Parent Signature

Study Tables are used as an extension of the school day. It is an opportunity for our students to complete school work and enhance their learning. School rules will continue to apply during this extension. It is a privilege that we allow to students to help bridge the gap from school to athletic practice or to an extra-curricular activity. Below are expectations for this time frame. Failure to follow those expectations could result in a loss of this privilege.

- Students will be divided into 4 sections based alphabetically.
- At 2:20 all students need to be in their assigned room.
- All mobile technology, music, or video devices must be turned off during this time.
 Only the school provided laptops will be allowed.
- Students will work on homework or silent reading during this time.
- Only coaches may dismiss students early from Study Table, and must do so personally.
- Food and drink are prohibited.
- No collaborative work will be allowed during this study table time unless previously worked out with an individual teacher.
- Bathroom and locker visits will be monitored and limited for students. It is expected that they have that completed prior to arriving at Study Tables.
- All discipline will be referred to their individual coach and the office as needed.
- Students will be released at 2:55pm.

I have read the above expectations of Study Table and agree to those listed. Failure to follow the above expectations will result in removal from Hopewell Junior Study Tables.
