### FOREWORD

Graduation Standards and Catalog of Courses and Materials, Bulletin 100, is revised and published annually to apprise school personnel in the secondary division of curricular and policy changes regarding graduation requirements, course offerings, and instructional materials. This bulletin contains (1) state and local graduation standards in compliance with State Board of Education rules; (2) official information pertinent to the instructional program; (3) state assessment requirements; (4) recommended course sequences; (5) an annotated listing of secondary courses; (6) a list of state-adopted and locally approved instructional materials; and (7) indices to courses.

The State Board of Education has mandated that both the Texas Essential Knowledge and Skills (TEKS) and Chapter 74, Curriculum Requirements for Graduation be implemented. Bulletin 100 provides annotated descriptions of all approved district courses, along with information on mandated requirements.

For a complete listing of policies, please visit our website at: <a href="https://pol.tasb.org/Home/Index/1101">https://pol.tasb.org/Home/Index/1101</a>

# **SECTION I: GENERAL INFORMATION**

#### **ABSENCES/ATTENDANCE**

There are two state laws—one dealing with the required presence of school-aged children in school, e.g., compulsory attendance, the other with how a child's attendance affects the award of a student's final grade or course credit that address attendance requirements.

#### **Compulsory Attendance**

#### Age 19 and Older

A student who voluntarily attends or enrolls after his or her 19th birthday is required to attend each school day until the end of the school year. If a student age 19 or older has more than five unexcused absences in a semester, the district may revoke the student's enrollment. The student's presence on school property thereafter would be unauthorized and may be considered trespassing. [See policy FEA.]

#### Between Ages 6 and 19

State law requires that a student between the ages of 6 and 19 attend school, as well as any applicable accelerated instruction program, extended year program, or tutorial session, unless the student is otherwise excused from attendance or legally exempt.

#### Prekindergarten and Kindergarten

Students enrolled in prekindergarten or kindergarten are required to attend school and are subject to the compulsory attendance requirements as long as they remain enrolled.

#### **Exemptions to Compulsory Attendance**

#### All Grade Levels

State law allows exemptions to the compulsory attendance requirements for several types of absences if the student makes up all work. These include the following activities and events:

- Religious holy days;
- Required court appearances;
- Activities related to obtaining U.S. citizenship;
- Absences resulting from a serious or life-threatening illness or related treatment that makes the student's attendance infeasible.
- Documented health-care appointments for the student or a child of the student, including absences for recognized services for students diagnosed with autism spectrum disorders, if the student comes to school or returns to school on the same day as the appointment. A note from the health-care provider must be submitted upon the student's arrival or return to campus; and

For students in the conservatorship (custody) of the state:

- An activity required under a court-ordered service plan; or
- Any other court-ordered activity, provided it is not practicable to schedule the student's participation in the activity outside of school hours.

For children of Military Families, absences of up to five days in a school year will be excused for a student to visit with a parent, stepparent, or legal guardian who has been called to duty for, is on leave from, or immediately returned from certain deployments.

#### Secondary Grade Levels

In addition, a junior or senior student's absence of up to two days related to visiting a college or university will be considered an exemption, provided the student follows the campus procedures to verify such a visit, and makes up any work missed.

A student who is a junior or senior in high school may also be excused from school for up to two days each year for a "career investigation day" that involves visiting a professional at their workplace for the purpose of determining the student's interest in pursuing a career in the professional's field.

Absences of up to two days in a school year will also be considered an exemption for:

- A student serving as an early voting clerk, provided the student notifies his or her teachers, and the student receives approval from the principal prior to the absences; and
- •
- A student serving as an election clerk, if the student makes up any work missed.

An absence of a student in grades 6–12 for the purpose of sounding "Taps" at a military honors funeral for a deceased veteran will also be excused by the district.

An absence of one day for a student who is 15 years of age or older from attending school to visit a driver's license office to obtain a driver's license or leaner license.

#### Failure to Comply with Compulsory Attendance

#### All Grade Levels

School employees must investigate and report violations of the state compulsory attendance law. A student absent without permission from school; from any class; from required special programs, such as additional special instruction, termed "accelerated instruction" by the state; or from required tutorials will be considered in violation of the compulsory attendance law and subject to disciplinary action.

#### Age 19 and Older

After a student age 19 or older incurs a third unexcused absence, the district will send the student a letter as required by law explaining that the district may revoke the student's enrollment for the remainder of the school year if the student has more than five unexcused absences in a semester. As an alternative to revoking a student's enrollment, the district may implement a behavior improvement plan.

#### Between Ages 6 and 19

When a student between ages 6 and 19 incurs unexcused absences for three or more days or parts of days within a four-week period, the school will send a notice to the student's parent, as required by law, to remind the parent that it is the parent's duty to monitor his or her child's attendance and to require the student to come to school. The notice will also inform the parent that the district will initiate truancy prevention measures and request a conference between school administrators and the parent. These measures will include a behavior improvement plan, school-based community service, or referrals to either in-school or out-of-school counseling or other social services. Any other measures considered appropriate by the district will also be initiated.

The truancy prevention facilitator for the district is the Assistant Director of Student Engagement and School Completion, Barry Smith. Each school pyramid has a designated stay-in-school coordinator that is housed at the high school within each pyramid.

A court of law may also impose penalties against a student's parent if a school-aged student is deliberately not

attending school. A complaint against the parent may be filed in court if the student is absent without excuse from school on ten or more days or parts of days within a six-month period in the same school year.

If a student ages 12–18 incurs unexcused absences on ten or more days or parts of days within a six-month period in the same school year, the district, in most circumstances, will refer the student to truancy court.

[See policy FEA (LEGAL).]

#### Attendance for Credit or Final Grade (Kindergarten–Grade 12)

To receive credit or a final grade in a class, a student in kindergarten–grade 12 must attend at least 90 percent of the days the class is offered. A student who attends at least 75 percent but fewer than 90 percent of the days the class is offered may receive credit or a final grade for the class if he or she completes a plan, approved by the principal, which allows the student to fulfill the instructional requirements for the class. If a student is involved in a criminal or juvenile court proceeding, the approval of the judge presiding over the case will also be required before the student receives credit or a final grade for the class.

If a student attends less than 75 percent of the days a class is offered or has not completed the plan approved by the principal, then the student will be referred to the attendance review committee to determine whether there are extenuating circumstances for the absences and how the student can regain credit or a final grade lost because of absences. [See policy FEC.]

All absences, whether excused or unexcused, must be considered in determining whether a student has attended the required percentage of days. In determining whether there were extenuating circumstances for the absences, the attendance committee will use the following guidelines:

- If makeup work is completed, absences for the reasons listed above at **Exemptions to Compulsory Attendance** will be considered extenuating circumstances for purposes of attendance for credit or the award of a final grade.
- A transfer or migrant student begins to accumulate absences only after he or she has enrolled in the district.
- In reaching a decision about a student's absences, the committee will attempt to ensure that it is in the best interest of the student.
- The committee will review absences incurred based on the student's participation in board-approved extracurricular activities. These absences will be considered by the attendance committee as extenuating circumstances in accordance with the absences allowed under FM (LOCAL) if the student made up the work missed in each class.
- The committee will consider the acceptability and authenticity of documented reasons for the student's absences.
- The committee will consider whether the absences were for reasons over which the student or the student's parent could exercise any control.
- The committee will consider the extent to which the student has completed all assignments, mastered the essential knowledge and skills, and maintained passing grades in the course or subject.
- The student or parent will be given an opportunity to present any information to the committee about the absences and to talk about ways to earn or regain credit or a final grade.

The student or parent may appeal the committee's decision to the board by following policy FNG (LOCAL).

The actual number of days a student must be in attendance in order to receive credit or a final grade will depend on whether the class is for a full semester or for a full year.

The attendance committee may impose any of the following conditions for students with excessive absences to regain credit or be awarded a final grade:

- Completing additional assignments, as specified by the committee or teacher.
- Attending tutorial sessions as scheduled, which may include Saturday classes or before- and after-school programs.
- Maintaining attendance standards for the rest of the semester.
- Taking an examination to earn credit [See EHDB policy]
- Attending a flexible school day program.
- Attending summer school to retake the course.

In all cases, the student must earn a passing grade in order to receive credit.

#### Effect of Excessive Absences on Course Credit

Excessive absences are noted on the student's transcript with an \* placed above the course grade.

<b>Fine Arts</b>		SE	S1	S2	Av	Cr.	Note: credit will not be
1051A	Honors Art 1A	Н	*78		78	0.00	awarded until excessive
1051B	Honors Art 1B	Н		*87	87	0.00	absences are made up.

Accompanying foot note at the bottom of the transcript will read: \* No credit given due to excessive absences.

#### Home Tutored Pregnant Students Attendance

Attendance is compiled weekly. Pregnant students, with the appropriate medical documentation, can choose to receive Compensatory Education Home Instruction (CEHI), locally called the prenatal/postnatal tutoring program (FNE policies). Texas Education Agency (TEA) guidelines for this CEHI program must be followed. The guidelines require tutoring by a certified teacher in the areas the student is being tutored. This results in the student earning attendance days as outlined in the TEA guidelines. Coursework assignments must be provided by the teacher of record for the student to be tutored on a week-by-week basis so that the attendance days can also be earned on a week-by-week basis. Failure to provide the appropriate weekly coursework assignments and the subsequent grading of those assignments must not result in the student's grade for this period being adversely influenced.

#### **High School Dual Credit Attendance**

For courses taught by a Tarrant County College instructor, attendance is governed by the TCCD policy on attendance. Dual credit students are expected to attend classes according to the dual credit class schedule. Students are to contact their campus Postsecondary Specialist and their dual credit professor if they are unable to attend class. Alerting an instructor early of attendance conflicts is critical. Students are to be considered in attendance during the semester unless otherwise informed by the FWISD CCR/Dual Credit Coordinator and/or the campus CCR Coordinator. The FWISD CCR/Dual Credit Coordinator and the campus CCR Coordinator will communicate updates to the campus attendance clerks as needed. Attendance will be processed by the campus attendance clerk.

For courses taught by FWISD credentialed instructors, the district attendance procedures will be followed.

For Early College High School courses, attendance is taken at the alternate high school attendance-taking time.

# ACCELERATION FOR STUDENTS WHO ARE NOT BEHIND IN CREDITS

Method		Available For	Grade Needed	GPA Impact	EOC Impact
Credit-By-Exam Without Prior Instruction		A student who has not had prior instruction in a course	80	Grade will be noted on the transcript, but is not used in the calculation of GPA	For a CBE for a course that requires an EOC - the student will be exempt from the EOC
Summer School	•	Courses not requiring an EOC and Identified in the Summer School Catalog as available for Acceleration	70	Grade is used in the calculation of GPA	Student is required to take the EOC
Texas Virtual School Network, Texas Tech, or UT for a <i>current</i> <i>FWISD student</i>		Any student who wants to accelerate and has met prerequisite requirements for the course	70	Grade will be noted on the transcript, but is not used in the calculation of GPA	Student is required to take the EOC
Texas Virtual School Network, Texas Tech, or UT for a <b>student</b> <b>who is not enrolled</b> <b>in FWISD</b>		Any student who wants to accelerate and has met prerequisite requirements for the course	70	Grade will be noted on the transcript, but is not used in the calculation of GPA	For an EOC course, student is not required to take the EOC provided that the credit was awarded prior to student enrolling in FWISD.
District-Approved Web-Based Program	•	At some middle school campuses Limited courses that allow students to earn high school credit	70	Grade will be noted on the transcript, but is not used in the calculation of GPA	

# AUTOMATIC ADMISSION INTO FOUR-YEAR PUBLIC UNIVERSITIES AND COLLEGES IN TEXAS

For two school years following his or her graduation, a district student who graduates in the top ten percent and, in some cases, the top 25 percent, of his or her class is eligible for automatic admission into four-year public universities and colleges in Texas if the student:

- Completes the curriculum requirements for the Distinguished Level of Achievement under the Foundation High School Program; or
- Satisfies the ACT College Readiness Benchmarks or earns a minimum score of 480 on the Evidence-Based Reading & Writing test and a minimum score of 530 on the math test if the SAT was administered on or after March 5, 2016.

In addition, the student must submit a completed application for admission in accordance with the deadline established by the college or university. The student is ultimately responsible for ensuring that he or she meets the admission requirements of the university or college to which the student applies.

The University of Texas at Austin may limit the number of students automatically admitted to 75 percent of the University's enrollment capacity for incoming resident freshmen. For students who are eligible to enroll in the University during the summer/fall 2025 or spring 2026, the University will be admitting the top **six** percent of the high school's graduating class who meet the above requirements. Additional applicants will be considered by the University through a holistic review process.

Should a college or university adopt an admissions policy that automatically accepts the top 25 percent of a graduating class, the provisions above will also apply to a student ranked in the top 25 percent of his or her class.

Students and parents should contact the school counselor for further information about automatic admissions, the application process, and deadlines.

[See also **Class Rank/Highest-Ranking Student** for information specifically related to how the district calculates a student's rank in class, and requirements for **Graduation** for information associated with the foundation graduation program].

# **CAREER AND TECHNICAL EDUCATION (CTE)**

Fort Worth ISD Career & Technical Education offers a variety of Programs of Study. Each Program of Study has a developed coherent sequence of courses to provide students with an option to receive an Endorsement with their high school diploma based on House Bill 5/Foundation Graduation Program Requirements. Each Program of Study begins with foundation courses that allow students to explore the careers and learn basic concepts and skills needed within that focus.

Each Program of Study begins with foundation courses that allow students to explore the careers and learn basic concepts and skills needed within that focus. As students move forward in the Program of Study, they will begin to take technical courses that provide them with advanced knowledge and skills in preparation for postsecondary education and/or for jobs in their chosen career field. Programs of Study also prepare students to complete industry certifications that will allow them to become more employable with higher starting wages and provide them with a Performance Acknowledgement.

#### **Programs of Study**

For options of Career and Technical Education Programs of Study, please refer to the Program of Study charts and course descriptions found in the Career & Technical Education tabbed section of this book.

#### **Endorsements**

Endorsements consist of a related series of courses that are grouped together by interest or skill set. They provide students with in-depth knowledge of a subject area.

Students earn endorsements by successfully completing at least 26 credits that include a coherent sequence of CTE courses for four or more credits, including at least one advanced CTE course, four math credits (including at least one advanced math course), and four science credits (including at least one advanced science course).

The STEM Endorsement also requires chemistry and physics as two of the four science credits and Algebra II as one of the four math credits.

# **CLASS RANK BEGINNING WITH THE GRADUATING CLASS OF 2024**

The District includes in the calculation of class rank the eight highest eligible semester grades earned in high school courses taken in grades 9 – 12 in each of the following subjects only:

- English language arts,
- Mathematics,
- Science, and
- Social Studies

When the student reaches grade 12, if the student has earned fewer than eight eligible semester grades in one or more of these subjects in grades 9 - 12, the District shall use eligible semester grades earned before grade 9, as necessary, for a total of eight grades in each of these subjects.

The calculation of class rank excludes grades earned in or by:

- A local credit course;
- A course for which a pass/fail grade is assigned;
- Credit by examination, with, or without prior instruction;
- Distance learning and traditional correspondence courses, and
- Dual credit courses taken through a college with which the District **does not** have a partnership agreement.

If a student takes a dual credit course through a college with which the District has a partnership agreement AND receives permission to take the course, the grade earned will be included in GPA. To be included in Core GPA, the course must be listed on the chart of courses that are included in Core GPA.

#### See Class of 2024 Document in the front of the FORMS section of B100

#### Weighted GPA Beginning with the Class of 2023

The District categorizes and weights courses as Tier I, Tier II, and Tier III in accordance with policy EIC (LOCAL). The Weighted GPA is used to determine local graduation honors and the highest-ranking graduate.

Tier I courses include Advanced Placement (AP) courses, OnRamps courses, dual credit courses, any courses for which a Tier I course is a prerequisite, and other rigorous District-designated courses.

Tier II courses include high school Honors courses, Pre-IB courses, and other courses locally designated as honor courses.

Tier III courses include all other courses not designated as Tier I or Tier II courses.

The District converts semester grade points and calculates a weighted GPA in accordance with the following chart:

Grade	TIER I	TIER II	TIER III
97 and above	5.0	4.5	4.0
94–96	4.8	4.3	3.8
90–93	4.6	4.1	3.6

87–89	4.4	3.9	3.4
84–86	4.2	3.7	3.2
80–83	4.0	3.5	3.0
77–79	3.8	3.3	2.8
74–76	3.6	3.1	2.6
71–73	3.4	2.9	2.4
70	3.0	2.5	2.0
69 or below	0	0	0

#### **Unweighted GPA Beginning with the Class of 2023**

The District also calculates an unweighted GPA using a simple whole-number scale. Both the Core weighted and unweighted GPAs are displayed in FOCUS and on the student's transcript.

Grade	Unweighted Simple 4.0 GPA Scale
90 – 100	4.0
80 - 89	3.0
70 – 79	2.0
69 or below	0.0

#### Transfers from Other School Districts

A high school student who transfers into the district will be placed on the GPA scale according to the enrollment grade-level noted in Focus.

If the student has a change in grade placement, his/her GPA will be recalculated the semester following the grade change, and will be ranked among students classified in the same grade.

#### **Class Rank for Application to Institutions of Higher Education**

The District shall also calculate class ranking as required by state law. The District's eligibility criteria for local graduation honors shall apply only for local recognitions and shall not restrict class ranking for the purpose of automatic admission under state law per EIC (LEGAL).

# **COLLEGE CREDIT COURSES**

Students in grades 9–12 have opportunities to earn college credit through the following methods:

- Earning a 3, 4, or 5 on an Advanced Placement (AP) test (based on the guidelines for each college or university);
- Earning a passing grade while enrolled in:
  - College courses in an Early College High School;
  - Dual Credit courses;
  - A dual enrollment course with OnRamps through a partnership with the University of Texas at Austin;
  - An AP or dual credit course through the Texas Virtual School Network;
  - Courses taught at other colleges or universities; and
  - Certain CTE courses.

Students must meet eligibility requirements to enroll in the courses above and **must receive approval from the principal prior to enrollment**. Depending on the student's grade level and the course, a state-mandated end-of-course assessment may be required for graduation.

It is important to keep in mind that not all colleges and universities accept credit earned in all dual credit, dual enrollment, or AP courses taken in high school for college credit. Students and parents should check with the prospective college or university to determine if a particular course will count toward the student's desired degree plan.

#### Advanced Placement Courses with Qualifying Examination Scores of 3, 4, or 5

Upon completion of an AP course, the student will take a College Board Advanced Placement examination over the content of the course. Students earning a 3, 4, or 5 on an AP examination are eligible for a graduation Performance Acknowledgement on the Foundation Graduation Program. In addition, a student earning a 3, 4, or 5 may receive college credit upon enrollment in college. Each individual institution determines credit guidelines. The College Board link <u>https://apscore.collegeboard.org/creditandplacement/search-credit-policies</u> offers information on receiving college credit. AP course options vary among the high schools; contact the high school Postsecondary Success Specialist to identify which of the 38 FWISD offered AP courses are available at the high school. For general information about the Advanced Placement program, students and parents are encouraged to visit the following website: <u>http://student.collegeboard.org/</u>

#### **Advanced Placement Courses in Middle School**

Some middle schools offer an AP Spanish Language and Culture course that Grade 8 students may take. Grade 8 students successfully completing the course will receive credit toward high school graduation, and upon receiving a successful examination score of 3, 4, or 5 will, after entering high school, be eligible for a graduation Performance Acknowledgement under the Foundation Graduation Program. In addition, students earning a 3, 4, or 5 may be eligible to receive college credit.

# COLLEGE AND CAREER READINESS CURRICULUM REQUIREMENTS FOR HOUSE BILL 18

House Bill 18, passed during the 84<sup>th</sup> legislative session added the following requirement at middle school:

§28.016 – Provide instruction to students in grades seven or eight in preparing for high school, college, and a career. The instruction must include information on:

- the creation of a high school personal graduation plan,
- the distinguished level of achievement,
- each endorsement,
- college readiness standards, and
- potential career choices and the education required for them.

### COMBINING SEMESTERS OF AP COURSES WITH NON-AP COURSES

A student who is enrolled in the first semester of an AP course, fails the AP course, and enrolls in the second semester of a TEKS course may be able to combine and average both grades to earn credit for the entire course. See chart below:

AP Course 1 <sup>st</sup> Semester	TEKS Course 2 <sup>nd</sup> Semester	Allow 1.0 credit if the average of the two semesters is equal to or greater than 70
AP Human Geography	World Geography	Yes
AP Modern World History	World History	Yes
AP US History	US History	Yes
AP Physics 1	Physics	Yes
AP Chemistry	Chemistry	No
AP Biology	Biology	No
AP Environmental Science	Environmental Systems	Yes
AP Eng Lang/Eng Lit	English III or IV	Yes
AP Statistics	Statistics	Yes

# COMBINING SEMESTERS OF DUAL CREDIT COURSES WITH NON-DC COURSES

A student who is enrolled in the first semester of a DC course, fails the DC course, and enrolls in the second semester of a TEKS course may be able to average the grades in both semesters to earn credit for the entire course. See chart below:

DC Course 1 <sup>st</sup> Semester	TEKS Course 2 <sup>nd</sup> Semester	Allow 1.0 credit if the average of the two semesters is equal to or greater than 70
DC World Geography	World Geography	Yes
DC World History	World History	Yes
DC US History	US History	Yes
DC English Composition	English III or IV	Yes
DC British Literature	English IV	Yes
DC American Literature	English IV	Yes
DC Pre-Calculus	Pre-Calculus	Yes
DC Integrated Physics & Chemistry	Integrated Physics & Chemistry	Yes
DC Chemistry A	Chemistry	Yes
DC Chemistry B	Chemistry	Yes
DC Physics A	Physics	Yes
DC Physics B	N/A	N/A
DC Aquatic Science	Aquatic Science	Yes
DC Earth & Space Science	Earth & Space Science	Yes
DC Organic Chemistry A	Honors Organic Chemistry	Yes
DC Organic Chemistry B	N/A	N/A
DC Astronomy A	Astronomy	Yes
DC Astronomy B	Astronomy	Yes
DC Environmental Systems	Environmental Systems	Yes
DC Math Business and Social Science	Advanced Quantitative Reasoning	Yes

# COMBINING SEMESTERS OF ONRAMPS COURSES WITH NON-ONRAMPS COURSES

A student who is enrolled in the first semester of an OnRamps course, fails the OnRamps course, and enrolls in the second semester of a TEKS based course may be able to average the grades in both semesters to earn credit for the entire course. See chart below:

OnRAMPS Course 1 <sup>st</sup> Semester	TEKS Course 2 <sup>nd</sup> Semester	Allow one full credit if the average of both semesters is equal to or greater than 70
OnRamps US History 1492 – 1865A (8049A)	US History Since 1877 (8056B)	Yes
OnRamps Rhetoric and Writing (3044AB)	English III (3015B)	Yes
OnRamps Rhetoric and Writing (3045AB)	English IV (3017B)	Yes
OnRamps Physics I (7613AB)	Physics (7614B)	Yes
OnRamps Physics II (STH03724AB)	N/A	N/A
OnRamps Earth and Space Science (7534AB)	Earth and Space Science (7538AB)	Yes
OnRamps Chemistry I (7597AB)	Chemistry (7592AB)	Yes
OnRamps Chemistry II (7593AB)	Chemistry (7592AB)	No
OnRamps Biology (7591AB)	Biology (7572AB)	No
OnRamps College Algebra (7050AB)	Algebra 2 (7053AB)	Yes
OnRamps PreCalculus (7119AB)	PreCalculus (7121B)	Yes
OnRamps Statistics (7146AB)	Statistics (7144B)	Yes
OnRamps Computer Science (2159AB)	N/A	N/A
OnRamps Art IV: Pixels, Samples, Lumens, Illusion (1073AB)	N/A	N/A
OnRamps Quantum Computing	Honors Mathematical Modeling using Computer simulation	Yes

# **COMPLAINTS AND CONCERNS**

Usually student or parent complaints or concerns can be addressed informally by a phone call or a conference with the teacher or principal. For those complaints and concerns that cannot be handled so easily, the board has adopted a standard complaint policy at FNG (LOCAL) in the district's policy manual. A copy of this policy may be obtained on the district's website at <a href="https://pol.tasb.org/Policy/Code/1101?filter=FNG">https://pol.tasb.org/Policy/Code/1101?filter=FNG</a>

Should a parent or student feel a need to file a formal complaint, the parent or student should file a district complaint form within the timelines established in policy FNG (LOCAL).

# **COURSE OFFERINGS**

A secondary school may offer courses included in this document or any course for which individual approval on an experimental basis has been received, following procedures in these guidelines. Each course must be offered by the exact title and for credit as specified in Bulletin 100. Some courses are approved for use in specific schools or programs only.

The types of courses listed in this Bulletin are:

- state-credit courses (TEKS based courses, Advanced Placement (AP), dual credit courses, or OnRamps courses;
- state-credit courses approved by the state as an innovative course (locally developed and not included as meeting state graduation requirements, except as elective credits); and
- local-credit courses (may not be used to meet any state requirements for graduation).

The District and/or the State Board of Education must approve all courses before they may be offered to students.

#### **New Course Additions & Course Deletions**

Once a year, district administrators develop new course proposals for the addition of new courses.

At the same time, subject area directors will identify courses that do not have sufficient enrollment to justify their continuance or courses that are no longer appropriate. These courses will be recommended for deletion.

Upon receipt of all new course proposals and course deletions, a meeting will be held with curriculum cabinet members, budget office staff, secondary school leadership, and the course proposal authors. The proposal authors will summarize the proposed courses and answer any questions. Following approval from this representative group, a consent agenda is prepared for review by the Leadership Team.

The proposals will be submitted to the Superintendent and the Board for study and approval.

Upon approval by the Board:

- Courses will be added or deleted for the following school year. New courses already included in Chapter 74 do not require TEA approval.
- New courses requiring TEA approval will be sent to TEA as an innovative course.
- Courses that are not used to meet state graduation requirements will be offered as local-credit courses.
- All new courses will be assigned a FWISD course number.

# **COURSES WITH THE SAME PEIMS NUMBER**

A student who takes more than one course with the same PEIMS number will only receive credit for the first time taken; both courses will appear on the transcript with grades. The second time the student takes the course will be considered local credit, which does not count towards state or district graduation requirements However, the grades for both courses maybe used in the calculation of GPA. This list is not all-inclusive. Please check the PEIMS number of similar courses when there is doubt.

Before enrolling a student in a dual credit course, check to make sure that the student does not already have credit for a course with that PEIMS number.				ve

\*Although these courses have different PEIMS numbers, the content of these courses is the same; therefore, a student can only take this course one time – either as a substitute for English III or English IV.

Independent Study in English, Independent Study in Math, and Special Topics in Social Studies courses have latitude to assign a given course to multiple PEIMS numbers. If a student already has credit for a given PEIMS number in these courses and wishes to take another course within that same PEIMS number, a course can be built with the new PEIMS number and embedded into the original course on the schedule for that student. It is important that counselors pay attention to which PEIMS numbers of students already have credit for in these courses when completing student schedules.

# **COURSES WITH EQUIVALENT PEIMS NUMBERS**

The courses on the table below are considered equivalent courses by TEA. Though these courses have unique PEIMS numbers, they are considered equivalent due to duplicative TEKS. A student cannot earn credit for more than one course in each area. The second time the student takes the course will be considered local credit, which does not count towards state or district graduation requirements. If a student takes both courses within an area, both courses may be used in the calculation of GPA.

Content	Course Name	Equivalent Course Name
Social Studies	World Geography or Honors World Geography	AP Human Geography
Science	Physics or Honors Physics	Principles of Technology
English	English I or Honors English I	ESOL I
	English II or Honors English II	ESOL II
LOTE	Spanish I or Dual Credit Spanish I	Spanish I for Spanish Speakers
	Spanish II, Honors Spanish II, or Dual Credit	Spanish II for Spanish Speakers
	Spanish II	
	Honors Spanish III or Dual Credit Spanish III	Spanish III for Spanish Speakers
	Honors Spanish IV, or Dual Credit Spanish IV Spanish IV for Spanish Speakers	

### **CREDIT BY EXAMINATION**

The District offers students the opportunity to take a credit by examination (CBE) to demonstrate mastery in a subject or to earn course credit with or without prior instruction. [Policies EHDB and EHDC] CBEs are available for most courses. The District uses CBEs purchased from Texas Tech University and/or The University of Texas. Most

of the CBEs used by Fort Worth ISD will be administered online. The exams assess the student's mastery of the essential knowledge and skills relevant to the applicable subject. The exams are periodically reviewed by the State for alignment with essential knowledge and skills.

Successful course credit will be indicated on the transcript with the actual grade earned, but the grade will not be used in the calculation of GPA. If credit is not awarded, documentation of the examination will be placed in the student's academic achievement folder.

#### With Prior Instruction

A student can take a CBE when the student has had prior instruction and when:

- The student is enrolling in the District from a non-accredited school or home school; or
- The district needs to determine the proper placement of the student; or
- The student failed a subject or course; or
- The student has earned a passing grade in a subject or course but failed to earn credit due to excessive absences.

To receive credit for the course, a student must score a 70 or above on the CBE. Examinations will assess the student's mastery of the essential knowledge and skills and will be administered according to established District procedures.

Prior to offering a student an opportunity to demonstrate mastery or to earn credit by this method, an appropriate District employee will review the student's educational record to determine whether the student has had prior instruction in the subject or course.

#### **Middle School**

Students in grades 6 – 8 who have received prior instruction in previous courses may be placed into the appropriate course or courses based upon evidence from sources such as prior performance in the subject, teacher recommendations, and scores on locally administered tests and inventories. A campus committee consisting of the principal, counselor, and classroom teachers will make placement decisions. No placement will be made without parent approval. Placement can be made for six weeks pending results from CBEs.

Students may not place out of any courses for which high school credit toward graduation is awarded unless the student takes a CBE certified by the FWISD. Should a parent challenge placement or request alternative placement(s) or examinations, the District may administer and recognize results of a test purchased by the parent or student from Texas Tech University or the University of Texas at Austin.

#### High School

Students entering the district, who have been homeschooled or are coming from unaccredited schools seeking placement/validation of grade level or coursework, may be placed in appropriate course or grade level based on the decision of a campus committee consisting of the principal, counselor, and classroom teachers. If a student is Limited-English-Proficient, the LPAC must work in collaboration with the campus committee to determine appropriate instructional placement/validation. This placement requires parental approval. Evidence of previous classroom work, results of standardized testing, psychologists' recommendations, or records from previous setting(s) may be considered in order to determine placement. Should a parent challenge the placement, the parent may request an alternative examination. The FWISD may administer and recognize results of a test purchased by the parent or student from Texas Tech University or The University of Texas at Austin. A six-week placement for observation may be made pending CBE results.

#### **Without Prior Instruction**

Students can take a Credit by Exam to earn credit for a course without prior instruction. No prior instruction is

defined as having no formal instruction in the specific course content and/or grade for which the examination is given. In order to receive credit, a student must earn a score of 80 or above. Award of credit for a two-semester course is based upon successful passing scores on CBEs for both semesters.

Students will only be administered the tests for which they have an official registration verified and approved by their counselor. Students cannot register to take a CBE while concurrently enrolled in the course for which they are taking the exam. There is no charge to the student for taking a CBE for purposes of acceleration. Transportation to and from the testing site is not provided by the District. CBEs are not recognized by the NCAA for athletic eligibility purposes.

#### **CBE for EOC Courses**

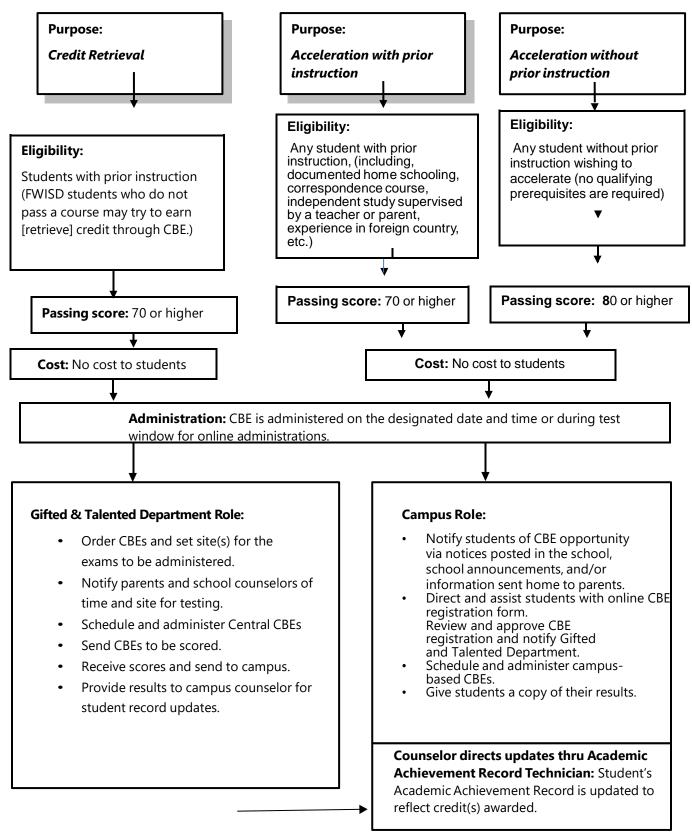

A student who has not had prior instruction in the course and passes the CBE with an 80 or higher, does not have to take the related EOC exam.

#### **Procedures for Taking a CBE for Acceleration**

- 1. Dates for Credit by Examination (CBE) testing for acceleration are published by the Gifted and Talented Department at the beginning of the school year.
- 2. Individual school campuses notify students via notices posted in the school, school announcements, and/or information sent home to parents.
- 3. Students contact their counseling office for CBEs and to complete the FWISD *Credit by Examination Student Registration Form*. A student may take a CBE for a particular course only once during each testing cycle and a total of two times. Counselor must verify and approve registration.
- 4. The District's Gifted and Talented Department orders the CBEs and sets the site(s) for the examination(s) to be administered. Please note that most of the exams will be administered online.
- 5. Parents receive a notification letter from the Gifted and Talented Department indicating the time and place designated for in-person test administration. Students will receive an email at their FWISD student email address with instructions for testing. The school counseling office also receives the information included in the parent notification.
- 6. The CBE is administered on the designated date and time or during testing window for online administration.
- 7. The CBE is sent to be scored.
- 8. The CBE scores are received by the Gifted and Talented Department and are provided to the campus counseling office.
- 9. Students receive a copy of their CBE results.
- 10. Counselor works with the Campus officer, Academic Achievement Record (AAR) technician for transcript history update in cases where credit is awarded.
- 11. The student's transcript is updated to reflect any credit(s) awarded. The CBE test score earned shall not be used for calculation of grade point average or in determining class rank, FWISD Policies EHDB and EHDC (LOCAL). CBE test scores are coded on the student's transcript with an (E) for each examination for acceleration or a (T) to note it is for credit verification when a CBE is used for credit retrieval.

Credit by examination shall not be used to gain eligibility for participation in extracurricular activities.

#### **Credit-by-Examination Flowchart**

# **CREDIT RECOVERY**

A student who fails a course may retrieve credits multiple ways within the District. A student may:

- Retake the class during the school year, or
- Retake the class in the District-approved, web-based, credit-recovery program, or
- Take an approved Credit-by-Exam, or
- Retrieve credit by taking the class in summer school.

#### Credit Recovery Using District-Approved, Web-Based Credit Recovery Program

A student who fails a course may be eligible to take a course in the Web- based Curriculum Program to recover credit. In order to recover credit, a student must earn a grade of 70 or higher and complete 100% of the coursework requirements. The grade earned in the Web-based Curriculum Program will be the grade placed on the student's transcript, but will not be included in the calculation of GPA.

#### **GPA Impact**

- The student's original failing grade will be included on the transcript and in the calculation of GPA.
- If the recovery course is passed with a minimum grade of 70, the actual grade earned on the course will be noted on the transcript.
- The grade earned in the recovery course will not be used in the calculation of GPA.

#### **Courses Requiring and End-of-Course Exam**

- A student who fails a course requiring an EOC, but who passes the EOC exam will be offered the option of taking a Credit-by-Exam to recover course credit or enroll in a web-based curriculum program.
- A student who fails Biology or U.S. History **and** fails the related EOC exam will be required to retake one or both failed semesters in a regular classroom setting. The student must earn a 70 to earn course credit. The student must also retake the EOC exam.
- A student who fails Algebra I, English I, or English II **and** fails the related EOC exam will be able to enroll in a web-based curriculum program for that course. The student must also retake the failed EOC.

	Passed Course?	Passed EOC?	Web-Based Curriculum Program Available?
Algebra I, English I, English II, US History, Biology	No	Yes	Yes
US History, Biology	No	No	No, must retake one or both failed semesters in a regular classroom setting
Algebra I, English I, English II	No	No	Yes

#### Credit Recovery Using a Credit-by-Exam (CBE)

A student can take a CBE to recover credit for a failed course. To receive credit, the student must earn a score of 70 or above. The score is recorded on the student's transcript and coded with a "T" indicating that credit is earned. The score on the CBE is not included in the calculation of GPA. The original failing grade is used in GPA calculation.

# Summary of Credit Recovery Methods

Method	Available For	Grade Needed	GPA Impact
Retake Course	A student who fails a course This is the only option for a student who fails both the course and the EOC for Biology and US History.	70	Original failing grade and new grade are calculated into GPA
District-approved Web- based program	A student who fails a course not requiring an EOC, or A student who fails Biology, or US History but passes the EOC, or A student enrolled in Algebra I, English I, or English II who fails both the course and the EOC	70 (in addition 100% of coursework requirements must be met)	Grade will be noted on transcript, but will not be used in the calculation of GPA
Credit-By-Exam (provided an exam is available for the course)	Any student who fails a course regardless of whether the course requires an EOC	70	Grade will be noted on transcript, but will not be used in the calculation of GPA
Summer School	Any student who fails a course	70	Grade is used in the calculation of GPA
Texas Virtual School Network, Texas Tech High School UT High School (with principal approval)	Any student who fails a course	70	Grade is not used in the calculation of GPA

# DISTANCE LEARNING AND CORRESPONDENCE COURSES THROUGH OUTSIDE ENTITIES

#### All Grade Levels

Distance learning and correspondence courses include courses that encompass the state-required essential knowledge and skills but are taught through multiple technologies and alternative methodologies such as mail, satellite, Internet, video-conferencing, and instructional television.

Resident students, students temporarily residing abroad, or out-of-school youth and adults are able to earn units by taking correspondence courses from another educational institution.

If a student wishes to enroll in a correspondence course or a distance learning course that is not provided through the Texas Virtual School Network (TxVSN), as described below, in order to earn credit in a course or subject, the student must receive written permission from the principal prior to enrolling in the course or subject. If the student does not receive prior approval, the district may not recognize and apply the course or subject toward graduation requirements or subject mastery.

All courses must have been approved by the Commissioner of Education and must include the state-required essential knowledge and skills. A school counselor must supervise the program.

Grades earned in these courses are recorded on the transcript but are not used in the calculation of GPA. Students in the 12<sup>th</sup> grade should complete these courses at least 30 days prior to graduation to be eligible for graduation at the end of the term.

#### Texas Virtual School Network (TxVSN) (Secondary Grade Levels)

The Texas Virtual School Network (TxVSN) has been established by the state as one method of distance learning. A student has the option, with certain limitations, to enroll in a course offered through the TxVSN to earn course credit for graduation.

Depending on the TxVSN course in which a student enrolls, the course may be subject to the "no pass, no play" rules. In addition, for a student who enrolls in a TxVSN course for which an end-of-course (EOC) assessment is required, the student must still take the corresponding EOC assessment. Grades earned in these courses are recorded on the transcript but are not used in the calculation of grade point average.

# **DUAL CREDIT**

Students may be eligible to earn college credit while they are still in high school by enrolling in dual credit courses. A variety of dual credit options are available to students. Dual credit courses may be offered at:

- Some high school campuses with the courses taught by an approved high school or college instructor;
- Tarrant County College sites through Dual Credit Academies;
- Various campus sites; Tarrant Count College District and Texas Wesleyan University taught by college instructors; and
- Online dual credit

To be eligible to enroll in college courses and also be awarded credit toward state graduation requirements, a student must meet qualifications set forth by the District and the participating institutions, choose courses approved by the District, and **have the approval of the high school principal**. Post Secondary Specialist and CTE Coordinators are to provide students with current information regarding approved dual credit courses. To receive high school credit, the student must have a minimum grade of a "D" (equivalent to a 70 or higher) on an official college transcript. Grades in these dual credit courses will be used in computing the high school grade point average. Approved FWISD dual credit courses successfully completed will receive Tier I credit. For additional information regarding dual credit, talk to the Postsecondary Specialist and CTE Coordinators at each campus.

