The Secret Stories of Science: Living & Non-Living Things

Mama Koku

Dr. Livy Livingstein, (Mama Koku), tells her story of how she learned the seven characteristics that make a thing Living as oppose to Non-Living. Kiley and Riley, (audience volunteers), are her helpers. They have brought their pets! With the help of other students, they retell stories, sing, chant and participate in a big sorting activity! In the end, students make a huge discovery. One pet is NOT LIVING!

*** Live @ Your School Set Up Needs:** Please plan to host performance in a large, cleared, quiet area such as your media center. Students can be seated on the floor. Student participation is a major aspect of this program.

Listening & Speaking Flamenco

Julie Galle Baggenstoss

Students use their imagination to create their own short dances in the Flamenco style! They are encouraged to stomp, clap, and swirl their hands in the air—in full body coordination. By exploring characters in children’s literature, students connect literal expressions of emotion with their own movements in activities that highlight body parts and give attention to following directions in an engaging musical environment. This workshop always includes Spanish vocabulary words and can be offered totally in Spanish upon request.

*** Live @ Your School Set Up Needs:** Performer will travel to each classroom for their workshop. Students will need room to move during this program.

Shapes in Music

Jerry G White

Using *Shape/Shapes in Music* by Rebecca Rissman as its guide, students are taken on a journey to find shapes in all different types of musical instruments, but primarily percussion instruments! With this program, they discover the shapes and joy of several percussion instruments, including the timbalé, snare drum, cajón, triangle and more! Shapes: cone, cube, cylinder, hexagon, and sphere! In addition, the concept and exploration of *rhythm* is explored and appreciated.

*** Live @ Your School Set Up Needs:** Performer will need to unload equipment near performance space. Please plan to host performance in a large, cleared, quiet area such as your media center. The performer will need to use a laptop, screen and projector and have teacher assistance to set this up and advance the slides. Students can be seated on the floor.

Georgia Wildlife Journey

Chattahoochee Nature Center

This program introduces students to native animals that live here in the Piedmont region of Georgia. Students investigate a mammal, reptile and bird of prey to compare and contrast the adaptations that help them survive in their habitats. In addition to meeting the animal, students will learn the “language” of the natural world.

*** Live @ Your School Set Up Needs:** Please plan to host performance in a large, cleared, quiet area such as your media center. Students can be seated on the floor with an aisle through the middle of the group. Please provide a closet or other quiet space for the live animals to be held before and during the show.

Dust Bunnies Have a Party

Mama Koku

Based on the book, *Rhyming Dust Bunnies* by Jan Thomas, Readah Rhymmer, (Mama Koku), continues the Dust Bunny story with Ed, Ned, Ted and Bob out of the vacuum cleaner! They’re having a party to celebrate. Dust Bunnies from all over the house are coming! How will they keep track of all their guests? NAME TAGS! Students get to sound out and blend CVC, (consonant, vowel, consonant) words and names! Reading is fun and very dusty!

What if...?

Kay Rosenblum

What if... there was a program to spark students’ imagination and expand verbal, writing, and listening skills? Storyteller, Kay Rosenblum use students’ creativity to find out: What if frogs have a party? What if the sun raced across the sky? What if you had an invisible friend, Magalena Hagalena, who “has 10 hairs on the top of her head. Five are alive and the other five are dead!?”

Following the interactive storytelling performance, kindergarteners make their own Magalena Hagalena puppets and create their own stories! This hands-on puppet making activity supports Language Arts and Math curriculum.
