database. This may result in percentage differences on this report vs. the NYSED data site report.

3. Enrollment data for subgroups by grade level are not available in the Enrollment Database and therefore not available in this report.

4. The “All Grades” category was aggregated by Nassau BOCES and is not available on the NYSED website.

5. “All Grades” enrollment percentages are based on the average grade enrollment for grades 10, 11, and 12. Average grade enrollments may be inflated due to students enrolled in a course spanning multiple years, which may result in enrollment percentages that total more than 100%.

6. Although available on NYSED report card data site, NYSED did not provide NYS or county aggregates in their AP Database. The Nassau County benchmark provided on this report was calculated by Nassau BOCES and, therefore, might vary slightly from what is displayed on the NYSED report card data site. NYS benchmarks were not calculated for this report, but may be found on the NYS Report Card.

7. The districts available for selection on this report, along with those that appear on the Grade Enrollments tab, reflect only those districts that have AP course enrollments as of 2022 or later. Note that totaling these districts may not match the Nassau County enrollment totals [illegible]rt for the regional benchmark, which includes all districts regardless of AP course enrollment.

Important Caveats

Comparison of Advanced Placement Course Participation Across Districts iReport

Purpose:

This multi-tabbed report displays the percentage of Advanced Placement (AP) course participation for each Nassau County public school district. The data reflect the number of students enrolled in a AP course, which is not necessarily the same as the number of students taking the AP Assesment. Note that some AP courses span multiple years, and some students may have been accidentally misassigned to AP courses by some districts. Data come from multiple NYSED State Report Card databases: course data are sourced from the "Advanced Placement (AP) and International Baccalaureate (IB) databases; grade enrollment data are sourced from the Enrollment database.

The "Course Participation by Gr … of the selected Nassau County public schools. Percent …

The "All Grade Levels" tab displ … ourse. If the grade level column is blank, that indicates … a district's average enrollment for grades 10-12.

The 'Grade Enrollments' tab pro … ment database.

Please note that there are diffe … based on the format of the 2022 data.

2. NYSED did not provide grade … y result in percentage differences on this report vs. th …
3. Enrollment data for subgrou …
4. The "All Grades" category w …
5. "All Grades" enrollment perc … nts enrolled in a course spanning multiple years, which …
6. Although available on NYSED report card data site, NYSED did not provide NYS or county aggregates in their AP Database. The Nassau County benchmark provided on this report was calculated by Nassau BOCES and, therefore, might vary slightly from what is displayed on the NYSED report card data site. NYS benchmarks were not calculated for this report, but may be found on the NYS Report Card.
7. The districts available for selection on this report, along with those that appear on the Grade Enrollments tab, reflect only those districts that have AP course enrollments as of 2022 or later. Note that totaling these districts may not match the Nassau County enrollment totals … rt for the regional benchmark, which includes all districts regardless of AP course enrollment.

- NYSED did NOT provide grade enrollment totals in the AP course database.
- Enrollment data were taken from the separate NYSED Enrollment Database.
- This may result in percentage differences on this report vs. the NYSED data site report.

Comparison of Advanced Placement Course Participation Across Districts iReport

Purpose:

This multi-tabbed report displays the percentage of Advanced Placement (AP) course participation for each Nassau County public school district. The data reflect the number of students enrolled in a AP course, which is not necessarily the same as the number of students taking the AP Assesment. Note that some AP courses span multiple years, and some students may have been accidentally misassigned to AP courses by some districts. Data come from multiple NYSED State Report Card databases: course data are sourced from the "Advanced Placement (AP) and International Baccalaureate (IB) databases; grade enrollment data are sourced from the Enrollment database.

The “Course Participation by Grade Level” tab displays both a column chart and table comparing the percentage of students enrolled in a particular AP course for each of the selected Nassau County public schools. Percentage of enrollment is the number of students enrolled in the course divided by the number of students enrolled in the selected grade.