Students who take a dual credit course that substitutes for one of the required End-of-Course-Examination courses must take the corresponding STAAR EOC assessment.

Additional information regarding dual credit courses is posted on the District website under the Choice and Collegiate Programming.

#### **Student Eligibility and Registration**

To enroll in college courses, students must meet eligibility requirements by both the District and the participating institution. The Programs of Choice and CTE coordinators will provide students with information regarding dual credit courses. Once the student has met participating institution qualifications, selected a dual credit course, completed the necessary paperwork, and received approval from the high school principal, the dual credit application will be submitted to the college or university.

The student should review the class requirements and syllabus during the first week of the dual credit course. If at this time, the student determines that it is no longer feasible for him/her to complete the dual credit course requirements, the student should immediately seek counsel regarding his/her concerns. The student should immediately make an appointment with the counselor as very prompt action may prevent dire grade consequences.

When contacted by a student who is concerned about his/her dual credit course, the counselor should advise the student of the following ramifications:

- Advise the student regarding the serious consequences of failing and/or dropping a dual credit course without following required procedures and timelines.
- Dual credit course grades are used in determining the student's Grade Point Average.
- Failure to earn at least a "D" grade (equivalent of a 70 or higher) in the dual credit course will deny the student high school equivalent credit for the designated high school course.
- Failure of credit for the high school equivalent to the dual credit may cause the student to fail to meet the course graduation requirement.

#### **Timeline for Dropping Dual Credit Course**

#### **FWISD** Timelines

If the student has made the decision to drop the dual credit course on or before the college drop deadline, the Postsecondary Specialist will work with the high school counselor to schedule the student into the appropriate high school course or high school credit retrieval program. The student will immediately begin attending the high school class with his/her current dual credit grade.

#### **University Timelines**

The student must immediately notify the university personnel and follow the required university procedures for dropping a dual credit course.

Each university has its own unique timeline for course withdrawal without a penalty.

Failure to contact the university and failure to follow required procedures could result in a failing grade at the university resulting in placement of the student on scholastic probation upon his/her return to the university.

#### Performance Acknowledgements for Dual Credit Courses

Dual credit courses approved by FWISD are the only college courses that may be used as college courses to count as Performance Acknowledgements in the Foundation High School Program. To qualify for this performance acknowledgement, a student must earn a 3.0 grade in a district approved college dual credit course as specified in 19 TAC 74 F(d) (3). These courses shall provide advanced academic instruction beyond or in greater depth than the related FWISD courses.

#### **Student Calendars**

FWISD and college calendars may differ. The college calendar predominates; i.e., if the college is in session, students may need to attend college classes even during FWISD holidays and breaks.

#### **Dual Credit Grades and Weighted Grade Points**

The teacher of record for all Dual Credit courses will be noted as the campus Post Secondary Specialist unless taught by a credentialed FWISD instructor. In that case, it will be the credentialed FWISD instructor. Dual Credit grades for FWISD students participating in the Dual Credit Academy will be reported by the instructors to the FWISD Dual Credit Coordinator at the end of each semester for verification and then sent to the campus Post Secondary specialist . The campus data clerk will process these grades.

A student who takes approved FWISD Dual Credit courses on his/her own must bring an official college or university transcript to his/her campus once the course has been completed. Students must have the approval of their principal and campus Postsecondary Specialist prior to taking a Dual Credit course on their own. The campus will record the student's official final grade on the student's Academic Achievement Record. A minimum grade of "D" (equivalent of a 70 or higher) on an official transcript is needed for award of credit. **Grades in dual credit courses will be used in computing the high school grade point average. To be included in Core GPA, the course must be listed as one that is eligible for inclusion in Core GPA.** Approved FWISD dual credit courses successfully completed will receive weighted credit. **Failure of a required course may endanger graduation. Students are responsible for contacting the college for admission, tuition, fees and financial aid.** 

#### Dual Credit and University Interscholastic League (UIL) Eligibility

Dual credit courses are listed by the State Board of Education as being included in the list of advanced classes identified for no pass, no play exemptions for UIL competitions in the areas of English Language Arts, Mathematics, Science, Social Studies, Economics and Languages Other than English/World Languages. By law a grade less than 70 in any of these classes does not affect a student's eligibility. In addition, House Bill 208 that is effective school year 2007-2008 states: "A student otherwise eligible to participate in an extracurricular or UIL activity is not ineligible because the student is enrolled in dual credit or concurrent enrollment courses, regardless of the location at which the course is provided."

#### **CONCURRENT ENROLLMENT**

Concurrent credit courses are college courses taken by a student and not associated with the high school or the high school curriculum. Successful completion of the course results in college credit only that will not count as fulfilling any of the high school graduation requirements.

#### **CONCURRENT ENROLLMENT – ONRAMPS UT AUSTIN PROGRAM**

OnRamps is a dual-enrollment program that bring rigorous courses aligned with the high standards and expectations of the University of Texas at Austin. The program uses a dual-enrollment model. Using a hybrid delivery approach, students meet rigorous university-level college readiness standards and have the opportunity to earn UT Austin credit from a UT faculty member and high school credit from their local teacher. Dual-enrollment through UT OnRamps allows students to earn college credit while in high school and is different from Dual Credit. OnRamps courses will transfer to any public college or university.

- The OnRamps Dual Enrollment Program allows high school students to experience college academic rigor by taking actual college exams created by a UT professor.
- Dual enrollment students receive two grades: one from the high school teacher and one from the UT professor; dual credit students receive the same grade earned in high school on their college transcripts.
- Dual enrollment students may *choose* to have the college grade transcripted on their UT transcripts; Dual credit students' grades *will* be recorded on the college transcripts.
- Conferred credit in a TSI required course, like math or English, is a TSIA exemption in that area. So, for RHE and HIST, the student will receive an exemption for ELAR; for College Algebra, Statistics, and Precalculus, the student will receive an exemption in math. In most cases, the CS and AET courses do not yield a TSIA exemptions. This is dependent on the institution. <u>https://tea.texas.gov/academics/college-career-and-military-prep/the-tsia-texas-success-initiative-assessment</u>

#### FWISD will offer the following OnRamps courses:

Mathematics	Science	Social Studies	English Language Arts
OnRamps Precalculus	OnRamps Physics I	<ul> <li>OnRamps United</li> </ul>	OnRamps Rhetoric &
OnRamps Statistics	OnRamps Physics II	States History	Writing
OnRamps College	OnRamps Chemistry I		
Algebra	OnRamps Chemistry II		
_	OnRamps Biology		
	OnRamps Earth &		
	Space Science		
	OnRamps Quantum		
	Computing		

Computer Science	Fine Arts
OnRamps Computer	OnRamps Art IV: Arts and
Science	Entertainment Technologies

#### **EARNING COURSE CREDIT**

#### Middle School Courses

A middle school student advances to the next grade if the student has an overall average of 70 on all subject areas and a grade of 70 or above in three of the following areas: language arts, mathematics, science, and social studies.

#### **High School Courses**

A student in grades 9 – 12, or in a lower grade when a student is enrolled in a high school credit-bearing course, will earn credit for a course only if the final grade is 70 or above.

Beginning with the 2018 – 2019 school year, if a student passes one semester and fails the other semester of a two-semester course, the student will receive credit for both semesters if the combined average of the two semesters is 70 or higher. If the combined average of the two semesters is not at least a 70, the student will only receive credit for the semester with a 70 or higher. *The grades must be earned in the same school year. A school year is defined as the fall semester, spring semester, and summer semester.* 

Semester 1	Semester 2	Average	Credit Earned	EOC Course	Options to Regain Credit
Pass (80)	Fail (68)	Pass (74)	1.0 for the full year	Pass	N/A
Pass (70)	Fail (68)	Fail (69)	0.5 credit for first semester only	Fail	Retake second semester and the EOC (web-based curriculum may be used for certain math and English courses)
Fail (68)	Pass (80)	Pass (74)	1.0 credit for full year	Fail	Retake EOC exam
Fail (68)	Pass (70)	Fail (69)	0.5 credit for second semester only	Not an EOC Course	Web-based curriculum program, <i>Credit By</i> <i>Exam</i> , or retake first semester

#### LOTE High School Courses Taken in Middle School

A middle school LOTE course is taken over four semesters to earn one high school credit. Successful completion of the course will earn the student one credit. A half-credit is not awarded for LOTE courses taken in middle school.

Successful completion of the first half of the course (7<sup>th</sup> grade) is a prerequisite for placement into the second half in 8<sup>th</sup> grade.

	Gra	de 7	Average	Gra	de 8	Average	Average for Both Years	
	1 <sup>st</sup> Semester	2 <sup>nd</sup> Semester	7 <sup>th</sup> Grade Yearly Average	1 <sup>st</sup> Semester	2 <sup>nd</sup> Semester	8 <sup>th</sup> Grade Yearly Average	7 <sup>th</sup> & 8 <sup>th</sup> Grade Average	Credit Or No Credit
	60	63	61.5 = 62	70	65	67.5 = 68	65	No Credit
А			Failed 1 <sup>st</sup> Year			Failed 2 <sup>nd</sup> Year	Average below 70	
*В	70	75	72.5=73 Passed 1 <sup>st</sup> year	70	65	67.5=68 Failed 2 <sup>nd</sup> year	70.25=70 Average 70	1 credit
	68	70	69	70	80	75	72	1 Credit
*C			Failed 1 <sup>st</sup> yr.			Passed 2 <sup>nd</sup> year	Average 72	
	The technology used for the grading system rounds up a grade of .5 or above to the next whole number each time six weeks grades are posted.					twhole		

\*Half credit is not awarded in LOTE in middle school. Credit may be retrieved by taking a summer school course or by using an approved Credit-By-Examination.

#### **END-OF-COURSE (EOC) ASSESSMENTS**

[See Graduation and Standardized Testing for more information.]

#### **EMERGENT BILINGUAL STUDENTS**

An emergent bilingual student is entitled to receive special services from the district. Upon initial enrollment in any Texas district, parents are asked to complete a Home Language Survey. This survey asks questions about language use in the home by the family and the student. If any of the responses on the survey indicate a language other than English, the student is assessed to determine the level of English proficiency.

In FWISD, these initial English language proficiency assessments are usually administered at the Student Placement Center. The staff is trained in administering the state-approved language proficiency assessments.

If the student speaks any language other than English, an assessment is administered to determine the level of proficiency in English. If an elementary student is a Spanish-speaker, a Spanish language proficiency assessment is administered to help the school determine appropriate placement in the Dual Language program.

If a student qualifies for special language support programs, the Student Placement Center makes program recommendations, which are then sent to the campus Language Proficiency Assessment Committee or LPAC. The campus LPAC reviews the recommendations and assessment information from the Student Placement Center and makes the final program placement decision along with any linguistic accommodations needed for daily instruction and state-mandated assessment.

Students identified as Newcomer are determined to have less than three years in U.S. schools. Most Newcomer students possess beginning- or intermediate-level English-speaking proficiency levels. Newcomer students may be scheduled into Newcomer Programs (NP). These include International Newcomer Academy and Success High School as well as Language Centers at various middle and high schools.

In these programs, students take ESL or ELLA (if middle school) and EngSOL I and II (if high school) as well as "sheltered" core area classes. At middle school, ELLA 7 may be substituted for English Language Arts & Reading, Grade 7; ELLA 8 may be substituted for English Language Arts & Reading, Grade 7; ELLA 8 may be substituted for English Language Arts & Reading, Grade 8. The ELLA courses must be paired (double-blocked) with an ESL-Lab course. At high school, the two EngSOL credits may substitute for English I and English II credits. ESOL I or ESOL 2 must be paired (double-blocked) with the English Language Development & Acquisition (ELDA) course. ESOL 1 must be paired with ELDA 1, while ESOL 2 must be paired with ELDA 2. Students completing the Newcomer Program are moved to ESL programs in middle school or to sheltered English programs in high school.

High school emergent bilingual students with more than 3 years in U.S. schools are generally in the advanced or advanced-high levels of English language proficiency. They are to be placed in sheltered English classes. Middle school advanced or advanced-high students must be served in ESL programs. See the chart below for the recommended EngSOL/English course sequence for high school. More specific course information is found in the emergent bilingual course section of this Bulletin.

	9	10	11	12
	English SOL NP I	English SOL NP II	English III	English IV
EB students at beginning/intermediate level of English language proficiency (Newcomer Program)	elda 1	ELDA 2		Sheltered Reading LC III-ESL*
		Prof. Comm. or Comm. App. – ESL		
		Practical Writing-ESL		
EB students at advanced/advanced high level of English language proficiency	Sheltered English I	Sheltered English II	Sheltered English III	English IV
	Sheltered Reading I	Sheltered Reading II		Sheltered Reading III

### Emergent bilingual students (EBs) enrolled in English I or II for Speakers of Other Languages courses are required to take the STAAR English I and II assessments

Parent permission must be secured before any language support services can be provided. The LPAC will also determine whether certain accommodations are necessary for any state-mandated assessments.

The Texas English Language Proficiency Assessment System (TELPAS) will also be administered to emergent bilinguals who qualify for services.

If a student is considered an emergent bilingual and receives special education services because of a qualifying disability, the student's ARD committee will make instructional and assessment decisions in conjunction with the LPAC.

#### FOREIGN STUDY PROGRAM

The FWISD does not officially sponsor any foreign travel experiences for students. However, teachers may work with independent student travel companies to provide language and culture opportunities for students. The Director of World Languages may recommend such companies that are known to be reputable.

Foreign exchange students who enroll in the district will not be included in a high school's class rankings or graduation, except when a transcript reflects successful completion of all required credits for graduation and End-of-Course exams.

#### **GRADE-LEVEL CLASSIFICATION (Grades 9–12 Only)**

After the ninth grade, students are classified according to the number of credits earned toward graduation. The following charts display the credits needed for classification and spring reclassification. Only courses counting toward state graduation credits are included; local credit courses do not count.

Reclassification occurs before the beginning of each school year, and in some special cases, at other times for state testing purposes or early graduation requirements.

Fort Worth ISD Grade Classification Foundation Plan with Endorsement			
All require 26 credits for Graduation			
	Grade Level Classification	Required State Course Credits Earned	
	9 – Freshman	0 credits	
Foundation with an	10 – Sophomore	6 credits	
Endorsement	11 – Junior	12 credits	
	12 – Senior	19 credits	
Foundation Without an Endorsement	12 – Senior	15 credits	
	22 credits required for MSHP Graduation and for FHSP Graduation w/out an Endorsement		

The chart below is for:

- Students who have repeated a grade level and have earned the required course credits for *spring semester* reclassification; or
- Seniors who are on the Foundation High School Plan (FHSP) without an endorsement.

This grade reclassification will allow senior students to be included in senior meetings to receive relevant information needed to complete senior year activities and responsibilities. Check with the Counseling Office for the deadline for grade level reclassification.

Fort Worth ISD Grade Reclassification – Spring Semester		
Grade Level Classification	Required State Course Credits Earned	
9 – Freshman (repeaters)	8 credits	
10 – Sophomore (repeaters)	15 credits	
11 – Junior (repeaters)	22.5 credits	
12 – Senior		
MHSP (minimum plan) or FHSP w/o an endorsement	18.5 credits	
22 credits required		

Students currently enrolled in high school who have not earned the required credits needed to be on grade level and who have not been officially permitted in the Foundation High School Plan without an endorsement are to meet with their counselor to determine the various ways they may schedule courses to make up the needed graduation credits.

#### Junior – Senior Reclassification during the Sixth Six-Weeks

If a repeat 11<sup>th</sup> grade student, who did not have enough credits to be classified as a 12<sup>th</sup> grade student at semester, has earned the credits during the spring semester to still graduate in June, then the student will need to be reclassified to the 12<sup>th</sup> grade during the 6<sup>th</sup> six-weeks. This will allow the student to be included in the final graduation class total and receive a transcript marked as a 12<sup>th</sup> grade student. A grade change form will need to be completed and submitted to the data clerk for entry by the end of the 3<sup>rd</sup> week of the 6<sup>th</sup> six-weeks.

#### **GRADING GUIDELINES (All Grade Levels)**

Grading guidelines will be distributed to each campus prior to the start of the school year. The guidelines for each grade level or course will be communicated and distributed to students and their parents by the classroom teacher. These guidelines establish the minimum number of assignments, projects, and examinations required for each grading period. In addition, these guidelines establish how the student's mastery of concepts and achievement will be communicated (i.e., letter grades, numerical averages, checklist of required skills, etc.). Grading guidelines also outline in what circumstances a student will be allowed to redo an assignment or retake an examination for which the student originally made a failing grade. Procedures for a student to follow after an absence will also be addressed.

#### GRADUATION

#### **Requirements for a Diploma Beginning with the 2014–15 School Year**

Beginning with students who entered grade 9 in the 2014–15 school year, a student must meet the following requirements to receive a high school diploma from the district:

- Complete the required number of credits established by the state and any additional credits required by the district;
- Complete any locally required courses in addition to the courses mandated by the state;
- Achieve passing scores on certain end-of-course (EOC) assessments or approved substitute assessments, unless specifically waived as permitted by state law; and
- Demonstrate proficiency, as determined by the district, in the specific communication skills required by the State Board of Education (SBOE).
- Receive instruction in Cardiopulmonary Resuscitation (CPR)
- Receive instruction on proper interaction with a peace officer during traffic stops and other in-person encounters.
- Complete and submit a Free Application for Federal Student Aid (FAFSA) or TASFA form.

#### **Testing Requirements for Graduation**

Students are required, with limited exceptions and regardless of graduation program, to perform satisfactorily on the following EOC assessments: English I, English II, Algebra I, Biology, and U.S. History. A student who has not achieved sufficient scores on the EOC assessments to graduate will have opportunities to retake the assessments.

If a student fails to perform satisfactorily on an EOC assessment, the district will provide remediation to the student in the content area for which the performance standard was not met. This may require participation of the student before, after normal school hours, or at times of the year outside normal school operations.

In limited circumstances, a student who fails to demonstrate proficiency on two or fewer of the required assessments may still be eligible to graduate if an individual graduation committee, formed in accordance with state law, unanimously determines that the student is eligible to graduate.

[Also, see Standardized Testing for more information.]

#### **Foundation Graduation Program**

Every student in a Texas public school who entered grade 9 in the 2014–15 school year and thereafter will graduate under the "foundation graduation program." Within the foundation graduation program are "endorsements," which are paths of interest that include Science, Technology, Engineering, and Mathematics (STEM); Business and Industry; Public Services; Arts and Humanities; and Multidisciplinary Studies.

Endorsements earned by a student will be noted on the student's transcript. The foundation graduation program also involves the term "distinguished level of achievement," which reflects the completion of at least one endorsement and Algebra II as one of the required advanced mathematics credits.

State law and rules prohibit a student from graduating solely under the foundation graduation program without an endorsement unless, after the student's sophomore year, the student and student's parent are advised of the specific benefits of graduating with an endorsement and submit written permission to the school counselor for the student to graduate without an endorsement. A student who anticipates graduating under the foundation graduation program without an endorsement and who wishes to attend a four-year university or college after graduation must carefully consider whether this will satisfy the admission requirements of the student's desired college or university.

Endorsements are made up of at least four to five credits taken in a coherent sequence providing advanced or more indepth knowledge and skills in a curriculum area. In Social Studies Arts and Humanities endorsements five social studies credits are required. A student may earn an endorsement by successfully completing:

- Curriculum requirements for the endorsement;
- Four credits in mathematics
- Four credits in science
- Two additional elective credits

Courses needed to satisfy an endorsement may also be used to satisfy foundation course requirements. Students may enroll in courses under more than one endorsement before the student's junior year.

Graduating under the foundation graduation program will also provide opportunities to earn "performance acknowledgments" that will be acknowledged on a student's transcript. Performance acknowledgments are available for outstanding performance in bilingualism and biliteracy, in a dual credit course, on an AP or IB exam, on certain national college preparatory and readiness or college entrance exams, or for earning a state recognized or nationally or internationally recognized license or certificate. The criteria for earning these performance acknowledgments are prescribed by state rules, and the school counselor can provide more information about these acknowledgments.

	Foundation Program 22 Credits	Foundation + Endorsements 26 Credits	Distinguished Level of Achievement (Recommended for All students) 26 Credits
ELA 4 Credits	<ul> <li>English I</li> <li>English II</li> <li>English III</li> <li>One advanced English course</li> </ul>	<ul> <li>English I</li> <li>English II</li> <li>English III</li> <li>One advanced English course</li> </ul>	<ul> <li>English I</li> <li>English II</li> <li>English III</li> <li>One advanced English course</li> </ul>

Available Endorsements****:	
Science, Technology, Engineering, and Mathematics	
Business and Industry	
Public Services	
Arts and Humanities	
Multidisciplinary Studies	

\* In order to obtain the distinguished level of achievement under the foundation graduation program, which will be denoted on a student's transcript and is a requirement to be considered for automatic admission purposes to a Texas four-year college or university, a student must complete an endorsement and take Algebra II as one of the 4 mathematics credits.

\*\* A student who is unable to participate in physical activity due to a disability or illness may be able to substitute a course in English language arts, mathematics, science, social studies, or another locally determined credit-bearing course for the required credit of physical education. This determination will be made by the student's ARD committee, Section 504 committee, or other campus committee, as applicable.

\*\*\* Students are required to earn two credits in the same language other than English to graduate. Any student may substitute approved computer-programming languages for these credits. In limited circumstances, a student may be able to substitute this requirement with other courses, as determined by a district committee authorized by law to make these decisions for the student.

\*\*\*\* A student must specify upon entering grade 9 the endorsement he or she wishes to pursue.

#### FWISD/Texas Graduation Requirements: Foundation High School Program for Students Entering Grade 9 in 2014-2015 and Thereafter

Foundation Courses Required = 22 plus 4 for an Endorsement = 26 credits for graduation. Each Endorsement is to consist of a coherent sequence of courses totaling 4 to 5 credits.

Endorsement is to c	consist of a coherent sequence of courses totali	ng 4 to 5 credits.

#### FWISD/Texas Graduation Requirements: Foundation High School Program for Students Entering Grade 9 in 2014-2015 and Thereafter

Social Studies (4 Credits)	Languages Other Than English (LOTE)	Fine Arts (1 credit)
Must consist of:	2 credits	Credit may be from the following
	The credits may be selected from: Any two levels in	courses:
B credits of the following:	the same language; or Two credits in computer	
Norld Geography Studies OR	programming languages selected from Computer	Art, Level I, II, III, or IV;
AP Human Geography OR	Science I, II, and III, AP Computer Principles, or AP	Dance, Level I, II, III, or IV;
Dual Credit World Geography	Computer Science A, IB Computer Science Standard	Music, Level I, II, III, or IV;
	Level and IB Computer Science Higher Level;	Music Studies
J.S. History Studies Since 1877 OR		Theatre, Level I, II, III, or IV;
AP U.S. History OR	If a student, in completing the first credit of LOTE,	Musical Theatre, Level I, II, III, or IV;
Dual Credit US History OR	demonstrates that the student is unlikely to be able	Technical Theatre, Level I, II, III, or IV;
OnRamps US History OR	to complete the second credit, the student may	Floral Design;
B History of the Americas, Year 1	substitute another appropriate course as follows:	Digital Art and Animation
	Special Topics in Language and Culture	3-D Modeling and Animation
U.S. Government OR	Another credit selected from a different LOTE	-
AP U.S. Government OR	• Computer programming languages from the list noted	See the Fine Arts section for a complete lis
Dual Credit U.S. Government (1/2 credit)	above, including computer coding	of all courses that fall into each of the
		above categories.
Economics OR	The determination regarding a student's ability to	5
AP Microeconomics OR	complete the second credit of LOTE must be agreed	
AP Macroeconomics OR	by:	
Dual Credit Economics (1/2 credit) OR	• The teacher of the first LOTE course, the	
Personal Financial Literacy/Economics	principal or designee, and the student's parent;	
<i>.</i>	• The ARD or 504 committee, if applicable	
1 credit selected from the		
following:	A student, who due to a disability, is unable to	
	complete 2 credits in the same LOTE, may substitute a	
World History OR	combination of 2 credits from ELA, math, science or	
AP Modern World History OR	social studies (can be from 1 area or 2 areas) or 2	
Dual Credit World History OR	credits in CTE or technology applications for the LOTE	
	requirement. (Cannot combine a credit from the ELA,	
Ethnic Studies course pairing	math, science, and social studies areas with a credit	
STSS: African and African-American	from the CTE/technology applications area)	
Perspectives and Historical	The determination regarding the student's ability to	
Contributions (.5 credits) AND	complete the LOTE requirement will be made by the	
STSS: Latino/a Studies (.5 credits)	ARD or 504 committee, as applicable.	
Physical Education (1 Credit)	Health (0.5 Credit) FWISD Requirement	Speech (0.5 Credit) FWISD
May be selected from	May be selected from the following:	Requirement
the following:	Health (0.5 credit) or	May be selected from the following:
PE courses; or	Principles of Health Science (1 credit) or	Communications Applications;
PE substitutions; or	Honors Principles of Health Science or	Professional Communications;
District-Approved Off Campus	Approved Dual Credit Health Course	Debate I (or Honors)
Programs; or		Public Speaking
Approved Dual Credit PE Courses		Independent Study in Speech or
		Approved Dual Credit Speech

State approved innovative courses (these courses only meet elective requirements and will not meet state specific named course requirements); Junior Reserve Officer Training Corp (1 – 4 credits); or

Reading I, II, and III based on assessed individual needs (up to 3 credits)

#### **Endorsement Requirements**

SCIENCE, TECHNOLOGY, ENGINEERING, AND MATH (STEM)	Includes courses directly related to: Science, including environmental science Technology, including computer science Engineering Math	<ul> <li>Must complete Algebra II, Chemistry, and Physics or Principles of Technology, and one of the following: <ol> <li>A coherent sequence of courses for 4 or more credits in CTE that consists of at least 2 courses in the same career cluster and at least 1 advanced CTE course. The final course in the sequence must be selected from the STEM career cluster or Career Preparation I or II and Project-Based Research; or</li> <li>Courses required to complete a TEA-designated program of study related to STEM; or</li> <li>A total of 5 credits in Math by successfully completing Algebra I, Geometry, Algebra II, and 2 additional Math courses for</li> </ol> </li> </ul>
		<ul> <li>which Algebra II is a prerequisite.</li> <li>4. A total of 5 credits in science by successfully completing biology, chemistry, physics, and 2 additional Science courses.</li> <li>5. In addition to Algebra II, Chemistry, and Physics, a coherent sequence of 3 additional credits from no more than two of the three areas listed in 1, 2, 3, and 4 above.</li> </ul>
BUSINESS AND INDUSTRY	Includes courses directly related to: Agriculture, Food, & Natural Resources Architecture & Construction Arts, Audio/Video Technology, & Communications Business Management & Administration Finance Hospitality & Tourism Information Technology Manufacturing Marketing Transportation, Distribution, & Logistics Energy Career Prep I or II and Project- Based Research	<ul> <li>Must complete one of the following: <ol> <li>Coherent sequence of courses for 4 or more credits in CTE that consists of at least two courses in the same career cluster and at least one advanced CTE course. The final course in the sequence must be selected from one of the courses listed to the left; or</li> <li>Four English elective credits by selecting three levels in one of the following areas: <ul> <li>Advanced Broadcast Journalism</li> <li>Advanced Journalism: Newspaper</li> <li>Advanced Journalism: Literary Magazine</li> <li>Debate</li> <li>Public Speaking; or</li> </ul> </li> <li>Courses required to complete a TEA-designated program of study related to business and industry; or 3.</li> </ol></li></ul>

PUBLIC SERVICE	Includes courses directly related to: Education & Training Health Sciences Human Services Law, Public Safety, Corrections & Security Career Prep I or II and Project- Based Research	<ul> <li>Must complete one of the following:</li> <li>1. Coherent sequence of courses for 4 or more credits in CTE that consists of at least two courses in the same cluster and at least one advanced CTE course. The final course in the sequence must be selected from one of the courses listed to the left; or</li> <li>2. Four courses in JROTC; or</li> <li>3. Courses required to complete a TEA-designated program of study related to public services.</li> </ul>
ARTS & HUMANITIES	Includes courses directly related to: Cultural studies English Literature Fine arts History Political science World languages	<ul> <li>Must complete one of the following: <ol> <li>Total of 5 social studies credits; or</li> <li>Four levels of the same language in language other than English (LOTE); or</li> <li>Two levels of the same language in LOTE and two levels of a different language in LOTE; or</li> <li>Four levels of American Sign Language; or</li> <li>Coherent sequence of 4 credits by selecting courses from 1 or 2 categories or disciplines in fine arts or innovative courses approved by the commissioner; or</li> <li>Four English elective credits by selecting from the following: <ul> <li>English IV</li> <li>Independent Study in English</li> <li>Literary Genres</li> <li>Creative Writing</li> <li>Research &amp; Technical Writing</li> <li>Humanities</li> <li>Communication Applications</li> <li>AP English Literature &amp; Composition</li> </ul> </li> </ol></li></ul>
MULTIDISCIPLINARY	Allows a student to select courses from the curriculum of each endorsement area and earn credits in a variety of advanced courses from multiple content areas sufficient to complete the distinguished level of achievement	<ul> <li>Must complete one of the following:</li> <li>1. Four advanced courses that prepare a student to enter the workforce successfully or postsecondary education without remediation from within one endorsement area or among endorsement areas that are not in a coherent sequence; or</li> <li>2. Four credits in each of the four foundation subject areas to include Chemistry and/or Physics and English IV or a comparable AP or IB English course; or</li> <li>3. Four credits in Advanced Placement or dual credit selected from English, mathematics, science, social studies, economics, languages other than English, or fine arts.</li> </ul>

#### Performance Acknowledgements

.

Transcripts and diplomas will include Foundation Program Performance Acknowledgements.

Students can earn performance acknowledgements for dual credit, bilingualism and biliteracy, AP or IB exams, PSAT, ACT-Plan, SAT or ACT testing, or certifications and licensures.

DUAL CREDIT	Successful completion of:				
	1. At least 12 hours of college academic courses, including those taken for dual				
	credit as part of the Texas core curriculum, and advanced technical courses,				
	including locally articulated courses, with a grade of the equivalent of 3.0 or				
	higher on a scale of 4.0; or				
	2. An associate degree while in high school				
BILINGUALISM	Demonstrate proficiency in accordance with District grading policy in two or more				
AND	languages by:				
BILTERACY	1. Completing all English language requirements and maintaining a minimum				
DIETERVICET	grade point average (GPA) of the equivalent of 80 on a scale of 100; and				
	2. Satisfying one of the following:				
	a. Completion of a minimum of three credits in the same language in a				
	language other than English with a minimum GPA of the equivalent of				
	80 on a scale of 100; or				
	b. Demonstrate proficiency in the Texas Essential Knowledge and Skills				
	for Level IV or higher in a language other than English with a minimum				
	GPA of the equivalent of 80 on a scale of 100; or				
	c. Completion of at least three credits in foundation subject area courses				
	in a language other than English with a minimum GPA of 80 on a scale				
	of 100; or				
	d. Demonstrate proficiency in one or more languages other than English				
	through one of the following methods:				
	i. Score of 3 or higher on a College Board AP exam for a				
	language other than English; or				
	ii. Score a 4 or higher on an IB exam for a higher-level language				
	other than English course; or				
	iii. Performance on a national assessment of language proficiency				
	in a language other than English of at least Intermediate High				
	or its equivalent				
	In addition to meeting the requirements to earn a performance acknowledgement in				
bilingualism and biliteracy, an English language learner must also have:					
	1. Participated in and met the exit criteria for a bilingual or English as a second				
	language (ESL) program; and				
	2. Scored at the Advanced High level on the Texas English Language Proficiency				
	Assessment System (TELPAS).				
AP TEST	Earn a:				
	1. Score of 3 or above on a College Board advanced placement examination.				

PSAT	1. Score on the Preliminary SAT/National Merit Scholarship Qualifying Test		
ACT-ASPIRE	(PSAT/NMSQT <sup>®</sup> ) that qualifies the student for recognition as a commended		
SAT	scholar or higher by the College Board or as an awardee of the National		
ACT	Recognition Programs of the College Board.		
	2. Earn a composite score of 442 on the ACT Aspire® examination.		
	3. Earn a composite score of 29 on the ACT PreAct <sup>®</sup> examination.		
	4. Earn a total score of at least 1350 on the SAT®; or		
	5. Earn a composite score on the ACT® examination of 29 (excluding the writing		
	subscore)		
CERTIFICATION	Earn a nationally or internationally recognized business or industry certification or		
OR LICENSE	license with:		
	1. Performance on an examination or series of examinations sufficient to obtain a		
	nationally or internationally recognized business or industry certification; or		
	<ol> <li>Performance on an examination sufficient to obtain a government-required credential to practice a profession.</li> </ol>		

#### **Distinguished Level of Achievement**

A student may earn a distinguished level of achievement by successfully completing:

- A total of four credits in mathematics, which must include Algebra II
- A total of four credits in science
- The remaining curriculum requirements
- The curriculum requirements for at least one endorsement

A student must earn a distinguished level of achievement to be eligible for top 10% automatic admission

#### **Notations on Foundation Student Transcript**

The Foundation High School transcript for a student who satisfies the applicable requirements will include the following types of achievement:

- Distinguished Level of Achievement
- Endorsements, and
- Performance Acknowledgements

#### Foundation Graduation Program Frequently Asked Questions from TEA

#### General

#### 1. What does the term "required course" mean?

The term "required course" includes any course for which a student must earn credit to satisfy graduation requirements. Required courses include specific courses listed in the graduation requirements, electives, courses required for the Foundation High School Program under §74.12, and courses required for endorsements under §74.13.

#### 2. May a course satisfy both a foundation and an endorsement requirement?

Yes. A course completed as part of the set of four courses needed to satisfy an endorsement requirement may also satisfy a requirement under the Foundation High School Program, including an elective requirement.

#### 3. Can AP/IB and dual credit courses satisfy elective credit requirements?

Yes. A student may earn state elective credit for any course that is included in or aligns with the TEKS for a course identified in TAC, Chapters 110-118, 126-128, and 130 and for which a student has not already earned credit toward a specific course requirement.

#### 4. May a district require 26 credits for graduation for all students?

Yes. School districts have the authority to establish requirements in addition to what the state requires of students for graduation. This is a local decision.

### 5. If a specific course can be taught for more than one credit, how will the credit be applied to the new graduation requirements?

If a student earns more than one credit for a specific course, the credit may be applied to an applicable graduation requirement and any additional credit may be applied to an elective and/or endorsement requirement. For example, if a student earns one and one-half credits for successful completion of AP Chemistry, the first credit could satisfy an advanced science requirement and the additional half credit could satisfy an elective requirement.

### 6. Can a school district that requires additional credits for graduation substitute those additional required credits for Foundation High School Program requirements?

A district has the authority to require credits in addition to those credits required by the state, but they cannot substitute courses/credits for those required by the state. 1 March 13, 2014

### 7. If a school district requires a specific course beyond what the state requires, does that increase the total number of credits a student needs to graduate?

A district has the authority to require credits in addition to those credits required by the state and can choose to increase the total number of credits students are required to earn in order to graduate. Since a district ultimately decides what courses a student enrolls in, a district also has the authority to require all students to earn credit for a specific course to satisfy an elective requirement. If a district requires a specific course to satisfy an elective requirement, the total number of credits needed to graduate would not be increased.

#### 8. Are there course sequence requirements under the new graduation program?

There are not specific course sequence requirements in the new graduation program. However, districts should pay close attention to prerequisite requirements.

#### 9. How do prerequisites factor into the new graduation requirements?

Prerequisites are identified in the Texas Essential Knowledge and Skills for each course. Prerequisites are requirements unless they are specifically listed as recommended prerequisites.

### 10. Will the agency provide official forms to document students who choose to graduate foundation only without an endorsement?

Yes. Forms will be available on the TEA website.

#### English

#### 1. Do districts have the discretion to require English IV as the advanced English course for all students?

Since a district ultimately decides what courses a student enrolls in, a district also has the authority to require all students to earn credit for a specific course to satisfy the advanced English requirement.

#### 2. Can a district limit the options available to students to satisfy the advanced English requirement?

Districts do not have to offer every course option, but if the district does offer a course the SBOE has approved to satisfy an advanced English credit, students may not be denied the credit to satisfy that requirement.

### 3. Is there a required sequence of courses for English? For example, could a student take Technical Writing then take English III?

Please note, that the State Board ruled in April 2016 that English I, II, and III must be completed prior to awarding credit for English IV. There is nothing in rule or law that delineates a specific sequence; however, districts should pay close attention to the prerequisites for each of these courses.

#### Speech

#### 1. Do districts have the discretion to require a speech course for all students?

Yes. Each school district is responsible for ensuring that students demonstrate proficiency in the speech skills required by §74.11(a)(3). This can be accomplished by requiring a speech course or by other means. This is a local decision.

### 2. How are school districts supposed to document a student's demonstrated proficiency of the required speech skills?

Documentation of a student's demonstrated proficiency must be included on the Academic Achievement Record (AAR). Additional guidance will be provided in the revised Minimum Standards for the AAR.

#### 3. Can a district use Professional Communications to satisfy the new speech skills requirement?

Yes, school districts have the authority to use Professional Communications to meet the speech requirement. This is a local district decision.

#### Mathematics

### 1. Is there still a required sequence for math? For example, does a student have to take Algebra I before taking Math Models with Applications?

No. However, districts should pay close attention to prerequisite requirements when scheduling students in math courses. Please note that prerequisites for some of the high school mathematics courses will change when the revised math TEKS are implemented in the 2015-2016 school year.

#### 2. Is Algebra II a prerequisite for any other advanced math courses?

Algebra II is a prerequisite for some, but not all advanced math courses. Districts should pay close attention to the courses that may satisfy an advanced mathematics course under the foundation program and the courses that may satisfy an advanced mathematics course required for a student to earn an endorsement. Additionally, districts should pay close attention to prerequisite requirements for each advanced mathematics course.

#### 3. May Math Models with Applications be offered first in the sequence of math courses offered by a district?

There is nothing in rule or law that specifically allows or prevents this for the 2014-2015 school year. However, Algebra I will be a prerequisite for Math Models with Applications when the revised TEKS are implemented in the 2015-2016 school year.

### 4. May Math Models with Applications be offered concurrently with Algebra I or geometry in the sequence of math courses offered?

There is nothing in rule or law that specifically allows or prevents this for the 2014-2015 school year. However, Algebra I will be a prerequisite for Math Models with Applications when the revised TEKS are implemented in the 2015-2016 school year. Beginning in 2015-2016, geometry and Math Models with Applications can be taken concurrently, provided the student has successfully completed Algebra I.

#### 5. Is Math Models with Applications being phased out?

No. The administrative rules allow students to use credit earned in Math Models with Applications as an option for the mathematics credit required to earn an endorsement for the 2014-2015 school year only. This course will continue to be an option for students to earn the advanced credit required under the foundation program.

#### Science

#### 1. Does the second science credit have to be taken before the third science credit?

No. The use of the terms "second" and "third" in the rule is not intended to imply a sequence. However, districts should pay close attention to prerequisite requirements when scheduling students in science courses.

#### 2. Can a student take IPC after chemistry and/or physics?

There is nothing in rule or law that specifically allows or prevents a specific course sequence. However, districts should pay close attention to prerequisite requirements for each of these courses.

#### 3. How can AP Physics 1 and 2 be used?

AP Physics 1 may count as a second science credit option or a third science credit option. AP Physics 2 may count as a third science credit option only.

### 4. Is there anything that prevents a district from offering a course other than biology to ninth grade students?

The administrative rules do not prescribe a sequence. Districts should pay close attention to prerequisite requirements when scheduling students in science courses.

#### 5. What is considered an advanced science course?

The State Board of Education has identified a list of science courses that may satisfy each of the advanced science courses required for graduation.

#### Social Studies

#### 1. Do districts have the discretion to require both World Geography and World History for all students?

Yes. School districts have the authority to establish requirements in addition to what the state requires of students for graduation. This is a local decision.

### 2. Can districts place students in a semester of World Geography and a semester of World History to satisfy the combined World History/World Geography requirement?

No. The SBOE must adopt Texas Essential Knowledge and Skills for a combined World History/World Geography course before this will be an option available to students.

#### Health and Physical Education

#### 1. Do districts have the discretion to require a health course for all students?

Yes. School districts have the authority to establish requirements in addition to what the state requires of students for graduation. This is a local decision.

