- On, or within sight of, school grounds before, during, or after school hours or at any time.

Student Conduct

Dress Code/Student Appearance

BOE Policy 7:160 states a student's appearance, including dress and hygiene, must not disrupt the educational process or compromise standards of health, and safety. The District does not prohibit hairstyles or head coverings historically associated with race, religion, ethnicity, or hair texture, including but not limited to, protective coverings such as scarves or hijabs, and protective hairstyles such as braids, locks, and twists. Students who disrupt the educational process or compromise standards of health and safety must modify their appearance.

The purpose of a dress code is to provide guidance to students and parents as to appropriate attire and grooming for school and at any school or school-sponsored or related activity or event, whether on or off school grounds.

The building Principal or designee determines whether a student's dress and appearance violates the dress code. Students whose dress or appearance violates the dress code, disrupts the educational environment or school operations, or compromises health and safety standards will be required to modify their appearance, including but not limited to changing, removing, or covering an item of clothing. Students who refuse to modify their appearance or continue to violate the dress code may be subject to discipline pursuant to BOE Policy 7:190.

There are many benefits of school dress codes. Here are some of the most important advantages:

- A dress code promotes a more serious school atmosphere, which emphasizes academics and promotes good behavior.
- Dress codes have proven to increase student achievement by encouraging students to concentrate more on their studies and less on their wardrobe. A de-emphasis on clothing can also save money, as there will be less pressure to keep up with expensive trends and fashions.
- Dress codes in school settings reduce social conflict and peer pressure that may be associated with appearance.
- Studies indicate that a school dress code can reduce the prevalence of certain behaviors, which are often expressed through wardrobe such as violence or promiscuity..
- As opposed to uniforms, dress codes still allow students to wear clothes they choose that align with the dress code, which leaves students with a sense of choice and expression.

Student Dress Must Include:

- Appropriate footwear at all times
- Pants or shorts worn and fastened at the waistline and covering undergarments
- Shorts or skirts of an appropriate length for the school environment
- Shirts that meet or go beyond the waistline of pants, shorts, or skirt
- Bottom of shirts will minimally meet the waistline of pants.

Items prohibited by the dress code are those deemed to be offensive, vulgar, and contrary to the educational mission of the District, including but not limited to items that use or contain

profanity, sexual connotations, weapons, or depictions of violence, or the promotion or identification of an individual or group that advocates substance abuse, physical/verbal abuse, suicide, racism, gang affiliation, or other derogatory behavior.

Examples Of Inappropriate Clothes May Include, But Are Not Limited To:

- Articles which advertise, promote, or picture alcoholic beverages, illegal drugs, drug paraphernalia, violent behavior, or other inappropriate images.
- Articles which display lewd, vulgar, obscene, or offensive language or symbols, including gang/gang affiliated symbols.
- Any head covering with a hood, bill, brim or other protrusion is prohibited. Students are permitted to wear a beanie or close-fitting headscarf.
- Coats and sunglasses and backpacks may not be worn in the building during the school day.
- Accessories that pose a safety hazard are not permitted in the shop, laboratories, or during physical education, including AirPods or earbuds unless being used during assessment or instruction and authorized by school staff.
- Clothing that is overly revealing.

Easy To Remember

Attendance

Illinois School Code 105 ILCS 5/26-1 Compulsory Attendance applies to students between the ages

of six (on or before September 1) and 17 years (unless the child has graduated from high school), **or** students who are enrolled in any of grades kindergarten through 12, regardless of age. The School Code states that a child must “attend some public school in the district wherein the child resides the entire time it is in session during the regular school term” except for the following valid reasons: illness, including mental or behavioral health of the student), observance of a religious holiday, death in the immediate family, family emergency, other situations beyond the control of the student, other circumstances that cause reasonable concern to the parent/guardian for the student’s safety or health, or other reason as approved by the Superintendent or designee. Students absent for a valid cause may make up missed homework and classwork assignments in a reasonable timeframe. All District schools must enforce and follow the Illinois School Code. Therefore, absences will be determined by the Building Administrator to be excused or unexcused.

