As we close out another year for the Friendswood ISD Education Foundation, we are excited to share our 2023-2024 Impact Report with you, our donors and supporters, who make everything possible. The difference we have been able to make this year, and the impact on the students and teachers of Friendswood ISD, was one of record-breaking success! None of our accomplishments would have been possible without YOU, and we are very grateful for your support and belief in FEF. The mission of FEF is to support FISD and enhance student and teacher experiences by providing innovative and engaging learning opportunities. Our purpose, and living out our mission, has never been more crucial to the success of our students than it is today. Thank you for believing in us, and allowing us to be the vehicle providing for our students and teachers. We are grateful for your past support and look forward to continuing to partner with you in the future!

In gratitude,

-Molly

EQUIPPING STUDENTS

Bales students are enjoying the fresh air in the new Bales Outdoor Classroom courtesy of Mrs. Katie Osbourne and several FEF grants! "The outdoor learning center is a whole vibe in itself," says Mrs. Osbourne. "It was a big group effort to help create the space outside." This space allows up to two classrooms to attend at a time and includes covered shade, tables and versatile seating, and even an outdoor sink for teachers and students to utilize. When asked what her favorite thing about the outdoor classroom was, Mrs. Osbourne said "being able to take the kids out of the traditional classroom setting and giving them a new environment of sunshine and air which invigorates them to learn!"

Adopt-A-Grant Snapshot

Legacy Grant Snapshot

In Fall of 2022, FHS Art Teacher Mandy Harris wrote a Legacy Grant to start a ceramics program at FHS. What started as a big dream has turned into a reality, with art students creating original works of art through authentic learning experiences. In addition, the Art Department is working with Faculty, Little Mustangs Preschool, and the Special Education Department to create collaborative projects to bring art throughout FHS. Mrs. Harris excitedly told our board, "It has totally transformed our program. Our students are loving it. We have lots of ideas for the future!"