### 2. Can any TEKS-based course that includes 100 minutes of moderate to vigorous physical activity satisfy the PE requirement?

Yes. In accordance with local district policy, the required PE credit may be earned through completion of any TEKSbased course that meets the requirement for 100 minutes of moderate to vigorous physical activity per five-day school week. Please note that such a course cannot be used to satisfy another specific graduation requirement.

### 3. Can a school district add a requirement of moderate to vigorous physical activity to any TEKS-based course and award PE credit for that course?

Yes. A school district may add a requirement for 100 minutes of moderate to vigorous physical activity per five-day school week and award PE credit for that course. Please note that such a course cannot be used to satisfy another specific graduation requirement.

#### Languages Other Than English (LOTE)

#### 1. What courses satisfy the computer programming languages option for the LOTE graduation requirements?

Computer Science I, II, and III may satisfy this requirement until September 1, 2016. The SBOE is expected to revisit these options at a future date. *Please note that the SBOE at its April 2016 meeting did remove the September 1, 2016 expiration date from this option* 

#### 2. Can CTE computer programming courses satisfy the LOTE requirement?

No. At this time only Computer Science I, II, and III may satisfy this requirement. The SBOE is expected to revisit these options at a future date.

#### **Fine Arts**

#### 1. What is a community-based fine arts program?

A community-based fine arts program is a fine arts program that provides instruction in all of the TEKS for a high school fine arts course and that is offered outside of the school day and often off-campus. Examples of community-based fine arts programs include community theatre or dance programs offered at a local dance studio.

#### **Technology Applications**

### 1. May a district continue to require a course such as technology applications for high school graduation that the state no longer requires?

Yes. School districts have the authority to require beyond what the state requires of students for graduation. This is a local decision. If a district requires a TEKS-based course, such as a technology applications course, that is not required by the state, the course could count toward the state elective requirements.

#### 2. What will happen with the computer science courses if they are scheduled to "go away" in 2016?

The computer science courses are not going away. They will continue to be course options for students. These courses are options for satisfying the languages other than English graduation requirement until September 1, 2016. *Please note that at its April 2016 meeting, the SBOE removed the September 1, 2016 expiration date.* 

#### **Endorsement Frequently Asked Questions from TEA**

#### General

#### 1. Does every student have to graduate with an endorsement?

No. A student may opt to graduate Foundation High School Program only without an endorsement if, after the student's sophomore year the student and the student's parent or guardian are advised by a school counselor of the specific benefits of graduating from high school with one or more endorsements and the student's parent or guardian files with a school counselor written permission, on a form adopted by the Texas Education Agency (TEA), allowing the student to graduate under the Foundation High School Program without earning an endorsement.

#### 2. Can a student earn more than one endorsement?

Yes. A district must allow a student to enroll in courses under more than one endorsement before the student's junior year.

#### 3. Can a student change endorsements? When?

Yes. While a district is not required to offer all endorsements, a district must allow a student to choose, at any time, to earn an endorsement other than the endorsement the student previously indicated from among the available endorsements.

### 4. I'm concerned that my small district cannot offer endorsements. What endorsements should a district be able to offer?

Without altering the courses that a school district is currently required by SBOE rule to offer, a district should be able to offer at least three of the five endorsements. Multidisciplinary (all districts are required to offer at least four courses in each foundation subject area, to include English IV, Chemistry, and/or Physics) Business and Industry (TAC, §74.3(b)(2)(G) requires a district to offer a coherent sequence of courses from at least three CTE career clusters) STEM (TAC, §74.3(b)(2)(C) requires a district to offer at least six science courses)

### 5. Will all high schools be required to offer multiple endorsements, even those that focus 100% on STEM/engineering?

No. Statute requires each school district to make available to high school students courses that allow a student to complete the curriculum requirements for at least one endorsement. A school district that offers only one endorsement curriculum must offer the multidisciplinary studies endorsement curriculum.

# 6. The new graduation rules include the following statement, "This section does not entitle a student to remain enrolled to earn more than 26 credits." Does this mean that a student cannot earn more than 26 credits?

No. This statement means that a student is not entitled to continue earning credits to earn endorsements indefinitely. A district may permit a student to earn more than 26 credits, but has the authority to deny a student's request to continue earning credits beyond the 26 if the district determines that the student has sufficient credits to graduate with an endorsement.

#### 7. May a course satisfy both a foundation and an endorsement requirement?

Yes. A course completed as part of the set of four courses needed to satisfy an endorsement requirement may also satisfy a requirement under the Foundation High School Program, including an elective requirement. A student must still earn a total of 26 credits to graduate on the Foundation High School Program with an endorsement.

#### 8. Do districts have the authority to require Algebra II or other specific courses for all endorsements?

Yes. School districts have the authority to establish requirements in addition to what the state requires of students for graduation. This is a local decision.

#### 9. Who decides what constitutes a coherent sequence of courses?

Each local school district has the authority to determine a coherent sequence of courses and identify courses within that sequence as advanced courses for the purposes of satisfying an endorsement requirement, provided that prerequisites are followed.

### 10. In some endorsement options there doesn't seem to be a clear sequence. Will the district determine the sequence in these cases?

Yes. A school district determines the specific set of courses each student must complete to earn an endorsement, provided that prerequisites are followed and that the set of courses meets the requirements of the options listed for an endorsement in SBOE rule.

## 11. Should planning be approached by picking an endorsement and then planning the courses necessary to obtain that particular endorsement, or should it be approached by first picking courses and then discovering which endorsement area the sequence fits (at a later time)?

This is a local decision.

### 12. Are students required to meet each of the options listed under an endorsement area, or they required to only meet one of the options?

To earn an endorsement a student must complete any specific course requirements and one set of requirements identified in the endorsement rules. For example, to earn a business and industry endorsement, a student must complete the course requirements for CTE or the course requirements for English language arts electives, but not both.

### 13. Under the endorsements for which CTE courses are an option, is there a list of "advanced CTE courses that are the third or higher course in a sequence"?

Advanced CTE courses are those designated as a Level 3 or 4 course in each TEA Program of Study. The Fort Worth ISD has generally scheduled those courses at the 10<sup>th</sup>, 11<sup>th</sup>, and 12<sup>th</sup> grade levels.

### 14. Can Career Preparation be used as the final course in a sequence for an endorsement for which there are CTE course options?

In some instances, yes. TEA has designated Career Preparation I as a possible final course for some Programs of Study but not all.

### 15. If a student takes two CTE courses in his/her final semester, each from a different endorsement area, which endorsement would the student earn?

If a student takes two CTE courses that align with two different endorsement areas, the local school district must determine which course is part of the coherent sequence of courses for that student. The student will still need to complete all requirements for an endorsement. This is a local decision.

#### STEM

#### 1. Can AP Physics I satisfy the physics requirement for the STEM endorsement?

Yes. College Board Advanced Placement and International Baccalaureate courses may be substituted as appropriate for required courses.

#### 2. Can Principles of Technology satisfy the physics requirement in the STEM endorsement?

Yes. Principles of Technology addresses all of the TEKS for physics and credit may not be earned for both physics and Principles of Technology to satisfy science credit requirements.

### 3. The fifth option under the STEM endorsement says "a coherent sequence of three additional credits." What does this mean?

Students may earn a STEM endorsement by successfully completing Algebra II and three additional credits from no

more than two of the following categories: the STEM CTE career cluster, computer science courses that may satisfy a STEM endorsement, mathematics courses beyond Algebra II, or science courses. The three additional credits must be a coherent sequence of courses as determined by the local district.

#### 4. Which science courses may satisfy the science option under the STEM endorsement?

The list of science courses that may satisfy a STEM endorsement are identified in TAC §74.13(e)(5).

### 5. Why is there a discrepancy between the number of courses required to earn a math STEM endorsement and the number of courses required to earn a science STEM endorsement?

There is not a discrepancy in the number of courses. To earn a STEM endorsement in mathematics, a student must successfully complete a total of five courses: Algebra I, Geometry, Algebra II, and two additional math courses for which Algebra II is a prerequisite. To earn a STEM endorsement in science, a student must successfully complete a total of five courses: biology, chemistry, physics, and two additional science courses.

#### **Business and Industry**

# If a student on a business and industry endorsement program chooses a computer programming language to meet the foundation program Languages Other Than English (LOTE) requirement, will these courses satisfy both the LOTE requirement and the endorsement requirement under the Information Technology career cluster?

The only courses that are currently approved to satisfy the LOTE requirement are Computer Science I, II, III, AP Computer Science Principles, and AP Computer Science A. These courses may satisfy the LOTE requirement and may count toward a STEM endorsement, but not a business and industry endorsement.

A student must still earn a total of 26 credits to graduate on the Foundation High School Program with an endorsement.

#### **Public Services**

#### May a student seeking a public services endorsement who is taking a sequence of courses in the Human Services career cluster use a course from another career cluster as part of the coherent sequence of courses?

Yes. A coherent sequence of courses may include courses from any CTE career cluster provided that the final course in the sequence is obtained from one of the CTE career clusters identified under the public services endorsement. Districts must determine locally that courses from different career clusters create a coherent sequence of courses.

#### Arts and Humanities

### 1. Is it permissible to substitute an additional arts and humanities course for the fourth science requirement if the student is pursuing an arts and humanities endorsement?

A student pursuing an arts and humanities endorsement who has the written permission of the student's parent may substitute an English language arts course, a social studies course, a LOTE course, or a fine arts course for the additional science credit required to earn an endorsement.

### 2. Under the arts and humanities endorsement, if a student has taken English IV, can it count as part of the four English elective credits?

Yes. A course completed as part of the set of four courses needed to satisfy an endorsement requirement may also satisfy a requirement under the Foundation High School Program, including an elective requirement. A student must still earn a total of 26 credits to graduate Foundation High School Program with an endorsement.

#### 3. How many social studies courses are required for a student to earn an arts and humanities endorsement?

The social studies option under arts and humanities requires that a student complete five credits in social studies.

#### **Multidisciplinary Studies**

# Under the multidisciplinary studies endorsement, what courses will satisfy the requirement for "four advanced courses that prepare a student to enter the workforce successfully or postsecondary education without remediation"?

Each local school district has the authority to identify advanced courses for the purposes of satisfying an endorsement requirement, provided that they meet the definition above.

#### Individual Graduation Committee Frequently Asked Questions General

#### 1. Are all students eligible to receive an Individual Graduation Committee review?

Only students who are classified in grade 11 or 12 or who have taken and have failed to achieve the end-of-course (EOC) assessment performance requirements for graduation for not more than two courses are eligible for individual graduation committee (IGC) review.

#### **Student Eligibility**

#### 2. Can students who did not qualify for an individual graduation committee review because they had failed more than two of the required assessments become eligible for an individual graduation committee review by passing one or more of the required assessments?

Yes. If a student who had failed more than two of the required EOC assessments subsequently meets additional assessment requirements either through retesting or by using a substitute assessment, they may become eligible for an individual graduation committee review.

### 3. Are students who are required to meet TAKS requirements instead of STAAR EOC requirements eligible to receive a diploma based on individual graduation committee review?

No. Eligibility under TEC, §28.0258(a) is specific to students who have taken and have failed to achieve the EOC assessment performance requirements for graduation for not more than two courses. There is no reference to other exit-level assessments in the statute.

Former students who are required to meet TAKS requirements may be able to receive a diploma based on a district decision in accordance with TEC, §28.02541 and 19 TAC, §74.1027 a <u>separate FAQ</u> addresses questions about this process.

### 4. Are students who are classified as three-year early graduates eligible to receive an individual graduation committee review?

A student may not qualify to graduate based on an IGC determination before the student's 12<sup>th</sup> grade year. In order for a student to be eligible to graduate based on an IGC determination, the student must have satisfactorily completed credit requirements for graduation specified in Chapter 74, must be classified as a 12<sup>th</sup> grade student, and must have taken all required EOC assessments.

### 5. Is a transfer student who was exempt from some but not all EOCs eligible to receive a diploma based on Individual Graduation Committee review?

An 11th or 12th grade transfer student is eligible to graduate based on an IGC determination if, of the assessments the student has taken, the student has failed to achieve the EOC assessment performance requirements for graduation for not more than two courses [TEC, §28.0258(a)].

#### 6.If a student fails three EOC assessments including Algebra I, but receives a score of proficient on the Texas Success Initiative (TSI) assessment for math, is the student eligible to receive an Individual Graduation Committee review?

Yes. A student who has taken and failed to achieve the EOC assessment performance requirement for Algebra I after two attempts, but who receives a score of proficient on the TSI assessment for math is considered to have satisfied the Algebra I EOC requirement [TEC, §39.025(a-3); 19 Tex. Admin. Code § 101.3022(f)].

#### **Special Populations**

### 7. Are students who receive special education services eligible to receive an Individual Graduation Committee review?

When a student receives special education services, the student's Admission, Review, and Dismissal (ARD) committee determines whether the student is required to achieve satisfactory performance on the EOC assessments. If the ARD committee determines that a student is not required to achieve satisfactory performance on the EOC assessments, the student is considered to be in compliance with assessment requirements under TEC §39.025 and an IGC review would not be necessary.

# 8. For an eligible emergent bilingual (EB) student who does not meet the standard on the English I EOC and who is not required to retest based on the Special Provision for English I EOC, does the failing score on English I count as one of the two EOC assessments that a student can fail and still be considered by the Individual Graduation Committee for graduation?

Yes. An EB student who failed the English I EOC, but meets eligibility for the English I Special Provision and therefore is not required to pass English I, is eligible for IGC review if the student attempts all other required EOCs and fails to pass one additional test. The EB student would also qualify for an IGC if the student passed the English I EOC assessment but failed to pass two other EOC assessments.

### 9. If an EB student was eligible for the English I Special Provision and has passed the other required EOC assessments, does the EB student now have to receive an IGC review in order to graduate?

No, the qualifying EB student would not need an IGC review in order to graduate. An EB student who qualifies for the Special Provision only becomes eligible for IGC review by failing to pass the English I EOC assessment and one other EOC assessment.

# 10. If an EB student was eligible for the English I Special Provision and has passed all but one other test (for example English II) must the student complete remediation and a project or portfolio for both English I and the second assessment the student failed?

Yes. If a qualifying EL does graduate by means of an IGC, the student is required to complete IGC requirements for each course in which the student did not pass the EOC assessment.

#### **IGC Process**

#### 11. What process should a district or charter school follow to implement Individual Graduation Committees?

[TEC, §28.0258(c)]. Requires the superintendent of each school district or leader of each charter school to establish procedures for the convening of an IGC. The TEA IGC Guidance document includes recommendations for districts and charter schools to consider for the IGC process, including guidance regarding documentation of the process and IGC decision.

#### 12. Who must be on an Individual Graduation Committee?

The IGC must be composed of: • the principal or his/her designee; • the teacher of the course for which the student did not pass the EOC assessment; if this teacher is not available, the principal may designate a teacher certified in the subject area who is most familiar with the student's performance in the subject area; • the department chair or lead teacher supervising the teacher of the course; if this individual is unavailable, the principal may designate an

experienced teacher certified in the subject who is familiar with the content of and instructional practices for the applicable course; • as applicable, the student's parent or guardian; a designated advocate; or the student, at the student's option, if the student is at least 18 years old or is an emancipated minor [TEC, §28.0258(b)]

### 13. What are the requirements that the Individual Graduation Committee must recommend in order for a student to qualify for graduation?

A student's IGC is required to recommend additional requirements by which the student may qualify to graduate including additional remediation and, for each EOC assessment on which the student failed to perform satisfactorily:

• the completion of a project related to the subject area of the course that demonstrates proficiency **or** • the preparation of a portfolio of work samples in the subject area of the course, including work samples from the course that demonstrate proficiency. (Work samples may include previously completed coursework) [TEC, §28.0258(f)]. 3

#### 14. How does an Individual Graduation Committee determine that a student is qualified to graduate?

A student is qualified to graduate on the basis of an IGC decision only if the student: • successfully completes the credit requirements for the foundation high school program identified by the State Board of Education • the student successfully completes all additional requirements recommended by the IGC, and • the committee's vote is unanimous [TEC,§28.0258(i)].

In determining whether a student is gualified to graduate the IGC must consider: • the recommendation of the student's teacher in each course for which the student failed to perform satisfactorily on an EOC assessment; • the student's grade in each course for which the student failed to perform satisfactorily on an EOC assessment; • the student's score on each EOC assessment on which the student failed to perform satisfactorily; • the student's performance on any additional requirements recommended by the committee; • the number of hours of remediation that the student has attended, including attendance in a college preparatory course, if applicable, or attendance in and successful completion of a transitional college course in reading or mathematics • the student's school attendance rate; • the student's satisfaction of any of the Texas Success Initiative (TSI) college readiness benchmarks prescribed by the Texas Higher Education Coordinating Board; • the student's successful completion of a dual credit course in English, mathematics, science, or social studies; • the student's successful completion of a high school pre- Advanced Placement (AP), AP, or International Baccalaureate program course in English, mathematics, science, or social studies; • if applicable, the student's rating of advanced high on the most recent high school administration of the Texas English Language Proficiency Assessment System (TELPAS); • if applicable, the student's score of 50 or greater on a College-Level Examination Program (CLEP) examination; • if applicable, the student's score on the ACT, SAT, or Armed Services Vocational Aptitude Battery (ASVAB) test; • if applicable, the student's completion of a sequence of courses under a career and technical education program required to attain an industry-recognized credential or certificate; • the student's overall preparedness for postsecondary success; and • any other academic information designated for consideration by the board of trustees of the school district or charter [TEC, §28.0258(h)].

### 15. If the Individual Graduation Committee determines that a student is qualified to graduate, will the student be eligible to graduate with an endorsement?

Yes. If a student completes all of the credit requirements for an endorsement outlined in 19 TAC, §74.13, the student is eligible to graduate with an endorsement. To earn an endorsement a student must demonstrate proficiency in the credit requirements for the foundation high school program, a fourth credit in mathematics, a fourth credit in science, and two additional elective credits for a total of 26 credits. As part of the 26 credits, a student must complete a coherent sequence of courses for the endorsement [19 TAC, §74.13].

### 16. If the Individual Graduation Committee determines that a student is qualified to graduate, will the student be eligible to graduate with the distinguished level of achievement?

Yes. If a student completes all of the requirements for distinguished level of achievement outlined in 19 TAC, §74.11(f), the student is eligible to graduate with the distinguished level of achievement. To earn the distinguished level of achievement, a student must demonstrate proficiency in the credit requirements for the foundation high school

program, earn at least one endorsement, and successfully complete Algebra II as one of the four mathematics credit requirements [TAC, §74.11(e)].

# 17. If an Individual Graduation Committee determines that a student is qualified to graduate, will the student graduate under their original graduation program, or does the decision default a student to a lower or different graduation program?

The coursework that a student completes determines the graduation program that the student graduates under. Graduation based on an IGC determination does not change the graduation program for the student.

### 18. If the Individual Graduation Committee determines that a student is qualified to graduate, will the student be eligible to graduate with performance acknowledgements?

Yes. If a student completes all of the requirements for a performance acknowledgment outlined in 19 TAC §74.14, the student is eligible to graduate with the performance acknowledgment.

#### 19. Are there any timelines associated with an Individual Graduation Committee review?

Yes, there are three key timelines that guide an individual graduation committee review.

- The law establishes that a district or open-enrollment charter school must establish an individual graduation committee for each eligible student at the end of or after the student's 11<sup>th</sup> grade year to determine whether the student may qualify to by IGC decision
- Administrative rules specify that a district or charter school may <u>not</u> establish an initial individual graduation committee for eligible students after June 10 or before the start of the next school year.
- In order for a student to be included as a graduate in the school district's or charter school's graduation data in the school year in which the student meets the requirements, an individual graduation committee must make a decision to award a diploma no later than August 31 immediately following that school year. Please note that a student who graduates as a result of an individual graduation committee decision after August 31 shall be reported in the subsequent year's graduation data.

#### **Charter Schools**

#### 20. Are charter schools required to establish individual graduation committees?

Yes. An open-enrollment charter school is subject to the requirement to establish an individual graduation committee.

#### 21. Do the reporting requirements identified in new TEC, §28.0259 apply to charter schools?

Yes. TEC, §28.0259 requires reporting through PEIMS and TEC, §12.104(b)(2)(A) requires charters to comply with PEIMS requirements.

#### Documentation

### 22. What paperwork are districts required to keep regarding the individual graduation committee's decision?

The district or open-enrollment charter school must maintain all student-level documentation related to the IGC review, notifications, decision process, and final outcomes.

### 23. How should EOC performance be documented on the AAR if a student failed an EOC but has been permitted to graduate based on IGC review and decision?

For each instance in which the student has failed to achieve the EOC assessment performance requirements, the AAR should reflect "Did Not Meet Grade Level" performance.

### 24. Should any additional information be included on the AAR to indicate that the student graduated based on IGC review and decision?

No. However, the district or open-enrollment charter school must maintain separate documentation of the IGC review and decision.

#### **Miscellaneous Questions**

25. Are there any implications if a campus has too many students graduating via an IGC?

House Bill 1603 passed by the Texas Legislature in 2021 permits the commissioner of education to conduct a special investigation of any campus that graduates more than 10% of its class via an individual graduation committee.

26. If an individual graduation committee allows a student to graduate and the student is still enrolled in school when the STAAR end-of-course test is administered, does the district have to administer the STAAR EOC to the student?

Districts must offer an end-of-course assessment to any student who has not passed the assessment regardless of the individual graduation committee's decision.

27. Once former students have met the requirements of the IGC, should the campus enroll the student to allow the student to graduate?

Yes. Former students should be enrolled and coded as "enrolled, not in membership" for the purpose of awarding a high school diploma.

28. A student has passed two of the required five endo-of-course assessments. May a district or charter school begin the IGC process prior to the student passing his third test?

No. The IGC process is available only for those students who have failed no more than two end-of-course tests. Additionally, a student who does not make an attempt to take all required EOC assessments or an approved substitute assessment may not qualify to graduate by means of an individual graduation committee.

#### **HB 5: Other Frequently Asked Questions**

#### **College Preparatory Courses**

#### 1. Are high schools required to offer a college prep course?

Under Section 28.014 of the Texas Education Code, each school district is required to partner with at least one institution of higher education to develop and provide college preparatory courses in English language arts and mathematics. However, each high school within the school district is not required to offer these courses.

#### 2. Are certain students required to enroll in college prep courses?

No. School districts are required to provide notice to each student who meets eligibility criteria for a college preparatory course and the student's parent or guardian regarding the benefits of enrolling in the course. However, students are not required to enroll in college preparatory courses that are required in statute.

### 3. Is a student required to take the Texas Success Initiative (TSI) to determine college readiness and placement in a college prep course?

No. A district may use performance on coursework, a college entrance examination, or the TSI to determine that the student is not ready to perform entry-level college coursework.

### 4. If a district chooses to use TSI to determine college readiness and placement in a college prep course, must a district pay for the TSI for students?

The course required under TEC, §28.014 must be available free of charge to students. Students may qualify for the course based on performance on coursework, a college entrance examination, or the TSI. If the district chooses to use only the TSI to enroll students, it cannot require payment for access to the course.

#### 5. Is a student required to take the TSI to determine successful completion of a college prep course?

State law does not explicitly require or prohibit the use of testing to determine successful completion of a college prep course described in TEC, §28.014. Whether a particular test is required, whether it is required only for the purpose of awarding dual credit, or whether there is no test at all is part of the flexibility HB5 provided to each school district in working with an institution of higher education.

### 6. If a district chooses to use TSI to determine successful completion of a college prep course, must a district pay for the TSI for students?

Yes. If the district chooses to use only the TSI to determine successful completion of the course, it cannot require payment for the TSI. If other standards involving grades or other exams are used, and TSI is not required for completion of the course, the district is not required to administer or pay for the TSI.

### 7. What end-of-course assessment instrument would indicate that a student does not meet college readiness standards for purposes of Texas Education Code, §28.014?

There is no longer a state assessment that would meet this purpose. The local development process may decide to use an assessment as part of the course, but is not required to do so.

#### 8. Can high schools offer college prep course to students who are not in the 12th grade?

There is not a specific requirement that a student must be in 12th grade to take a college preparatory course. However, a student may not earn credit for the college preparatory math course until after the student has completed the three mathematics credit requirements for the Foundation High School Program.

### 9. Can a student who remains on the current Recommended High School Program (RHSP) or the Distinguished Achievement Program (DAP) earn credit for a college preparatory course?

No. Administrative rules do not allow for these courses to satisfy credit requirements for students on the RHSP or DAP. However, a student on the Foundation High School Program who successfully completes a college preparatory course may use the credit earned to satisfy an advanced mathematics credit or an advanced English credit.

### 10. What is the relationship between the college preparatory courses referenced in Texas Education Code, §28.014 and §39.025(b-2)?

Texas Education Code, subsection 39.025(b-2) does not apply to a course developed under section 28.014. While both statutes use the term "college preparatory course," they are different enactments and represent different local program options. There is currently no assessment available for a course under TEC, §39.025(b-2).

# 11. If a student takes one of the college prep courses to attain college readiness, can the student take the new TSI and, if the student passes the TSI, will it satisfy the STAAR end-of-course assessment requirements as well as the TSI requirement?

No. Neither of the college preparatory courses identified in statute satisfy the state assessment requirements for high school graduation.

### 12. Can one college prep course in English satisfy both the requirements in Texas Education Code, §28.014, and in Texas Education Code, §39.025(b-2)?

The courses described in TEC, §28.014, and TEC, §39.025(b-2), are different. There is currently no assessment available for a course under TEC, §39.025(b-2). It is anticipated that the STAAR English III and Algebra II assessments, when administered again beginning in spring 2016, will be able to serve the purpose of an assessment related to TEC, §39.025(b-2). At this time, however, there is not a way for a district to implement the 39.025(b-2) requirement without an available assessment.

#### 13. Must the college preparatory English course be a full-credit course?

No. In accordance with TAC, §74.12(b)(1), the college preparatory English course may be a half-credit course that, when paired with another half-credit from the list of allowable advanced English courses, may satisfy the advanced English requirement for graduation.

#### 14. Must the college preparatory mathematics course be a full-credit course?

Yes. In accordance with TAC, §74.13(e)(4), the college preparatory mathematics course must be a full credit course. However, in accordance with TAC, §74.26, in accordance with local district policy, students who are able to successfully complete only one semester of a two-semester course can be awarded credit proportionately. Consequently, a student may be awarded a half credit for successful completion of half of the college preparatory mathematics course. This half credit, when paired with another half credit from the list of allowable advanced mathematics courses, may satisfy the advanced mathematics requirement for students pursuing an endorsement.

#### **College Admission**

### 1. If a student is on the Foundation High School Program only and does not earn an endorsement, does the student have to attend a community college before attending a four-year college?

State law does not prohibit a student who graduates on the Foundation High School Program without an endorsement from attending a four-year college or university. However, a student graduating under the Foundation High School Program without an endorsement may not have met the eligibility requirements for a four-year college or university because colleges and universities set their own entrance requirements. A student would need to check with the specific college/university for information regarding admission requirements.

### 2. Will computer science as a language other than English (LOTE) count for college admission as a foreign language?

Colleges and universities set their own entrance requirements. Consequently, a student would need to check with the specific college/university for information regarding admission requirements.

#### **Available Course Options for All Graduation Programs**

Information regarding specific courses required or offered in each curriculum area will be distributed to students each spring in order to enroll in courses for the upcoming school year. Note that the district may require the completion of certain courses for graduation even if these courses are not required by the state for graduation.

Please be aware that not all courses are offered at every secondary campus in the district. A student who wants to take a course not offered at his or her regular campus should contact the school counselor about alternatives.

#### State Rule Regarding Combining Credits in Graduation Programs

A local school district can award credit proportionately to students who are able to successfully complete only one semester of a two-semester course. Unless the TAC specifically prohibits combining two half credits to satisfy a graduation requirement, in accordance with local district policy, a student may satisfy a graduation requirement for which there are multiple options with one-half credit of one allowable option and one-half credit of a second allowable option.

Prohibited combination credits:

- Minimum High School Program a student may not combine a half credit of Algebra II with a half credit from another mathematics course to satisfy the final mathematics credit requirement.
- Minimum High School Program a student may not combine a half credit of either World History Studies or World Geography Studies with a half credit from another academic elective course to satisfy the academic elective credit requirement.
- All Graduation Programs a student may not combine a half credit of a course for which there is an end-of-course assessment with another elective to satisfy an elective credit requirement.

#### **Advanced Placement Course Substitutions**

College Board Advanced Placement Courses may substitute for required courses in appropriate areas (TAC 74.11d). To assist with the identification of appropriate crediting of AP courses, a list of all AP course substitutions is below:

	ourses and Course Numbers	Courses may be credited as:	Units of Credit
		Courses may be created as.	onits of clean
ART	AR Two Dimensional Design		
1043 A/B	AP Two-Dimensional Design Art (Painting/Drawing)	Fine Arts Credit or State Elective Credit	.5 - 1
1020 A/B	AP Three-Dimensional Design Art (Sculpture) Portfolio A/B	Fine Arts Credit or State Elective Credit	.5 – 1
1048 A/B	AP History of Art	Fine Arts Credit or State Elective Credit	.5 – 1
1041 A/B	AP Drawing A/B	Fine Arts Credit or State Elective Credit	.5
1473 A/B	AP Music Theory A/B	Fine Arts Credit or State Elective Credit	.5
ENGLISH			
3062 A/B	AP English Language & Composition A/B	Substitute for English III, IV or State Elective Credit	.5
3064 A/B	AP Literature & Composition A/B	Substitute for English III, IV or State Elective Credit	.5
	ES/WORLD LANGUAGES

<b>FINE ARTS</b>				
1073 AB	OnRamps Art IV: Arts and Entertainment Technologies	Fine Arts Graduation requirement	1	3

### **Dual Credit Course Substitutions**

Approved FWISD dual credit courses may substitute for required courses in appropriate areas and when successfully completed will receive weighted credit for the student's GPA.

#### **Course Prerequisites**

A student may not be enrolled in a course that has a required prerequisite unless the student:

- 1. Has completed the prerequisite course(s)
- 2. Has demonstrated equivalent knowledge as determined by the school district; or
- 3. Was already enrolled in the course in an out-of-state, an out-of-country, or a Texas nonpublic school and transferred to a Texas public school prior to successfully completing the course.

A district may award credit for a course to a student who completed the course without having met the prerequisites if the student completed the course in an out-of-state, an out-of-country, or a Texas nonpublic school where there was not a prerequisite.

#### State Rule Regarding All Graduation Programs for Out-of-State or Out-of-Country Transfer Students

An out-of-state or out-of-country transfer student (including a foreign exchange student) or a transfer student from a Texas nonpublic school is eligible to receive a Texas Diploma, but must complete all requirements to satisfy state graduation requirements. Any course credit required that is not completed by the student before he or she enrolls in a Texas school district may be satisfied through provisions such as using correspondence courses, distance learning, and credit by examination or completing the required course.

Courses offered for dual credit in the core curriculum of an institution of higher education that cover all of the essential knowledge and skills for a course required for graduation may be substituted for courses required in the foundation curriculum and for languages other than English in all three high school graduation programs.

### **HIGHEST-RANKING GRADUATE – STATE DESIGNATION & CRITERIA**

The highest-ranking graduate is the student at each high school campus who has received the local honor of valedictorian. This student will receive a Highest-Ranking Graduate Certificate and free tuition to a Texas public college or university during both semesters of the first regular session immediately following the student's high school graduation. [See §54.201 of the Texas Education Code]

After all grades have been posted, a designated individual at each campus will use the PDF form provided by TEA to print out a certificate for the graduate on at least 65 lb. stock paper. The principal and superintendent will sign the certificate.

The designated individual from each campus will also need to complete an online survey to submit the highestranking graduate information to TEA. There is an optional field noting the public college your highest-ranking graduate will be attending; complete this section if the information is available. TEA will forward this information to the college, and the student will not need a Declaration document.

If the name of the public college that the highest-ranking graduate will attend is not known, the designated individual from each campus will complete a Declaration PDF form. The form is available from the link on the survey. Ensure that the student receives a copy of the Declaration form to present to the college admissions office of attendance. Detailed instructions with a link to the survey will be provided annually to each campus principal by the Academic Advisement Department.

#### **Highest Ranking Graduate FAQs from TEA**

Our valedictorian is not the highest-ranking graduate of their senior class because a student transferred in and has a higher GPA. Can we give the certificate to the valedictorian instead since that student has been at our high school all four years?

You must follow your district's policy for determining the highest-ranking graduate. The law clearly states that the award should be given to the highest-ranking graduate based on policy.

# Our highest-ranking graduate is going to college out of state, and therefore won't be able to benefit from this certificate. Can we instead give it to the next student in line who will be going to a Texas public institution of higher education?

No, the certificate should be awarded only to the highest-ranking graduate. The highest-ranking graduate, who initially chooses to go out of state or a private school, may choose to attend a Texas public college or university after their first semester.

#### We have an exact tie for the highest-ranking graduate. Can we issue more than one certificate?

You can allow for a tie between two students; however, in no circumstances should more than two awards be issued.

# My son/daughter is the valedictorian, but not the highest-ranking graduate. How do the schools determine who is the highest-ranking graduate?

School districts set their own policy to determine class rank. It is a local decision and each school district will not have the same policy for determining class rank. If parents are concerned or want to know more about how their child is ranked, they need to contact the local school district and ask about their policy. The Texas Education Agency has absolutely no say in determining class rankings.

#### How do I find a list of schools eligible for the highest-ranking graduate award?

All public schools, charter schools accredited by TEA, and private schools accredited by the Texas Private School Accreditation Commission may provide one highest-ranking graduate per graduating class.

#### How do I obtain the funds for tuition? Who provides the funds for the tuition?

The institution of higher education you attend waives the tuition fee; therefore, no direct funds are provided.

#### Does the award cover books, supplies, room and board, meal plans, etc.?

The award only covers the cost of tuition. Tuition does not cover fees, books, supplies, room and board, meal plans or personal expenses.

# Is the college or university required to honor the tuition waiver for the 2<sup>nd</sup> semester regardless of the student's situation?

No, the institution of higher education may have requirements such as a minimum grade point average in order to continue receiving the tuition waiver. You should verify with the college or university if they have any such requirements. <u>http://www.statutes.legis.state.tx.us/Docs/ED/htm/ED.54.htm#54.2001</u>

# HONORS LEVEL COURSES

Honors level courses include Honors, formerly titled Pre-AP, Advanced Placement (AP), Advanced Technical Credit, OnRamps Dual Enrollment, and Dual Credit Courses.

Secondary students who are formally identified as gifted/talented and those with the potential to achieve high levels are expected to take advanced level classes that are commensurate with their abilities and interests.

Middle School and High School student statements of expectations for advanced level courses, Honors, Advanced Placement classes have been created. Postsecondary Specialists and Counselors will discuss with students these expectations and commitment required for these courses. The Advanced, Accelerated, and Innovative Learning (AAIL) Department will provide student forms to be used to help foster student commitment. **See "High School Statement of Expectations for Advanced Level Courses" form in the Forms section.** In accordance with state and local policy, identified students are to be served through advanced academic offerings or the appropriate procedures are to be followed for furloughing or exiting students from the gifted program.

#### **Timeline to Enroll in an Honors Level Course**

A student may enter an advanced level course sequence at the beginning of any semester based on his/her interest and identified potential.

All students taking Honors, Advanced Placement, OnRamps, and Dual Credit courses must be enrolled in the course no later than 10 days from the first day of classes or within 10 days of the students enrolling in the school.

#### **Credentials for Teachers Who Teach Honors Level Courses**

Teachers who teach Honors, AP, or OnRamps courses should have specialized training. Prior to providing instruction in an Honors, Advanced Placement or International Baccalaureate core academic class, the teacher must complete the state mandated thirty hours of training for gifted education certification.

The training for all Honors and AP teachers will be completed through the Fort Worth ISD Advanced Academic Services thirty-hour academy. AP teachers should complete their hours through a weeklong AP Summer Institute, AVID Summer Institute, Laying the Foundation and 12 hours of Common Understanding/ Assessment and Identification/Nature and Needs/Social and Emotional offered by FWISD Advanced Academic Services.

To maintain <u>local</u> certified status, annually the teacher must complete an additional six hours of gifted education staff development preceding the start of the school year. In order to ensure quality instruction and college level content, College Board requires each teacher of an AP course to submit a syllabus for approval through the AP Course Audit. Only those teachers with an approved syllabus may use the trademarked course designation of "AP".

#### **Exit Procedures for Honors Level Courses**

Prior to the end of the first six weeks of the course, a student-teacher-parent conference must be held for students failing to maintain a passing grade of 70. Options to be discussed at the conference include:

Developing a plan for the improvement of the student's performance that includes alternative instructional strategies, tutorials, and specific target dates for progress reports to student and parent; or

Exiting the student from the course and placing the student in another appropriate course.

Any recommendations to move students from Honors, OnRamps, AP, or IB courses after the first six weeks of instruction are to be made only after a conference that includes student, teacher, parent, coordinator and principal. Final approval for any advanced level course withdrawal must be acquired from the principal. If the decision is made to remove the student, an Exit form must be completed and signed by all parties.

Honors, Advanced Placement (AP), and OnRamps courses are described within specific course descriptions along with requirements for admittance. The counselor(s) are to be consulted regarding any dual credit course being dropped.

### High School Courses Available in Middle School

Some high school courses are available in middle school. To be eligible to take these courses, students must have satisfactorily completed the middle school prerequisite course(s) or have passed the appropriate Credit by Examination for the middle school prerequisite course(s). Credit toward high school graduation will be placed on the academic achievement record (transcript) upon successful completion of the courses. For the graduating classes of 2022 and 2023, grades earned in middle school will not be calculated into the student's high school grade point average (GPA), except for AP courses taken in middle school. Beginning with the graduating class of 2024, if a student does not take 4 courses of math, ELAR, science, or social studies in high school, grades in high school courses taken in middle school may be used in the calculation of Class Rank.

Check with the middle school counselor to determine which courses are available at a particular campus.

# LOCAL GRADUATION HONORS

The District will calculate class rank at the end of the fifth six-week grading period of the senior year after receiving grades for dual credit courses to determine local graduation honors. The average of the fourth and fifth six-week grades will be used as the semester grade for the purpose of determining local graduation honors.

For schools on an accelerated block schedule, the District shall calculate class rank at the end of the third nine-week grading period of the senior year. The grade for the third nine-week grading period shall be used as the semester grade for this purpose.

#### Valedictorian and Salutatorian – Local Honor & Criteria

The valedictorian and salutatorian are the eligible students with the highest and second highest ranking, respectively at the end of the 5<sup>th</sup> six-weeks. To be eligible for such recognition, a student must:

- Have completed the Foundation Program with the distinguished level of achievement;
- Have completed 19 credits before the first day of the school year in which graduation requirements are completed; and
- Have been continuously enrolled in the same high school in the District for the two school years immediately preceding graduation.

In case of a tie in core GPAs after calculation to the third decimal place, the District will then consider weighted GPAs. If the tie is not broken after applying these methods, the District shall recognize all students involved in the tie as sharing the honor and title.

Please note that a once final grades are calculated, the rankings may have changed from those calculated at the end of the 5<sup>th</sup> six-weeks. However, if this occurs, this will not change the award for Valedictorian or Salutatorian.

The student meeting the local eligibility criteria for recognition as the valedictorian shall also be considered the highest-ranking graduate for purposes of receiving the honor graduate certificate from the state of Texas.

#### Latin Honors

Local class rank Latin honors at each District high school will be awarded to students completing the Recommended Program, the Advanced/Distinguished Achievement Program, or the foundation program with the distinguished level of achievement, as follows:

Summa Cum Laude	The top highest two percent of the graduating class
Magna Cum Laude	The next highest three percent of the graduating class
Cum Laude	The next highest five percent of the graduating class

To calculate the students eligible for Latin Honors:

- Obtain a class list from the Division of Technology of all seniors, not just potential graduates.
- The list is generated after the fifth six-week grades are entered and grades for dual credit courses have been received and entered.
- The same list is used to determine the Valedictorian and Salutatorian.
- From the list, calculate the top ten percent of students, rounding up. Divide the top 10% into the respective Latin Honors categories

Example:

No. of Seniors	Тор 10%	Summa Cum Laude	Magna Cum Laude	Cum Laude
200	20	Top 2% = 4	Next 3% = 6	Next 5% = 10
385	38.5 = 39	Top 2% x 385 = 7.7 = 8	Next 3% x 385 = 11.55 = 12	Next 5% x 385 = 19.25 = 19

# MIDDLE SCHOOL COURSE REQUIREMENTS

Course/Grade	6	7	8
English	1	1	1
Mathematics	1	1	1
Science	1	1	1
Social Studies	1	1	1
Physical Education	0.5ª	0.5ª	0.5ª
Health Education	0.5 <sup>a</sup>		
Fine Arts	1 <sup>b</sup>	В	В
Electives	0.5 <sup>c</sup>	1 – 2 <sup>c</sup>	1 – 3 <sup>c</sup>

#### Middle School Course Requirements

a – Moving to Wellness is a two-semester course required by all Grade 6 students. It fulfills both Health and Physical Education requirements.

b – The Middle School Fine Arts requirement may be satisfied by taking one TEKS-based fine arts course in art, band, choir, orchestra, or theatre arts during the students' middle school years. It is recommended that the requirement be met in Grade 6.

c – Students may take a locally developed elective, not to exceed one semester in Grade 7 or Grade 8 or a total of 1.5 semesters in grades 6 – 8.