In accordance with the Illinois School Code, family vacations or trips do not constitute a “valid cause” for an absence and should, therefore, be listed as an unexcused absence.

Excused Absences include:

- Personal Illness (cases involving vomiting, fever, or diarrhea), including 5 allowed mental health days
- Death in the family
- Religious holiday
- Family emergency

Unexcused Absences include:

- Oversleeping
- Transportation problems
- Business that could be held outside regularly scheduled school hours
- Vacations

Attendance Expectations

Daily attendance for all students at all grade levels is essential for successful learning. According to research, chronically absent students are more likely than their peers with good attendance to face reading difficulties by third grade and less likely to earn a high school diploma. The state defines “chronic absenteeism” as any student who misses more than 10% of the school year, including absences both with and without a valid cause. Moline-Coal Valley School District expects students to be in attendance for a minimum of 90% of the scheduled school days. That means a student should miss no more than 4 days in a single semester of school (or fewer than 9 days for the school year). Help us reduce chronic absenteeism by ensuring your student attends school all day, every day!

Timeliness

Students are expected to be present and accounted for during each instructional period. In accordance with District Policy 7:70, the Superintendent or designee shall manage an absenteeism and truancy program in accordance with the School Code and School Board policy. The program shall include but not be

limited to:

- A process to identify and track students who are truants, chronic or habitual truants, or truant minors as defined in the School Code, Section 26-2a.
- A description of diagnostic procedures for identifying the cause(s) of a student's unexcused absenteeism, including interviews with the student, his or her parent(s)/guardian(s), and staff members or other people who may have information about the reasons for the student's attendance problem.

Student Use of Electronic Devices

The use of electronic devices and other technology at school is a privilege, not a right. Students are prohibited from using electronic devices, except as provided herein. An electronic device includes, but is not limited to, the following: cell phone, smart phone, audio or video recording device, personal digital assistant (PDA), ipod®, ipad®, laptop computer, tablet computer or other similar electronic device, smart watch, including AirPods and earbuds. Pocket pagers and other paging devices are not allowed on school property at any time, except with the express permission of the building Principal.

During instructional time, which includes class periods, personal electronic devices should be kept silent and out-of-sight unless: (a) permission is granted by an administrator, teacher or school staff member; (b) use of the device is provided in a student's individualized education program (IEP); or (c) it is needed in an emergency that threatens the safety of students, staff, or other individuals.

Electronic devices may never be used in any manner that disrupts the educational environment, violates student conduct rules or violates the rights of the student, class, or staff. This includes, but is not limited to, the following: (1) using the device to take photographs in bathrooms; (2) cheating; and (3) creating, sending, sharing, viewing, receiving, or possessing an indecent visual depiction or non-consensual dissemination of private sexual images (i.e., sexting).

The school and school district are not responsible for the loss, theft or damage to any electronic device brought to school.

Students in violation of this procedure are subject to the following consequences:

- A verbal warning will be given. If the student does not comply with the directive to put the phone away, the device will be confiscated by school personnel. The student will receive the device back at the end of the day in the school office and be assigned an electronic violation in the student information system.
- Continued violations will result in further disciplinary actions and/or plans as determined by administration.

School officials may conduct an investigation or require a student to cooperate in an investigation if there is specific information about activity on the student's account on a social networking website that violates a school disciplinary rule or policy. In the course of an investigation, the student may be required to share the content that is reported in order to allow school officials to make a factual determination.

Access to Student Social Networking Passwords & Websites

School officials may conduct an investigation or require a student to cooperate in an investigation if there is specific information about activity on the student's account on a social networking website that violates a school disciplinary rule or policy. Student Medication

Students should not take medication during school hours or during school-related activities unless it is necessary for a student's health and well-being. When a student's licensed health care provider and parent/guardian believe that it is necessary for the student to take medication during school hours or school-related activities, the parent/guardian must request that the school dispense the medication to the child and otherwise follow the District's procedures on dispensing medication. No School District employee shall administer to any student, or supervise a student's self-administration of, any prescription or non-prescription medication until a completed and signed School Medication Authorization Form is submitted by the student's parent/guardian. No student shall possess or consume any prescription or non-prescription medication on school grounds or at a school-related function other than as provided for in this policy and its implementing procedures. Nothing in this policy shall prohibit any school employee from providing emergency assistance to students, including administering medication. The Building Principal shall include this policy in the Student Handbook and shall provide a copy to the parent(s)/guardian(s) of students.