The "All Grade Levels" tab displays a table containing AP course participation for each individual grade level (9th, 10th, 11th, 12th and All Grades) for the selected AP Course. If the grade level column is blank, that indicates …on a district's average enrollment for grades 10-12.

The 'Grade Enrollments' tab p… …lment database.

Please note that there are diff… …en based on the format of the 2022 data.

1. The “All Students” subgrou…

2. NYSED did not provide grad… …ay result in percentage differences on this report vs. the NYSED data site report.

3. Enrollment data for subgroups by grade level are not available in the Enrollment Database and therefore not available in this report.

4. The “All Grades” category was aggregated by Nassau BOCES and is not available on the NYSED website.

5. “All Grades” enrollment percentages are based on the average grade enrollment for grades 10, 11, and 12. Average grade enrollments may be inflated due to students enrolled in a course spanning multiple years, which may result in enrollment percentages that total more than 100%.

6. Although available on NYSED report card data site, NYSED did not provide NYS or county aggregates in their AP Database. The Nassau County benchmark provided on this report was calculated by Nassau BOCES and, therefore, might vary slightly from what is displayed on the NYSED report card data site. NYS benchmarks were not calculated for this report, but may be found on the NYS Report Card.

7. The districts available for selection on this report, along with those that appear on the Grade Enrollments tab, reflect only those districts that have AP course enrollments as of 2022 or later. Note that totaling these districts may not match the Nassau County enrollment totals …rt for the regional benchmark, which includes all districts regardless of AP course enrollment.

- Enrollment data for subgroups by grade level are not available in the Enrollment Database and therefore not available on this report.

Important Caveats

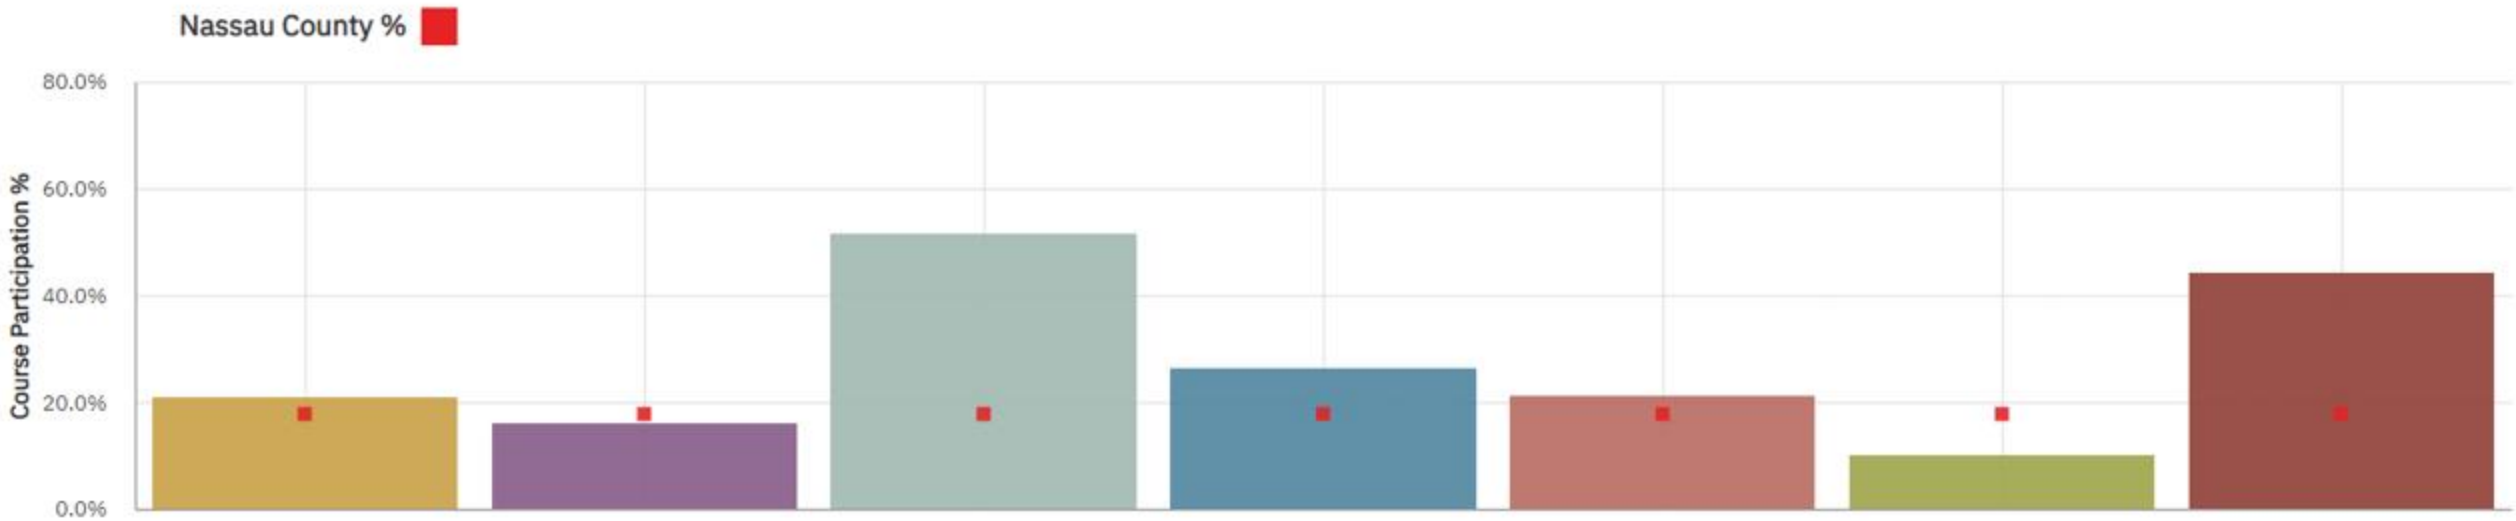
- The “All Grades” category was aggregated by Nassau BOCES and is not available on the NYSED website.
- “All Grades” enrollment percentages are based on the average grade enrollment for grades 10, 11, and 12.
- Average grade enrollments may be inflated due to students enrolled in a course spanning multiple years, which may result in enrollment percentages that total more than 100%.