#### Importance of Courses Taken In Middle School

Middle school courses provide a strong foundation for success in high school and beyond. Students should plan to take the most rigorous courses available at middle school while being mindful of the various advanced course offerings that will meet prerequisite requirements for the continuation of advanced course work in high school.

#### **Middle School Course Acceleration**

Chapter 74 of the Texas Education Code requires students to master the TEKS in all required middle school courses. If a student wishes to place out of a course, or to accelerate through a required course, a student can accomplish this by:

- successfully completing a Board approved course that compacts the curriculum or
- taking a credit-by examination (CBE) with an 80% score (70% or better with acceptable documentation of "prior instruction") to place out of any course. See the CBE Section for additional details and policies EHDB (LOCAL) and EHDC (LOCAL).

#### Middle School Course Acceleration in Social Studies

The Honors social studies courses in Grades 6, 7, and 8 do not compact the required TEKS. To place out of any social studies course, a student must pass the appropriate CBE prior to advancing to the new grade-level course.

# NATIONAL COLLEGIATE ATHLETIC ASSOCIATION (NCAA) ELIGIBILITY AND PARTICIPATION INFORMATION

Please contact your district web-based coordinator before assigning student athletes to web-based courses for credit recovery or original credit.

The NCAA is made up of more than 1,200 member schools classified in three divisions (Division I has 400 schools, which are divided into two subdivisions for football, 1-A and 1-AA, and compete at the major-college level; Division II has 326; and Division III has 513). Division I and II schools offer athletic scholarships. Eligibility for financial aid, practice and competition at Division III schools is governed by school, conference, and other NCAA regulations.

The NCAA has established academic rules that will be used to determine whether the student-athlete may participate in sports during his/her first year in college. These rules are **not** a guide for admission to college. Each NCAA member school has its own admission requirements. Remember, meeting the NCAA rules does **not** guarantee admission to college. The student-athlete **must** still apply for admission and be accepted by the college.

#### **NCAA Eligibility Center**

The Eligibility Center evaluates the student-athlete's academic record to determine if he/she is eligible to participate in a Division I or II college as a freshman student-athlete. The eligibility center is not the NCAA, but an organization that performs services to determine student-athlete's initial eligibility for the NCAA. From the NCAA clearinghouse website (<u>https://web3.ncaa.org/ecwr3/register/CERTIFICATION</u>), student-athletes may access current information needed to understand the Division I and Division II eligibility requirements, register with the clearinghouse, and access individual clearinghouse records.

#### **Division I Academic Eligibility**

To be eligible to compete in NCAA sports during the first year at a Division I school, the student must graduate high school and meet ALL the following requirements:

- Complete 16 core courses:
  - Four years of English
  - Three years of math (Algebra I or higher)
  - Two years of natural/physical science (including one year of lab science if offered by high school)
  - o One additional year of English, math, or natural/physical science
  - Two years of social science
  - Four additional years of English, math, natural/physical science, social science, foreign language, comparative religion or philosophy
- Complete 10 core courses, including seven in English, math, or natural/physical science, before the seventh semester. Once a student begins the seventh semester, the student may not repeat or replace any of those 10 courses to improve core-course GPA.
- Earn at least a 2.3 GPA in core courses.
- Earn an SAT combined score or ACT sum score matching the core-course GPA on the Division I sliding scale, which balances a student's test score and core-course GPA. If the student has a low test score, the student needs a higher core-course GPA to be eligible. If the student has a low core-course GPA, the student needs a higher test score to be eligible.

#### **Division II Academic Eligibility**

To be eligible to compete in NCAA sports during the first year at a Division I school, the student must graduate high school and meet ALL the following requirements:

- Complete 16 core courses
  - Three years of English
  - Two years of math (Algebra I or higher)
  - Two years of natural/physical science (including one year of lab science if offered by high school)
  - o Three additional year of English, math, or natural/physical science
  - Two years of social science
  - Four additional years of English, math, natural/physical science, social science, foreign language, comparative religion, or philosophy
- Earn at least a 2.2 GPA in core courses.
- Earn an SAT combined score or ACT sum score matching the core-course GPA on the Division II sliding scale, which balances a student's test score and core-course GPA. If the student has a low test score, the student needs a higher core-course GPA to be eligible. If the student has a low core-course GPA, the student needs a higher test score to be eligible.

#### **Division III Academic Eligibility**

The above requirements do not apply to Division III colleges. Eligibility for financial aid, practice and competition at Division III schools is governed by school, conference, and other NCAA regulations. Contact the Division III school for complete policies.

#### **Classes that are not NCAA Core Courses:**

- Classes in non-core areas, fine arts, or vocations such as driver education, typing, art, music, physical education, or welding.
- Personal skill classes, such as personal finance or consumer education.
- Classes taught below grade level, at a slower pace, or with less rigor or depth. These classes are often titled basic, essential, fundamental, or foundational.
- Classes that are not academic in nature, such as film appreciation, video editing, or greenhouse management.

#### **Courses Taken Prior to Ninth Grade**

If a high school class such as Algebra I or Spanish I is taken prior to the ninth grade, the class may count for the 16 core courses if it is on the high school's list of approved core courses and is shows on the high school transcript with a grade and a credit.

#### Credit-By-Exam

Courses completed through credit-by-exam will not be used in an initial-eligibility certification.

#### Pass/Fail Courses

Core courses that receive a grade of "Pass" may satisfy core-course requirements if the course receives credit toward graduation.

### **Studies in a Foreign Country**

If a student attended a secondary school outside of the United States for all or part of grades nine through 12, different evaluation procedures will be applied to the international education documents. Original-language documents with certified translations must be submitted for evaluation.

### **High School Transcripts for Eligibility Center**

Transcripts should not be sent to the eligibility center until after the junior year and must be mailed directly by the high school. Any grade corrections, course title changes, and credit additions regarding high school course work must be made before a final transcript is mailed by the high school. Once the eligibility center receives a final transcript, it will not use an amended transcript.

All approved Fort Worth ISD core courses appear on the high school's list, which can be viewed at <u>www.ncaaclearinghouse.net</u>. Click on "Prospective Student-Athlete" and then on "List of Approved Core Courses."

#### **General Information on the NCAA Eligibility Center**

- Links to the NCAA website;
- Core-Course listings for high schools
- Online versions of NCAA Guide for the College Bound Student Athlete;
- Online information about Division I and Division II initial eligibility requirements;
- Online FAQs

#### **NCAA Contact Information**

The NCAA offers information on initial eligibility standards, the Initial-Eligibility Clearinghouse, recruiting rules, and other information via a toll-free number and websites:

- Online at <u>www.ncaa.org</u>
- NCAA Hotline: 1.800.638.3731
- NCAA Eligibility Center Line (M-F, 8 a.m. 5 p.m. CST) 1.877.262.1492
- NCAA Eligibility Center 24-hour Voice Response System: 1.877.861.3003
- Students and parents have access to valuable website with information about the recruiting process and eligibility for competition at the college level
- Website: <u>www.corecourseGPA.com (</u>contact any coach for details)

# PLACEMENT OF STUDENTS ENTERING THE DISTRICT

### **Accredited Schools**

The parent or guardian of a student enrolling in the District from an accredited public, private, or parochial school shall provide evidence of prior schooling outside the District. The student will be placed initially at the grade level reached elsewhere, pending observation by the classroom teacher, guidance personnel, and the principal. On the basis of these observations and results of tests that may be administered by appropriate District personnel, the principal shall determine final grade placement.

Accredited is defined as accreditation by TEA, an equivalent agency from another state, or an accrediting association recognized by the commissioner.

#### **Non-Accredited Schools**

A student enrolling in a District school from a nonaccredited public, private, or parochial school, including homeschools, will be placed initially at the discretion of the principal, pending observation by classroom teachers, guidance personnel, and the principal. Criteria for placement may include:

- Scores on achievement tests, which may be administered by appropriate District personnel.
- Recommendation of the sending school.
- Prior academic record
- Chronological age and social and emotional development of the student.
- Other criteria deemed appropriate by the principal.

Before granting credit, the District will validate, by a Credit by Exam (See CBE Section) or other evidence, that any course taken by a student at a nonaccredited public, private, or parochial school meets State Board requirements.

### **Guidelines for All Students Transferring**

- A student who has honors classes on his or her transcript from another district will be awarded honors credit if the honors course is currently taught in the FWISD.
- Confer with the student to determine the content of any course in question and to the Texas Essential Knowledge and Skills if necessary. The subject program director may also be contacted for assistance. If the content equates to that of a FWISD course, credit may be given.
- Students who wish to receive state credit for a course that cannot be equated with a FWISD course may apply to take the credit-by-examination test when available.
- Counselors who cannot make proper determinations for courses should contact the Guidance and Counseling Department

### **Conversion of Letter Grades to Numeric Grades**

When a student transfers grades for properly documented courses from an accredited U.S. or foreign public or private institution, the District shall assign weight to those grades based on the categories and grade weight system used by the District if similar or equivalent courses are offered to the same class of students in the District.

Conversion of letter grades to numerical grades for students transferring into the District with letter grades are as follows:

A+ = 99	B+ = 89	C+ = 79	
A = 96	B = 86	C = 76	
A- = 92	B- = 82	C- = 72	F = 60

If a student is transferring from a Texas school district or Texas charter school and has a "D" letter grade equivalent to a 70, credit will be awarded for the course per Texas Education Rule, 19TAC§74.26 (a)&(c).

Grades earned in non-accredited schools shall be handled in accordance with FD (LOCAL).

Students from non-public, out-of-state, or out-of-country schools may have transcripts that record a "D" letter grade and award credit for courses with a grade numeric value lower than the Texas passing standard of 70. Per TEA staff references to the Academic Achievement Record (AAR) Minimum Standards, section 1.15, the District has determined that for a "D" letter grade with a numeric value lower than a 70, a "P" will be recorded as the transfer grade.

Transfer students from non-accredited public, private, parochial schools or who have been home-schooled shall be offered an opportunity to demonstrate mastery in a subject or to earn course credit. (See CREDIT BY EXAMINATION for additional information.)

### Q&A Provided by the TEA Division of Curriculum for a Counselor TETN, Spring 2012

# 1. How do students transferring to a Texas public school from an out-of-state, and out-of-country, or a Texas non-public school receive credit for coursework they have already completed?

Districts are to follow the rules in TAC, §74.26 when determining what credit to award to a student transferring in from a non-Texas-public school. A school district must ensure that the records or transcripts of an out-of-state or out-of-country transfer student (including foreign exchange students) or a transfer student from a Texas nonpublic school are evaluated and that the student is placed in appropriate classes promptly. The district may use a variety of methods to verify the content of courses for which a transfer student has earned credit.

#### 2. Can a school refuse to award credit earned by a student while attending a Texas charter school?

No, please see TAC, §74.26 (a)(1): Credit earned toward state graduation requirements by a student in an accredited school district shall be transferable and must be accepted by any other school district in the state.

# 3. Can a school refuse to award credit earned by a student while attending Texas Tech or UT Austin online school?

No. Please see TAC, §74.26(a)(1): Credit earned toward state graduation requirements by a student in an accredited school district shall be transferable and must be accepted by any other school district in the state.

# 4. Can a school refuse to award credit earned by a student while attending another Texas public school during summer or in grades before high school?

No, please see TAC §74.26(a)(1): Credit earned toward state graduation requirements by a student in an accredited school district shall be transferable and must be accepted by any other school district in the state.

## **PROMOTION AND RETENTION**

A student will be promoted only on the basis of academic achievement or demonstrated proficiency in the subject matter of the course or grade level, the recommendation of the student's teacher, the score received on any criterion-referenced or state-mandated assessment, and any other necessary academic information as determined by the district.

In addition, at certain grade levels a student—with limited exceptions—will be required to pass the State of Texas Assessments of Academic Readiness (STAAR), if the student is enrolled in a public Texas school on any day between January 1 and the date of the first administration of the STAAR.

#### Elementary and Middle/Junior High Grade Levels

If a student in grades 3–8 is enrolled in a class or course intended for students above his or her current grade level in which the student will be administered a state-mandated assessment, the student will be required to take the applicable state-mandated assessment only for the course in which he or she is enrolled, unless otherwise required to do so by federal law.

[See Standardized Testing for more information.]

Certain students—some with disabilities and some classified as English language learners—may be eligible for exemptions, accommodations, or deferred testing. For more information, see the principal, school counselor, or special education director.

#### **High School Grade Levels**

To earn credit in a course, a student must receive a grade of at least 70 based on course-level or grade-level standards.

A student in grades 9–12 will be advanced a grade level based on the number of course credits earned. [Also, see **Grade Level Classification** for more information.]

Students will also have multiple opportunities to retake EOC assessments. [See **Graduation** and **Standardized Testing** for more information about EOC assessments.]

# STANDARDIZED TESTING

#### Secondary Grade Levels

#### SAT/ACT (Scholastic Aptitude Test and American College Test)

Many colleges require either the American College Test (ACT) or the Scholastic Aptitude Test (SAT) for admission. Students are encouraged to talk with the school counselor early during their junior year to determine the appropriate exam to take; these exams are usually taken at the end of the junior year. The Preliminary SAT (PSAT) and ACT-Aspire are the corresponding preparatory and readiness assessments for the SAT and ACT, and more information can be obtained on these assessments from the school counselor.

Note that participation in these assessments may qualify a student to receive a performance acknowledgment on his or her transcript under the foundation graduation program and may qualify as a substitute for an end-of-course testing requirement. A student's performance at a certain level on the SAT or ACT also makes the student eligible for automatic admission to a Texas public institution of higher education.

#### TSI (Texas Success Initiative) Assessment

The Texas Success Initiative Assessment (TSIA) is a part of the Texas Success Initiative program designed to help colleges and universities determine if students are ready for college-level course work in the areas of reading, writing, and mathematics. Incoming Texas college students are required to take the TSI Assessment unless the student is exempt. Based on how the student performs, the student may either be enrolled in a college-level course and/or be placed in the appropriate developmental course or intervention to help improve skills and prepare the student for success in college-level courses.

#### **TSI Assessment Exemptions**

- Score a 23 or higher on the ACT composite and a minimum of 19 on both the English and math tests on an ACT taken prior to March 3, 2023;
- On an ACT administered after March 2023, a student must achieve a combined score of 40 on the English and Reading (E + R) tests to be exempt from both reading and writing or ELAR sections of the TSI Assessment.
- On an ACT administered after March 2023, a student must achieve a minimum score of 22 on the mathematics for an exemption in math. There is no composite score.
- SAT administered prior to March 2016: Earned a combined (verbal critical reading + math) SAT score of 1070, with a minimum score of 500 on both sections;
- SAT administered March 2016 and later: Evidenced-Based Reading and Writing (EBRW) minimum score of 480; Mathematics minimum score of 530 (no combined score needed);
- TAKS scale score of at least 2200 on the math section and/or 2200 on the English Language Arts section with a writing subsection score of at least 3;
- Veterans, active duty personnel, and a student who is serving as and, for at least 3 years preceding enrollment, has served as a member of a reserve component of the U.S. armed services;
- Transfer from another institution having satisfactorily completed college-level coursework; or
- Enroll in a certificate program of one year or less (Level One certificates) at a public institution.

#### **College Ready Scores for the TSI Assessment**

- Reading 351
- Mathematics 350
- Writing
  - A placement score of at least a 340, and an essay score of at least 4; OR
  - A placement score of at least 340 and an ABE Diagnostic level of at least 4 and an essay score of at least 5.

#### STAAR (State of Texas Assessments of Academic Readiness)

#### Grades 3–8

In addition to routine tests and other measures of achievement, students at certain grade levels are required to take the state assessment, called STAAR, in the following subjects:

- Mathematics, annually in grades 3-8
- Reading, annually in grades 3–8
- Science in grades 5 and 8
- Social Studies in grade 8

STAAR Alternate 2, for students receiving special education services who meet certain state-established criteria, will be available for eligible students, as determined by the student's ARD committee.

#### Assessments for Middle School Students Receiving Instruction in a Different Grade Level

Students should be administered the STAAR assessments that align to the level of TEKS instruction that they are receiving regardless of their enrolled grade level. For example, middle school grade 7 students enrolled in grade 8 level science, or FWISD course 0303AB, 7<sup>th</sup> Grade Honors Science, Accelerated Course will take the grade 8 STAAR Science assessment.

Middle school students enrolled in a high school course for which an End of Course (EOC) assessment exists (English I, English II, Biology, or Algebra I) are required to take the EOC for the respective course. Passing these EOC examinations will count toward the student's high school graduation testing requirement. Middle school students who take a STAAR EOC test in middle school will not be required to also take the corresponding STAAR grade level subject area test.

For example, a Grade 8 student enrolled in Algebra I will take the following tests:

- STAAR Grade 8 RLA
- STAAR Grade 8 Science
- STAAR Grade 8 Social Studies
- STAAR EOC Algebra I

If a student in grades 5 – 8 is enrolled in a high school course that does not have a corresponding STAAR EOC assessment:

 Mathematics & Reading: - Students will be required to take their grade-level STAAR assessment when there is not a STAAR EOC assessment in the high school course they are taking. Federal law requires a student in grades 3 – 8 to annually be assessed in mathematics and reading. Therefore, a grade 8 student enrolled in Geometry will take the STAAR grade 8 mathematics assessment.

- Science Students in grades 5 and 8 are required to take their grade-level STAAR assessment in science at least once in elementary and once in middle school.
- Social Studies Students in grade 8 who are taking a high school social studies course would not be required to take their grade-level assessment, unless they have not yet taken it, because there is no federal requirement to test social studies.

#### High School Courses—End-of-Course (EOC) Assessments

STAAR end-of-course (EOC) assessments are administered for the following courses:

- Algebra I
- English I and English II
- Biology
- U.S. History

Satisfactory performance on the applicable assessments will be required for graduation, unless otherwise waived or substituted as allowed by state law and rules.

There are three testing windows during the year in which a student may take a STAAR EOC assessment: fall, spring, and summer. If a student does not meet satisfactory performance, the student will have additional opportunities to retake the assessment.

STAAR Alternate 2, for students receiving special education services who meet certain criteria established by the state, will be available for eligible students, as determined by the student's ARD committee.

An ARD committee for a student receiving special education services will determine whether successful performance on the EOC assessments will be required for graduation within the parameters identified in state rules and the student's personal graduation plan.

A student who receives credit for a course taken through the Texas Virtual School Network or through a dual credit program must take the corresponding STAAR EOC assessment to fulfill the testing graduation requirement.

[Also, see **Graduation** for additional information.]

#### A student who takes an EOC course and passes the EOC test, but fails the course:

- Will take a CBE for the EOC course to acquire credit for the course. The student must score a grade of 70 or above to earn credit.
- The CBE score is recorded on the transcript and coded with a "T", and
- The passing EOC test result is noted on the transcript

#### STAAR Frequently Asked Questions (FAQs) Provided by TEA; May 2016

# 1. What are the testing requirements for a foreign exchange student? (FAQ 12)

A foreign exchange student is required to take STAAR EOC assessments for courses in which he or she is enrolled. However, the student is not required to retest unless he or she is planning to earn a Texas high school diploma.

# 2. What types of substitute assessments can students use to fulfill their STAAR graduation requirements? (FAQ 26)

To satisfy their testing requirements for graduation, students can use multiple assessments (e.g., AP, IB, SAT,

ACT) in place of STAAR EOC assessments. Details on which assessments can currently be used for this purpose are provided below:

#### **ACT Substitute Assessments**

	STAAR AI	gebra I	STAAR B	iology	STAAR En	iglish I	STAAR En	glish II	STAAR U.S	S. History
Substitute Assessment	Assessment	Passing Score	Assessment	Passing Score	Assessment	Passing Score	Assessment	Passing Score	Assessment	Passing Score
ACT^* - June 2015 and Before	Mathematics	22			Reading Combined English/Writi	21 18 ng	Reading Combined English/Writi	21 18 ng		
ACT <sup>^</sup> - September 2015 and After	Mathematics	22	Science	23	Reading English	22 18	Reading English	22 18		
Aspire 9	Mathematics	428								
Aspire 10	Mathematics	432								
PLAN	Mathematics	19								

^ Satisfactory scores on ACT Reading and English or Reading and Combined English/Writing assessments may be used in place of either the STAAR English I EOC or the STAAR English I EOC, but not both.

\* To use the ACT, a student must have taken and received a satisfactory score on both sections of the ACT English language arts assessment.

#### **SAT Substitute Assessments**

	STAAR Algebra I		STAAR Biology STAAR English I		STAAR English II		STAAR U.S. History			
Substitute Assessment	Assessment	Passing Score	Assessment	Passing Score	Assessment	Passing Score	Assessment	Passing Score	Assessment	Passing Score
PSAT 8/9 or PSAT/NMSQT in 9 <sup>th</sup> Grade – October 2015 and After	Mathematics	450			Evidence-Bas Reading & W					
PSAT 10 or PSAT/NMSQT in 10 <sup>th</sup> Grade – October 2015 and After	Mathematics	480			Evidence-Bas Reading & W					
<b>PSAT/NMSQT</b> <b>in 11<sup>th</sup> Grade –</b> October 2015 and After	Mathematics	510			Evidence-Bas Reading & W					
<b>PSAT –</b> 2014 and Before	Mathematics	47								
<b>SAT^ -</b> Administered March 2016 and After	Mathematics	530			Evidence-Bas Reading & W		Evidence-Base Reading & Wr			
<b>SAT^* -</b> Administered January 2016 and Before	Mathematics	500			Critical Readi Writing	ng 500 500	Critical Readin Writing	ig 500 500		
SAT Subject Tests	Math Level 1 or Level 2	600	Biology – E o Biology – M	r 500					U.S. History	500

^ Satisfactory scores on SAT Evidence-Based Reading and Writing or Critical Reading and Writing assessments may be used in place of either the STAAR English I EOC or the STAAR English I EOC, but not both.

\* To use the SAT administered in January 2016 or earlier, a student must have taken both the SAT Critical Reading and Writing assessment.

#### AP, IB, and TSI Substitute Assessments

	STAAR Algebra I	STAAR Biology	STAAR English I	STAAR English II	STAAR U.S. History
Substitute Assessment	Passing Assessment Score	Passing Assessment Score	Passing Assessment Score	Passing Assessment Score	Passing Assessment Score
АР		Biology 3	English Language and Composition 3	English Language and Composition 3	U.S. History 3
IB*		Biology 4	Language A: Language & 4 Literature	Language A: Language & 4 Literature	History of the Americas 4
TSIA** - January 10, 2021 and Before	Mathematics 350		Reading 351 Objective 340 Writing/Sentence Skills Writing 4	Reading351Objective340Writing/SentenceSkillsWriting4	
TSIA2I** - January 11, 2021 and After	Mathematics 950		English 945 Language Arts Essay 5	English 945 Language Arts Essay 5	

\* The set passing score for the IB substitute assessments applies to both Standard Level and Higher-Level examinations.

\*\* The TSIA and TSIA2 English language arts assessments are the only substitute assessment that may be used to simultaneously fulfill two EOC requirements. Satisfactory scores on the TSIA (Reading, Objective Writing/Sentence Skills, and Writing) or TSIA2 (English Language Arts and Essay) may be used in place of both the STAAR English I EOC and the STAAR English II EOC requirements in those cases described by subsection (d)(1) of this section. In all other cases, a satisfactory score on an approved substitute assessment may be used in place of only one specific STAAR EOC assessment.

# 3. What are the STAAR graduation requirements for students who earn course credit through distance learning programs, correspondence courses, or dual credit courses? (FAQ 29)

Students who earn Texas high school course credit through distance learning programs (e.g., the Texas Virtual School Network), correspondence courses, or dual credit courses are required to pass all five STAAR EOC assessments to fulfill their testing requirements for graduation.

# 4. What are the STAAR graduation requirements for students who earn course credit through Advanced Placement (AP) or International Baccalaureate (IB) courses? (FAQ 30)

Students who earn Texas high school course credit through an AP or IB course that is substituting for a TEKS-based course required for graduation (e.g., AP biology instead of TEKS-based biology) are required to take the STAAR EOC assessment. However, if the student is taking the AP or IB test, the student may be able to use the AP or IB test score instead of the STAAR EOC assessment score to fulfill his or her biology testing requirements for graduation. See the substitute assessments question above.

# 5. What are the STAAR graduation requirements for students who earn course credit through credit by examination (CBE)? (FAQ 31)

If a student uses CBE to gain credit for a course in which he or she has had some prior instruction based on TAC §74.24(c)(9), the student is required to pass the corresponding STAAR EOC assessment to fulfill his or her STAAR graduation requirement.

# 6. If a student fails the course but passes the STAAR EOC assessment, is the student required to retest when he or she retakes the course? (FAQ 34)

No. Once a student passes (approaches Grade Level or above) a STAAR EOC assessment, the student has fulfilled that part of his or her graduation requirement and is not required to retest.

# 7. If a student fails the course and fails the STAAR EOC assessment, does the student have to wait until he or she completes the entire course before retesting? (FAQ 35)

No. The student has already received instruction in the entire course and is eligible to retest. The district must ensure that the student is provided an opportunity to test to meet his or her graduation requirement each time the assessment is offered.

#### 8. What testing options are available for English learners (ELs)? (FAQ 75)

Spanish versions of STAAR are available for eligible students in grades 3–5. Language proficiency assessment committees (LPACs) must meet annually to make and document state assessment decisions for ELLs on an individual student basis.

#### 9. What is STAAR Spanish? (FAQ 76)

STAAR Spanish is designed to measure the knowledge and skills of students who receive academic instruction in Spanish and can best demonstrate their learning through a Spanish language assessment. The mathematics and science questions are translated from English and adapted as necessary to ensure cultural and linguistic accessibility. Passages and questions for the reading test are developed uniquely in the Spanish language so that the Spanish language arts curriculum can be assessed in a more authentic and meaningful manner.

The English and Spanish versions of STAAR have the same test blueprint and assess the same TEKS student expectations. These documents can be found on the STAAR Resources webpage at http://tea.texas.gov/student.assessment/staar/.

# 10. Are ELs who are enrolled in an English I or English II for Speakers of Other Languages (ESOL I or ESOL II) course required to take the STAAR English I or English II assessments? (FAQ 79)

Yes. ELs enrolled in ESOL I or ESOL II are required to take the corresponding STAAR English I or English II assessment. However, in accordance with TAC §101.1007, eligible ELs only need to meet the passing standard on English II to fulfill their STAAR graduation requirements in English.

#### 11. What is the Texas English Language Proficiency Assessment System (TELPAS)? (FAQ 80)

The Texas English Language Proficiency Assessment System (TELPAS) is designed to assess the progress that English language learners (ELLs) make in acquiring the English language. TELPAS measures this acquisition of English in alignment with the Texas English Language Proficiency Standards (ELPS) that are part of the Texas Essential Knowledge and Skills (TEKS). The ELPS are second language acquisition curriculum standards that support the ability of ELLs to acquire academic English while at the same time allowing them to engage meaningfully in regular, all English academic instruction at their grade level. Title III, Part A of the Elementary and Secondary Education Act (ESE) requires states to conduct annual statewide English language proficiency assessments for ELLS in grades K – 12 in the linguistic domains of listening, speaking, reading, and writing. Students receive a proficiency rating of beginning, intermediate, advanced, or advanced high in each of those linguistic domains. More information can be located here: http://tea.texas.gov/student.assessment/ell/telpas/.

# THREE YEAR/EARLY GRADUATES

Occasionally a student qualifies to graduate within three years. To qualify as a three-year graduate, the student must meet the following criteria:

- Complete state required testing;
- Be on target to earn enough credits to graduate in three years under the Foundation High School graduation program with endorsement;

Grade point averages for students who complete the high school graduation program requirements in fewer than four years will be figured according to the GPA chart in effect for the graduating class, regardless of the school year in which a student entered grade 9. [See EIC (LOCAL)] The early graduate's GPA will be used to determine the class rank within the class in which the student graduates.

A student considering an early graduation is required to meet with his/her counselor to determine if he/she has completed all requirements. A Fort Worth ISD Early Graduation Request Form is to be completed by the student. The student will be reclassified to a senior in the fall of his/her third year in high school. A student reclassified from 10<sup>th</sup> to 12<sup>th</sup> grade will miss his/her chance to take the PSAT for National Merit Recognition and forfeit the free opportunities to take the SAT and ACT school day test. The student will also forfeit any other junior level awards, such as the academic sweatshirt recognition.

See copies of the form in the Forms section.

# TIMELINE FOR DROPPING COURSES OR CHANGING SCHEDULES

Students may request a course change within the first ten days of school if on a traditional schedule, or first five days of school if on a block schedule.

An Add/Drop request made after the tenth day of class (or after five days if on a block schedule), will result in the grade of 60 being reported on the transcript and calculated into the GPA unless there are extenuating circumstances approved by the school principal or designee.

For special circumstances, a course request may be made after the deadline, but not after the 2<sup>nd</sup> or 4<sup>th</sup> six-week grading periods, with or without penalty, as determined by the principal or designee. Course changes made after the 2<sup>nd</sup> or 4<sup>th</sup> six-week grading periods will result in a 60 posted to the student's transcript.

An Add/Drop form must be completed and approved by the school principal or designee.

Level changes within the same course are not considered add/drop requests.

For example, moving from Honors English I to English I is a level change and would not result in a penalty. UIL eligibility may be affected. Grades earned in Honors or AP courses will be transferred to the academic course without any adjustment after the 10-day (or 5 day for block schedule) deadline.

Grades earned in the first three weeks of a dropped class can affect UIL eligibility.

A change to a course requires the student to assume the responsibility for the content of the entire course on the final examination.

For dual credit course changes, please see the Dual Credit section.

# TRANSCRIPTS FOR SENIORS

Transcripts for current seniors are distributed in September/October and at the end of January.

Two transcripts are available. The student can request a transcript with a class rank or without a class rank. Both transcripts will include the student's GPA. The transcript that omits the class rank will also omit the quartile.

A final transcript will be available in June after all senior grades have been posted.

Transcripts can be sent to colleges and universities directly through the district's post-secondary planning software. There is no limit to the number of requests that can be made nor is there a charge. The campus counselor or GO Center has additional information.

### UNIVERSITY INTERSCHOLASTIC LEAGUE (UIL) NO PASS, NO PLAY WAIVERS

A student shall be suspended from participation in any extracurricular activity sponsored or sanctioned by the District or the UIL after a grade evaluation period in which the student received a grade lower than a 70 in any class other than Exempt Courses. An Exempt Course is an AP, IB, OnRamps, Honors, or a dual credit course in the subject areas of English language arts, mathematics, science, social studies, economics, or a language other than English. Districts can identify additional honors courses.

A list of courses identified by the FWISD as Exempt Courses follow:

	Middle and High School 2024 - 2025 FWISD A This course list has been reviewed according to design All AP courses in all disciplines, even if not listed	nted state law and u	pdated for the <b>2024 - 2025</b> School Year;

\*Approved FWISD Dual Credit courses only in the areas of ELA, Math, Science, Social Studies, and World Languages qualify as UIL No Pass, No Play course waivers, but are not listed above. See Dual Credit courses on FWISD AAIL website for these courses. All AP courses in all subject areas, even if not listed above, qualify as UIL No Pass, No Play Waiver courses.

### WEB-BASED CURRICULUM PROGRAM USED FOR COURSE-CREDIT

FOCUS course numbers have been established to register students for web-based course sessions. See the chart below displaying the title "Web-Base" (WEB) course numbers to be used:

Long Title	Short Title	Course Number	Additional Information
WEB-BASED A	WEB A	0555A	
WEB-BASED B	WEB B	0555B	
WEB-BASED AB	WEB AB	0555 AB	
WEB-BASED BR	WEB AB BR	0555 ABBR	Blended Resources – allows for personalized learning plans to be provided for students who need support, with blended engaged instruction, from a teacher to support the classroom
WEB-BASED OV	WEB AB OV	0555 ABOV	Web-based original virtual credit course – allows for the correct scheduling and rostering of students who have a complete class schedule during the school day but desire to take an additional course for original credit
WEB-BASED TE	WEB AB TE	0555 ABTE	Web-based testing enrichment – allows correct rostering of students into any TSI, SAT, ACT, and other National testing enrichment components offered in the web-based program

Contact the College and Career Readiness or Advanced, Accelerated & Innovative Learning office for more information or to answers to questions regarding these courses.

### WORLD LANGUAGE COURSE PLACEMENT AND ACCELERATION

Unlike the TEKS in the other subject areas, the TEKS for Languages other than English (LOTE) are not different at each level; rather they are based on proficiency levels of the same skills. Therefore, for example, successful completion of a Level III LOTE course automatically ensures mastery of the TEKS of Levels I and II.

#### **Initial Placement for Native Speakers**

Students who have enrolled in the first level of a world language for 7<sup>th</sup> grade or 9<sup>th</sup> grade and whose Home Language Survey indicates predominant use of that language in the home, will be administered a placement test at the end of their 6<sup>th</sup> or 8<sup>th</sup> grade year to determine the appropriate placement of the LOTE in the following school year.

#### **Placement Tests**

Based on the results of the placement exam, counselors will place the student in the most appropriate level of the language course. If the student successfully completes the course, he/she will receive credit for the course completed and any lower level course. A notation of "P" will be placed on the transcript signifying credit for the preceding courses.

Note:	Entrance levels are indicated in <b>bold-faced type</b> and are determined by placement
	ations. After initial placement, students are encouraged to continue their studies through
the adv	anced levels of World Language course sequence.

		Take Level V Course	Take Level V Course	Take Level V Course
î	Take Level IV Course	Take Level IV Course	Take Level IV Course	Placement/Successful Level IV Course
↑ ↑	Take Level III Course	Take Level III Course	Placement/Successful Level III Course Completion	<b>Completion</b> Grade and Credit Awarded
↑ ↑	Take Level II Course	Placement/ Successful Level II Course Completion	Grade and Credit Awarded	"P" Credit Awarded for Level III
r  ↑	Placement/ Successful Level I Course	Grade and Credit Awarded	"P" Credit Awarded for Level II	"P" Credit Awarded for Level II
↑ ↑	<b>Completion</b> Grade and Credit Awarded	"P" Credit Awarded for Level I	"P" Credit Awarded for Level I	"P" Credit Awarded for Level I

#### Credit by Examination for Acceleration in World Languages

A CBE can be taken to accelerate heritage speakers who evidence language skills beyond the course in which they are initially enrolled. The student must register to take the CBE in the appropriate Language/Level. If the student passes the CBE, credit is awarded on the transcript. The actual grade earned on the CBE is recorded on the transcript. Credit is also awarded for any preceding courses, if applicable. Credit for those courses will be denoted with a "P".

#### Possible Scenarios for Credit/Acceleration at Different Language Levels Tested

Passed CBE Level I Grade and Credit Awarded	Passed CBE Level II Grade and Credit	Passed CBE Level III Grade and Credit
	"P" Credit Awarded for Level I	"P" Credit Awarded For Level II
		"P" Credit Awarded For Level I

#### **Credit by Examination for Retrieval**

A student who has failed a language course can take a CBE to regain credit. The student must pass each semester of a course for which credit is being retrieved. The procedures for CBEs for course retrieval are the same for World Languages courses as all other courses. See the CBE section for further information.

#### World Language Q & A

1. If a student has successfully completed a full credit in Honors Spanish 5 or AP Spanish 5, but the student has not completed lower levels of Spanish, can automatic credit be awarded for Spanish 1, 2, and 3?

A student must take a proficiency exam. If the student passes for Spanish 3, then the student can receive credit for Spanish 1 and 2.

2. If a student completes a full credit of AP Spanish 5 or Honors Spanish 6 without taking AP Spanish 4, can we award credit for AP Spanish 4?

No, the student will not receive automatic credit for Spanish 4.

# FORMS

# Fort Worth ISD Class Rank Procedures Beginning With the Graduating Class of 2024

#### **OVERVIEW**

Class rank is a snapshot of a fluid process of adding to and updating the high school transcript. Semester averages may change as teachers' gradebooks are updated, dual credits are added, and outside credits are completed. Even though transcripts are updated throughout the semester, once class rank is set for the semester, it remains unchanged until the next ranking period.

Beginning with the graduating class of 2024, class rank will be determined by descending order of a student's semester *weighted Grade Point Average (GPA) points* earned in eligible courses that satisfy a student's graduation plan in the following curriculum categories:

- English Language Arts
- □ Mathematics
- □ Science
- □ Social Studies

Please see the last page for a complete list of courseS

#### WEIGHTED GPA POINTS

Each semester grade a student earns in an eligible course generates GPA Points. The GPA Points earned are based on:

- Tier of the course
- Grade in the course

The District categorizes and weights eligible courses as Tier I, Tier II, and Tier III.

#### **TIER I COURSES**

- Advanced Placement (AP) Courses
- International Baccalaureate (IB) Courses
- Dual Credit courses
- OnRamps Courses
- Any course that requires a Tier I course as a prerequisite

#### TIER II COURSES

Honors courses (formerly Pre-AP Courses)

#### TIER III COURSES

• Any course not designated as a Tier I or Tier II course.

GRADING SCALE			
Grade	Tier I GPA Points	Tier II GPA Points	Tier III GPA Points
97 and above	5.0	4.5	4.0
94–96	4.8	4.3	3.8
90–93	4.6	4.1	3.6
87–89	4.4	3.9	3.4
84–86	4.2	3.7	3.2
80–83	4.0	3.5	3.0
77–79	3.8	3.3	2.8
74–76	3.6	3.1	2.6
71–73	3.4	2.9	2.4
70	3.0	2.5	2.0
Below 70	0	0	0

For example, a student who earns a semester grade of 94 in a course will earn the following GPA Points:

- Tier I Course 4.8 GPA Points earned
- Tier II Course 4.3 GPA Points earned
- Tier III Course 3.8 GPA Points earned

#### **GRADE POINT AVERAGES**

The District calculates three sets of Grade Point Averages (GPAs)

WEIGHTED GPA (Weighted 4.0 Scale)

- Includes all high school courses taken for high school credit.
- Honors level courses\* receive higher grade point values.
- Reported on the student's high school transcript.
- Called Cumulative Weighted GPA in Focus

#### UNWEIGHTED GPA (4.0 Scale)

- Includes all high school courses taken for high school credit.
- Honors level courses\* DO NOT receive higher grade point values.
- Reported on the student's high school transcript.
- Called *Cumulative GPA* in Focus

#### WEIGHTED RANK GPA (Weighted 4.0 Scale)

- Used to calculate Class Rank and Quartile
- Used to calculate Valedictorian, Salutatorian, and Highest-Ranking Graduate
- Used to calculate Latin Honors
- Includes high school courses taken in the 4 core areas that meet graduation requirements
- Honors level courses\* receive higher grade point values.
- Reported on the student's high school transcript.
- Called Rank GPA in Focus

\* Includes AP, IB, OnRamps, Dual Credit, Honors courses, previous Pre-AP courses etc.

### CALCULATION OF CLASS RANK

FWISD calculates class rank for students beginning in the fall of their 10<sup>th</sup> grade year. Thereafter, students are ranked after the end of each semester, including the summer semester. Current semester data is not used to calculate rank.

The eight semester grades with the highest weighted GPA points in ELAR, Math, Science, and Social Studies will be used.

- After 9<sup>th</sup> grade the two semester grades with the highest weighted GPA points in each category will be used. (released the fall of 10<sup>th</sup> grade)
- After the 1<sup>st</sup> semester of 10<sup>th</sup> grade the three semester grades with the highest weighted GPA points in each category will be used. (released the spring of 10<sup>th</sup> grade)
- After 10<sup>th</sup> grade the four semester grades with the highest weighted GPA points in each category will be used.
- After the 1<sup>st</sup> semester of 11<sup>th</sup> grade the five semester grades with the highest weighted GPA points in each category will be used. (released the spring of 11<sup>th</sup> grade)
- After 11<sup>th</sup> grade the six semester grades with the highest weighted GPA points in each category will be used
- After the 1<sup>st</sup> semester of 12<sup>th</sup> grade the seven semester grades with the highest weighted GPA points in each category will be used. (released the spring of 12<sup>th</sup> grade)
- After 12<sup>th</sup> grade the eight semester grades with the highest weighted GPA points in each category will be used.