Self-Administration of Medication

- A student may possess an epinephrine injector, e.g., EpiPen®, and/or asthma medication prescribed for use at the student's discretion, provided the student's parent/guardian has completed and signed a School Medication Authorization Form. The School District shall incur no liability, except for willful and wanton conduct, as a result of any injury arising from a student's self-administration of medication or epinephrine injector or the storage of any medication by school personnel. A student's parent/guardian must indemnify and hold harmless the School District and its employees and agents, against any claims, except a claim based on willful and wanton conduct, arising out of a student's self-administration of an epinephrine injector and/or medication, or the storage of any medication by school personnel.
- Students who are diabetic may possess and self-administer diabetic testing supplies and insulin if authorized by the student's diabetes care plan, which must be on file with the school.
- Students with epilepsy may possess and self-administer supplies, equipment and medication, if authorized by the student's seizure action plan, which must be on file with the school.

- The school district shall incur no liability, except for willful and wanton conduct, as a result of any injury arising from a student's self-administration of medication, including asthma medication or epinephrine injectors, or medication required under a qualifying plan. A student's parent/guardian

must indemnify and hold harmless the school district and its employees and agents, against any claims, except a claim based on willful and wanton conduct, arising out of a student's self-administration of an epinephrine injector, asthma medication, and/or a medication required under a qualifying plan.

- No disciplinary action shall be taken against any student that is based totally or in part on the refusal of the student's parent/guardian to administer or consent to the administration of psychotropic or psychostimulant medication to the student.

Student Rights and Responsibilities at School (Board Policy 7:130)

Students are entitled to the rights protected by the U.S. and Illinois Constitutions and laws applicable for individuals of their age and maturity in the school setting. Students are expected to exercise these rights reasonably, respect the rights of others, and not violate the rights of others. As part of the District's authority to maintain order and discipline within its schools and establish conditions in the school environment that are conducive to learning and keep students safe, students who violate the rights of others or violate District policies or rules will be subject to disciplinary measures pursuant to Board Policy 7:190.

The District's rules and expectations for student conduct apply whenever the student's conduct is reasonably related to school or school activities, including, but not limited to:

This includes when using District email, phones, or other methods of communication; using or accessing a District-issued device or District network, website, or other platform; and when participating in remote or e-learning. See Board Policies 7:180 and 7:190.

With respect to student speech and self-expression, the District can prohibit and sanction speech that is obscene, promotes activities that are against District policies and rules and/or the law, disrupts the operation of the school, or causes safety concerns or potential danger.

Disruptive acts of civil disobedience, such as a walkout, may interfere with student learning, safety, and/or the operations of the school and, therefore, a student who participates may be subject to disciplinary measures pursuant to Board Policy 7:190. In addition, students are required by law to be in school except for an excused absence. Students who leave class or school without permission and in violation of District policies and rules, may be subject to disciplinary measures pursuant to Board Policy 7:190 and other interventions pursuant to Board Policy 7:70.

5. Staff members confer privately to determine consequences and interventions.

Levels of Misconduct

Acts of misconduct are misbehaviors which interfere with or disrupt the orderly operation of the classroom, school common areas, school property, or those which cause harm to others. Some misbehavior may be so severe that it represents a clear and present danger to themselves or others, may involve the use of law enforcement, the administration of a threat assessment, or require removal of the student from school. Offense categories which are higher will result in a high score on the District Behavior Rubric. Both aggravating and mitigating factors are considered in the completion of the Behavior Rubric, with aggravating factors resulting in a higher point total, and mitigating factors reducing the point total. Behaviors denoted with an asterisk will also initiate the district threat assessment process.

