

EMERGENCY CARE AT SCHOOL

The health office staff is certified in cardiopulmonary resuscitation (CPR) and first aid. During an emergency medical event, the licensed nurse or building principal may determine that for the health and safety of a student who has been injured or having a severe medical emergency a 911 call is necessary. Parent/legal guardians are contacted immediately. It is the responsibility of the parent/legal guardian to pay all transport and medical hospital bills as the result of the injury or medical event.