If the student does not take 8 semesters in a core subject in high school, the GPA points from high school courses taken in middle school will be used.

The Calculation of Class Rank Excludes grades earned in or through:

- Local Credit Courses
- Credit by examination, with or without prior instruction
- Distance learning
- Dual credit courses taken through a college with which the District does not have a partnership agreement

### **QUESTIONS AND ANSWERS**

#### 1. What grades will be used to calculate my Class Rank?

Semester grades earned in Math, Science, Social Studies, and English Language Arts will be used to calculate Class Rank GPA and Class Rank.

After 9<sup>th</sup> grade, we will take the two semester grades in each of those areas that generate the highest GPA points. After 10<sup>th</sup> grade, we will use the four semester grades in each of those areas that generate the highest GPA points; after 11<sup>th</sup> grade, we will use the highest six and after 12<sup>th</sup> grade, we will use the highest eight.

#### 2. What are GPA Points?

GPA Points are the numerical value given to each semester course grade. The value is determined based on the grade earned in that course and the Tier of the course.

# 3. Will grades earned in high school courses taken in middle school count in the calculation of Rank GPA?

Grades earned in high school courses taken in middle school will only be used in the calculation of Rank GPA if the student does not take 8 semesters of a core content in high school.

Grade-Level	Courses Taken	Class Rank GPA Based On:
8	Algebra IA	N/A
	Algebra IB	
9	Honors Geometry IA	Honors Geometry IA
	Honors Geometry IB	Honors Geometry IB
10	Honors Algebra IIA	Honors Geometry IA
	Honors Algebra IIB	Honors Geometry IB
		Honors Algebra IIA
		Honors Algebra IIB
11	Honors Precalculus IA	Honors Geometry IA
	Honors Precalculus IB	Honors Geometry IB
		Honors Precalculus IA
		Honors Precalculus IB
		Honors Algebra IIA
		Honors Algebra IIB
12	None	Honors Geometry IA
		Honors Geometry IB
		Honors Algebra IIA
		Honors Algebra IIB
		Honors Precalculus IA
		Honors Precalculus IB
		Algebra IA
		Algebra IB

For example, a student took the following courses:

#### 4. What happens if a student fails a course – is that grade included in Rank GPA?

The 8 semesters generating the highest grade-points will be used to calculate Class Rank GPA. If that failing grade is one of the 8 highest grades, the grade will be used. See the scenarios below:

Grade-Level	Course and Grade Earned	Class Rank GPA Based On:
9	Algebra IA – 68^	Algebra IA - 68
	Algebra IB – 75	Algebra IB – 75
10	Geometry IA – 70	Algebra IA – 68
	Geometry IB – 80	Algebra IB – 75
		Geometry IA – 70
		Geometry IB – 80
11	Algebra IIA – 62^^	Algebra IA - 68
	Algebra IIB – 72	Algebra IB – 75
		Geometry IA – 70
		Geometry IB - 80
		Algebra IIA^^ - 62
		Algebra IIB – 72
12	Algebra IIA^^ - 70 (retaken in	Algebra IA - 68
	person)	Algebra IB - 75
	Precalculus IA - 80	Geometry IA - 70
	Precalculus IB - 85	Geometry IB - 80
		Algebra IIA^^ - 70
		Algebra IIB - 72
		Precalculus IA - 80
		Precalculus IB - 85

#### Scenario I

^ The student does not need to retake the Algebra IA semester because when averaging the 68 with the 75 in Algebra IB, the student receives credit for both semesters

^^ This student will have to retake Algebra IIA; his grade is not high enough that when averaged with Algebra IIB the student will receive credit. In this example, the student retakes the course in-person and thus will replace his failing 62 used in 11<sup>th</sup> grade with the passing 70 used in 12<sup>th</sup> grade.

#### Scenario 2

Grade-Level	Course and Grade Earned	Class Rank GPA Based On:
9	Algebra IA – 68^	Algebra IA - 68
	Algebra IB – 75	Algebra IB – 75
10	Geometry IA – 70	Algebra IA – 68
	Geometry IB – 80	Algebra IB – 75
		Geometry IA – 70
		Geometry IB – 80
11	Algebra IIA – 62^^	Algebra IA - 68
	Algebra IIB – 72	Algebra IB – 75
		Geometry IA – 70
		Geometry IB - 80
		Algebra IIA^^ - 62
		Algebra IIB – 72
12	Algebra IIA^^ - 70 (retaken in a	Algebra IA - 68
	Web-based Course)	Algebra IB - 75
	Precalculus IA - 80	Geometry IA - 70
	Precalculus IB - 85	Geometry IB - 80
		Algebra IIA^^ - 62
		Algebra IIB - 72
		Precalculus IA - 80
		Precalculus IB - 85

^ The student does not need to retake the Algebra IA semester because when averaging the 68 with the 75 in Algebra IB, the student receives credit for both semesters

^^ This student will have to retake Algebra IIA; his grade is not high enough that when averaged with Algebra IIB the student will receive credit. In this example, the student retakes the course using Edgenuity. Grades earned in Edgenuity are not used in the calculation of Rank GPA and thus his original failing 62 will be used in the calculation of Rank GPA.

# 5. What if a student has more than the eight required semester grades or takes more than one course in the same content area during the school year?

The 2 semester grades in each content area generating the highest grades points will be used after grade 9; the 4 semester grades in each content area generating the highest grade points will be used after grade 10; the 6 semester grades in each content area generating the highest grade points will be used after grade 11, and the 8 highest grades in each content area generating the highest generating the highest grade points will be used after grade 11, and the 8 highest grades in each content area

If a student has more grades than the required number of grades in any grade-level, the ones generating the highest grade points will be used.

In the example below, the student took two math courses in 11<sup>th</sup> grade. At the end of 11<sup>th</sup> grade, the student has 8 semester grades. Class Rank will be calculated using the 6 of those 8 grades that generate the highest GPA points. After 12<sup>th</sup> grade, the student has 10 semester grades in Math. The 8 grades that generate the highest GPA points will be used.

Grade	1 <sup>st</sup> Semester	2 <sup>nd</sup> Semester	Courses/Grades Used for
	Grade and GPA Points Earned	Grade and GPA Points Earned	Class Rank
9th	Algebra IA – 85 (3.2)	Algebra IB – 95 (3.8)	Algebra IA – 85
			Algebra IB - 95
10 <sup>th</sup>	Geometry IA – 80 (3.0)	Geometry IB – 90 (3.6)	Algebra IA – 85
			Algebra IB – 95
			Geometry IA – 80
			Geometry IB – 90
11 <sup>th</sup>	Honors Precalculus IA – 75 (3.1)	Honors Precalculus IB – 92 (4.1)	Algebra IA – 85
	Statistics IA – 84 (3.2)	Statistics IB – 97 (4.0)	Algebra IB – 95
			Geometry IB - 90
			Honors Precalculus IB – 92
			Statistics IA - 84
			Statistics IB – 97
12 <sup>th</sup>	AP Calculus IA – 86 (4.4)	AP Calculus IB – 93 (4.6)	Algebra IA – 85
			Algebra IB – 95
			Geometry IB - 90
			Honors Precalculus IB – 92
			Statistics IA - 84
			Statistics IB – 97
			AP Calculus IA – 86
			AP Calculus IB - 93

# **Athletics State Elective – Local Credit Option Form**

Date	

Student

ID\_\_\_\_\_

School \_\_\_\_\_

Beginning in the 2010-2011 school year, the State of Texas allowed up to four credits for Physical Education/Athletics to count as state graduation credits. The implementation of this change from a maximum of two state graduation credits to four state graduation credits occurred among all grade levels. Therefore, it changed how athletics could be counted as local credits to state credits.

Currently, all state credits are counted in the calculation of the Grade Point Average (GPA) and class rank. Local credits do not count toward graduation credit requirements and are not included in the calculation of the GPA. A student and parent may request for a change in how the remaining Physical Education/Athletic credit(s) are used for state graduation credits after the state Physical Education/Athletic requirement of one credit has been met.

The following documents have been reviewed with the student and parent:

\_\_\_\_ Review of Credits/Transcript

\_\_\_\_ Impact on GPA/Class Rank

Comments:

As a result of this conference: (please initial the statements below to demonstrate your agreement)

I,\_\_\_\_\_, understand the state graduation credits that are required to receive my high school diploma.

\_\_\_\_\_I understand local credits do not count toward my state graduation requirements.

\_\_\_\_\_I understand local credit(s) for athletics will not be counted in the calculation of my GPA/class rank.

I understand I cannot change the status of previously awarded athletic credit(s) prior to this written request.

### Electivas estatales de atletismo - Formulario para la opción de créditos locales

		Fecha
Estudiante	ID	Escuela

Comenzando en el año escolar 2010-2011, el estado de Texas permitió que se tomarán en consideración un máximo de 4 créditos en Educación Física/Atletismo como créditos estatales para la graduación. La implementación de este cambio de un máximo de dos créditos estatales a cuatro créditos estatales para la graduación ocurrió en todos los grados. Por lo tanto, esto cambió la manera en la que el atletismo se iba a poder contar, de créditos locales a créditos estatales.

Actualmente, todos los créditos estatales se consideran en el cálculo del promedio académico (*Grade Point Average* o GPA por sus siglas en inglés) y del rango en la clase. Los créditos locales no cuentan para los créditos requeridos para la graduación y no están incluidos en el cálculo del GPA. Los créditos restantes de Educación Física/Atletismo se están usando como créditos estatales de graduación después de que el requisito estatal de un crédito de Educación Física/Atletismo se haya cumplido. En ciertas ocasiones, puede que un estudiante y sus padres soliciten que se haga un cambio en la clasificación de estos créditos para que se cuenten como créditos locales.

Los siguientes documentos se revisaron con el estudiante y su(s) padre(s):

Revisión de Créditos/Expediente Académico

Impacto en el promedio (GPA)/Rango de la clase

Comentarios:

Como resultado de esta conferencia: *(Favor de poner las iniciales para mostrar que está de acuerdo)* Yo,\_\_\_\_\_, entiendo los créditos estatales que se requieren para recibir mi diploma de la escuela secundaria.

Yo estoy solicitando que el restante de los créditos de atletismo estatales obtenidos en los años escolares\_\_\_\_\_y/o\_\_\_\_\_sean otorgados y clasificados como créditos locales.

Yo entiendo que los créditos locales no cuentan para los requisitos estatales de graduación.

Yo entiendo que los créditos locales por atletismo no van a contar para el cálculo de mi GPA/rango en la clase.

Yo entiendo que no puedo cambiar el estatus de mis créditos atléticos obtenidos anteriormente a esta petición por escrito.

# Fort Worth ISD **GPA-Exempt Course Enrollment Form** School Year

Student			Grade Lev	el (circle one	e) <u>11<sup>th</sup> or 12<sup>th</sup></u>
ID#	Student's Counselor				
Semester Request is Being	Submitted (circle one):	FALL	SPRING	Date	

Beginning in the 2019-2020 school year, juniors and seniors may take one full-year course OR two one-semester courses per year as GPA-exempt. Courses must be chosen from the approved list, and students must have completed all prerequisites for the chosen course(s). Counselor and parent approval is required.

Students will receive a numerical grade all year in a GPA-exempt course, and the grade will be reported on all report cards and transcripts. Students will receive credit for the course, but the course will be excluded from GPA and class rank calculations. Students must complete all assigned work and take all tests, including the final, unless exempt from final exams. Students must maintain a passing semester grade average in the GPA-exempt course in order to remain eligible for the GPA-exemption. Please note: Colleges may re-calculate a student's GPA following their own system, so the college may include the GPA-exempt course in their GPA calculation, even if it was not included in FWISD calculations.

I am requesting	enrollment in the	following	GPA-exemp	t course(s):

(One full-year course **OR** two one-semester courses)

1) COURSE	COURSE CODE
2) COURSE	COURSE CODE

I have spoken to my counselor to determine eligibility, and I understand how a GPA-exempt course will affect my GPA and class rank, as well as my eligibility for UIL and other school-approved activities. I understand that once I sign up to take a course as GPA-exempt the decision cannot be changed. I also understand that if I drop a GPA-exempt course after the first semester, the remaining 0.5 exemption cannot be applied to another course the following semester. I understand that this form applies to the current semester only and is not retroactive to previous semesters.

Signature of Student	Date
Signature of Parent/Guardian	Date
Signature of Counselor	Date
Signature of Principal or Assistant Principal	Date

Signature of Principal or Assistant Principal

This form must be returned to your counselor by the tenth day of the first semester of each school year to be eligible for that semester. Students who miss the deadline for GPA-exempt enrollment for first semester may apply for exemption for the second semester if all criteria are met. (See back of this form for specifics.)

# FORT WORTH ISD GPA-EXEMPT COURSES

Fort Worth ISD encourages students to pursue areas of special interests and talents in order to enrich their academic experience. To promote continued exploration of these areas of interest in depth, the district is offering certain courses to students in grades 11 and 12 on a GPA-exempt basis.

#### • Who is eligible?

- o Juniors and seniors from the class of 2021 or later may enroll in a GPA-exempt course.
- Courses must be chosen from the approved list of eligible GPA-exempt courses.\*
- Students must have completed all of the prerequisites for the chosen course(s).
- Students must obtain counselor and parent approval.
- Students may choose one year-long course OR two one-semester courses per junior and senior year.

#### • How are grades recorded?

- o Students will receive a numerical grade all year for the GPA-exempt course.
- Numerical grades will be reported on all report cards and transcripts during the year.
- Students will receive credit for the course, but the course will be excluded from GPA and class rank calculations.
- The course name will designate it as a GPA-exempt course on the student transcript.

#### • What are the performance standards?

- Students must complete all assigned work and take all tests and final exams for the course, unless the student is exempt from final exams.
- o Students must complete any extra- or co-curricular components of the course.
- Students must maintain a passing semester grade average in the GPA-exempt course in order to remain eligible for the GPA exemption.

#### • How will grades affect activities?

 Numerical grades earned in a GPA-exempt course will be used to determine eligibility for participation in all school-sponsored and UIL activities. These grades will be used in determining exam exemptions, eligibility for academic awards and honors, admission to organizations such as National Honor Society, etc.

#### • How do students enroll?

- Complete the required GPA-Exempt Course Enrollment Form.
- o Obtain Principal or Assistant Principal, counselor and parent approval / signatures on the form.
- Return the form to the counselor **no later than ten days after the start of each school year.**
- Once a course is approved as GPA-exempt, the decision cannot be changed.
- If a student drops a GPA-exempt course after the first semester, the remaining 0.5 exemption cannot be applied to another course the following semester. The 1.0 credit exemption is considered expended.
- Students who miss the deadline for GPA-exempt enrollment for first semester may apply for exemption for the second semester if all criteria are met.

\*\*Please note: Colleges may re-calculate a student's GPA when applying, so the college may include the GPA-exempt course in their GPA calculation, even if it was not considered in FWISD calculations.

#### High School Statement of Expectations for Advanced Level Courses

Fort Worth ISD is committed to providing the best educational opportunities possible for all students. Advanced level Honors, Pre-IB, Advanced Placement, OnRamps, and International Baccalaureate courses prepare students for future academic and professional success.

#### Please read and sign the following statement of expectations:

I understand that I am a student of great potential with the ability to be successful in Advanced level Honors, Pre-IB, Advanced Placement, OnRamps, and International Baccalaureate courses. With this understanding, I am willing to make the commitment of time and effort required by these classes. I understand the following about this trajectory:

- Advanced level courses prepare students for success in future college level advanced placement coursework, college courses, and future related jobs.
- These courses will follow a more rigorous level of curriculum (as outlined by the College Board, International Baccalaureate or state and district curriculum) and will require increased commitment of the student's time and effort. Courses include Advanced level Honors, Pre-IB, Advanced Placement, OnRamps, and International Baccalaureate courses as defined in Bulletin 100.
- Students enrolled in these classes should expect frequency of homework, completion of independent projects, individual performances or presentations.
- Advanced level Honors, Pre-IB, Advanced Placement, OnRamps, and International Baccalaureate courses are college-level courses that require critical reading, writing, application of cross-curricular knowledge and constant analysis.
- Students enrolled in Advanced Placement or International Baccalaureate courses are expected to take the appropriate Advanced Placement or International Baccalaureate exam(s) and receive financial assistance from the College Board and FWISD. Exams are administered by the campus AP/IB Coordinator.
- Students enrolled in advanced level courses leading to licensure or certification are expected to complete required coursework which leads to attainment of this professional qualification.
- Students will participate in campus or district tutorials and review sessions as needed.

Withdrawal from an advanced level course must be approved by the teacher, parent, Postsecondary Success Specialist, counselor and administrator. A student may not be withdrawn without following protocol.

I, \_\_\_\_\_\_, (insert printed student name) am willing to make the commitment of time and effort required by advanced level coursework in Honors, Pre-IB, Advanced Placement, On Ramps, or International Baccalaureate classes.

#### Declaración de expectativas de la escuela secundaria para los cursos de nivel avanzado

El Fort Worth ISD se compromete a brindar las mejores oportunidades educativas posibles para todos los estudiantes. Los cursos de nivel avanzado Honores, Pre-IB, Colocación Avanzada, OnRamps, y Bachillerato Internacional preparan a los estudiantes para el éxito académico y profesional futuro.

#### Lea y firme la siguiente declaración de las expectativas:

Entiendo que soy un estudiante de gran potencial con la capacidad de tener éxito en cursos de Honores, Pre-IB, Colocación Avanzada, OnRamps, o Bachillerato Internacional. Con este entendimiento, estoy dispuesto a hacer el compromiso de tiempo y esfuerzo que requieren estas clases. Entiendo lo siguiente sobre esta trayectoria:

- Los cursos de nivel avanzado preparan a los estudiantes para el éxito en los trabajos académicos futuros de nivel universitario de colocación avanzada, cursos universitarios y trabajos futuros relacionados.
- Estos cursos seguirán un nivel de plan de estudios más riguroso (como lo describe la College Board, el Bachillerato Internacional o el plan de estudios estatal y del distrito) y requerirán un mayor compromiso del tiempo y esfuerzo del estudiante. Los cursos incluyen AP, Honores, IB, OnRamps como se define en el Boletín 100.
- Los estudiantes inscritos en estas clases deben esperar tareas frecuentemente, completar proyectos independientes, presentaciones o representaciones individuales.
- Las clases de Colocación Avanzada, y OnRamps son cursos de nivel universitario que requieren lectura crítica, escritura, aplicación de conocimientos interdisciplinarios y análisis constante.
- Se espera que los estudiantes inscritos en cursos de Colocación Avanzada o Bachillerato Internacional tomen el/los exámenes apropiados de Colocación Avanzada o Bachillerato Internacional y reciban ayuda financiera del College Board y FWISD. Los exámenes son administrados por el Coordinador AP/IB de la escuela.
- Se espera que los estudiantes inscritos en cursos de nivel avanzado que son conducidos a la obtención de una licenciatura o certificación, completen los trabajos académicos requeridos para la obtención de esta calificación profesional.
- Los estudiantes participarán en tutorías de la escuela o del Distrito y en sesiones de revisión según sea necesario.

La baja de un curso de nivel avanzado debe ser aprobado por el maestro, padre, Especialista en Éxito Postsecundario, consejero y administrador. Un estudiante no puede darse de baja sin seguir el protocolo.

Yo, \_\_\_\_\_\_, (insertar el nombre del estudiante en letra de imprenta/*insert printed student name*) estoy dispuesto/a a comprometerme con el tiempo y el esfuerzo que requieren los cursos de nivel avanzado en las clases de Honores, Pre-IB, Colocación Avanzada, OnRamps, o Bachillerato Internacional.

#### Notice of Meeting to Change High School Graduation Plan

Fort Worth Independent School District expects all students to complete the Foundation High School Program (FHSP) with Endorsements. However, for students who are unable to meet the requirements for the Foundation High School Program (FHSP) with Endorsements, a meeting must be convened to consider the student's options, and the following form must be completed.

In the 2014-2015 school year with the adoption of House Bill 5, students in Grade 9 in the 2014-2015 school year and thereafter must enroll in courses necessary to complete the curriculum of the Foundation High School Program with Endorsements.

However, if the student, the student's parent or other persons standing in the parental relation to the student, a school counselor and principal agree, then the student should be permitted to take courses under the Foundation High School Program (FHSP) without Endorsements. Fully completing this form, including required signatures, meets the required documentation for a student to move from the Foundation High School Plan (FHSP) with Endorsements to the Foundation High School Program (FHSP) without Endorsements.

Date of Meeting:	School Name:		
Student Name:	Student ID:	_Grade:	_Age:

Reason(s):

I understand that by selecting the Foundation High School Program (FHSP) without Endorsements, I will no longer be eligible for "Top 10 Percent" automatic college admissions consideration. By law, students must graduate under at least the Distinguished Level of Achievement (FHSP) for this consideration. In addition, Fort Worth ISD Policy EIC (LOCAL) indicates that only students completing the Distinguished Level of Achievement (FHSP) qualify for valedictorian and salutatorian honors.

Signature of student		Date

#### DISTRITO ESCOLAR INDEPENDIENTE DE FORT WORTH Aviso de Reunión para cambiar el plan de Graduación de Escuela Secundaria

El Distrito Escolar Independiente de Fort Worth espera que todos los estudiantes completen el *Foundation High School Program (FHSP) con Especialidades.* Sin embargo, los estudiantes que no logren cumplir con los requisitos del *Foundation High School Program (FHSP) con Especialidades,* tendrán que asistir a una reunión para explorar las opciones que tienen estos estudiantes y tendrán que completar el siguiente formulario.

En el año escolar 2014-2015, al adoptarse el Proyecto de Ley 5 de la Cámara, los estudiantes en el Grado 9 en ese año escolar, y a partir de entonces, se tienen que matricular en los cursos necesarios para completar el currículo del *Foundation High School Plan (o FHSP) con Especialidades*.

Sin embargo, si el estudiante, los padres del estudiante, otras personas que se encuentren en lugar de padres con el estudiante, el consejero de la escuela o el director están de acuerdo, entonces al estudiante se le permitirá tomar los cursos del *Foundation High School Program (FHSP) sin Especialidades*. El completar este formulario, incluyendo las firmas requeridas, cumple con la documentación requerida para que un estudiante se pueda mover del *Foundation High School Plan (FHSP) con Especialidades para* el *Foundation High School Program (FHSP) sin Especialidades*.

Fecha de la reunión:	Nombre de la escuela:	

Nombre del estudiante:	Identificación:	Grado:	Edad:

Razón(es):

Entiendo que al seleccionar el "Foundation High School Program (FHSP) sin Especialidades," ya no seré elegible para ser considerado para la admisión universitaria automática llamada "Top 10 Percent." Por ley, los estudiantes tienen que graduarse por lo menos bajo el "Distinguished Level of Achievement (FHSP)" para esta consideración. También, la política EIC (LOCAL) del Distrito Escolar Independiente de Fort Worth indica que <u>sólo</u> los estudiantes que completen el "Distinguished Level of Achievement (FHSP)" cumplen con los requisitos para recibir los honores de primer y segundo promedio académico más alto ("valedictorian" y "salutatorian").

#### PROCEDURE ADDING/DROPPING ADVANCED LEVEL COURSES OR CHANGING TEACHERS

In order to **ADD** Honors, AP/IB level class or Onramps courses, the following must have occurred:

- 1. Student and teacher conference
- 2. Parent Contact by teacher
- 3. This form signed appropriately

To **DROP** Honors, AP/IB level class, or Onramps courses, without penalty, the following must have occurred:

- 1. Parent and student contact by teacher with documentation
- 2. Develop a plan for improvement within a specific timeframe
- 3. Re-evaluation with documentation
- 4. Decision to drop Honors, AP/IB level class, or Onramps courses,
- 5. This form signed appropriately

This form must be signed by the student, parent/guardian, teacher, PSS and administrator. Return the completed form to the student's counselor.

**In order to change teachers**, the counselor must communicate with parent, student and teacher and contact must be documented. After the counselor has verified the need for change of teacher, the student or parent/guardian must get approval from the principal.

#### All signatures are required on this form in order for schedule to be changed.

## Glossary

**Accelerated instruction** is an intensive supplemental program designed to address the needs of an individual student in acquiring the knowledge and skills required at his or her grade level and/or as a result of a student not meeting the passing standard on a state-mandated assessment.

**ACT-Aspire** refers to an assessment that took the place of ACT-Plan and is designed as a preparatory and readiness assessment for the ACT. This is usually taken by students in grade 10.

**ACT** refers to one of the two most frequently used college or university admissions exams: the American College Test. The test may be a requirement for admission to certain colleges or universities.

**ARD** is the admission, review, and dismissal committee convened for each student who is identified as needing a full and individual evaluation for special education services. The eligible student and his or her parents are members of the committee.

**Attendance review committee** is responsible for reviewing a student's absences when the student's attendance drops below 90 percent, or in some cases 75 percent, of the days the class is offered. Under guidelines adopted by the board, the committee will determine whether there were extenuating circumstances for the absences and whether the student needs to complete certain conditions to master the course and regain credit or a final grade lost because of absences.

**EOC assessments** are end-of-course tests, which are state-mandated, and are part of the STAAR program. Successful performance on EOC assessments are required for graduation. These exams will be given in English I, English II, Algebra I, Biology, and U.S. History.

**IEP** is the written record of the individualized education program prepared by the ARD committee for a student with disabilities who is eligible for special education services. The IEP contains several parts, such as a statement of the student's present educational performance; a statement of measurable annual goals, with short-term objectives; the special education and related services and supplemental aids and services to be provided, and program modifications or support by school personnel; a statement regarding how the student's progress will be measured and how the parents will be kept informed; accommodations for state or districtwide tests; whether successful completion of state-mandated assessments is required for graduation, etc.

**IGC** is the individual graduation committee, formed in accordance with state law, to determine a student's eligibility to graduate when the student has failed to demonstrate satisfactory performance on no more than two of the required state assessments.

**ISS** refers to in-school suspension, a disciplinary technique for misconduct found in the Student Code of Conduct. Although different from out-of-school suspension and placement in a DAEP, ISS removes the student from the regular classroom.

**PGP** stands for Personal Graduation Plan, which is required for high school students beginning with ninth graders in the 2014–15 school year, and for any student in middle school who fails a section on a state-mandated test or is identified by the district as not likely to earn a high school diploma before the fifth school year after he or she begins grade 9.

**PSAT** is the preparatory and readiness assessment for the SAT.

**SAT** refers to one of the two most frequently used college or university admissions exams: the Scholastic Aptitude Test. The test may be a requirement for admissions to certain colleges or universities.

**Section 504** is the federal law that prohibits discrimination against a student with a disability, requiring schools to provide opportunities for equal services, programs, and participation in activities. Unless the

student is determined to be eligible for special education services under the Individuals with Disabilities Education Act (IDEA), general education with appropriate instructional accommodations will be provided.

**STAAR** is the State of Texas Assessments of Academic Readiness, the state's system of standardized academic achievement assessments, effective beginning with certain students for the 2011–2012 school year.

**STAAR A** is an accommodated version of the STAAR that is available for certain students who receive special education services or students who have been identified as dyslexic.

**STAAR Alternate 2** is an alternative state-mandated assessment designed for students with severe cognitive disabilities receiving special education services who meet the participation requirements, as determined by the student's ARD committee.

**STAAR Linguistically Accommodated (STAAR L)** is an alternative state-mandated assessment with linguistic accommodations designed for certain recent immigrant English language learners.

**State-mandated assessments** are required of students at certain grade levels and in specified subjects. Successful performance sometimes is a condition of promotion, and passing the STAAR EOC assessments is a condition of graduation. Students have multiple opportunities to take the tests if necessary for promotion or graduation.

**Student Code of Conduct** is developed with the advice of the district-level committee and adopted by the board and identifies the circumstances, consistent with law, when a student may be removed from a classroom, campus, or district vehicle. It also sets out the conditions that authorize or require the principal or another administrator to place the student in a DAEP. It outlines conditions for out-of-school suspension and for expulsion. The Student Code of Conduct also addresses notice to the parent regarding a student's violation of one of its provisions.

**TELPAS** stands for the Texas English Language Proficiency Assessment System, which assesses the progress that English language learners make in learning the English language, and is administered for those who meet the participation requirements in kindergarten–grade 12.

**TSI assessment** is the Texas Success Initiative assessment designed to measure the reading, mathematics, and writing skills that entering college-level freshmen students should have if they are to be successful in undergraduate programs in Texas public colleges and universities.

**TxVSN** is the Texas Virtual School Network, which provides online courses for Texas students to supplement the instructional programs of public school districts. Courses are taught by qualified instructors, and courses are equivalent in rigor and scope to a course taught in a http://pol.tasb.org/Policy/Code/1101?filter=FNGtraditional classroom setting.

**UIL** refers to the University Interscholastic League, the statewide voluntary nonprofit organization that oversees educational extracurricular academic, athletic, and music contests.

AVID AB (Advancement Via Individual Determination)	0261A/B (6 <sup>th</sup> ), 0269A/B (7 <sup>th</sup> ) or 0270A/B (8 <sup>th</sup> )
Advancement Via Individual Determination (AVID) is an academic elective course that prepares students for college readiness and success, and it is scheduled during the regular school day as a year-long course. Students progress from one grade level to the next and develop awareness of the values accompanying academic goals and success. Students receive instructions that utilize a rigorous college-preparatory curriculum provided by AVID Center, tutor-facilitated study groups, motivational activities, and academic success skills. Students participate in activities that incorporate strategies focused on writing, inquiry, collaboration, organization, and reading to support their academic growth. Additionally, students are exposed to field trips, guest speakers, and research to increase their knowledge of college and career opportunities	82900XXX (6 <sup>th</sup> ), 85000001 (7 <sup>th</sup> ), or 85000002 (8 <sup>th</sup> )

Teachers teaching emergent bilingual students must be ESL certified.

#### **Overview Information: Middle School**

The courses described in this section of Bulletin 100 are those which Fort Worth ISD offers to address the needs of EB\* students at various levels of English proficiency and academic need. The courses comply with state law requirements included in...

- 19 TAC Chapter 89: Bilingual/ESL program requirements and
- TAC Chapter 74.4: Curriculum Requirements, English Language Proficiency Standards

The Language Proficiency Assessment Committee (LPAC) at each campus is responsible for ensuring that all EBs are placed in appropriate programs and for monitoring student performance throughout the year.

#### Key Information about FWISD Program Designs

Fort Worth ISD offers two broad types of programs for secondary EBs:

 <u>Newcomer Programs</u> (includes INA and Language Centers at Daggett, Rosemont, Leonard, Meadowbrook, Riverside, Meacham, Jacquet, Morningside and William James Middle Schools)

These programs are for recent-immigrant students. The programs provide specialized ESL/ESOL and reading courses, other English "support" courses, and sheltered core content-area courses in which extensive scaffolding and linguistic accommodations as well as special materials are used. Most students are at the beginning or intermediate levels of English proficiency. Students are generally scheduled into homogeneous Newcomer Program classes but may, in some instances, be cluster-scheduled<sup>†</sup> into regular "stacked" content- area classes and identified according to the course numbers shown in this section of the course catalog. Newcomer Program courses are offered on only a few designated campuses.

• ESL These programs are for EB students who are not identified as Newcomers and have been in U.S. schools for 3+ years. Due to their time spent in U.S. schools, these students have reached a high enough level of language proficiency and academic achievement to be mainstream classrooms with scaffolded supports to continue meeting their unique needs for language acquisition. EBs receiving ESL services may be scheduled in Sheltered courses that may comprise of Sheltered English and reading courses as well as sheltered core content-area courses in which some degree of scaffolding and linguistic accommodations are provided. Most students demonstrate high intermediate to advanced levels of English proficiency. Students are to be cluster-scheduled<sup>o</sup> into regular "stacked" content-area classes and identified according to the course numbers shown in this section of the course catalog. Sheltered courses are offered in some form on all campuses.

<u>Middle School</u>: At middle school, the program is referred to as <u>Transition ESL</u>, and the ELA/R courses are called <u>ESL</u>, an integrated block course encompassing all language domains (Listening, Speaking, Reading and Writing). Teachers teaching the courses must be ESL certified.

\*EB = Emergent bilingual is a term used here to refer to students:

- who come from homes where languages other than English are used <u>and</u>
- who are assessed through state tests to be less than proficient in listening, speaking, reading, or writing English.

<sup>†</sup>**Cluster-scheduled** = scheduling students in groups (not to exceed 50% of a class) into regular "stacked" classes, keeping the number of teachers assigned to the lowest number needed to provide quality programs. These instructional settings should not result in having clusters of EB students and clusters of special education students in the same classroom.

#### **Sheltered Course Overview Chart**

#### The term *sheltered* is only used to assist in appropriate scheduling of EB students. These names appear in *Bulletin 100* and the *Course Catalog*, but the term *sheltered* will not be used on grade cards.

#### English Learners Language Arts (ELLA) Courses

These courses are based on grade-level ELLA TEKS and the ELPS (English Language Proficiency Standards). Instruction is accommodated to meet the needs of students in various proficiency levels. These courses are only available at INA and Language Centers serving middle school grades.

The essential knowledge and skills as well as the student expectations for English Learners Language Arts (ELLA), Grade 7 are described in §74.4 of this title (relating to English Language Proficiency Standards) as well as subsection (b) of this section and are aligned to the knowledge and skills and student expectations in Chapter 110 of this title (relating to Texas Essential Knowledge and Skills for English Language Arts and Reading) with additional expectations for English language learners (ELLs).

English Learners Language Arts (ELLA), Grade 7 may be substituted for English Language Arts and Reading, Grade 7. All expectations apply to English Learners Language Arts (ELLA), Grade 7 students; however, it is imperative to recognize critical processes and features of second language acquisition and to provide appropriate instruction to enable students to meet these standards. This course must be paired with an ESL Lab course for additional language acquisition.

#### 0572A/B-ELLA 7, Grade 7AB

#### PEIMS Number: 03200531

#### Textbook(s): No state-adopted textbooks/District created curriculum

The essential knowledge and skills as well as the student expectations for English Learners Language Arts (ELLA), Grade 8 are described in §74.4 of this title (relating to English Language Proficiency Standards) as well as subsection (b) of this section and are aligned to the knowledge and skills and student expectations in Chapter 110 of this title (relating to Texas Essential Knowledge and Skills for English Language Arts and Reading) with additional expectations for English language learners (ELLs).

English Learners Language Arts (ELLA), Grade 8 may be substituted for English Language Arts and Reading, Grade 8. All expectations apply to English Learners Language Arts (ELLA), Grade 8 students; however, it is imperative to recognize critical processes and features of second language acquisition and to provide appropriate instruction to enable students to meet these standards. This course must be paired with an ESL Lab for additional language acquisition.

#### 0573A/B-ELLA 8, Grade 8AB

#### PEIMS Number: 03200532

Textbook(s): No state-adopted textbooks/District created curriculum

#### English as a Second Language (ESL) Courses

The following courses are considered the "state-required ESL" courses; special state-adopted ESL resources are provided for these courses.

Newcomer Program		1	ransition ESL Courses
0064A/B	ESL, Grade 6	0084A/B	ESL/TR, Grade 6
0572	ELLA, Grade 7	0085A/B	ESL/TR, Grade 7
0573	ELLA, Grade 8	0086A/B	ESL/TR, Grade 8

PEIMS Number: 03210530/6<sup>th</sup>Grade **Textbook(s):** Pearson's myPerspective, Grade 6 (Texas Edition), Grade 6 Classroom Library (200 diverse titles)

PEIMS Number: 03200400/7<sup>th</sup> Grade **Textbook(s):** Pearson's myPerspective, Grade 7 (Texas Edition), Grade 6 Classroom Library (200 diverse titles)

PEIMS Number: 03200500/8<sup>th</sup>Grade **Textbook(s):** Pearson's myPerspective, Grade 8 (Texas Edition), Grade 6 Classroom Library (200 diverse titles)

Prerequisite: None Grade Placement: 6 – 8

These courses are based on grade-level ELAR TEKS and the ELPS (English Language Proficiency Standards). Instruction is accommodated for the proficiency level of the students (beginning-level EBs at INA and intermediate-/advanced-level EBs at the middle school Language Centers.)

0058A/B-ESL Lab-NP, Grade 6AB 0082A/B-ESL Lab-TR, Grade 6AB PEIMS Number: 03210530 Textbook(s): No state-adopted textbooks/contact Director

0060A/B-ESL Lab-NP, Grade 7AB 0083A/B-ESL Lab-TR, Grade 7AB PEIMS Number: 03200400 Textbook(s): No state-adopted textbooks/contact Director

0062A/B-ESL Lab-NP, Grade 8AB 0088A/B-ESL Lab-TR, Grade 8AB PEIMS Number: 03200500 Textbook(s): No state-adopted textbooks/contact Director

Prerequisite: None Grade Placement: 6 – 8

The ESL labs are elective credits based upon the Grades 6-8 ELAR TEKS as modified for ESL. The three NP labs are for students in the International Newcomer Academy and Language Centers and must be paired with ESL 6 and/or ELLA 7 or ELLA 8. The three TR labs are specifically for long-term EB students who are a part of the Transition ESL program based on LPAC recommendation. The labs focus on developing academic language and on developing student skill in listening, speaking, reading and writing text, in math or in other content areas, with the TR labs intensively focusing on academic language and discourse patterns. Students receive elective credit for ESL Lab at the appropriate grade level.

#### Sheltered Mathematics, Science, and Social Studies Courses

EBs are expected to attain the same academic standards as all other students in content-area courses. However, to be successful, EBs must receive instruction that is "sheltered" according to their level of English proficiency and academic need. "Sheltering" means that the teacher...

- knows exactly who the EBs are and what their language and academic needs are and
- teaches grade-level content but consistently and intentionally integrates the English Language Proficiency Standards (ELPS) and uses scaffolded interactive language development strategies to support the students **and**
- enables them to acquire academic language and learn the academic content.

Campuses are to use the course numbers for the sheltered core-area courses included in this section of *Bulletin 100* in scheduling EBs into Newcomer Program or Transition ESL content courses to ensure (1) that the students are properly scheduled and (2) that teachers provide the appropriate language/content support ("sheltering") in instruction.

See MATHEMATICS, SCIENCE, or SOCIAL STUDIES sections for full descriptions, course numbers, and PEIMS numbers for the various content-area courses. See previous Course Overview chart for "quick read" information.

The following courses are offered to those students who require a curriculum for instruction that is TEKSbased. The ARD Committee determines that a student's level of mastery of the TEKS for a subject area will be different than the expectations for the general population. The ARD Committee will specify the content the student is expected to master. The content should be related to the post-secondary goals of the student. The modified content expectations, goals, and objectives are clearly articulated in the student's Individual Education Plan (IEP) including accommodations for providing appropriate instruction and accommodations for measuring mastery. Decisions regarding enrollment are made by the ARD Committee.

State textbooks for students with special needs are available at the campus level. The Special Education Resource Service (SERS) is a center which can be contacted to access supplementary curricula if needed to meet students' individual needs. SERS staff can be reached by calling 817.815.5490.

#### 0051A/B—Basic English Language Arts, Grade 6AB

Prerequisite: English recommended by the ARD Committee as a special education course and incorporated into the ARD schedule of services. Grade Placement: 6

Coursework taken in lieu of general education English #0041. Instruction is provided at the student's enrolled grade level, in a Special Education setting with modification of TEKS, as determined by the ARD Committee.

#### 0052A/B—Basic English Language Arts, Grade 7AB

Prerequisite: English recommended by the ARD Committee as a special education course and incorporated into the ARD schedule of services.

Grade Placement: 7

Coursework taken in lieu of general education English #0042. Instruction is provided at the student's enrolled grade level, in a Special Education setting with modification of TEKS, as determined by the ARD Committee.

#### 0053A/B—Basic English Language Arts, Grade 8AB

Prerequisite: English recommended by the ARD Committee as a special education course and incorporated into the ARD schedule of services.

Grade Placement: 8

Coursework taken in lieu of general education English #0043. Instruction is provided at the student's enrolled grade level, in a Special Education setting with modification of TEKS, as determined by the ARD Committee.

#### 0214A/B—Basic Mathematics, Grade 6AB

Prerequisite: Mathematics recommended by the ARD Committee as a special education course and incorporated into the ARD schedule of services.