Disciplinary Measures

School officials shall limit the number and duration of expulsions and out-of-school suspensions to the greatest extent practicable, and, where practicable and reasonable, shall consider forms of non-exclusionary discipline before using out-of-school suspensions or expulsions. School personnel shall not advise or encourage students to drop out of school voluntarily due to behavioral or academic difficulties, nor encourage parents to take their children home in lieu of school discipline. Potential disciplinary measures include the aforementioned use of a discipline rubric to determine needed discipline. The higher the point total on the rubric, the more restrictive measures will be used, and the higher the number of days assigned a consequence. Behavior consequences may include any of the following measures:

- Notifying parents/guardians.
- Reflection room referral.
- Referral to School Counselor.
- Restorative conversation or conflict resolution discussion.
- Disciplinary conference.
- Withholding of privileges.
- Temporary removal from the classroom.
- Return of property or restitution for lost, stolen or damaged property.
- In-school suspension.
- After-school study, lunch detention, or Saturday study provided the student's parent/guardian has been notified. (If transportation arrangements cannot be made in advance, an alternative disciplinary measure will be assigned to the student.)
- Restricted/ Supervised school day.
- Community service.
- Seizure of contraband; confiscation and temporary retention of the personal property that was used to violate school rules.
- Suspension of bus riding privileges.
- Suspension from school and all school activities for up to 10 days. A suspended student is prohibited from being on school grounds.
- Expulsion from school and all school activities for a definite time period not to exceed 2 calendar years. An expelled student is prohibited from being on school grounds.
- Notifying juvenile authorities or other law enforcement whenever the conduct involves criminal activity, such as, illegal drugs (controlled substances), "look-alikes," alcohol or weapons or in other circumstances as authorized by the reciprocal reporting agreement between the District and local law enforcement agencies.

The above list of disciplinary measures is a range of options that will not always be applicable in every case. In some circumstances, it may not be possible to avoid suspending or expelling a student because behavioral interventions, other than a suspension or expulsion, will not be appropriate and available, and the only reasonable and practical way to resolve the threat and/or address the disruption is a suspension or expulsion.

Isolated Time Out, Time Out and Physical Restraint

Isolated time out, time out, and physical restraint shall only be used if the student's behavior presents an imminent danger of serious physical harm to the student or others and other less restrictive and intrusive measures were tried and proven ineffective in stopping it. The school may not use isolated time out, time out, and physical restraint as discipline or punishment, convenience for staff, retaliation, a substitute for appropriate educational or behavioral support, a routine safety matter, or to prevent property damage in the absence of imminent danger of serious physical harm to the student or others.

Corporal Punishment

Corporal punishment is illegal and will not be used. Corporal punishment is defined as slapping, paddling, or prolonged maintenance of students in physically painful positions, or intentional infliction of bodily harm. Corporal punishment does not include reasonable force as needed to maintain safety

for students, staff, or other persons, or for the purpose of self-defense or defense of property.

Delegation Of Authority

Each teacher, and any other school personnel when students are under his or her charge, is authorized to impose any disciplinary measure, other than suspension, expulsion, corporal punishment, or in-school suspension, that is appropriate and in accordance with the policies and rules on student discipline. Teachers, other certificated [licensed] educational employees, and other persons providing a related service for or with respect to a student, may use reasonable force as needed to maintain safety for other students, school personnel, or other persons, or for the purpose of self-defense or defense of property. Teachers may temporarily remove students from a classroom for disruptive behavior. The Superintendent, Building Principal, Assistant Building Principal, or Dean of Students is authorized to impose the same disciplinary measures as teachers and may suspend students guilty of gross disobedience or misconduct from school (including all school functions) and from riding the school bus, up to ten consecutive school days, provided the appropriate procedures are followed.