Important Caveats

- Although available on the NYSED report card data site, NYSED did not provide NYS or county aggregates in their AP Database.
- The Nassau County benchmark on this report was calculated by Nassau BOCES and, therefore, might vary slightly from what is displayed on the NYSED report card data site.
- NYS benchmarks were not calculated for this report but may be found on the NYS Report Card site.

nassau BOCES

AP Course Enrollment



District Participation % and District Participation # are calculated for each grade level grouping, i.e grade 10, 11, 12 or All Students.
The 'All Students' grade level uses the average enrollment for grades 10,11 and 12 in determining the Average Grade Enrollment.

Year	District	AP Course	Grade Level	# Students Enrolled in Course	Average Grade Enrollment	District Participation %
2022		AP Biology	All Grades	47	225	20.9%
2022		AP Biology	All Grades	90	564	16.0%
2022		AP Biology	All Grades	70	136	51.5%
2022		AP Biology	All Grades	160	606	26.4%
2022		AP Biology	All Grades	38	179	21.2%
2022		AP Biology	All Grades	44	439	10.0%
2022		AP Biology	All Grades		403	44.2%

CHRONIC ABSENTEE DASHBOARD

nassau BOCES

CHRONIC ABSENTEE CRITERIA

Students must be:

- enrolled within the district for at least ten instructional days.
- present in school for at least one day.
- absent for 10% or more of the days they are enrolled to be considered chronically absent.

EXPANSION OF THE IDW'S STUDENT DAILY ATTENDANCE DASHBOARD

- Shared student absences grouped by range of days
- Informed the viewer of the total amount of absences for a specified month
- Offered the top ten days with the greatest number of absences
- Depicted the top ten days with the fewest absences
- Did not have the number of days students were enrolled embedded within the report to determine chronic absenteeism
- Only shared information on those enrolled for the entire year