Grade Placement: 6

Coursework taken in lieu of general education Mathematics #0200. Instruction is provided at the student's enrolled grade level, in a Special Education setting with modification of TEKS, as determined by the ARD Committee.

#### 0216A/B—Basic Mathematics, Grade 7AB

Prerequisite: Mathematics recommended by the ARD Committee as a special education course and incorporated into the ARD schedule of services.

Grade Placement: 7

Coursework taken in lieu of general education Mathematics #0202. Instruction is provided at the student's enrolled grade level, in a Special Education setting with modification of TEKS, as determined by the ARD Committee.

#### 0218A/B—Basic Mathematics, Grade 8AB

Prerequisite: Mathematics recommended by the ARD Committee as a special education course and incorporated into the ARD schedule of services.

Grade Placement: 8

Coursework taken in lieu of general education Mathematics #0203. Instruction is provided at the student's enrolled grade level, in a Special Education setting with modification of TEKS, as determined by the ARD Committee.

#### 0316A/B—Basic Science, Grade 6AB

Prerequisite: Science recommended by the ARD Committee as a special education course and incorporated into the ARD schedule of services. Grade Placement: 6

Coursework taken in lieu of general education Science #0300. Instruction is provided at the student's enrolled grade level, in a Special Education setting with modification of TEKS, as determined by the ARD Committee.

#### 0317A/B—Basic Science, Grade 7AB

Prerequisite: Science recommended by the ARD Committee as a special education course and incorporated into the ARD schedule of services.

Grade Placement: 7

Coursework taken in lieu of general education Science #0304. Instruction is provided at the student's enrolled grade level, in a Special Education setting with modification of TEKS, as determined by the ARD Committee.

#### 0318A/B—Basic Science, Grade 8AB

Prerequisite: Science recommended by the ARD Committee as a special education course and incorporated into the ARD schedule of services. Grade Placement: 8

Coursework taken in lieu of general education Science #0305. Instruction is provided at the student's enrolled grade level, in a Special Education setting with modification of TEKS, as determined by the ARD Committee

#### 0346A/B—Basic Social Studies, Grade 6AB

Prerequisite: Social Studies recommended by the ARD Committee as a special education course and incorporated into The ARD schedule of Services.

Grade Placement: 6

Coursework taken in lieu of general education Social Studies #0331. Instruction is provided at the student's enrolled grade level, in a Special Education setting with modification of TEKS, as determined by the ARD Committee.

#### 0347A/B—Basic Social Studies, Grade 7AB

Prerequisite: Social Studies recommended by the ARD Committee as a special education course and incorporated into the ARD schedule of services. Grade Placement: 7

Coursework taken in lieu of general education Social Studies #0336. Instruction is provided at the student's enrolled grade level, in a Special Education setting with modification of TEKS, as determined by the ARD Committee.

#### 0348A/B—Basic Social Studies, Grade 8AB

Prerequisite: Social Studies recommended by the ARD Committee as a special education course and incorporated into the ARD schedule of services.

Grade Placement: 8

Coursework taken in lieu of general education Social Studies #0337. Instruction is provided at the student's enrolled grade level, in a Special Education setting with modification of TEKS, as determined by the ARD Committee.

#### SPECIAL EDUCATION SIGNIFICANTLY MODIFIED CURRICULUM

#### (Functional/Life Skills)

The following courses are offered to those students who require a significantly modified curriculum for instruction in any or all of the instructional areas. These courses are designed for students' focus on academics, functional, and life-skills and should relate to the post-secondary goals of the student. Decisions regarding enrollment are made by the ARD committee.

State textbooks for students with special needs are available at the campus level. The Special Education Resource Service (SERS) is a center which can be contacted to access supplementary curricula, if needed to meet students' individual needs. SERS staff can be reached by calling 817.815.5490.

#### 0029A/B – English Language Arts Grade 6 ALT AB 0031A/B - English Language Arts Grade 7 ALT AB

0033A/B - English Language Arts Grade 8 ALT AB

Prerequisite: Eligible for significantly modified curriculum and placement by ARD committee as a special education course and incorporated into the ARD schedule of services. Grade Placement: 6 - 8 Credits: 1 – 3

Communication coursework addresses basic functional skills in English that are necessary for daily living. These courses are to be taken in lieu of English 6-8 and/or Basic English 6-8.

#### 0213A/B – Mathematics Grade 6 ALT AB 0215A/B - Mathematics Grade 7ALT AB

#### 0217A/B - Mathematics Grade 7 ALT AB

Prerequisite: Eligible for significantly modified curriculum and placement by ARD committee as a special education course and incorporated into the ARD schedule of services.

Grade Placement: 6 - 8 Credits: 1 – 3

Basic functional skills in mathematics that are necessary for daily living are addressed. These courses are to be taken in lieu of Mathematics 6-8 and/or Basic Mathematics 6-8.

#### 0276A/B - Reading Strategies and Skills IAB 0277A/B - Reading Strategies and Skills IIAB 0278A/B - Reading Strategies and Skills IIIAB

Prerequisite: Eligible for significantly modified curriculum and placement by ARD committee as a special education course and incorporated into the ARD schedule of services. Grade Placement: 6 - 8 Credits: 1 – 3

Basic strategies and skills that are necessary for word recognition and reading comprehension are taught. These courses are to be taken in lieu of Reading 6-8 and/or Basic Reading 6-8.

0307A/B – Science Grade 6 ALT AB 0309A/B – Science Grade 7 ALT AB 0311A/B – Science Grade 8 ALT AB Prerequisite: Eligible for significantly modified curriculum and placement by ARD committee as a special education course and incorporated into the ARD schedule of services. Grade Placement: 6 - 8 Credits: 1 – 3

Basic science concepts that are necessary for daily living are addressed. These courses are to be taken in lieu of Science 6-8 and/or Basic Science 6-8.

0339A/B – Social Studies Grade 6 ALT AB 0340A/B – Social Studies Grade 7 ALT AB 0343A/B - Social Studies Grade 8 ALT AB

Prerequisite: Eligible for significantly modified curriculum and placement by ARD committee as a special education course.

Grade Placement: 6 - 8 Credits: 1 – 3

Basic social studies concepts that are necessary for daily living are addressed. These courses are to be taken in lieu of Social Studies 6-8 and/or Basic Social Studies 6-8.

#### 0155A/B - Personal Health/Hygiene IAB

0157A/B - Personal Health/Hygiene IIAB

#### 0159A/B - Personal Health/Hygiene IIIAB

Prerequisite: Eligible for significantly modified curriculum and placement by ARD committee as a special education course incorporated into the ARD schedule of services. Grade Placement: 6 - 8 Credits: 1 - 3

Basic skills that are necessary to maintain health and personal hygiene are addressed. These courses are to be taken in lieu of Health 6-8 and/or Basic Health` 6-8.

#### 0785A/B - Community Skills IAB 0787A/B - Community Skills IIAB 0789A/B - Community Skills IIIAB Prerequisite: Eligible for significantly modified curriculum and placement by ARD committee as a Special Education Elective course and incorporated into the ARD schedule of services. Grade Placement: 6 - 8 Credits: 1 – 3

Critical skills necessary for independent functioning in a variety of community environments are addressed.

#### 0779A/B — Activities of Daily Living IAB 0781A/B — Activities of Daily Living IIAB 0783A/B — Activities of Daily Living IIIAB

Prerequisite: Eligible for significantly modified curriculum and placement by ARD committee as a Special Education Elective course and incorporated into the ARD schedule of services. Grade Placement: 6 - 8 Credits: 1 - 3

Self-help skills necessary for success in life are addressed.

# 0773A/B — Recreation/Leisure IAB 0775A/B — Recreation/Leisure IIAB 0777A/B — Recreation/Leisure IIIAB Prerequisite: Eligible for significantly modified curriculum and placement by ARD committee as a Special Education Elective course and incorporated into the ARD schedule of services. Grade Placement: 6 - 8 Credits: 1 - 3

Various skills that can be incorporated into a student's instructional program to develop or increase the ability to constructively use leisure time are addressed.

 0291A/B — Basic Reading VIAB

 0292A/B — Basic Reading VIIAB

 0293A/B — Basic Reading VIIAB

 Prerequisite: Reading recommended by the ARD Committee and reflected on ARD schedule page

 Grade Placement:
 6 - 8

 Credits:
 1

Coursework taken in lieu of general education Reading. Instruction is provided at the student's enrolled grade level, with modification of TEKS, as determined by the ARD Committee.

Gr 6 Mathematics	0200 A/B
Sheltered Gr 6 Mathematics - NP	0192 A/B
Sheltered Gr 6 Mathematics	0193 A/B
Provides instruction in concepts and skills associated with numbers, operations and computation, problem solving,	02820000
measurement, geometry, algebra, probability, statistics, and graphing. Instruction focuses on problem-solving	
strategies, manipulatives, and the appropriate use of technology.	
nstructional Material: Carnegie Learning, Texas Middle School Math Solution, Grade 6	
Prerequisites: Gr 5 Mathematics	Grade level: 6
<u>What's Next?</u> Gr 7 Mathematics	Credit(s): N/A
Students will take STAAR Gr 6 Mathematics Assessment.	
All Newcomer Program teachers must be content and ESL certified.	
Gr 6 Advanced Mathematics	0204 A/B
Sheltered Gr 6 Advanced Mathematics	0194 A/B
Establishes the foundation for success in the Advanced Placement Mathematics curriculum. Includes all of the	02820000
Grade 6 Mathematics objectives/TEKS and many of the Grade 7 Mathematics objectives/TEKS with both	
relationships between integers, exploring functions of graphs, investigating square and square roots, and writing	
and calculating simple equations and equalities from problem-solving situations. Instruction focuses on problem-	
solving strategies, hand-on activities, and using technology.	
Instructional Material: Carnegie Learning, Texas Middle School Math Solution, Accelerated Grade 6	
Prerequisites: Gr 5 Mathematics and student/family interest	Grade level: 6
What's Next? Gr 7 Advanced Mathematics	Credit(s): N/A
Students will take STAAR Gr 6 Mathematics Assessment.	

Gr 6 Accelerated Mathematics Sheltered Gr 6 Accelerated Mathematics	0205 A/B 02056 A/B
Establishes the foundation for success in the Advanced Placement curriculum: Includes all the Grade 6, 7 and 8 objectives/TEKS, Mathematics objectives with both independent and guided extension in algebraic concepts, ordering rational numbers, and investigating relationships all forms of rational numbers, exploring functions of graphs, investigating irrational numbers, solving equations and inequalities, proportional and non-proportional relationships. Instruction will focus on objectives in the Texas College and Career Readiness Standards (CCRS). Instruction will focus on applying methods to examine and solve real-world problems as preparation for success in Algebra. Instruction focuses on problem-solving strategies, hands-on activities, and using technology. This course is not available at all campuses.	03103100
Instructional Material: CollegeBoard SpringBoard, Course 1, 2, and 3 Prerequisites: Gr 5 Mathematics, student/family interest, and teacher recommendation What's Next? Honors Algebra I	Grade level: 6 Credit(s): N/A
Students will take STAAR Gr 8 Mathematics Assessment.	
Gr 7 Mathematics	0202 A/B
Sheltered Gr 7 Mathematics - NP	0195 A/B
Sheltered Gr 7 Mathematics	0197 A/B
Provides instruction in concepts and skills associated with numbers, operations with fractions, rational numbers, exponents, problem solving, measurement, geometry, algebra, probability, statistics, and graphing. Instruction focuses on the use of manipulatives, problem-solving strategies, and technology.	03103000
Instructional Material: Carnegie Learning, Texas Middle School Math Solution, Grade 7	
Prerequisites: Gr 6 Mathematics	Grade level: 7
What's Next? Gr 8 Mathematics	Credit(s): N/A
Students will take STAAR Gr 7 Mathematics Assessment.	
All Newcomer Program teachers must be content and ESL certified.	0207 A /P
Gr 7 Advanced Mathematics Sheltered Gr 7 Advanced Mathematics	0207 A/B
Sheitered Gr / Advanced Mathematics Establishes the foundation for success in the Advanced Placement Mathematics curriculum. Includes the remainder of	01977 A/B 03103000
the Grade 7 objectives/TEKS not addressed in Grade 6 Honors and all of the Grade 8 objectives/TEKS with both independent and guided extensions in the area of variable expressions, solving equations and inequalities, ration/proportions in problem-solving situations, exploring binomial operations, quadratic equations, fractions, and square roots. Instruction focuses on applying methods to examine and solve a variety of real-world problems as	03103000
preparation for success in algebra. Problem-solving technology and hands-on activities are emphasized.	
Instructional Material: Carnegie Learning, Texas Middle School Math Solution, Accelerated Grade 7 Prereguisites: Gr 6 Advanced Mathematics and student/family interest	Grade level: 7
<u>What's Next?</u> Pre-Algebra or Honors Algebra I	Credit(s): N/A
Students will take STAAR Gr 8 Mathematics Assessment.	
Gr 8 Mathematics	0203 A/B
Sheltered Gr 8 Mathematics - NP	0198 A/B
Sheltered Gr 8 Mathematics	0199 A/B
Provides instruction in concepts and skills associated with numbers, operations with rationales, problem solving, tables, measurement, geometry, probability, statistics, graphing, fractions in expressions and equations, meaning of negative numbers, pattern recognition and proportional reasoning, constructing numerical equations, attacking word problems successfully, variables, equality and inequality, operations on equations and inequalities. The primary goal is to prepare students for success in algebra. Instruction focuses on problem-solving, manipulatives, and the use of technology.	03103100
I <u>nstructional Material:</u> Carnegie Learning, Texas Middle School Math Solution, Grade 8 Prereguisites: Gr 7 Mathematics	Grade level: 8
What's Next? Algebra I	Credit(s): N/A
Students will take STAAR Gr 8 Mathematics Assessment.	
All Newcomer Program teachers must be content and ESL certified.	
Gr 8 Pre-Algebra Sheltered Gr 8 Pre-Algebra	0219 A/B 01998 A/B
Establishes the foundation for success in the high school course sequence. Includes all of the Grade 8 Mathematics objectives/TEKS with both independent and guided extensions in evaluating expressions, solving one-step equations and inequalities, solving multi-step equations and inequalities, study of functions and graphing, study of ratio, proportional reasoning, and percents, study of probability and statistics, study of geometry and measurement, applying algebra to geometric concepts, and study of monomials and polynomials. Instruction focuses on applying methods to examine and solve a variety of real-world problems as preparation for success in algebra. Problem solving, technology, and hands-on activities are emphasized.	03103100
Instructional Material: CollegeBoard SpringBoard Mathematics Course 3, College Board; ISBN: 9781457301223 Prerequisites: Gr 7 Mathematics and student/family interest What's Next? Honors Algebra I Students will take STAAR Gr 8 Mathematics Assessment.	Grade level: 8 Credit(s): N/A

Honors Algebra I Sheltered Honors Algebra I	7055 A/B 7047 A/B
Establishes the foundation for success in the Advanced Placement Mathematics curriculum. Includes all of the regular Algebra I course with extensions, both independent and guided, in the application of algebraic concepts, the analysis of the historical development of algebra, and the relationship of the major ideas of algebra and geometry. High school credit is available upon the successful completion of both semesters. Grades will not be used in the calculation of high school GPA.	03100500
nstructional Material: CollegeBoard SpringBoard Algebra I, College Board; ISBN: 9781457300394	
Prerequisites: Gr 6 Accelerated Mathematics, Gr 7 Advanced Mathematics, Pre-Algebra AB or Gr 8 Mathematics or the equivalent (90% or above on a CBE for Mathematics, Grade 8AB), STAAR/NWEA Map Scores, student grades, good attendance, and student/family interest. <u>What's Next?</u> Honors Geometry or Geometry	Grade level: 7-8 Credit(s): 1
Course taught by a locally certified gifted teacher or AP trained teacher	
Students will take STAAR Algebra I EOC. HIGH SCHOOL CREDIT AVAILABLE.	
Honors Geometry AB	7073 A/B
Sheltered Honors Geometry AB	7074 A/B
Extends and builds on the foundation for the Advanced Placement program. Includes all of regular geometry course with extensions, both independent and guided, from advanced topics. Instruction focuses on the use of higher levels of understanding, such as relationships of ideas, analysis of investigations, and predictions of results. Geometry is required for graduation.	03100700
nstructional Material: CollegeBoard SpringBoard Geometry, College Board; ISBN: 9781457300400	
Prerequisites: Algebra I or Honors Algebra I and student/family interest	Grade level: 8
What's Next? Algebra II or Honors Algebra II	Credit(s): 1
Course taught by a locally certified gifted teacher or AP trained teacher	
Students will take STAAR Gr 8 Mathematics Assessment. HIGH SCHOOL CREDIT AVAILABLE.	
Gr 6 Enhanced Mathematics AB	0201 A/B
Gr 7 Enhanced Mathematics AB	0206 A/B
Provides additional strategies and support so that students gain a foundation in mathematical thinking and reasoning. The course will strengthen mathematical concepts, relationships, and experiences. Students will use tools (including calculators), techniques, and models to develop their understanding of mathematics and to improve their ability to solve problems. A strong emphasis will be placed on the communication of mathematical ideas and	84100028 Grade level: 6 or 7 Credit(s): 0
solutions. NOTE: These courses are <u>not</u> stand-alone mathematics courses and are <u>not</u> designed to replace the	
regular math course. Courses can only be used for double blocking purposes.	
Instructional Material: No State adopted instructional material(s)/Contact Content Director Prerequisites: Previous Grade level and concurrent enrollment in Mathematics, Gr 6 or Gr 7 <u>What's Next?</u> N/A (Assignment is made by individual student's STAAR assessment scores.) Local Credit Only	
Mathematics Laboratory: Problem Solving Approach	0222 A/B
Provides an opportunity for students with a high interest in mathematics to further mathematical understanding and	84100001
knowledge through laboratory and discovery activities. Encourages students to have fun with mathematics while exploring such topics as, but not limited to, number sense patterns, modular arithmetic, points of concurrency, perfect numbers, matrix logic, unit analysis, and folding patterns, while using a variety of problem-solving techniques. Instructional Material: No State adopted textbook/Contact Content Director	
Prerequisites: None	Grade level: 8
What's Next? N/A Local Credit Only (Elective Math Course)	Credit(s): 0
Texas Pre-Freshman Engineering Program IAB	7421 A/B
Texas Pre-Freshman Engineering Program IIAB	7423 A/B
Available at Texas Wesleyan University as summer enrichment for high ability students, these courses emphasize study and research in mathematics, engineering, and computer science. Preference is given to female students and minority students who have been underrepresented in the field of engineering. This course is for state elective credit only. <b>Credit toward high school graduation will be placed on the AAR upon successful completion of both</b>	N1303752 N1303753
semesters of the course. Grades will not be calculated into high school GPA.	
nstructional Material: Materials & textbooks to be provided by participating university. Prerequisites: Average of 80 or higher in college preparatory Mathematics and teacher recommendation What's Next? N/A	Grade level: 7-8 Credit(s): 1-2

<u>What's Next?</u> Gr 8 Science	Credit(s): N/A
All Newcomer Program teachers must be content and ESL certified.	
Gr 7 Advanced Science	0303 A/B
Sheltered Gr 7 Advanced Science	03147 A/B
The 7th Grade Advanced Science Course establishes the foundations for success in the Advanced Placement	03060700
curriculum. Students taking this accelerated course will focus on science and engineering practices; recurring	
themes and concepts; matter and energy; force, motion, and energy; earth and space; and organisms and	
environments in an accelerated fashion. This course will include a review of the Grade 6 Science objectives/TEKS	
and the remainder of the Grade 7 Science objectives/TEKS not addressed in Grade 6 Advanced and all of the Grade	
8 Science objectives/TEKS.	
Instructional Material: Savvas Texas Experience Science Grade 6, 7, 8	
Prerequisites: Gr 6 Science, Gr 6 Advanced Science and/or student/family interest	Grade level: 7
<u>What's Next?</u> Honors Biology or Integrated Physics/Chemistry or Gr 8 Science <b>Students will take STAAR Gr 8 Science</b> .	Credit(s): N/A
Gr 8 Science	0305 A/B
Sheltered Gr 8 Science - NP	0320 A/B
Sheltered Gr 8 Science	0322 A/B
In Grades 6 through 8 Science, content is organized into recurring strands. The concepts within each grade level	03060800
build on prior knowledge, prepare students for the next grade level, and establish a foundation for high school	
courses. In Grade 8, the following concepts will be addressed in each strand: scientific and engineering practices; recurring themes and concepts; matter and energy; force, motion, and energy; earth and space; and organisms and	
environments.	
Instructional Material: Savvas Texas Experience Science Grade 8	
Prerequisites: Grade 7 Science or Gr 7 Advanced Science	Grade level: 8
<u>What's Next?</u> Biology, Honors Biology, or Integrated Physics and Chemistry based on student and family interest.	Credit(s): N/A
Students will take STAAR Gr 8 Science.	
All Newcomer Program teachers must be content and ESL certified.	
Honors Biology	7574 A/B
Sheltered Honors Biology	7576 A/B
In Honors Biology, students engage in real-world data analysis and problem solving that sparks critical thinking	03010200
about our living world. As students engage in grade-level biology content described in the Biology AB course	
description, they utilize the kind of scientific reasoning skills needed to analyze the natural world and to succeed in	
future science and social science courses in high school, such as AP Biology, and college. Multiple opportunities to	
think and work like scientists include an emphasis on analytical reading and writing, strategic use of mathematics,	
and an expanded use of modeling. One credit of Biology is required for graduation. Instructional Material: Savvas Texas Experience Biology	Grade level: 8
Required Prerequisites: Successful completion of Gr 7 Advanced Science.	Credit(s): 1
<u>What's Next?</u> Honors Chemistry, OnRamps Chemistry 1, AP Physics 1, or OnRamps Physics 1	
<u>Note</u> : Students who successfully complete both semesters of the course will receive high school credit. The grade	
will not be used in the computation of high school GPA.	
Students will take the Biology EOC.	
Integrated Physics/Chemistry	7532 AB
Sheltered Integrated Physics/Chemistry	7528 AB
In Integrated Physics and Chemistry, students conduct laboratory and field investigations, use engineering	03060201
practices, use scientific practices during investigation, and make informed decisions using critical thinking and	-
scientific problem solving. This course integrates the disciplines of physics and chemistry in the following topics:	
force, motion, energy, and matter.	
Instructional Material: Activate Learning Texas IPC	Grade level: 8
Required Prerequisites: Successful completion of Gr 7 Advanced Science.	Credit(s): 1
<u>What's Next?</u> Biology or Honors Biology	
Note: Students who successfully complete both semesters of the course will receive high school credit. The grade	
will not be used in the computation of high school GPA.	
Students will take STAAR Gr 8 Science if not previously taken in middle school.	

#### **Botany T**

This course should be taken concurrently with Grades 6-8 science courses. Botany provides a lab-oriented course which utilizes the metric system in the study of plants. Investigations and experiments in the study of basic parts and functions of plants, classification of plants, and independent study projects are vital components of this course. Local credit course.

**0357 T (6th) or 0356 T (7th-8th)** 848800037 (6th) 84800038 (7th - 8th)

Instructional Material: No state adopted instructional materials	Grade level: 6-8

Sheltered Gr 7 Social Studies - NP	0336 A/B 0332 A/B
Sheltered Gr 7 Social Studies	0333 A/B
This course is a study of the history of Texas from early times to the present. It focuses on the full scope of Texas	03343000
history including the cultures of Native Americans living in Texas prior to European exploration and colonization.	
Major themes of revolution, independence, republic, and statehood are emphasized. The impact of individuals,	
events, and issues from each of these periods is examined and evaluated.

INSTRUMENTAL MUSIC	Beginner Music Level 1	Intermediate Music Level 2	Advanced Music Level 3
Band	0223	0226	0228
Orchestra	0252	0189	0244
Mariachi	0233	0235	0237

NOTE TO STUDENTS AND PARENTS: All middle school fine arts courses that were previously labeled as "levels 6, 7, or 8" are now re-labeled per the revised Fine Arts Texas Essential Knowledge and Skills (TEKS). All middle school fine arts courses will be labeled as MS 1, MS 2, or MS 3. These are not tied to grade levels. The first time any student, regardless of grade level, takes a fine arts course, it will be MS 1.

Band, Orchestra and Mariachi classes: scheduled based on instrument interview and selection recommendation from campus director.

Middle school students in the 6th Grade will take Music, Level 1 (Band, Orchestra, Mariachi). Middle school students in the 7th or 8th grade who are taking the course for the first time should enroll in Music, Level 1 (Band, Orchestra, Mariachi). 7th and 8th grade students who have taken Music, Level 1, or who have previous music experience, may audition and be placed in either Music, Level 2 (Intermediate) or Music, Level 3 (Advanced). This placement is by Audition only. Students in 7th and 8th grade may repeat Music, Level 2 and Music, Level 3. All courses are one-year long.

Middle School Band	See Chart
Beginner course provides instruction in the techniques of playing band instruments. Emphasis is placed on	03154130, 03154230, or
tone production, mastering the fundamentals and music reading.	03154330
Sub Non-Varsity, Non-Varsity, Varsity courses allow students the chance to develop tone quality and	
instrumental skills and techniques at the appropriate level.	
Attendance to all rehearsals/performances is required.	
Instructional Material: Contact Content Director	Grade level: 6-8
Prerequisites: Screening for appropriate instrument placement in the spring - Audition determines placement	Credit(s): N/A
into Intermediate or Advanced.	
What's Next? Sequential course	
Fulfills middle school fine arts requirement when taken in Grade 6.	
All classes are scheduled for appropriate like-instrument beginning class placement and performance level.	
Middle School Instrumental Ensemble	0182, 0184, 0248
Sub Non-Varsity, Non-Varsity or Varsity provide students the opportunity to develop and refine technical skills	03154133, 03154233, oi
and increase music knowledge with literature selected for performance and listening. Attendance to all	03154333
rehearsals/performances is required.	
nstructional Material: Contact Content Director	Grade level: 6-8
Prerequisites: Screening for appropriate instrument placement in the spring - Audition determines placement	Credit(s): N/A
into Intermediate or Advanced.	
<u>What's Next?</u> Sequential course	
Middle School Mariachi Ensemble	See Chart
Mariachi Band provides instruction in the techniques of playing the trumpet, violin, vihuela, guitar, and/or	03154133, 03154233, oi
guitarron or students to learn and perform the intricate music and rhythm styles of the Latino cultural heritage.	03154333
Students in this group must demonstrate a high level of commitment and superior citizenship to be successful.	
Mariachi performances will be given during the semester at concerts, festivals, and concerts. Attendance at all	
performances is required.	
Instructional Material: Contact Content Director	Grade level: 6-8
Prerequisites: Audition determines instrument and placement.	Credit(s): N/A
What's Next? Sequential course	
Offered only at JP Elder MS, W. James MS, Meacham MS, Rosemont MS, and Riverside MS.	
Middle School Jazz Ensemble	0267 A/B or
	0268 A/B
Qualified band students will focus on musical genre other than mainstream classical and pop music as played in	03154235 or 03154335
band with a focus on all areas of jazz music including performance technique, history, jazz literature,	
improvisation and interpretation.	
Instructional Material: Contact Content Director	Grade level: 7-8
Prerequisites: Placement based on successful completion of beginning band program, student's demonstration	Credit(s): N/A
of proficiency on his/her instrument, student interest, parental approval. Must be enrolled in primary	
Instrumental Encomble	

Instrumental Ensemble.

What's Next? Sequential course	
Middle School Orchestra	See Chart
Provides instruction in the technique of playing string instruments. Emphasis is placed on tone production, mastery of fundamentals, and music readings. Intermediate and Advanced levels develop tone quality,	03154132, 03154232, or 03154332
instrumental skills and techniques. Attendance at all performances is required.	

Instructional Material: Contact Content Director

<u>Prerequisites:</u> None for beginner level - Audition determines placement into Intermediate or Advanced. <u>What's Next?</u> Sequential course Grade level: 6-8 Credit(s): N/A

CHORAL MUSIC	Beginner Music Level 1	Intermediate Music Level 2	Advanced Music Level 3
6 <sup>th</sup> Grade Treble	0258		
6 <sup>th</sup> Grade Tenor/Bass	0259		
Treble	0258	0264	0266
Tenor/Bass	0259	0238	0240
Show Choir*	02591	02431	02401

Choral classes: scheduled based on vocal pedagogy needs of the changing and unchanged voice from campus director.

Show Choir classes: scheduled based on audition only.

Middle school students in the 6th Grade will take Music, Level 1 (Choir). Middle school students in the 7th or 8th grade who are taking the course for the first time should enroll in Music, Level 1 (Choir). 7th and 8th grade students who have taken Music, Level 1, or who have previous music experience, may audition and be placed in either Music, Level 2 (Intermediate) or Music, Level 3 (Advanced). This placement is by Audition only. Students in 7th and 8th grade may repeat Music, Level 2 and Music, Level 3. All courses are one-year long.

Middle School Choir	See Chart
Sixth-grade Treble or Tenor/Bass Choir provides an initial instruction to develop the fundamental vocal	
methods, techniques, music literacy, and music theory.	
Beginner Treble or Tenor/Bass Choir provides initial instruction to develop the fundamental vocal methods,	
techniques, music literacy and theory used in Intermediate and Advanced Middle School choral performing	
ensembles. Students in Intermediate and Advanced choral ensembles, by audition and teacher placement	
only, Attendance at all performances and evaluations are required for all choral ensembles.	
Instructional Material: Contact Content Director	Grade level: 6-8
Prerequisites: None for beginner level - Audition determines placement into Intermediate or Advanced.	Credit(s): N/A
What's Next? Sequential course	
All class assignments are based on vocal pedagogy needs of the changing and unchanged voice and must be scheduled appropriately for correct pedagogical placement.	
Show Choir*	See Chart
Show Choir provides training in different styles of repertoire, choreography, and showmanship in	
preparation for advanced performing show choirs in middle school. The student can earn PE credit for Level	
2/3, Show Choir 02431AB/02401AB as a TEKS-based course that meets the requirement of 100 minutes of	
moderate to vigorous physical activity per week if it is not being used to satisfy another requirement. The	
teacher does not have to be certified in PE. See Health & Physical Education section for course #.	
Instructional Material: Contact Content Director	Grade level: 7-8
Prerequisites: Auditioned by instructor, taken in sequence.	Credit(s): N/A

## World Languages

Graduation Requirements for Students under the Foundation Graduation Plan

#### Required for all students: World Languages - 2 Credits - Any two levels of the same language Performance acknowledgement in bilingualism and biliteracy. Students must demonstrate proficiency in two or more languages through completion of a minimum of three credits in the same language of a language other than English with a minimum GPA of the equivalent of 80 on a scale of 100; Meeting the admissions requirements of many state and national public and private universities, which include a **minimum of three vears** of study of a language other than English. All students, therefore, are strongly encouraged to study a minimum of three years of a language other than English in order to avail themselves of these opportunities. Students are encouraged to begin their language study in Grade 6 (Discovering Languages and Cultures) to get the strongest possible foundation, with the option to receive high school credit for successful completion of additional World Language courses in Grade 7 and 8. A student who successfully completes a dual language immersion/two-way or dual language immersion/one-way program at an elementary school may satisfy one credit of the two credits required in a language other than English. To successfully complete a dual language immersion program, a student must: 1. Have participated in a dual language immersion program for at least five consecutive school years; 2. Achieve high levels of academic competence as demonstrated by performance of meets or masters grade level on the STAAR in English or Spanish, as applicable; and 3. Achieve proficiency in both English and a language other than English as demonstrated by scores of proficient or higher in reading and speaking domains on language proficiency achievement tests in both languages. The second credit of a language other than English must be in the same language as the successfully completed dual language immersion program. TEC §28.0051 and TAC §74.12(b)(5)(F)

<u>What's Next?</u> AP Spanish V AB	
High school credit will be awarded for successful completion of both semesters of the course. Grades received in	
this course are not used in the calculation of high school GPA.	
However, beginning with the graduating class of 2025, the District shall also include in the calculation of high	
school GPA semester grades earned before grade 9 in Advanced Placement (AP) courses.	
Only offered at Stripling, William James & WLI.	
Spanish II AB	4073 A/B
Expands oral and written skills into more challenging constructions, increased reading comprehension, and a	03440200
variety of cultural experiences in the Spanish-speaking world. Offers practice in understanding and producing	
sentence-length utterances and brief, connected texts using recombination's of learned material. Promotes	
recognition of the role of culture and language components in communication.	
Instructional Material: 1646 - Primary – FWISD Curriculum Modules Texas Auténtico II, Pearson Education, Inc.; ISBN: 032890547X	
Prerequisites: Spanish Language Enrichment; taken in sequence	Grade level: 8
<u>What's Next?</u> Honors Spanish III AB	Credit(s): 1
Only offered at Stripling MS and McLean MS	
High school credit will be awarded for successful completion of both semesters of the course. Grades received in	
his course are not used in the calculation of high school GPA.	

### **Career and Technical Education (CTE)**

Public Notification of Non-Discrimination in Career and Technical Education Programs

The Fort Worth Independent School District offers Career and Technical Education programs in the following Career Areas:

Agriculture, Food and Natural Resources; Architecture and Construction; Arts, Audio Video Technology, and Communications (*Arts A/V*); Business, Marketing, and Finance; Education and Training; Energy (P-TECH Program only); Engineering; Health Science; Hospitality and Tourism; Human Services; Information Technology; Law and Public Service; Manufacturing; Transportation, Distribution and Logistics.

Admission to the above programs is based on interest, lottery selection, age appropriateness, and class space availability. It is the policy of Fort Worth ISD not to discriminate on the basis of race, color, religion, gender, national origin, age, sexual orientation, disability, gender identity and expression, military/veteran status, or any other basis prohibited by law in its vocational programs, services or activities and provides equal access to the Boy Scouts and other designated youth groups as required by Title VI of the Civil Rights Act of 1964, as amended; Title IX of the Education Amendments of 1972; and Section 504 of the Rehabilitation Act of 1973, as amended.

Fort Worth ISD will take steps to assure that the lack of English language skills will not be a barrier to admission and participation in all educational and vocational programs.

The Fort Worth Independent School District prohibits discrimination, including harassment, against any employee on the basis of race, color, religion, gender, national origin, age, sexual orientation, disability, gender identity and expression, military/veteran status, or any other basis prohibited by law. Retaliation against anyone involved in the complaint process is a violation of District policy. The following persons have been designated to handle inquiries regarding the non-discrimination policies:

Patricia Sutton, Director of Special Services, 215 NE 14th St., Fort Worth, TX 76164, 817.814.2458, E-mail: <u>Patricia.Sutton@fwisd.org</u>

Or

Cynthia Allen, Title IX Coordinator, 7060 Camp Bowie Blvd., Fort Worth, TX 76116, 817.814.1880, Email: <u>Cynthia.Allen1@fwisd.org</u>

Or

Dr. Lisa Langston, Director of UIL Compliance, 1501 University Dr, Fort Worth, TX 76107, 817.815.7307, Email: <u>Lisa.Langston@fwisd.org</u>.

## Future Ready Pathway

GRADE LEVEL	CAREER & TECHNICAL EDUCATION COURSE SEQUENCE
6 <sup>™</sup> GRADE	Computer Literacy T: 0390T (See Middle School Technology Applications section) AND Computer Enrichment Laboratory T: 0411A (See Middle School Technology Applications section)
7 <sup>™</sup> GRADE	General Employability Skills for CTE AB: CD0677AB (For high school credit)
8 <sup>™</sup> GRADE	Professional Communications Middle School T: CD09901 T (For high school Speech credit) AND Touch System Data Entry T: CD11301 T (For high school credit)

General Employability Skills for CTE (GEMPLS AB)	CD0677 A
This course is designed to guide students in obtaining the knowledge and the needed skills that are transferable	N1270153
among a variety of college, jobs and careers that are considered essential in any college and employment situation.	
Students will learn and apply basic knowledge of what is expected in the workplace as well as the pathway on how to	
obtain the career of their choice. Additionally, students will learn about all the Programs of Study offered at their	
eeder campuses and across the district. Students will choose the Program of Study of their interest and complete	
heir 6-year progression plan. Upon successful completion of this course, students will receive 1.0 high school credit. The	
grade received in the class is not used for the calculation of high school GPA. In order for the student to receive high	
school credit on their transcript, they must be in grades 7 or 8 and pass the course based on a high school grading scale.	
nstructional Material: Contact Career and Technical Education Department for related materials.	Grade level: 7
Recommended Prerequisites: Computer Literacy and Computer Enrichment	Credit(s): 1.0
<u>What's Next?</u> Professional Communications T and Touch Systems Data Entry T	
Offered at Middle School campuses.	
Professional Communications Middle School T (PROFCOMM T)	CD09901 T
Professional Communications blends written, oral, and graphic communication in a career-based environment.	13009900
Careers in the global economy require individuals to be creative and have a strong background in computer and	
echnology applications, a strong and solid academic foundation, and a proficiency in professional oral and written	
communication. Within this context, students will be expected to develop and expand the ability to write, read, edit,	
peak, listen, apply software applications, manipulate computer graphics, and conduct Internet research.	
Upon successful completion of this course, students will receive 0.5 high school credit. The grade received in the class is	
not used for the calculation of high school GPA. In order for the student to receive high school credit on their transcript,	
they must be in grades 7 or 8 and pass the course based on a high school grading scale. Professional Communications	
can be taught by a teacher with any career and technical education certification covering grades 7-12 but must be	
credentialled through the CTE Dept.	
nstructional Material: Professional Communications, 2017 Edition, Goodheart-Willcox Co.	Grade level: 8
Recommended Prerequisites: General Employability Skills for CTE	Credit(s): 0.5
Offered at Middle School campuses.	
Touch System Data Entry T (TSDATAE T)	CD11301 T
n Touch System Data Entry, students apply technical skills to address business applications of emerging technologies.	13011300
Students enhance reading, writing, computing, communication, and reasoning skills and apply them to the business	
environment. Students will need to apply touch system data entry skills for production of business documents. Upon	
successful completion of this course, students will receive 0.5 high school credit. The grade received in the class is not	
used for the calculation of high school GPA. In order for the student to receive high school credit on their transcript, they	
must be in grades 7 or 8 and pass the course based on a high school grading scale. The teacher must hold a Business	
eaching certificate.

### Health and Physical Education

The Texas Education Code, (TEC) 38.101, requires the District to test the physical fitness of students enrolled in grades 3-12 in any course that satisfies the curriculum requirements for physical education on an annual basis. This includes all courses that qualify as Physical Education substitutions. Additionally, TEC 38.103 requires the District to provide the results of individual student performance on the physical fitness assessment to the Texas Education Agency. The annual fitness assessment requirement is coordinated by the FWISD Department of Health and Physical Education.

Moving to Wellness	0174 A/B
Mandatory year-long course. No course substitution allowed. Each student will participate in learning and	02850000
practicing the key concepts of lifelong wellness; all the TEKS for 6th grade Physical Education and Health are	
addressed in the course. Students will, in most instances, participate in the physical part of the class every other	
week for a total of 225 minutes every two-week period. The physical education component of the class is	
lesigned to develop motor skills, knowledge, and behaviors for participating in a variety of lifetime physical	
ctivities and health-enhancing physical fitness. Additional physical components include sportsmanship, self-	
fficacy, emotional intelligence, and learning in three domains: cognitive, psychomotor, and affective. Students	
vill participate in at least 6 components of a health-related fitness assessment at least once a year. The health	
ducation component of the class is designed to develop knowledge and skills for adopting healthy behaviors	
or a lifetime of enhanced wellness. Key health components include Emotional & Mental Health; Nutrition &	
Physical Activity; Tobacco, Alcohol & Drug Prevention; Violence & Injury Prevention; and Abstinence, Puberty &	
Personal Health.	
nstructional Material: 0666 – HealthSmart, ETR, Choosing the Best, and SPARK Physical Education	Grade level: 6
Prerequisites: None	Credit(s): N/A
Vhat's Next? Physical Education or Competitive Athletics	
Gr 7 or 8 Physical Education	0172 A/B (7th) or
	0173 A/B (8th)
hese physical education courses are designed to develop motor skills, knowledge, and behaviors for active	03823000
iving, physical fitness, sportsmanship, self-efficacy, and emotional intelligence. Both courses have unique and	
lifferentiated content to support the development and enhancement of physical literacy for a lifetime of	
hysical activity participation and improved wellness.	
nstructional Material: SPARK Physical Education	Grade level: 7-8
Prerequisites: None	Credit(s): N/A
<u>Vhat's Next</u> ? High School Health & Physical Education	
Competitive Athletics, Boys Athletics, Gr 7	0167 A/B
Competitive Athletics, Girls Athletics, Gr 7	0168 A/B
Competitive Athletics, Boys Athletics, Gr 8	0169 A/B
Competitive Athletics, Girls Athletics, Gr 8	0170 A/B
his course is designed to enhance student-athletic sports, skill development, appreciation for	03823000
portsmanship, knowledge of the sport, understanding and value of rules of play, and physical fitness.	
All three aspects of competitive athletic development are addressed: physical, mental, and social. Student	
hould possess a desire to participate in competitive athletics, which involves outside-of-school-day	
participation in practices and games for in-season sport.	
nstructional Material: No state adopted instructional material(s)/Contact content Director.	Grade level: 7-8
Prerequisites: Student is willing to make a commitment to participate in two or more sports after school. Student	Credit(s): N/A
s also required to complete the UIL Pre-Participation Physical Evaluation-Physical Examination/Medical	
History forms before participation in any practice before, during, or after school. Fort Worth ISD requires the	
completion of seven (7) Fort Worth ISD/UIL Pre-Participation forms before participating in athletic class. Forms	
must be complete before the tenth day of the new school year.	