Suspension Procedures & Due Process

1. In-School Suspension: The Superintendent or designee is authorized to maintain an in-school suspension program, per District Board Policy 7:200. Students assigned to ISS are given the opportunity to complete classroom work during the in-school suspension for equivalent academic credit.
2. Out-of-School Suspension: The Superintendent or designee shall implement suspension procedures that provide, at a minimum, for each of the following:
 - A conference during which the charges will be explained and the student will be given an opportunity to respond to the charges before he or she may be suspended.
 - A pre-suspension conference is not required, and the student can be immediately suspended when the student's presence poses a continuing danger to persons or property or an ongoing threat of disruption to the educational process. In such cases, the notice and conference shall follow as soon as practicable.
 - An attempted phone call to the student's parent(s)/guardian(s)
 - A written notice of the suspension to the parent(s)/guardian(s) and the student, which shall:
 - a. Provide notice to the parent(s)/guardian(s) of their child's right to a review of the suspension;
 - b. Include information about an opportunity to make up work missed during the suspension for equivalent academic credit;
 - c. Detail the specific act of gross disobedience or misconduct resulting in the decision to suspend;
 - d. Provide rationale or an explanation of how the chosen number of suspension days will address the threat or disruption posed by the student or his or her act of gross disobedience or misconduct; and
 - e. Depending upon the length of the out-of-school suspension, include the following applicable information:
 - i. For a suspension of 3 school days or less, an explanation that the

- student's continuing presence in school would either pose a threat to school safety, or a disruption to other students' learning opportunities.
- ii. For a suspension of 4 or more school days, an explanation:
 - a) That other appropriate and available behavioral and disciplinary interventions have been exhausted,
 - b) As to whether school officials attempted other interventions or determined that no other interventions were available for the student,
 - c) That the student's continuing presence in school would either pose a threat to the safety of other students, staff, or members of the school community or substantially disrupt, impede, or interfere with the operation of the school.
 - iii. For a suspension of 5 or more school days, the information listed in section e.ii., above, along with documentation by the Superintendent or designee determining what, if any, appropriate and available support services will be provided to the student during the length of his or her suspension.
4. A summary of the notice, including the reason for the suspension and the suspension length, must be given to the Board by the Superintendent or designee.
 5. Upon request of the parent(s)/guardian(s), a review of the suspension shall be conducted by the Board or a hearing officer appointed by the Board. At the review, the student's parent(s)/guardian(s) may appear and discuss the suspension with the Board or its hearing officer and may be represented by counsel. Whenever there is evidence that mental illness may be the cause for the suspension, the Superintendent or designee shall invite a representative from the Department of Human Services to consult with the Board. After presentation of the evidence or receipt of the hearing officer's report, the Board shall take such action as it finds appropriate. If the suspension is upheld, the Board's written suspension decision shall specifically detail items (a) and (e) in number 3, above.

Expulsion Procedures & Due Process

The Superintendent or designee shall implement expulsion procedures that provide, at a minimum, for the following:

1. Before a student may be expelled, the student and his or her parent(s)/guardian(s) shall be provided a written request to appear at a hearing to determine whether the student should be expelled. The request shall be sent by registered or certified mail, return receipt requested. The request shall:
 - Include the time, date, and place for the hearing.
 - Briefly describe what will happen during the hearing.
 - Detail the specific act of gross disobedience or misconduct resulting in the decision to recommend expulsion.
 - List the student's prior suspension(s).
 1. State that the School Code allows the School Board to expel a student for a definite period of time not to exceed 2 calendar years, as determined on a case-by-case basis.
 2. Ask that the student or parent(s)/guardian(s) or attorney inform the

- Superintendent or Board Attorney if the student will be represented by an attorney and, if so, the attorney's name and contact information.
- Unless the student and parent(s)/guardian(s) indicate that they do not want a hearing or fail to appear at the designated time and place, the hearing will proceed. It shall be conducted by the Board or a hearing officer appointed by it. If a hearing officer is appointed, he or she shall report to the Board the evidence presented at the hearing and the Board shall take such final action as it finds appropriate. Whenever there is evidence that mental illness may be the cause for the recommended expulsion, the Superintendent or designee shall invite a representative from the Dept. of Human Services to consult with the Board.
 - During the expulsion hearing, the Board or hearing officer shall hear evidence concerning whether the student is guilty of the gross disobedience or misconduct as charged. School officials must provide:
 1. Testimony of any other interventions attempted and exhausted or of their determination that no other appropriate and available interventions were available for the student, and
 2. Evidence of the threat or disruption posed by the student. The student and his or parent(s)/guardian(s) may be represented by counsel, offer evidence, present witnesses, cross-examine witnesses who testified, and otherwise present reasons why the student should not be expelled. After presentation of the evidence or receipt of the hearing officer's report, the Board shall decide the issue of guilt and take such action as it finds appropriate.
 - If the Board acts to expel the student, its written expulsion decision shall:
 1. Detail the specific reason why removing the student from his or her learning environment is in the best interest of the school.
 2. Provide a rationale for the specific duration of the recommended expulsion.
 3. Document how school officials determined that all behavioral and disciplinary interventions have been exhausted by specifying which interventions were attempted or whether school officials determined that no other appropriate and available interventions existed for the student.
 4. Document how the student's continuing presence in school would pose a threat to the safety of other students, staff, or members of the school community, or substantially disrupt, impede, or interfere with the operation of the school.
 - Upon expulsion, the District may refer the student to appropriate and available support Services.

