

Memorandum of Understanding
Between
The Association of School Bus Drivers
AND
South Washington County Schools-ISD 833

The District acknowledges that the new software implementation may result in involuntary changes to total amount of hours that were awarded during route picks.

In the event an employee's total hours are involuntarily reduced prior to October 15, 2024 due to software routing glitches (excluding typical removal of bus stops and the like), the employee will maintain the total hours per week that were awarded at the time of route picks. The employee will be required to complete other duties as assigned in order to be paid for the hours that were awarded during route picks. If the employee does not complete other duties as assigned, the employee will be compensated for the current total hours of the assigned route.

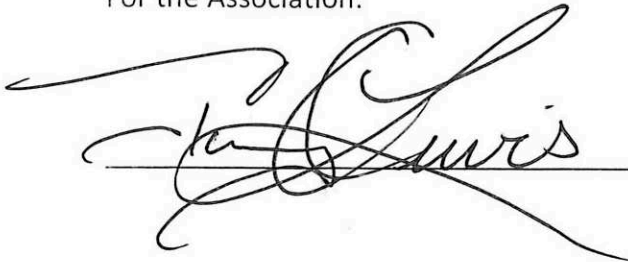

This MOU will expire on June 30, 2025.

For the District:

Date: 8/9/24

For the Association:

Date: 8/9/24