May substitute for PE credit.

#### The following chart indicates course names and numbers of all seventh and eighth grade competitive athletics.

Seventh	Grade Athletics	 Eighth G	rade Athletics

GTK72	Girls Track 7AB	GTK82	Girls Track 8AB

**<u>District-approved off-campus activities</u>** may also substitute for required physical education if specific criteria are met, per Policy ELF (Legal and Local).

The Fort Worth ISD Physical Education Waiver Program provides an opportunity for students in grades 7-12 to receive credit for participation in an off-campus athletic/training program. FWISD is authorized by the Texas Education Agency (TEA) to substitute participation in private or commercially sponsored programs for the FWISD middle school physical education requirement (7<sup>th</sup> & 8<sup>th</sup> grades) and the state-required high school physical education graduation credit. The FWISD Health and Physical Education Department must ensure the program, agency, and instructor meet the waiver criteria in order to approve all requests through the application process.

All inquiries and applications are to be directed to the Director of the FWISD Health and Physical Education Department. Applications are due prior to Labor Day for the fall semester and by January 15 for the spring semester. A FWISD enrollment fee of \$25.00 will be assessed per semester unless a single payment of \$50.00 for both semesters is made at the beginning of the year. Fees are subject to change.

# Junior Cadet Corps

Junior Cadet Corps I, II, III	0164 A/B(6th), 0166 A/B (7th), or 0176 A/B (8th)
The Junior Cadet Corps (JCC) curriculum is created on the foundation and success of our nation's Junior Reserved Officer's Training Corps (JROTC). JCC addresses a number of national academic and state standards. This curriculum includes course work on Leadership, Civic Service, Health and Wellness, Language Arts, STEM Robotics, and Life Skills. Additionally, JCC Instructors will use the Character, Health, & Fitness, Service, and Leadership (ChiSL) curriculum to enhance student outcomes, increase community leadership, and character development. The JCC curriculum is based on the principles of performance-based, interactive learner-centered education. It promotes the development of critical thinking, capacity for life-long learning, communication skills, decision-making, good citizenship, and respectful treatment of others.	85000XXX (6th) or 03823000 (7th-8th)
nstructional Material: Student Text, Revised JCC handbook dated August 2022; VNEP Global Map, selected VNEP lessons, and revised JCC Instructor Workbook/ Contact JROTC Operations and Training Prerequisites: None for Grade 6, for grades 7 & 8, the student must have completed the first semester prior to enrolling in the second semester <u>What's Next?</u> Next Cadet Level Local credit only for the 6th grade class. The 7th and 8th grade courses meet the TEKS for PE for grades 7 and 8, respectively, and can substitute for PE in those grades.	Grade level: 6-8 Credit(s): N/A

# HIGH SCHOOL APPROVED COURSES GRADES 9-12

# Academic Preparatory Programs

AVID I (ADVANCEMENT VIA INDIVIDUAL DETERMINATION I AB) (AVID I AB)	0660 AB
The 9 <sup>th</sup> grade AVID Elective course will serve as a review of the AVID philosophy and strategies. Students will work	N1290001
on academic and personal goals, communication, and adjusting to the high school setting. Students will increase	Grade level: 9
wareness of their personal contributions to their learning, as well as their involvement in their school and	HS Credit(s): 1.0
community. There is an emphasis on analytical writing, focusing on personal goals and thesis writing. Students will	College Hour(s): N/A
vork in collaborative settings, learning how to participate in collegial discussions and use sources to support their	Tier III
deas and opinions. Students will prepare for and participate in college entrance and placement exams, while refining	
tudy skills and test-taking, note-taking, and research techniques. They will take an active role in field trips and guest	
peaker preparations and presentations. Their college research will include financial topics and building their	
nowledge of colleges and careers of interest.	
nstructional Material: Materials provided through contract with AVID Center	
Prerequisites: Middle School AVID, or Application to and Acceptance into 9th Grade AVID program	
AVID is a state-approved academic elective credit course.	
<u>What's next?</u> AVID II AB (Advancement Via Individual Determination)	0001 45
AVID II (ADVANCEMENT VIA INDIVIDUAL DETERMINATION II AB) (AVID II AB)	0661 AB
During the 10 <sup>th</sup> grade AVID Elective course, students will refine the AVID strategies to meet their independent needs	N1290002
Ind learning styles. Students will continue to refine and adjust their academic learning plans and goals, increasing	Grade level: 10
wareness of their actions and behaviors. As students increase the rigorous course load and school/community	HS Credit(s): 1.0
nvolvement, they will refine their time management and study skills accordingly. Students will expand their writing	College Hour(s): N/A
portfolio to include: analyzing prompts, supporting arguments and claims, character analysis and detailed reflections.	Tier III
itudents will also analyze various documents, in order to participate in collaborative discussions and develop	
eadership skills in those settings. Students will expand their vocabulary use, continuing to prepare for college	
entrance exams. Text analysis will focus on specific strategies to understand complex texts. Lastly, students will narrow down their college and careers of interest, based on personal interests and goals.	
nstructional Material: Materials provided through contract with AVID Center	
Prerequisites: AVID I, or Application to and Acceptance into 10th Grade AVID	
AVID is a state-approved academic elective credit course.	
<u>What's next?</u> AVID III AB (Advancement Via Individual Determination)	
AVID III (ADVANCEMENT VIA INDIVIDUAL DETERMINATION III AB) (AVID III AB)	0671 AB
The 11 <sup>th</sup> grade AVID Elective course is the first part in a junior/senior seminar course that focuses on writing and	N1290030
ritical thinking expected of first- and second-year college students. This course is organized around the theme of	Grade level: 11
Leadership as a Catalyst for Change in Society." Students study, in depth, exceptional leaders in contemporary society	
ind examine the effect that these individuals have had on culture, politics, education, history, science and the arts. The	College Hour(s): N/A
ourse requires that students read essays, speeches, articles and letters by these leaders, as well as at least one full-	Tier III
ength work by the leader or about the leader. Also, each student is required to conduct a research project that is	
resented in the senior year. In addition to the academic focus of the AVID seminar, there are college-bound activities,	
nethodologies and tasks that should be undertaken during the junior year to support students as they apply to four-	
ear universities and confirm their postsecondary plans.	
nstructional Material: Materials provided through contract with AVID Center	
Prerequisites: Successful completion of AVID II; No students are admitted "new" to AVID junior year without AVID	
District Director approval	
WID is a state-approved academic elective credit course.	
<u>What's next?</u> AVID IV AB (Advancement Via Individual Determination)	
AVID IV (ADVANCEMENT VIA INDIVIDUAL DETERMINATION IV AB) (AVID IV AB)	0664 AB
The AVID Elective 12 <sup>th</sup> grade course is the second part in a junior/senior seminar course that focuses on writing	N1290033
and critical thinking expected of first- and second-year college students. This course continues around the theme of	Grade level: 12
Leadership as a Catalyst for Change in Society." Students will complete a final research essay project from research	HS Credit(s): 1.0
onducted in their junior year in AVID. In addition to the academic focus of the AVID senior seminar, there are	College Hour(s): N/A
ollege-bound activities, methodologies and tasks that should be achieved during the senior year that support	Tier III
tudents as they apply to four-year universities and confirm their postsecondary plans. All AVID seniors are required	
o develop and present a portfolio representing their years of work in the AVID program, as well as complete the	
equirements for the seminar course. The AVID Senior Seminar (AVID IV) is the culmination of a student's years in the	
WID program and involves substantial critical reading and writing, and preparation for external exams. Students eceive assistance in completing their college and financial aid/scholarship applications. In addition, students will	

Instructional Material: Materials provided through contract with AVID Center	
Prerequisites: Successful completion of AVID III; no students are admitted "new" to AVID senior year without AVID	
District Director approval	
AVID is a state-approved academic elective credit course.	
DUAL CREDIT COLLEGE TRANSITION AB (CLGTRN AB DC)	0668 AB
TCC Course: College Learning Framework (EDUC 1300)	
A study of the research and theory in the psychology of learning, cognition, and motivation; factors that impact	N1290050
learning; and application of learning strategies. Theoretical models of strategic learning, cognition, and motivation	Grade level: 9-12
serve as the conceptual basis for the introduction of college-level student academic strategies. Students use	HS Credit(s): 1.0
assessment instruments (e.g., learning inventories) to help them identify their own strengths and weaknesses as	College Hour(s): 3 hours
strategic learners. Students are ultimately expected to integrate and apply the learning skills discussed across their	Tier I
own academic programs and become effective and efficient learners. Students developing these skills should be	
able to continually draw from the theoretical models they have learned.	
Instructional Material: Contact Content Director	
Prerequisites: None	
This is a regular college-level Education course in which dual credit will be awarded for College Education and high	
school College Transition. The student will receive 3 hours college credit and 1 high school credit when completed	
successfully.	
PREPARING STUDENTS FOR ADVANCED TESTING I T (PSAT I T)	8221 T
Provides students an opportunity to develop test-taking strategies for use on PSAT, SAT, and other college entrance	Local Credit Only
examinations. Skills addressed help improve performance on standardized tests. Includes vocabulary building, reading	Grade level: 9-12
improvement, mathematics, and reasoning skills.	HS Credit(s): 0
Instructional Material: Contact Content Director	College Hour(s): NA
Prerequisites: Student interest	Tier III

<u>Prerequisites:</u> Student interest Local credit only. No credit is earned toward graduation for this course.

#### **ENGLISH LANGUAGE ARTS GRADUATION REQUIREMENTS**

#### ALL STUDENTS ARE REQUIRED to take English I (EOC) & English II (EOC) or EngSOL | & ||

#### All Foundation Plans (22 & 26 credits) Require 4 English credits

The 3rd English credit may be selected from the following:

- English III
- AP Language & Composition
- DC English Composition
- AP Literature & Composition
- OnRamps English Rhetoric & Writing 3044AB (may only take once for Eng III OR Eng IV - 1 credit)

**The 4th English credit** may be selected from one full credit or a combination of two half credits from two different courses, subject to prerequisite requirements.

The 4th English credit may be selected from the following:

- English IV
- Humanities
- AP Language & Composition
- AP Literature & Composition
- OnRamps English Rhetoric & Writing 3045AB (may only take once for Eng III OR Eng IV - 1 credit)
- Business English
- College Preparatory English
- DC English Composition
- DC Research & Technical Writing
- DC British Literature
- DC American Literature

#### Possible Endorsement Opportunities:

- Multidisciplinary
- Business & Industry
- Arts & Humanities

#### English Language Arts Recommended Course Sequence and Testing Guide

ourse taught by locally certified gifted teacher who has attended at least one AP or NMSI Summer Institute for the cou- eachers with an emergent bilingual student enrolled in the course must be English and ESL certified.  NGLISH III AB HELTERED ENGLISH III AB (EL students in Newcomer Program) HELTERED ENGLISH III AB NGLISH III AB rovides opportunities for students to continue increasing and refining their communication skills. Students read and write literary and informational genres. Students read extensively in multiple genres from American and World terature while learning literary forms and terms from the selections read. Students address the writing, reading, beaking, listening, viewing, and representing skills that are reflected in the TEKS. structional Material: McGraw Hill Study Sync, Grade 11 TX Std, ISBN 9781265535973 rerequisites: English II /hat's Next? English IV AB; Dual Credit English Composition; Research/Technical Writing eachers with an emergent bilingual student enrolled in the course must be English and ESL certified. InRamps ENGLISH RHETORIC & WRITING AB nis Rhetoric and Writing course provides opportunities for students to learn to analyze the various positions held any public debate and learn to advocate their own positions effectively. Students explore the ethics of rgumentation and what it means to "fairly" represent someone with whom they disagree. Students are then ready o analyze and compose arguments about American identity and identity formation, both personal and cultural. ne goal is to foster students' abilities to analyze arguments presented by others and to write sound and effective rguments of their own — abilities that contribute meaningfully to their academic, professional, personal, and civic rese. Using a hybrid delivery approach, students meet rigorous university-level college readiness standards and ave the opportunity to earn UT Austin credit from a UT faculty member and high school credit from their local teacher. 4. This course will be taught on a high school campus, and follows curricular guidance from Tarrant County Community College but follows all FWISD grading guidelines.

Teachers with an emergent bilingual student enrolled in the course must be English and ESL certified.

Texas College Bridge English (Online)	9005 T
This is a College Preparatory course for seniors only intended to help students hone their skills prior to collegiate	CP110100
level English courses.	
Instructional Material: Prestwick House: College & Career Readiness: Writing; Texas College Bridge stipulates the	Grade level: 11-12
resources and requires teacher training	Credit(s): 1
Prerequisites: Students who have not yet met college readiness standards	College Hour(s): N/A
<u>What's Next?</u> N/A	Tier III
Credits for this program alone are not available to count toward graduation.	*This course counts for elective
• This course is a preparation course for success in collegiate level English and will provide exemption at	credit only towards graduation
Higher Ed Institutions that partner with Texas College Bridge.	
• Students will receive a certificate of completion up finishing both Stage 1 and Stage 2 to share with	
colleges or universities that partner with Texas College Bridge and the student intends to enroll.	
These College Preparatory courses are developmental courses and will not provide any dual credit. See the	
decision-point situations listed below that a student should consider in determining if this course will provide the	
benefits he/she needs.	
1. If the student is not enrolled in a program that offers a certification/licensure.	
2. If the student is not within 3 college credit hours in Math/English or 9 college credit hours in other.	
3. If student is not enrolled in a Dual Credit, IB, AP, nor OnRamps Course or if student grades and/or	
test scores are not aligned with success for the student enrolled in the course.	
4. If student intends to enlist in the military and no other CCMR pathway is assigned.	
5. If student is not enrolled in any CCMR course or programs.	
6. If student wants to participate in the program for TSIA prep or other reasons.

INDEPENDENT STUDY IN ENGLISH AB	3138
Students enrolled in Independent Study in English will focus on a specialized area of study such as the work of a	03221800
particular author or genre. Students will read and write in multiple forms for a variety of audiences and purposes.	
High school students are expected to plan, draft, and complete written compositions on a regular basis and	
carefully examine their papers for clarity, engaging language, and the correct use of the conventions and mechanics	
of written English. Independent Study in English may be repeated with different content for up to three state	
elective credits.	Grade level: 12
Instructional Material: No state-adopted instructional material(s)/Contact Content Director	Credit(s): 0.5 - 1
Prerequisites: Creative and Imaginative Writing IT	College Hour(s): NA

#### DUAL CREDIT INDEPENDENT STUDY IN ENGLISH: CREATIVE WRITING T TCC Course: Creative Writing I (ENGL 2307)

Students enrolled in this course will focus on a rigorous composition course that asks high school students to demonstrate their skill in such forms of writing as fictional writing, short stories, poetry, and drama. All students are expected to demonstrate an understanding of the recursive nature of the writing process, effectively applying the conventions of usage and the mechanics of written English. The students' evaluation of their own writing as well as the writing of others ensures that students completing this course are able to analyze and discuss published and unpublished pieces of writing, develop peer and self-assessments for effective writing, and set their own goals as writers.

AP CAPSTONE PROGRAM – COURSE 1: AP SEMINAR	3065 AB
In AP Seminar, students investigate real-world issues from multiple perspectives, gathering and analyzing	N1130026
information from various sources in order to develop credible and valid evidence-based arguments. Students	
engage in cross-curricular conversations that explore the complexities of academic and real-world topics and issues	
by analyzing divergent perspectives.	
Students learn to synthesize information from multiple sources, develop their own perspectives in research-based	
written essays, and design and deliver oral and visual presentations, both individually and as a part of a team.	Grade level: 9 - 12
Instructional Material: St. Martin's Guide to Writing, Bedford, Freeman, & Worth, ISBN: 1319245072	Credit(s): 0.5 - 1
<u>Prerequisites:</u> None	College Hour(s): NA
<u>What's Next?</u> NA	Tier I
Teachers with an emergent bilingual student enrolled in the course must be English and ESL certified.	
AP CAPSTONE PROGRAM – COURSE 2: AP RESEARCH	3067 AB
In AP Research, students cultivate the skills and discipline necessary to conduct independent research in order to	N1100014
produce and defend a scholarly academic thesis. Students explore an academic topic, problem, or area of	
individual interest deeply. Through this exploration, they design, plan, and conduct a yearlong mentored, research-	
based investigation to address a research question. In this course, students further skills acquired in the AP	
Seminar course by understanding research methods, employing ethical research practices, and accessing, analyzing,	
and synthesizing information as they address a research question. The course culminates in an academic thesis	
paper of approximately 5000 words and a presentation, performance, or exhibition with an oral defense.	
paper of approximately 5000 words and a presentation, performance, or exhibition with an oral defense.

Reading II offers students instruction to successfully navigate academic demands and attain life-long literacy skills.	03270800
Specific instruction in word recognition, vocabulary, comprehension strategies, and fluency provide students an	
opportunity to read with competence, confidence, and understanding. Students will learn how traditional and	
electronic texts are organized and how authors choose language for effect. These strategies will be applied in	
instructional-level and independent-level texts that cross the content areas. Note: LPAC will determine placement	
for Transition EL students are placed in this course or in Intensive Reading II. Maximum enrollment: 25 students.	
This course may be stacked with Reading I.

# Speech Graduation Requirements

# ALL STUDENTS ARE REQUIRED to take 1 semester of Speech

#### All Plans (22 & 26 credits) Require 0.5 Credit in Speech

#### Speech (1/2 Credit) may be selected from the following

- Professional Communications (CTE course in each cluster)
- Communication Applications
- Public Speaking
- Debate I
- Honors Debate I
- Independent Study in Speech
- DC Communication Applications

PROFESSIONAL COMMUNICATIONS T	AV09901 T
Professional Communications (CTE Course) blends written, oral, and graphic communication in a career-based	13009900
environment. Careers in the global economy require individuals to be creative and have a strong background in	
computer and technology applications, a strong and solid academic foundation, and a proficiency in professional	
oral and written communication. Within this context, students will be expected to develop and expand the ability to	
write, read, edit, speak, listen, apply software applications, manipulate computer graphics, and conduct Internet	
research.	Grade level: 9 – 12
nstructional Material: Fundamentals of Business Communication, Goodheart-Willcox Publisher; ISBN: 9781605254722	Credit(s): 0.5
Prerequisites: None	College Hour(s): NA
Vhat's Next? NA	Tier III
Professional Communications can be taught by any teacher certified in speech or any teacher with a Career and	
Technical Education certification who holds a baccalaureate degree and has completed six semester credit hours in speed	ch.
Teachers with an emergent bilingual student enrolled in the course must be CTE or Speech and ESL certified.

COMMUNICATION APPLICATIONS T	3126 T
Inderstanding and developing skills in communication are fundamental to all other learning and to all levels of	03241400
numan interaction. For successful participation in professional and social life, students must develop effective	
communication skills. Rapidly expanding technologies and changing social and corporate systems demand that	
tudents send clear verbal messages, choose effective nonverbal behaviors, listen for desired results, and apply valid	
critical-thinking and problem-solving processes. Students enrolled in Communication Applications will be expected	
o identify, analyze, develop, and evaluate communication skills needed for professional and social success in	
nterpersonal situations, group interactions, and personal and professional presentations. When possible, students	
should consider taking Professional Communications (CTE) in lieu of this course.	Grade level: 9 – 12

#### **Overview Information: High School**

#### Introduction

The courses described in this section of the Course Catalog are those which Fort Worth ISD offers to address the needs of emergent bilingual (EB)\* students at various levels of English proficiency and academic need. The courses comply with state law requirements included in...

- 19 TAC Chapter 89: Bilingual/ESL program requirements and
- TAC Chapter 74.4: Curriculum Requirements, English Language Proficiency Standards

The Language Proficiency Assessment Committee (LPAC) at each campus is responsible for ensuring that all EBs are placed in appropriate programs and for monitoring student performance throughout the year.

# Key Information about FWISD Program Designs

Fort Worth ISD offers two broad types of programs for secondary EBs:

• <u>Newcomer Program</u> (includes INA, Success Day School, and Language Centers at Arlington Heights, Diamond Hill Jarvis, Polytechnic, O.D. Wyatt, Southwest, Western Hills, Eastern Hills, Paschal, Northside, South Hills, and Carter Riverside High Schools)

This program (sometimes referred to as the Language Center Program) is for recent-immigrant students within their first two (2) years in U.S. schools. The program provides specialized ESL/ESOL and reading courses, other English "support" courses, and sheltered core content-area courses in which extensive scaffolding and linguistic accommodations, as well as special materials, are used. Most students are at the beginning or intermediate levels of English proficiency. *Students identified as "Newcomers" shall be scheduled into an RLA double-block for ESOL I along with ELDA (first time taken). ESOL I may be substituted for English I, however it is imperative to recognize the critical processes and features of second language acquisition and to provide appropriate instruction to enable students to meet these standards.* Newcomer students may be scheduled in core courses identified as "sheltered" for Science, Math, and Social Studies. Sheltered courses may be "stacked" but should not exceed 28 students. The English Language Development & Acquisition (ELDA) course is only offered at designated campuses. All secondary campuses serving EBs shall offer sheltered courses or general core courses with built-in scaffolds and strategies to meet the language needs of EBs.

These programs are for EB students who are not identified as Newcomers and have been in U.S. schools for 3+ years. Due to their time spent in U.S. schools, these students have reached a high enough level of language proficiency and academic achievement to be in mainstream classrooms with scaffolded supports to continue meeting their unique needs for language acquisition. EBs receiving ESL services may be scheduled in Sheltered courses that may comprise of Sheltered English and reading courses, as well as sheltered core content-area courses in which some degree of scaffolding and linguistic accommodations are provided. Most students demonstrate high intermediate to advanced levels of English proficiency. Students are to be cluster- scheduled into regular "stacked" content-area classes and identified according to the course numbers shown in this section of the course catalog. Sheltered courses are offered in some form on all campuses.

<u>High School:</u> At high school, the program is referred to as Transition English, and the ELA courses are called Sheltered English and Sheltered Reading; teachers teaching the courses <u>must</u> be ESL Certified.

\*EB = Emergent bilingual is a term used here to refer to students:

- who come from homes where languages other than English are used **and**
- who are assessed through state tests to be less than proficient in listening, speaking, reading <u>or</u> writing English.

<sup>†</sup>**Cluster-scheduled** = scheduling students in groups (not to exceed 50% of a class) into regular "stacked" classes, keeping the number of teachers assigned to the lowest number needed to provide quality programs. These instructional settings should not result in having clusters of EB students and clusters of special education students in the same classroom.

<sup>• &</sup>lt;u>ESL</u>

#### **Explanation: Recommended Course Sequence Charts for Newcomer Program Students**

Immigrant students who are new to this country and who speak little/no English arrive at various points during the school year. These students may have varying levels of educational background, and, if they are high-school-age students, are often older for grade 9 placement. However, they may still have to be placed in grade 9 because they were not able to bring educational records with them, often due to disruptions in their home countries. Consequently, it is necessary to have specific, and different, course sequence arrangements for the students (according to their dates of entry into the U.S., their educational backgrounds, and their ages) so that campuses can provide the sequence of courses that best allows for language development and provides reasonable opportunity for graduation within four to five years (including summer).

\*Contact Bilingual/ESL Department for course sequences for over-age and unschooled students.

# **Emergent Bilingual Students (EBs)**

INTRODUCTORY ENGLISH FOR SPEAKERS OF OTHER LANGUAGES AB	0542 AB
This course is designated specifically for students enrolled at International Newcomer Academy (INA) or	84000032
Success Day program who are identified as an emerging reader and/or identified as a SLIFE student in	
need of intensive instruction in basic literacy and in formal learning experiences to participate	
successfully in the sheltered EngSOL I course provided at INA/Success. Offered in combination with a	
second course (Introductory ESL/Reading), this course will focus on developing oral English skills, basic	Grade level: 9
English literacy, general cognitive skills, and social/academic learning behaviors needed for success in	Credit(s): 1 (Local credit only)
J.S. school settings. This course will particularly emphasize the development of English writing skills in	College Hour(s): NA
context with science, social studies, and ELA content.	Tier III
Instructional Material: No state adopted textbook/ Contact ESL Coordinator	
Prerequisites: EB and immigrant status, first year of enrollment in FWISD; enrolled in International	
Newcomer Academy or Success Day program; identified as emerging reader and/or identified as a SLIFE	
student.	
<u>What's Next?</u> 0541 AB English I for Speakers of Other Languages/NP I AB	
No credit toward graduation is earned for this course.	
Teachers teaching this course must be ELAR and ESL certified.	
ENGLISH I FOR SPEAKERS OF OTHER LANGUAGES AB	0541 AB (req EOC test)
	05415 AB (spec ed service
This course is designed specifically for immigrant students who are beginning- or low-intermediate-level	03200600 (req EOC test)
earners of English and who need intensive, focused instruction in English. (It is paired with ELDA I). The	03200605 (spec ed services)
course is based on the ELAR TEKS included with the English I course and stresses development of English	
language proficiency and language learning skills, as well as introduction to American school	
expectations and American culture. Both reading and writing are integral parts of the course, with stress	
placed on writing skills and processes.	
Instructional Material: McGraw Hill Study Sync, Grade 9 TX Std, ISBN 978126553593	Grade level: 9

Instructional Material: Textbooks provided by Literacy Director and/or ESL Coordinator, including Edge Level A, Achieve 3000 and other material as appropriate for students' levels of language proficiency. Prerequisites: EB and immigrant status; enrollment in International Newcomer Academy, Success Day Program or Language Centers	Grade level: 9 Credit(s): 1 College Hour(s): NA <b>Tier III</b>
<u>What's Next?</u> Subsequent placement in Sheltered Reading NP II AB depends upon performance of student on ELAR EOC and on review and recommendation by LPAC.	
Teachers teaching this course must be Reading and ESL certified. SHELTERED READING NP II AB	3944 AB
This course is based on ELAR TEKS with instruction scaffolded for EB students and continues to provide	03270800
reading instruction that stresses literacy development across content areas. The course focuses on helping EB students extend their academic English language skills and use of learning strategies, analyze and	05270000
evaluate various types of text, and acquire the ELAR reading TEKS.	Grade level: 10
Instructional Material: Textbooks provided by Literacy Director and/or ESL Coordinator, including Edge Level	Credit(s): 1
B, Achieve 3000 and other material as appropriate for students' levels of language proficiency.	College Hour(s): NA
Prerequisites: EB and immigrant status; enrollment in Success Day Program or Language Centers; completion of Sheltered Reading NP I	Tier III
What's Next? Subsequent placement in Sheltered Reading NP III AB depends upon performance of	
student on ELA EOC and on review and recommendation by LPAC. Teachers teaching this course must be Reading and ESL certified.	
HUMANITIES NP I AB	8054 AB
This is an interdisciplinary course integrating the content of U.S. history from colonization through Reconstruction with literature and art from that era. As part of the course, students who are newly arrived to the U.S. and who did not receive instruction in early U.S history in middle or elementary school, learn	03221600
important concepts about that period of time and read and analyze related literature and art to increase	Grade level: 10
understanding of important facts and develop appreciation of how writing and art reflect cultural views	Credit(s): 1
and attitudes. Students participate in discussions and oral presentations and read and write various types	College Hour(s): NA
of text. The course is based on Humanities TEKS.	Tier III
Instructional Material: No state adopted textbook/ contact content Director	
<u>Prerequisites:</u> EB and immigrant status; completion either of one year of INA or Success Day program or one year as in Language Centers	
What's Next? Subsequent placement in Sheltered U.S. History or U.S. History courses depends upon	
performance of student on ELA EOC and on review and recommendation by LPAC.	
Teachers teaching this course must be English and ESL certified. (State elective credit)	
INTRODUCTORY MATHEMATICS NP	7415 AB
This course provides instruction for students who need additional study in computational skills before	NONE
entering Algebra. This course includes operations with whole numbers, decimals, percent, and consumer	
applications. Units on measurement, statistical graphs, and geometry will be taught.	Grade level: 9-12
Instructional Material: Determined by INA/Success staff with support from Mathematics Director and ESL	Credit(s): 1 local credit only
Coordinator	College Hour(s): NA
<u>Prerequisites:</u> EB and immigrant status; first year of enrollment in FWISD; enrolled at International Newcomer Academy or Success Day program; identified as emerging reader and/or identified as a SLIFE student.	Tier III

COMMUNICATION APPLICATIONS T	3127 T
This course extends oral interaction skills and stresses communication in professional/social contexts,	03241400
including levels and appropriateness of language, etiquette and protocol in specific situations, group roles,	
leadership, and preparation/analysis/evaluation of formal presentations. The course is based on the TEKS.	
Instructional Material: 1102 - Communication Works! McGraw-Hill School Division, ISBN: 0658002996	Grade level: 10-11
Prerequisites: EB and immigrant status; enrollment in Success Day program or Language Centers	Credit(s): 0.5
What's Next? Subsequent placement in Practical Writing Skills IAB (for ESL students) depends on	College Hour(s): NA
performance of student on ELA EOC and on review and recommendation by LPAC.	Tier III
Teachers teaching this course must be Speech and ESL certified.	
Meets state requirement for Speech for ESL students.	
PRACTICAL WRITING SKILLS AB	3140 AB
This course stresses writing needed in work and daily life situations, editing strategies for improving	03221300
content and conventions, overall writing processes, and strategies for evaluating effectiveness of their own	
and others' writing. This course is based on the TEKS.	
Instructional Material: No state adopted textbook/Contact ESL Coordinator	Grade level: 10-11
Prerequisites: EB and immigrant status; enrollment in Success Day program or Language Centers	Credit(s): 1
What's Next? Subsequent placement depends upon performance of student on ELA EOC and on review	College Hour(s): NA
and recommendation by LPAC.	Tier III
Teachers teaching this course must be ELAR and ESL certified.	
AMERICAN CULTURES STUDY	8038 T
This course provides an opportunity for an in-depth examination of various cultural or ethnic	03380002
groups in the United States. The course is designed to develop English language skills,	
appreciation and respect for cultural diversity and the contributions made by various groups	Grade level: 9-10
to the American landscape while incorporating the skills and content understanding needed	Credit(s): 0.5
by students to be successful on the US History EOC. This course is based on the TEKS.	College Hour(s): NA
Instructional Material: No state adopted textbook/ contact ESL Coordinator	Tier III
Prerequisites: World History Studies I or World Geography Studies I; teacher recommendation;	
parental approval; student interest	
<u>What's Next?</u> Subsequent placement in Sheltered World History AB (for EB students)	
Teachers teaching this course must be secondary Social Studies certified.	
Note: Special topics in Social Studies may be repeated with different topics for up to two (2)	
state elective credits.

ALGEBRA I AB	7051 AB
SHELTERED ALGEBRA I AB – NP	7043 AB
SHELTERED ALGEBRA I AB	7048 AB
ALGEBRA I AB	70515 AB
Students will study linear, quadratic, and exponential functions and their transformations, equations, and associated	03100500
olutions in both mathematical and real-world situations. Students will use technology to collect and explore data	
and analyze statistical relationships. In addition, students will study polynomials of degree one and two, radical	
expressions, sequences and laws of exponents. Algebra I is required for graduation.	
nstructional Material: 1521 – Algebra 1 Texas Hybrid Consumable Student Resource, Houghton Mifflin Harcourt; ISBN:	Grade level: 9
9780544555730	Credit(s): 1
Prerequisites: Mathematics, Grade 8 or its equivalent	College Hour(s): NA
<u>Nhat's Next?</u> Geometry or Honors Geometry	Tier III
Students will take the Algebra I EOC.	
All Newcomer Program teachers must be content and ESL certified.	
HONORS ALGEBRA I AB	7055 AB
SHELTERED HONORS ALGEBRA I AB	7047 AB
xtends and builds on the foundation for the Advanced Placement program. Includes all of the regular Algebra I	03100500
ourse with extensions, both independent and guided, in the application of algebraic concepts, the analysis of	
nistorical development of algebra, and the relationships of the major ideas of algebra and geometry.	
Algebra I is required for graduation.	
nstructional Material: XXXX-SpringBoard Algebra 1, CollegeBoard; ISBN: 9781457300394	Grade level: 9
Prerequisites: Mathematics, Grade 8 or its equivalent and student interest	Credit(s): 1
<u>Nhat's Next?</u> Geometry or Honors Geometry	College Hour(s): NA
	The H
Course taught by a locally certified gifted teacher or AP trained teacher.	Tier II

PROBLEM SOLVING IN MATHEMATICS AB	7056 AB
Provides instruction for students who need additional problem-solving strategies. Basic operations with real numbers, number concepts, algebraic relations, geometric properties, measurement, estimation, solution strategies,	N/A
mathematical representations and reasonableness of problem situations will be included in this course. Students	
must complete the three state-required credits in mathematics for graduation. Local credit only, does not count	Grade level: 9 – 12
toward graduation requirements.	Credit(s): N/A
Instructional Material: No state-adopted instructional material(s)/Local credit only/Contact Mathematics Director	College Hour(s): NA
Prerequisites: None	Tier III
Local credit only, does not count toward graduation requirements.	
GEOMETRY I AB	7071 AB
SHELTERED GEOMETRY I AB – NP	7069 AB
SHELTERED GEOMETRY I AB	7070 AB
GEOMETRY I AB	70715 AB
Students will begin to focus on more precise terminology, symbolic representation, and the development of proofs.	03100700
Students will explore concepts covering coordinate and transformational geometry; logical arguments and	03100700
constructions; proof and congruence; similarity, proof and trigonometry; two- and three-dimensional figures; circles;	
and probability. Students will connect previous knowledge from Algebra I to Geometry through the coordinate and	
transformational geometry strand. Geometry is required for graduation.	Grade level: 9 - 10
Instructional Material: 1534 - Geometry Texas Hybrid Consumable Student Resource, Houghton Mifflin Harcourt; ISBN:	Credit(s): 1
<u>mistidetional material.</u> 1994 - Geometry Texus Hybrid Consumable Stadent Resource, Houghton Millian Harcourt, 1994. 9780544555990	College Hour(s): NA
Prerequisites: Algebra I or Honors Algebra I	Tier III
<u>What's Next?</u> Algebra II or Honors Algebra II	
All Newcomer Program teachers must be content and ESL certified.	
HONORS GEOMETRY AB	7073 AB
SHELTERED HONORS GEOMETRY AB	7073 AB 7074 AB
Extends and builds on the foundation for the Advanced Placement program. Includes all of regular geometry course	03100700
with extensions, both independent and guided, from advanced topics. Instruction focuses on the use of higher levels	00100100
of understanding, such as relationships of ideas, analysis of investigations, and prediction of results.	Grade level: 9 – 10
Geometry is required for graduation.	Credit(s): 1
Instructional Material: _SpringBoard Geometry, CollegeBoard; ISBN: 9781457300400	College Hour(s): NA
Prerequisites: Algebra I or Honors Algebra I and student interest	Tier II
<u>What's Next?</u> Algebra II or Honors Algebra II	
Course taught by a locally certified gifted teacher or AP trained teacher.	
MATHEMATICAL MODELS WITH APPLICATIONS I AB	7052 AB
This mathematics course provides a path for students to succeed in Algebra II and prepares them for post-	03102400
secondary choices. Students learn to apply mathematics through experiences in personal finance, science,	Grade level: 10 – 12
engineering, fine arts, and social sciences. Students use algebraic, graphical, and geometric reasoning to apply their	Credit(s): 1
mathematical knowledge. This course can be taken concurrently with Geometry or with Algebra II. This course can	College Hour(s): NA
count as the third math credit.	Tier III
Instructional Material: 1523 - Math Models with Applications, Pearson; ISBN: 9781269888738	
Prerequisites: Algebra I	
What's Next? Algebra II	
COLLEGE PREPARATORY MATH I (DEVELOPMENTAL MATH) - BEGINNING ALGEBRA	7040 A CP
(MATH 0361)	
COLLEGE PREPARATORY MATH II (DEVELOPMENTAL MATH) - INTERMEDIATE ALGEBRA	7040 B CP
(MATH 0362)	
This is a College Preparatory course intended to help students hone their skills prior to taking the TSIA college	CP111200
placement exam.	
Instructional Material: McGraw Hill; Beginning and Intermediate Algebra with POWER and ALEKS; Messersmith	
<u>Prerequisites:</u> Students who have not yet met college readiness standards, but have completed three credits in math.	Crada laval 11 12
	Grade level: 11-12
What's Next? N/A	Credit(s): 1
Credits may or may not be available to count toward graduation. Students on the Foundation HS Plan may earn	College Hour(s): N/A
advanced mathematics credit for a Math College Preparatory course (both semesters are required) only if the student	Tier III
has already completed the three previous mathematics credit requirements for the Foundation Program prior to taking	
these courses.	
• This course is a preparation course for success on TSIA and will no longer provide exemption at TCCD.	
• In accordance with TAC, §74.26, students may be awarded a half credit for successful completion of half of	
the college preparatory mathematics course. This half credit, when paired with another half credit from the	
list of allowable advanced mathematics courses, may satisfy the advanced mathematics requirement for	
students pursuing an endorsement	

students pursuing an endorsement. These College Preparatory courses are developmental courses and will not provide any dual credit. College Preparatory Math information:

- Districts are required to offer a full year of CP Math (unlike English where TEA states that a district can offer .5 or 1 credit of CP English).
- Students must be enrolled in the full credit course.
- If a student only passes one semester, credit is awarded for that one semester.
- The student can then combine that one semester with a semester from a different course (including AQR).
- The student needs a full year of CP math in order to enroll in a credit-bearing math course at TCC.

See the decision-point situations listed below that a student should consider in determining if this course will provide the benefits he/she needs.

- 1. If the student has not passed Algebra I EOC, then complete all coursework in HS needed to pass the EOC exam. Students who have not passed the Algebra I EOC can be scheduled into the course for their senior year if they have received three credits in math.
- 2. Students on the Foundation HS Program may earn advanced mathematics credit for a Math College Preparatory course (both semesters required=1 credit) only if the student has already completed the three previous mathematics credit requirements for the Foundation Program prior to taking this class.
- 3. This course is to be taught on a high school campus, but may not be available at all high school campuses. Availability of the high school classes will be based on student's requests.
- 4. NCAA does not recognize College Preparatory Mathematics as a 4<sup>th</sup> year math course. If a student has the potential of attending a Division 1 or Division 2 school that is governed by NCAA, please contact the content Director for scheduling assistance.

Texas College Bridge Math (Online)*	9006T
This is a College Preparatory course intended to help students be successful on TSIA and to hone their skills prior to taking collegiate level mathematics. Students are scheduled in this course during a zero hour.	CP111200
<ul> <li>Instructional Material: Texas College Bridge stipulates the resources and requires teacher training     Prerequisites: Students who have not yet met college readiness standards, but have completed three credits in math.     What's Next? N/A     </li> <li>If students are taking this course as a stand-alone course, then they will need to be scheduled into a zero hour or 9<sup>th</sup> hour course.     This course can only be paired with College Preparatory Math if it is to be taken during the school day.     For instances where a 12<sup>th</sup> grade student is attending a Division 1 or Division 2 school that is governed by NCAA, please contact the content Director for scheduling assistance.     In accordance with TAC, \$74.26, students may be awarded a half credit for successful completion of half of the college preparatory mathematics courses, may satisfy the advanced mathematics requirement for students pursuing an endorsement.     This course is a preparation course for success in collegiate level mathematics and will provide exemption at Higher Ed Institutions that partner with Texas College Bridge.     Students will receive a certificate of completion upon finishing both Stage 1 and Stage 2 to share with </li> </ul>	Grade level: 11-12 (NOTE: Starting with the class of 2026, TCB taken in the Junior year will not count as a CCMR indicator.) Credit(s): 1.0 College Hour(s): N/A <b>Tier III</b> *This course counts for elective credit only
<ul> <li>colleges or universities that partner with Texas College Bridge and the student intends to enroll.</li> <li>These College Preparatory courses are developmental courses and will not provide any dual credit. # SCIENCE

# SCIENCE GRADUATION REQUIREMENTS

# ALL STUDENTS ARE REQUIRED to pass Biology EOC exam

One credit: in Biology or AP/IB Biology.