Discipline Of Students With Disabilities

The school and District will comply with federal and state law when disciplining students with disabilities. Behavioral interventions will be used with students with disabilities to promote and strengthen desirable behaviors and reduce identified inappropriate behaviors. No special education student shall be expelled if the student's particular act of gross disobedience or misconduct is a manifestation of his or her disability as determined by the IEP team. Any special education student whose gross disobedience or misconduct is not a manifestation of his or her disability may be suspended or expelled pursuant to the district's procedures but shall continue to receive special education services as determined by the IEP

team. For more information regarding special education services please the District Office at (309) 743-8129.

Re-Engagement of Returning Students

The building Principal or designee shall meet with a student returning to school from an out-of-school suspension, expulsion or alternative school setting. The goal of this meeting shall be to support the student's ability to be successful in school following a period of exclusion and shall include an opportunity for students who have been suspended to complete or make-up missed work for equivalent academic credit.

Search and Seizure

In order to maintain order safety and security in the schools, school authorities are authorized to conduct reasonable searches of school property and equipment, as well as of students and their personal effects. "School authorities" includes school liaison police officers.

School Property and Equipment as well as Personal Effects Left There by Students

School authorities may inspect and search school property and equipment owned or controlled by the school (such as lockers, desks, and parking lots), as well as personal effects left there by a student, without notice to or the consent of the student. Students have no reasonable expectation of privacy in these places or areas or in their personal effects left there.

The building Principal may request the assistance of law enforcement officials to conduct inspections and searches of lockers, desks, parking lots, and other school property and equipment for illegal drugs, weapons, or other illegal or dangerous substances or materials, including searches conducted through the use of specially trained dogs.

Student Searches

School authorities may search a student and/or the student's personal effects in the student's possession (such as, purses, wallets, knapsacks, book bags, lunch boxes, etc.) when there is a reasonable ground for suspecting that the search will produce evidence the particular student has violated or is violating either the law or the school or district's student rules and policies. The search will be conducted in a manner that is reasonably related to its objective of the search and not excessively intrusive in light of the student's age and sex, and the nature of the infraction.

School officials may require a student to cooperate in an investigation if there is specific information about activity on the student's account on a social networking website that violates the school's disciplinary rules or school district policy. In the course of the investigation, the student may be required to share the content that is reported in order for the school to make a factual determination. School officials may not request or require a student or his or her parent/guardian to provide a password or other related account information to gain access to the student's account or profile on a social networking website.

Seizure of Property

If a search produces evidence that the student has violated or is violating either the law or the school or district's policies or rules, evidence may be seized and impounded by school authorities,

and disciplinary action may be taken. When appropriate, evidence may be transferred to law enforcement authorities.

Questioning of Students Suspected of Committing Criminal Activity

Before a law enforcement officer, school resource officer, or other school security person detains and questions on school grounds a student under 18 years of age who is suspected of committing a criminal act, the building Principal or designee will: (a) Notify or attempt to notify the student's parent/guardian and document the time and manner in writing; (b) Make reasonable efforts to ensure the student's parent/guardian is present during questioning or, if they are not present, ensure that a school employee (including, but not limited to, a social worker, psychologist, nurse, guidance counselor, or any other mental health professional) is present during the questioning; and (c) If practicable, make reasonable efforts to ensure that a law enforcement officer trained in promoting safe interactions and communications with youth is present during the questioning.
