

Login Guide for x2VOL – Community Service Online Tracker

Our high school is using x2VOL to track your service hours! x2VOL is an online platform that provides an easy way to log your service hours and find volunteer opportunities. Please follow the below instructions to login.

X2VOL website <https://www.x2vol.com/index.html>

- Click “LOG IN” (top right corner)
- Choose “CONTINUE WITH MICROSOFT”
- Provide your school email address and school email password
 - This can be found on the JCS Student Portal under Contact Card (<https://jupiterchristian.myschoolapp.com>)

A screenshot of the x2VOL login interface. At the top left is a green arrow icon followed by the text "LOG IN". Below this are two input fields for "Email" and "Password". Underneath the password field are links for "Forgot Password" and "New User". A dark blue "SIGN IN" button is positioned below the links. Three social login options are listed: "Continue with Google", "Continue with Microsoft", and "Continue with Clever". A yellow arrow points from the "Continue with Microsoft" button to the right. On the right side of the screenshot, there is a hand holding a white card with a green circular logo that says "Official Service Transcript x2VOL Every Hour Counts". To the right of the login form, there is a small "x" icon and a paragraph of text: "Positively impact your acceptance to college. Send an official record of your community impact directly to college admissions officers with your Official Service Transcript™."

- Start logging your hours in x2VOL!
- Click on “ADD HOURS”, then click on “+ CREATE NEW” next to Personal Projects

A screenshot of the "Common Tasks" menu. The title "Common Tasks" is in blue. Below it are four green buttons: "Find Opportunities", "Add Hours", "Service Transcript", and "Account Settings". A yellow arrow points down to the "Add Hours" button.

A screenshot of the "Personal Projects" section. The text "Personal Projects" is in white on a dark background. To its right is a blue button with a white plus sign and the text "Create New".