One credit: must be selected from the following laboratory-based courses:

- Integrated Physics & Chemistry
- Chemistry
- AP/DC Chemistry
- OnRamps Chemistry
- Physics
- Principles of Technology
- AP Physics 1 (Algebra-based)
- DC Physics
- OnRamps Physics

The 3rd & 4th Science credit may be selected from one full credit or a combination of two half credits from the following:

- Chemistry
- Physics
- Principles of Technology
- Aquatic Science / DC
- Astronomy / DC
- Earth Systems Science / DC
- Environmental Systems / DC
- Engineering Science
- CTE: Engineering Science
- CTE: Food Science
- CTE: Scientific Research & Design
- CTE: Anatomy & Physiology
- DC Anatomy & Physiology
- CTE: Eng Design & Prob Solving
- CTE: Forensic Science
- CTE: Adv Animal Science
- CTE: Pathophysiology
- CTE: Adv Plant & Soil Science
- CTE: Medical Microbiology
- DC SRD: Biology for Non-Science Majors
- DC SRD: General Chemistry
- DC SRD: College Physics
- Possible Endorsement Opportunities:
- Multidisciplinary
- Business & Industry
- STEM (Sci, Tech, Eng & Math)

- AP/DC Biology
  - AP/DC Chemistry
  - OnRamps Biology
  - OnRamps Chemistry
  - OnRamps Chemistry II
  - AP Physics 1 or 2 (Algebra-based)
  - AP Physics C Mechanics
  - AP Physics C Electricity & Magnetism
  - DC Physics
  - OnRamps Physics
  - OnRamps Physics II
  - OnRamps Earth & Space Science
  - AP Environmental Science
  - Biotechnology I
  - Biotechnology II

INTEGRATED PHYSICS/CHEMISTRY AB	7532 AB
SHELTERED INTEGRATED PHYSICS AND CHEMISTRY AB – NP	7526 AB
SHELTERED INTEGRATED PHYSICS AND CHEMISTRY AB	7528 AB
In Integrated Physics and Chemistry, students conduct laboratory and field investigations, use engineering practices, use scientific practices during investigation, and make informed decisions using critical thinking and scientific problem solving. This course integrates the disciplines of physics and chemistry in the following topics: force, motion, energy, and matter.	03060201
Instructional Material: Texas IPC from Activate Learning; ISBN 9781682316900	Grade level: 9 – 10
<u>Prerequisites:</u> None	Credit(s): 1
What's Next? Biology, if IPC was taken as the first high school science or any 3rd or 4th year science credit if Biology	College Hour(s): NA
has been successfully completed.	Tier III
NOTE: IPC does <b>NOT</b> count as an "additional science course" for the STEM endorsement.	
All Newcomer Program teachers must be content and ESL certified.	

#### DUAL CREDIT INTEGRATED PHYSICS AND CHEMISTRY AB TCC Course: Physical Science I (PHYS 1415 and PHYS 1415 Lab) TWIL Course: Nature of Physical Science (CHE 1403)

7535 AB

TWU Course: Nature of Physical Science (CHE 1403)	
Course, designed for non-science majors, that surveys topics from physics, chemistry, geology, astronomy, and meteorology.	03060201
Instructional Material: N/A	Grade level: N/A
WISD & TCC Prerequisites: None	Credit(s): 1
<u>CC Co-Requisite</u> : PHYS-1415 Lab	College Hour(s): 4 hours
WU Prerequisites: Only offered at Dunbar	Tier I
<u>Vhat's Next?</u> N/A	
arly College High School Grade Placement: 9-12. Course taught by an approved adjunct instructor.	
BIOLOGY AB	7572 AB
SHELTERED BIOLOGY AB – NP	7573 AB
SHELTERED BIOLOGY AB	7575 AB
BIOLOGY AB	75725 AB
tudents in Biology focus on patterns, processes, and relationships of living organisms through four main concepts:	03010200
piological structures, functions, and processes; mechanisms of genetics; biological evolution; and interdependence	05010200
vithin environmental systems. One credit of Biology is required for graduation. Students entering Grade 9 in 2011-	
012 and thereafter are required to take the STAAR End of Course (EOC) exam in this course.	
nstructional Material: Miller & Levine's Experience Biology from Savvas; ISBN 9781418358921	Grade level: 9 - 11

Prerequisites: TEKS based High School Biology, TEKS based High School Chemistry

<u>What's Next?</u> Any 3<sup>rd</sup> or 4<sup>th</sup> year science credit that is aligned to the students' particular endorsement.

NOTE: Students with a STEM endorsement are required to complete chemistry AND physics.

	7592 AB
SHELTERED CHEMISTRY AB – NP	7596 AB
SHELTERED CHEMISTRY AB	7598 AB
CHEMISTRY AB	75925 AB 03040000
In Chemistry, students conduct laboratory and field investigations, use scientific practices during investigations, and make informed decisions using critical thinking and scientific problem solving. Students study a variety of topics that	03040000
include characteristics of matter, use of the Periodic Table, development of atomic theory and chemical bonding,	
chemical stoichiometry, gas laws, solution chemistry, thermochemistry, and nuclear chemistry. Students will	
investigate how Chemistry is an integral part of our daily lives.	
Instructional Material: Experience Chemistry from Savvas; ISBN 9781418358891	Grade level: 10 - 12
Required Prerequisites: One unit of high school science and Algebra I	Credit(s): 1
Suggested prerequisite: Completion of, or concurrent enrollment in, a second year of mathematics	College Hour(s): NA
What's Next? Any 3 <sup>rd</sup> or 4 <sup>th</sup> year science credit that is aligned to the students' particular endorsement.	Tier III
NOTE: Students with a STEM endorsement are required to complete chemistry AND physics.	
All Newcomer Program teachers must be content and ESL certified.	
HONORS CHEMISTRY AB	7594 AB
SHELTERED HONORS CHEMISTRY AB	7595 AB
In Honors Chemistry, students develop a deep conceptual understanding of matter and energy at the molecular level	03040000
as they learn to explain their macroscopic observations using particulate-level reasoning, As students engage in	
grade-level Chemistry content described in the Chemistry AB course description, They utilize the scientific reasoning	
skills needed to analyze the natural world and to succeed in future science and social science courses in high school,	
such as AP Chemistry, and college. Multiple opportunities to think and work like scientists include a particular	
attention to modeling, strategic use of mathematics, and an emphasis on analytical reading and writing.	
Instructional Material: <u>:</u> Experience Chemistry from Savvas; ISBN 9781418358891	Grade level: 9 - 12
Required Prerequisites: One unit of High School Science and Algebra I	Credit(s): 1
Suggested prerequisite: Completion of, or concurrent enrollment in, a second year of mathematics	College Hour(s): NA
<u>What's Next?</u> Any 3 <sup>rd</sup> or 4 <sup>th</sup> year science credit that is aligned to the students' particular endorsement.	Tier II
NOTE: Students with a STEM endorsement are required to complete chemistry AND physics.	
AP CHEMISTRY AB	7610 AB
This course involves extensive laboratory investigations and advanced topics in Chemistry, such as quantitative	A3040000
analysis, thermodynamics, bonding, ideal gas laws, and stoichiometry. This class prepares students to take the AP	
Chemistry Examination.

OnRamps PHYSICS I AB	7613 AB
Students study a variety of topics that include the laws of motion; changes within physical systems; conservation of	03050000
momentum and energy; forces; thermodynamics; characteristics and behavior of waves; and atomic, nuclear and	0000000
quantum physics. OnRamps works through a dual-enrollment model. Using a hybrid delivery approach, students	Grade level: 10-12
meet rigorous university-level college readiness standards and have the opportunity to earn UT Austin credit from a	Credit(s): 1
UT faculty member and high school credit from their local teacher. May be paired with advanced science lab 7626T	College Hour(s): 4
(Minimum 40% lab).	Tier I
Instructional Material: Selected and provided by the University of Texas at Austin	
Required Prerequisites: Algebra I and Geometry	
Recommended Prerequisites: Algebra II or Precalculus	
What's Next? Any 3 <sup>rd</sup> or 4 <sup>th</sup> year science credit that is aligned to the students' particular endorsement.	
NOTE: Students with a STEM endorsement are required to complete chemistry AND physics.	
OnRamps PHYSICS II AB	STH03724 AB
Students study topics that include electromagnetism, optics, and Nuclear. Students will explore how electric,	A3050004
magnetic, and electromagnetic effects arise from static, uniformly moving and accelerating charges. OnRamps works	
through a dual-enrollment model. Using a hybrid delivery approach, students meet rigorous university-level college	Grade level: 10-12
readiness standards and have the opportunity to earn UT Austin credit from a UT faculty member and high school	Credit(s): 1
credit from their local teacher. May be paired with advanced science lab 7626T (Minimum 40% lab).	College Hour(s): 3
Instructional Material: Selected and provided by the University of Texas at Austin	Tier I
Required Prerequisites: TEKS-based Physics Course (or OnRamps Physics I or AP Physics I), Algebra II, and Geometry	
Recommended Prerequisites: OnRamps Physics I, AP Physics I, Honors Physics, or PHYS 1301, and Precalculus	
What's Next? Any 3 <sup>rd</sup> or 4 <sup>th</sup> year science credit that is aligned to the students' particular endorsement.	
NOTE: Students with a STEM endorsement are required to complete chemistry AND physics.	
HONORS THERMODYNAMICS	7136 AB
The Thermodynamics course is designed as a relatively comprehensive overview of the field of classical	03102502
thermodynamics with some statistical mechanics injected toward the end of the semester to tie in with more modern	
approaches. The class begins with a discussion of what thermodynamics includes, the meaning of certain important	
terms and approaches. The idea of temperature and temperature scales, methods of heat transfer, and the various	Grade level: 10-12
types of thermodynamic processes are discussed. The various laws of thermodynamics are covered, (zeroth, first,	Credit(s): 0.5
second, third) building on knowledge and practical applications of each law as it's introduced to the student. During	College Hour(s): NA
the units, simple laboratory experiments will be utilized to solidify conceptual knowledge.	Tier I
Instructional Material: Thermodynamics – Enrico Fermi, Understanding Thermodynamics – Van Ness	
Prerequisites: Successful completion of Calculus AB plus one of the following: AP Physics 1, On-Ramps Physics 1, or	
AP Physics C Mechanics	
What's Next? N/A	7624.4
DUAL CREDIT PHYSICS A	7624 A
TCC Course: College Physics I (PHYS 1401 and PHYS 1401 Lab)	
Fundamental principles of physics, using algebra and trigonometry; the principles and applications of classical	03050000
mechanics and thermodynamics, including harmonic motion, mechanical waves and sound, physical systems,	
Newton's Laws of Motion, and gravitation and other fundamental forces; with emphasis on problem solving.	
Instructional Material: N/A	
FWISD & TCC Prerequisites: MATH-1314 and MATH-1316 or MATH-2412	Grade level: 11 – 12

Course taught by an approved adjunct instructor.	
HONORS ORGANIC CHEMISTRY AB	7602 ABH
This course is designed for those students seeking higher level learning in chemistry that are planning to pursue a college degree in chemistry, chemical engineering, pharmacy or pre-med associated majors. Organic chemistry will parallel the learning and education of a first semester, college organic chemistry course. By definition, organic chemistry is dedicated to the study of carbon compounds, which include hydrocarbons and fossil fuels. Students who successfully complete organic chemistry will be adequately prepared for the continuing advanced learning of chemistry in a college environment. Independent research is a required component of this honors course.	N1120027
nstructional Material: No state adopted instructional material(s)/FWISD textbook – Organic Chemistry, McMurray	Grade level: 11 – 12
Prerequisites: Recommended that student has successfully completed, or is concurrently enrolled in, AP Chemistry.	Credit(s): 1
<u>What's Next?</u> N/A	College Hour(s): NA
This course counts for State Elective Credit only; therefore, it may not be counted as a required science course.	Tier I
DUAL CREDIT ORGANIC CHEMISTRY A	7604 A
TCC Course: Organic Chemistry I (CHEM 2423 and CHEM 2423 Lab)	
Fundamental principles of organic chemistry will be studied, including the structure, bonding, properties, and reactivity of organic molecules; and properties and behavior of organic compounds and their derivatives. Emphasis is placed on organic synthesis and mechanisms. Includes study of covalent and ionic bonding, nomenclature,	N1120027
stereochemistry, structure and reactivity, reaction mechanisms, functional groups, and synthesis of simple molecules.	
This course is intended for students in science or pre-professional programs.	
Instructional Material: N/A	
FWISD & TCC Prerequisites: CHEM-1412	Grade level: N/A

OnRamps QUANTUM COMPUTING AB	7137 AB
Quantum Computing offers an introduction to the modern science and technological applications of quantum physics. Students will develop a deep understanding of the seemingly bizarre quantum world and how its "weirdness" may be harnessed to solve real-world problems. Students taking this course will acquire unique technical skills in physics programming, cybersecurity, and mathematics as well as valuable soft skills in critical thinking, problem-	031025##

solving, and communication through class activities and group projects. This course lays the conceptual groundwork for STEM majors. Students will experience a high-quality curriculum designed by the faculty at The University of Texas at Austin (UT Austin) and can earn up to three hours of college credit and high school credit from their local teacher. This course will count as a math credit on the high school transcript. However, on the UT Austin college transcript it will be noted as a science credit.

will be noted as a science credit.

TEXAS PREFRESHMAN ENGINEERING PROGRAM I AB	7421 AB
Available at Texas Wesleyan University and/or Tarrant County Community College, as summer enrichment for high	N1303752
ability students, these courses emphasize study and research in mathematics, engineering, and computer science.	
Preference is given to female students and minority students who have been underrepresented in the field of	
engineering. Note: This course is for state elective credit only, and some students may have earned one or two credits	
in middle school. For this course to count as an elective credit and to be calculated into the student's GPA; each	
student is responsible to provide his/her grade and course information to his/her counselor.	Grade level: 9 - 11
Instructional Material: Textbook(s) and materials provided by the participating university	Credit(s): 1
Prerequisites: Average of 80 or higher in college preparatory mathematics course; teacher recommendation	College Hour(s): 4 hours
<u>What's Next?</u> N/A	Tier III
TEXAS PREFRESHMAN ENGINEERING PROGRAM II AB	7423 AB
Available at Texas Wesleyan University and/or Tarrant County Community College, as summer enrichment for high	N1303753
ability students, these courses emphasize study and research in mathematics, engineering, and computer science.	
Preference is given to female students and minority students who have been underrepresented in the field of	
engineering. Note: This course is for state elective credit only, and some students may have earned one or two credits	
in middle school. For this course to count as an elective credit and to be calculated into the student's GPA; each	Grade level: 9 - 11
student is responsible to provide his/her grade and course information to his/her counselor.	
Instructional Material: Textbook(s) and materials provided by the participating university	Credit(s): 1
Prerequisites: Average of 80 or higher in college preparatory mathematics course; teacher recommendation	College Hour(s): 4 hours

addition to the regular course curriculum, students in this honors course will complete a project using the five	13000700

Instructional Material: Contact CTE director	Grade level: 12
<u>Prerequisites:</u> two (2) units of science (Biology, and Chemistry or Physics), one of which may be taken concurrently. Livestock Production or Equine Science	HS Credit(s): 1 College Hour(s): NA
Course taught by locally certified gifted CTE teacher.	Tier II
Offered only at: Arlington Heights and Diamond Hill-Jarvis	
DUAL CREDIT ADVANCED PLANT AND SOIL SCIENCE A	AGD02102 A
TCC Course: Soil Science (AGCR 2418)	
Introduction to physical, chemical, and biological properties of soils. Topics include the relationship between crops and soils, conservation of soil and water resources, and the economic use of fertilizer.	13002100
FWISD Prerequisites: Three (3) units of science, one (1) of which may be taken concurrently.	Grade level: 12
Horticulture Science I and/or Landscape Design and Turf Management	HS Credit(s): 0.5
Instructional Material: NA	College Hour(s): 4 hours
Course taught by an approved adjunct instructor.	Tier I
Offered only at: Marine Creek Collegiate HS	
DUAL CREDIT ADVANCED PLANT AND SOIL SCIENCE B	AGD02102 B
ICC Course: Soil Fertility and Fertilizers (HALT 2318)	
An in-depth study of the chemistry, soil interaction, plant uptake and utilization of essential plant nutrients. Topics nclude deficiency and toxicity symptoms, and the selection application, and characteristics of fertilizer materials.	13002100
WISD Prerequisites: Three (3) units of science, one (1) of which may be taken concurrently.	Grade level: 12
Horticulture Science I and/or Landscape Design and Turf Management	HS Credit(s): 0.5
TCC Recommended Prerequisites: HALT 1301	College Hour(s): 3 hours
Course taught by an approved adjunct instructor.	Tier I
Offered only at: Marine Creek Collegiate HS	
FOOD SCIENCE AB (FOODSC1 AB)	HT23002 AB
n Food Science students conduct laboratory and field investigations, use scientific methods during investigations,	13023000
and make informed decisions using critical thinking and scientific problem solving. Food Science is the study of the nature of foods, the causes of deterioration, the principles underlying food processing, and the improvement of	
oods for the consuming public. Upon completion of this course, students will be prepared to take the ServSafe	Grade level: 12
Food Safety Certification Exam. The course should be taught in a kitchen laboratory with some industrial equipment	HS Credit(s): 1
to provide the students with real-world experience in commercial foods. CTE teacher should meet HOUSE NCLB	College Hour(s): NA
qualifications or can be science certified.	Tier III
nstructional Material: TBD	
Prerequisites: Three units of science, including chemistry and biology, and Culinary Arts I or Hospitality Services	
Offered only at: North Side, Paschal, Polytechnic, South Hills, Trimble Tech, and OD Wyatt	
HONORS FOOD SCIENCE AB (FOODSC1 AB/H)	HTH23002 AB
In addition to the regular course curriculum, students in this honors course will complete a project using the five	13023000
phases of project management used in the business and industry environment. CTE teacher should meet HOUSE NCLB qualifications or can be science certified.	
nstructional Material: Principles of Food Science, Goodheart-Willcox, ISBN: 9781605256092	Grade level: 12
Prerequisites: Three units of science, including chemistry and biology, and Culinary Arts I or Hospitality Services	HS Credit(s): 1
Course taught by locally certified gifted CTE teacher	College Hour(s): NA
Offered only at: North Side, Paschal, Polytechnic, South Hills, Trimble Tech, and OD Wyatt	Tier II

# **SOCIAL STUDIES**

# SOCIAL STUDIES GRADUATION REQUIREMENTS

# ALL STUDENTS ARE REQUIRED to pass US History EOC

# All Foundation Plans (22 & 26 credits) Require 4 Social Studies credits

## Four credits must consist of:

# 3 credits of the following:

- World Geography OR AP Human Geography OR Dual Credit World Geography
- U.S. History Since 1877
   OR AP U.S. History
   OR Dual Credit U.S. History
   OR OnRamps U.S. History
- U.S. Government (.5 credit) OR AP U.S. Government (.5 credit) OR Dual Credit U.S. Government (.5 credit)
- Economics (.5 credit)
   OR Personal Financial Literacy and Economics (.5 credit)
   OR AP Macroeconomics (.5 credit)
   OR AP Microeconomics (.5 credit)
   OR Dual Credit Economics (.5 credit)

### 1 credit selected from the following:

- World History
   OR AP Modern World History
   OR Dual Credit World History
- Ethnic Studies course pairing African-American Studies (.5 credit) AND STSS: Latino/a Studies (.5 credit)

### **Possible Endorsement Opportunities:**

- Multidisciplinary
- Arts & Humanities

PERSONAL FINANCIAL LITERACY AND ECONOMICS T	8148T
This course emphasizes the economic way of thinking, which serves as a framework for the personal financial	03380083
decision-making opportunities introduced in the course. Students will demonstrate the ability to anticipate and	
address financial challenges as these challenges occur over their lifetime. In addition, students are introduced to	
common economic and personal financial planning terms and concepts. As a result of learning objective concepts	Grade level: 11 – 12
and integrating subjective information, students gain the ability to lead productive and financially self-sufficient	Credit(s): 0.5
lives. Approximately two-thirds of instructional time is dedicated to personal financial literacy and one-third to	College Hour(s): NA
economics content. This is distinct from ECOFE (8096T) where approximately one-third of instructional time is	Tier III
dedicated to personal financial literacy and two-thirds to economics content. This course satisfies the Economics	
high school graduation requirement.	
Instructional Material: Personal Financial Literacy, Savvas, 2024, ISBN: 9780138114312.	
Prerequisites: District Recommendation: World Geography Studies, World History Studies, and US History	
What's Next? Government if Personal Financial Literacy and Economics taken first; and any elective social studies	
course that can be applied toward a humanities endorsement. Due to redundant TEKS, students cannot receive	
credit in both Economics and Personal Financial Literacy (8148T) and Personal Financial Literacy (8145T).	
WORLD GEOGRAPHY STUDIES AB	8011 AB
SHELTERED WORLD GEOGRAPHY STUDIES AB – NP	8008 AB
SHELTERED WORLD GEOGRAPHY STUDIES AB	8010 AB
WORLD GEOGRAPHY STUDIES AB	80115 AB
This course is a comprehensive examination of people, places, and environments at local, regional, national, and	03320100
international scales from the spatial and ecological perspectives of geography. A significant portion of this course	
centers around the physical processes that shape, patterns in the physical environment; the characteristics of major	Grade level: 9 – 12
land forms, climates and ecosystems and their interrelationships; the political, economic, and social processes that	Credit(s): 1
shape cultural patterns of regions; and the distribution and movement of world population. This course meets the	College Hour(s): NA
state recommended graduation requirement.	Tier III

Instructional Material: 1402 – Texas World Geography, McGraw-Hill, 2014, ISBN: 0021380996	
<u>Prerequisites:</u> None	
What's Next? AP or Honors or World History Studies or Dual Credit World History Studies	
All Newcomer Program teachers must be content and ESL certified.	
HONORS WORLD GEOGRAPHY STUDIES AB	8009 AB
SHELTERED HONORS WORLD GEOGRAPHY STUDIES AB	8024 AB
Description of course: Honors World Geography will present the student with a general understanding of cultural	03320100
geography, physical geography, and human geography while preparing the student for AP modern world history	Cue de Javada O
by incorporating AP skills and habits of mind as well as some geography-driven content. This course meets the state recommended graduation requirement.	Grade level: 9 Credit(s): 1
Instructional Material: 1402 – Texas World Geography, McGraw-Hill, 2014, ISBN: 0021380996	College Hour(s): NA

Examines human history with emphasis on early civilizations (non-western), Western, and other regions. Focuses on	03340400
cultural experiences as related to history, literature, art, music, and philosophy. Students compare and analyze ways	
of life and cultural patterns that reflect the diversity and commonality of human experiences and develop an	
understanding of how these patterns occur. Problem-solving skills are also emphasized. This course builds the	
foundation for successful participation in AP coursework. Instructional Material: 1411 – Texas World History, McGraw-Hill, 2014, ISBN: 007660604X	Grade level: 9 – 12

SHELTERED HONORS UNITED STATES HISTORY STUDIES SINCE 1877 AB	8068 AB
Honors United States History extends the study of United States History to involve a chronological history from	03340100
1877 to present. To support the teaching a variety of rich primary and secondary source material is used so that	
students are studying and learning history as historians.	C       0 10
Instructional Material: 1422 – Texas U.S. History, McGraw-Hill, 2015, ISBN: 0076608581	Grade level: 9 – 12 Gradit(c): 1
Prerequisites: District Recommendation: Honors World Geography Studies or World Geography Studies; AP or Honorr, or Dual Credit World History, and student interest.	Credit(s): 1

course that can be applied toward a humanities endorsement	Tier II
Students will take the US History EOC.	
	0015 AD
AP UNITED STATES HISTORY AB	8215 AB
Extends the study of United States history to involve the full sweep of chronological history from discovery to	A3340100
present. Uses college-level material and parallel historic readings to provide the student's information and skills	
that will enable them to perform successfully on the advanced placement test and/or in their college history	
classes. This course may be used to meet either the course requirement for U.S. History or state graduation or	
elective course requirements. Instructional Material: Give Me Liberty! An American History, Sixth AP Edition, W.W. Norton & Company, 2020,	Grade level: 10 – 12
ISBN: 978-0393697018	Credit(s): 1

US History, they will take the US History EOC. OnRamps UNITED STATES HISTORY 1492-1865 A	8049 A
In this first of two sequential college American history courses, students study significant themes in US history to	A3340100
uncover the range and depth of the American story. Using lectures, primary and secondary readings, videos, maps,	A3340100
and other graphics, students work both independently and collaboratively to develop the critical thinking skills to	
evaluate the historical record. This course surveys from the colonial beginnings through the Civil War, and Course B	
considers the post-Civil War era to the end of the 20th century. Exams include essay questions that require	
students to craft well-written narratives and arguments that set events in historical context, engage the complexity	
of cause and consequence, and make connections that reveal the dynamic of change over time. OnRamps works	
through a dual-enrollment model. Using a hybrid delivery approach, students meet rigorous university-level	
college readiness standards and have the opportunity to earn UT Austin credit from a UT faculty member and high	
school credit from their local teacher.	
Instructional Material: Selected and provided by the University of Texas at Austin	Grade level: 11 – 12

<u>What's Next?</u> Any elective social studies course that can be applied toward a humanities endorsement.	Tier III
This course may be used to meet only elective course requirements for state graduation.	
DUAL CREDIT SOCIOLOGY T	8115 T
TCC Course: Introduction to Sociology (SOCI 1301)	
TWU Course: Introduction to Sociology (SOC 2301)	
The scientific study of human society, including ways in which groups, social institutions, and individuals affect each	03370100
other. Causes of social stability and social change are explored through the application of various theoretical	
perspectives, key concepts, and related research methods of sociology. Analysis of social issues in their institutional	
context may include topics such as social stratification, gender, race/ethnicity, and deviance.	
Instructional Material: TCC Course: Introduction to Sociology (SOCI 1301)	Grade level: 11-12
FWISD Prerequisites: None	Credit(s): 0.5
TCC Prerequisites: ENGL-1301 with a grade of C or TSI compliant in reading	College Hour(s): 3 hours
Early College High School Grade Placement 9-12	Tier I
TWU Prerequisites: Only offered at Dunbar	
Course taught by an approved adjunct instructor.	
This course may be used to meet only elective course requirements for state graduation.	
PSYCHOLOGY T	8125 T
Involves an exploration into human behavior with the understanding that individual adjustment in a compact and	03350100
complex world is essential.	
Instructional Material: 1470 – Texas Psychology, McGraw-Hill, 2015 ISBN: 0021394946	Grade level: 11 – 12
ISBN: 0078285712	Credit(s): 0.5
Prerequisites: District Recommendation: World Geography Studies; World History Studies, US History (or	College Hour(s): NA
concurrent enrollment); and student interest	Tier III
What's Next? Any elective social studies course that can be applied toward a humanities endorsement.	
This course may be used to meet only elective course requirements for state graduation.	
AP PSYCHOLOGY T	8127 T
Extends the study of psychology to include an in-depth approach to both human and animal behavior through	A3350100
experimental, correlation, and clinical research. Students have opportunities to apply statistical methods for the	
interpretation of data. Prepares students to perform successfully on the AP Examination.	
The course pairing 8146 and 8127 prepares students for the AP Psychology exam by teaching the curriculum over two	
semesters. When campuses pair 8146 and 8127, students must be enrolled in both courses.	
Instructional Material: Myers' Psychology for AP Course, 3rd Edition. Bedford, Freeman and Worth Publishing, 2018,	Grade level: 10 – 12
ISBN: 978-1319070502	Credit(s): 0.5
Prerequisites: District Recommendation: AP Human Geography AB or Honors World Geography Studies or World	College Hour(s): NA
Geography Studies; or, concurrent enrollment in AP or Honors or Dual Credit World History Studies; and student	Tier I
interest	
What's Next? Honors Social Studies Research Methods in Psychology (8146 TH) or Core course per recommended	
sequence for graduation and/or any elective social studies course that can be applied toward a humanities	
endorsement.	
This course may be used to meet only elective course requirements for state araduation	

This course may be used to meet only elective course requirements for state graduation.

SPECIAL TOPICS IN SOCIAL STUDIES: LATINO/A STUDIES T	8041 T/H
Students explore LatinX and Chicano/Chicana experiences from the pre-Columbian era to the present day. Topics	033800##
of study include an examination of the historical, economic, social, and cultural contributions of people and	
descendants of Mexico, Central and South America, and the Caribbean. Through their exploration of these topics,	
students will investigate the diversity of Latino(a)/Chicano(a) culture, ponder the various factors that have come to	
form their identities, and analyze how their experiences have shaped American society today. This course provides	
authentic academic experiences and is designed to prepare students for success in college and in their chosen	
careers. Students are expected to conduct in-depth research, prepare a product of professional quality, and make	
presentations to appropriate audiences as part of this course.	
Instructional Material: No state-adopted instructional material(s)/Contact Social Studies	
<u>Prerequisites:</u> World Geography Studies if taken for core social studies graduation credit. * Enrolled concurrently in	Grade level: 10 – 12
United States History Studies, Government, or Economics if taken as an elective; student interest	Credit(s): 0.5
<u>What's Next?</u> Students planning to take ethnic studies as a graduation eligible credit should take 8045 T in the	College Hour(s): NA
Spring semester. Students taking the course as an elective may take a Core course per recommended sequence for	Tier II
graduation and/or any elective social studies course that can be applied toward a humanities endorsement.	
*When paired with 8045T this Ethnic Studies course may be used in place of World History Studies to satisfy core	
social studies graduation credit.

# FINE ARTS – VISUAL & PERFORMING ARTS

Visual Arts	
Art	Page 3
Performing Arts	
Choral Music	Page 19
Music Studies	Page 21
Instrumental Music	Page 24
Dance	Page 29
Theatre Arts	Page 34

# FINE/VISUAL & PERFORMING ARTS GRADUATION REQUIREMENTS

# ALL STUDENTS ARE REQUIRED to take ONE Fine Arts credit

# All Foundation Plans (22 & 26 credits)

Fine Arts (1 credit) may be selected from the following categories (see chart on next page for all courses available within each category):

- Art Level I, II, III, IV
- Dance Level I, II, III, IV
- Music Level I, II, III, IV
- Music Studies
- Theatre Level I, II, III, IV
- Musical Theatre Level I, II, III, IV
- Technical Theatre Level I, II, III, IV
- Additional Courses

#### Courses identified as local credit only or state elective credit will not qualify as meeting the fine arts requirement.

College Board Advanced Placement and International Baccalaureate courses may be substituted for requirements in appropriate areas.

**Note:** In order to progress to a Level II studio art course, the student must successfully complete either Level I, 1010 Art I AB or 1051 Honors Art I ABH or Art and Media Communications I 1093 AB.

# A student must take both semesters of the same course to satisfy the one credit required for graduation.

Under the state Endorsement category for Arts and Humanities: A Fine Arts Endorsement may be completed by a coherent sequence of four credits by selecting courses from one or two categories or disciplines in Fine Arts. The course taken to complete the Fine Arts one credit requirement may also count as a course within an endorsement.

Example of **Fine Arts Endorsement** with a coherent sequence from **one category**:

- Art Level I
- Art Level II
- Art Level III
- Art Level IV

Example of **Fine Arts Endorsement** with a coherent sequence from **two categories**:

- Music Level I
- Music Level II
- Art Level I
- Art Level II

# CLASSES THAT FULFILL THE ONE FINE ARTS CREDIT

A student must take both semesters of the same course to satisfy the one credit required for graduation. To receive an Arts & Humanities endorsement, a student must select a coherent sequence of four courses, subject to prerequisites, from one or two of the categories listed below:

	Level I	Level II	Level III	Level IV
Art	Art I     Art Appreciation	<ul> <li>Art II</li> <li>Drawing I</li> <li>Painting I</li> <li>Ceramics I</li> <li>Sculpture I</li> <li>Jewelry I</li> <li>Photography I</li> </ul>	<ul> <li>Art III</li> <li>Drawing II</li> <li>Painting II</li> <li>Ceramics II</li> <li>Sculpture II</li> <li>Jewelry II</li> <li>Photography II</li> <li>AP Studio Art: Drawing Portfolio</li> <li>AP Studio Art: Two- Dimensional Design Portfolio</li> <li>AP Studio Art: Three- Dimensional Design Portfolio</li> <li>AP Studio Art: Three- Dimensional Design Portfolio</li> <li>AP Art History</li> </ul>	<ul> <li>Art IV</li> <li>Drawing III</li> <li>Painting III</li> <li>Ceramics III</li> <li>Sculpture III</li> <li>Jewelry III</li> <li>Photography III</li> <li>AP Studio Art: Drawing Portfolio</li> <li>AP Studio Art: Two- Dimensional Design Portfolio</li> <li>AP Studio Art: Three- Dimensional Design Portfolio</li> <li>AP Studio Art: Three- Dimensional Design Portfolio</li> <li>AP Art History</li> <li>OnRamps Arts and Entertainment Technologies</li> <li>VPA Capstone</li> </ul>

#### ART, LEVEL I, ART APPRECIATION AB

Instructional Material: NA

Art Appreciation introduces the visual arts to students with a focus on developing an understanding of art history and culture by analyzing artistic styles, historical periods, and a variety of cultures. Students develop and expand their visual literacy skills using critical thinking, imagination, and the senses to observe and explore the world by learning about, understanding, and applying the elements of art, principles of design, and expressive qualities. It offers the opportunity to communicate thoughts, feelings, ideas, or impressions through original artwork using art media and tools in drawing, painting, printmaking, sculpture, ceramics, fiber art, design, and digital art and media. Students develop a portfolio of their artwork and acquire the skills to analyze the artworks of self and others. Art Appreciation is a two-semester sequence course with the first semester being a prerequisite to the second semester. 1008 AB

AP ART HISTORY AB	1048 AB
AP Art History is an introductory college-level art history course. Students cultivate their understanding of art history chrough analyzing works of art and placing them in historical context as they explore concepts like culture and cultural interactions, theories and interpretations of art, the impact of materials, processes, and techniques on art and art making, and understanding purpose and audience in art historical analysis. Students must know, be able to	A3500100
do, and understand, with a focus on the big ideas that encompass core principles, theories, and processes of the discipline. The framework also encourages instruction that prepares students to understand representative works of art from diverse cultures, including placing these works in context and illuminating relationships among them. Students should practice the skills that will help them learn to think and act like art historians. Many colleges and universities offer advanced placement and/or credit to students who perform successfully on the AP Art History Exam. Musical Theatre	Theatre & Media	Communications
1484, 1474, 1475, 1476	3736	5, 3738

ATTENDANCE AT ALL PERFORMANCES IS REQUIRED.

Students must successfully complete both semesters (AB) to meet the state requirement for fine arts credit.

Students can earn PE credit for Principles of Dance IIAB, Show Choir IIAB, Technical Theatre IIAB or Musical Theatre IIAB as a TEKS-based course that meets the requirement of 100 minutes of moderate to vigorous physical activity per week if it is not being used to satisfy another graduation requirement. The teacher does not have to be certified in PE. See Health & Physical Education section for correct course numbers.

DANCE, LEVEL I, PRINCIPLES OF DANCE I AB	1500 AB - 03830100
DANCE, LEVEL II, PRINCIPLES OF DANCE II AB	1503 AB - 03830200
DANCE, LEVEL III, PRINCIPLES OF DANCE III AB	1505 AB - 03830300
DANCE, LEVEL IV, PRINCIPLES OF DANCE IV AB	1507 AB - 03830400
A primary and basic entry-level dance course for any high school student. Attendance at all rehearsals and performances is required. The student can earn PE credit for Dance II, Principles of Dance IIAB as a TEKS-based course that meets the requirement of 100 minutes of moderate to vigorous physical activity per week if it is not being used to satisfy another graduation requirement. The teacher does not have to be certified in PE. See Health & Physical Education section for course #.	Grade level: 9 – 12 Credit(s): 1

# WORLD LANGUAGES

# WORLD LANGUAGES GRADUATION REQUIREMENTS

# ALL STUDENTS ARE REQUIRED to take 2 Credits of the SAME Language

If a student, in completing the first credit of LOTE, demonstrates that the student is unlikely to be able to complete the second credit, the student may substitute another appropriate course as follows:

- Special Topics in Language and Culture
- Another credit from a different language
- Computer programming languages

FOUNDATION PLANS

The determination regarding a student's ability to complete the second credit of LOTE must be agreed on by:

- The teacher of the first LOTE course, the principal or designee, and the student's parent
- The ARD or 504 committee, if applicable

A student, who due to a disability, is unable to complete 2 credits in the same LOTE, may substitute a combination of 2 credits from ELA, math, science or soical studies or 2 credits in CTE or Technology Applications for the LOTE requirement. (Cannot combine a credit from the ELA, math, science, and social studies areas with a credit from the CTE / technology applications area.) The determination regarding the student's ability to complete the LOTE requirement will be made by the ARD or 504 committee, as applicable.

## Students now have the oppportunity to:

- Earn a performance acknowledgement in bilingualism and biliteracy. Students must demonstrate proficiency in two or more languages through completion of a <u>minimum of 3 credits</u> in the same language other than English with a minimum GPA of the equivalent of 80 on a scale of 100;
- Meet the admissions requirements of many state, national, public, and private universities which include a <u>minimum of</u> <u>3 years</u> of study of a language other than English.

All students, therefore, are strongly encouraged to study <u>a minimum of 3 years</u> of a LOTE.

# **Possible Endorsement Opportunities:**

- Arts & Humanities
- For specific Endorsement Requirements, see the FOUNDATION PROGRAM section of Bulletin 100.

A student who successfully completes a dual language immersion/two-way or dual language immersion/one-way program at an elementary school may satisfy one credit of the two credits required in a language other than English.

# To successfully complete a dual language immersion program, a student must:

- 1. Have participated in a dual language immersion program for at least five consecutive school years;
- 2. Achieve high levels of academic competence, as demonstrated by performance of meets or masters grade level on the STAAR in English or Spanish, as applicable; and
- 3. Achieve proficiency in both English and a language other than English as demonstrated by scores of proficient or higher in reading and speaking domains on language proficiency achievement tests in both languages.

The second credit of a language other than English must be in the same language as the successfully completed dual language immersion program. TEC §28.0051 and TAC §74.12(b)(5)(F)

World Languages Frequently Asked Questions (FAQs)

# LOTE (Languages Other Than English)

# 1. Can a student combine different levels from different languages to meet the LOTE requirement to graduate on the foundation high school program? \*

Two levels of the *same* language are required for graduation on the Foundation High School Program (unless an appropriate course substitution has been approved). Students may also meet the LOTE requirement by earning two credits in computer programming languages selected from Computer Science I, II, and III, AP Computer Science A, AP Computer Science Principles, IB Computer Science Standard Level, and IB Computer Science Higher Level.

# 2. What options do we have for a junior/senior who has recently enrolled in our district and does not have any credits for LOTE or has taken a language that our district does not offer?\*

Juniors/Seniors who have language experience in a language our district does not offer may take a credit-by-exam or national language proficiency test approved by the district (see Director of World Languages). Although there is no exemption for world language credit, FWISD offers the option of enrolling in a district-approved web-based program as well as summer school.

# 3. Can a student be enrolled in two different levels of the same language at the same time?

Any LOTE course that requires a prerequisite course as listed in Bulletin 100 must be taken in sequence. For example, a student may not be enrolled in a Level I and Level II LOTE course at the same time.

# 4. What options does a student have if they fail a LOTE course?

A student who fails a LOTE course can recover the credit by re-taking the course, enrolling in a district-approved web-based program, taking a credit-by-exam, or through summer school.

# 5. A student failed Level 1A of a language, but passed Level 1B. Do they have to re-take 1A before they can be enrolled in 2A?

Students who failed Level 1A but who passed Level 1B with an 80 or above may be enrolled in Level 2A.

# 6. What is the process for the Spanish placement test?

A counselor or language teacher may refer a student to the World Language Department Chair on campus for placement testing. The district placement test team member will conduct the placement test, score it, and share results with the Director of World Languages and the placement test team. The department chair or placement test team member is responsible for providing the counselor with the documentation for the recommended course in a timely manner.

\*These LOTE FAQs and more can be found on TEA's site at: https://tea.texas.gov/academics/subject-areas/languages-other-than-english
