

Marietta City Schools
District Unit Planner

Kindergarten

Unit Name

Unit 4: Numerical Reasoning: Understanding and Using Addition and Subtraction in My Life

Unit duration (Days)

7-8 weeks

[GA K-12 Standards](#)

Students will explore the operations of addition and subtraction and use addition and subtraction to solve problems within 10 from real-life where the result or total is unknown. They will represent the situations in various ways using objects, fingers, drawings, expressions, or equations. Students will solve problems they create by generating questions and gathering information. Students will use a variety of strategies to solve addition and subtraction problems within 10. Students will identify and describe patterns with addition of numbers. Students will identify and extend patterns with numbers and shapes. As they have conversations about their days, they will describe patterns related to time from real-life (yesterday, today, tomorrow).

K.NR.5 Explain the concepts of addition, subtraction, and equality and use these concepts to solve real-life problems within 10.

- **K.NR.5.1** Compose (put together) and decompose (break apart) numbers up to 10 using objects and drawings
- **K.NR.5.2** Represent addition and subtraction within 10 from a given authentic situation using a variety of representations and strategies.
- **K.NR.5.3** Use a variety of strategies to solve addition and subtraction problems within 10.

K.PAR.6 Explain, extend, and create repeating patterns with a repetition, not exceeding 4 and describe patterns involving the passage of time.

- **K.NR.6.1** Create, extend, and describe repeating patterns with numbers and shapes, and explain the rationale for the pattern.
- **K.NR.6.2** Describe patterns involving the passage of time using words and phrases related to actual events.

K.MDR.7: Observe, describe, and compare the physical and measurable attributes of objects and analyze graphical displays of data.

- **K.NR.7.3** Ask questions and answer them based on gathered information, observations, and appropriate graphical displays to solve problems relevant to everyday life.

K.MP.1-8 Display perseverance and patience in problem-solving. Demonstrate skills and strategies needed to succeed in mathematics, including critical thinking, reasoning, and effective collaboration and expression. Seek help and apply feedback. Set and monitor goals. *(It is important to note that MPs 1, 3 and 6 should support the learning in every lesson.)*

- **K.MP.1** Make sense of problems and persevere in solving them.
- **K.MP.2** Reason abstractly and quantitatively.
- **K.MP.3** Construct viable arguments and critique the reasoning of others.
- **K.MP.4** Model with mathematics.
- **K.MP.5** Use appropriate tools strategically.

- **K.MP.6** Attend to precision.
- **K.MP.7** Look for and make use of structure.
- **K.MP.8** Look for and express regularity in repeated reasoning.

The [Framework for Statistical Reasoning](#) and the [Mathematical Modeling Framework](#) should be taught throughout the units. The [K-12 Mathematical Practices](#) should be evidenced at some point throughout each unit depending on the tasks that are explored. It is important to note that MPs 1, 3 and 6 should support the learning in every lesson.

Essential Questions/ I CAN Statements

- (K.NR5) I can compose and decompose numbers to 10 using objects and drawings.
- (K.NR5) I can use a variety of representations and strategies to represent addition and subtraction within 10 from a given number.
- (K.NR.5) I can use a variety of representations and strategies to represent addition and subtraction within 5 from a given number.
- (K.PAR.6) I can create repeating patterns with numbers and shapes.
- (K.PAR.6)I can describe repeating patterns with numbers and shapes.
- (K.NR.5) I can fluently add and subtract within 10.

Tier II Vocabulary Words- High Frequency Multiple Meaning

Acting out, number cube (die/dice), add/put together, number path, compare numerals, drawings, explain, add, subtract, take apart, one-to-one correspondence

Tier III Vocabulary Words- Subject/ Content Related Words

Compose, decompose, quantity, equal, sum, difference

Assessments

Formative Assessment(s):

- Unit 4 Common Formative Assessment
- MCS K-5 Activity & Assessment Collection
- K.NR.5 Mini Assessment - Addition and Subtraction
- MIP Module 7 Formative Assessment p. 266
- MIP Modeule 8 Formative Assessment p.188

*It is the responsibility of each schools' grade level PLC to identify appropriate instructional lessons and resources, based on data and student needs, using the suggested **pacing duration**. The following learning tasks have been vetted to align to the standards included in this unit. The GA Dept. of Education strongly recommends that any additional tasks, resources, and/or assessments used for instruction should be vetted using the [Quality Assurance Rubric](#), to ensure alignment to the state standards.*

Objective or Content
