

# Learn with IXL at home!

We're using IXL to support our curriculum this year, and your child has access to this online program at home. With thousands of skills that match what we're learning, as well as insights into student progress, IXL is a great resource to help your child excel.

Unlimited practice in 8,000+ skills

Progress-tracking reports

Personalized skill recommendations

Certificates and awards

**Find IXL on CHA's Clever page-**  
*log in with your student's credentials*

## SMARTSCORE CORNER

### What is IXL's SmartScore?

The SmartScore is the best possible measure of how well your child understands a skill!  
It factors in question difficulty, answer accuracy, and consistency.

**You can adjust  
SmartScore goals  
as you go**

Aim for 80 or 90, which shows a strong understanding of a skill. For an extra challenge, try for mastery (a score of 100).

**The SmartScore is  
not a percentage  
score**

Unlike percentage-based scoring, the SmartScore is truly smart. Even if a student gets a question wrong, it's always possible to reach a 100.

**Taking breaks is  
always okay**

If your child needs to pause their practice, they can always return to a skill later—all progress will be automatically saved!

# Track your child's progress with IXL Analytics

IXL offers useful reports that give you insight into your child's work in IXL. Below are some easy ways to use IXL Analytics to monitor their progress and see where they might need help!

To access these reports, simply sign in to your child's IXL account and click on the Analytics tab.

## STUDENT SUMMARY

Daniel's areas to focus on

💡 Daniel could use extra support on these skills:

Subject	Skill	Questions missed
ELA	Choose the synonym: 70X	7
Math	Surface area of cubes and rectangular prisms: 70G	6
Math	Properties of polygons: 70J	5
ELA	Choose the synonym: 50V	5
Math	Multiple fractions and mixed numbers by whole numbers in recipes: 75J	5

[See all 10 skills](#)

IXL's instructional resources—including video tutorials, lessons, learn with an example, and detailed answer explanations—are easy to access and available whenever students need them. Remind your student to carefully read explanations before moving on to the next question!

### What has my child been doing on IXL?

Get a bird's-eye view of your child's work on IXL with the [Student Summary report](#)! See what they've been working on and how much they've grown throughout the year.

Plus, with this report, you can access key resources to boost progress:

- Suggested skills your child's teacher has assigned
- Your child's complete Diagnostic Action Plan for personalized skill practice
- Trouble spot skills where your child needs additional support

## SCORE CHART

Scores

Viewing correct scores at public middle school in this school year.

### Did my child complete their assignments?

If your child's teacher has assigned specific skills as homework and/or set certain SmartScore goals to reach, the Score Chart report can help you quickly see if your child has hit those targets.

The Score Chart shows you at a glance the SmartScore your child achieved on each skill, as well as the number of questions they answered and how much time they spent on those skills.

## TROUBLE SPOTS

Ways to help Ava right now...

**4th (D-4) Multiplication facts to 12** [Search history: 7/19](#)

MISSED QUESTIONS FROM THIS ITEM TYPE

🔊 Multiply:  $4 \times 3 = \square$

🌟 Current SmartScore: 61 🚨 27 missed questions from this item type [View Ava's Questions log](#)

**5th (G-5) Understanding decimals expressed in words** [Search history: 7/19](#)

MISSED QUESTIONS FROM THIS ITEM TYPE

🔊 Write one and ninety-seven hundredths as a decimal number.

🌟 Current SmartScore: 51 🚨 26 missed questions from this item type [View Ava's Questions log](#)

### How can I help my child with areas they're struggling with?

When you're looking for ways to provide extra support to your child at home, head over to the Trouble Spots report. It pinpoints the concepts your child is struggling with, and you can even see the exact questions your child received and missed!

If you notice a trouble spot, pick a few of the missed questions and work through them with your child to help them understand their mistakes. Or, go to that skill and answer a question incorrectly on purpose so that you can review the explanation together—it provides a useful review of the concept and a step-by-step guide for how to solve it. When your child is ready, have them work on the skill until they reach proficiency (a SmartScore of 80).
