

Career Readiness: Joining Education and Business

As a result...

Schools are now evaluated on how well students are prepared for careers

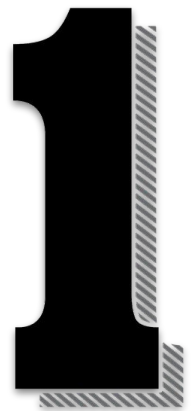

How is this done??????

1. Education in the classroom through standards
2. Experiences outside of the classroom

Education through standards:

Schools must show students have been exposed to career education based on four domains:

1. Career Awareness and Preparation
2. Career Acquisition
3. Career Retention and Advancement
4. Entrepreneurship

Experiences outside of the classroom:

Schools earn credit for students whom have participated:

1. Job Shadowing
2. Internships
3. Cooperative Education
4. Pre Apprenticeship
5. Community Based Work Experiences
6. Career Mentoring
7. Earned Industry Recognized Credentialing
