

THE BUSINESS INCUBATOR EXPERIENCE

FOR RISING JUNIORS

START-UP A REAL BUSINESS

Do you have an idea for a product or company, but don't know where to begin? Interested in working in a start-up environment but don't yet have an idea? Find a partnership and mentors through this unique interdisciplinary course.

WORK WITH OTHER PRE-PROFESSIONALS

You're the expert! Whether you come from an engineering, law, medicine, computer science, business, or science research background, you're an integral member of the start-up team and you'll contribute your unique perspective.

EARN AP CREDIT

Designed as a Junior year experience, the Incubator Course walks you through building a real business. You'll be guided through ideation, market research, product development, business planning, and preparation for finding investment, as well as any associated legal milestones, all the while earning important credit for AP Seminar and developing real-world skills that give you a jump start on your future and a great addition to your resume.
