

IMRA Implementation Timeline: 2024

Please note that dates with an asterisk (*) are tentative and may change.

January

SBOE approved quality rubrics for Cycle 2024, a suitability rubric, IMRA process, and new administrative rules.

April

SBOE cont. the rulemaking process that will govern the list of approved instructional materials.

SBOE discussed the considerations for the next set of quality rubrics for IMRA Cycle 2025.

May- Aug.*

TEA will conduct the review of the first batch of instructional materials in the IMRA process.

Sept.*

SBOE will review the reports and recommendations from TEA.

Public testimony is taken on any of the materials under consideration.

Nov.*

SBOE will decide to place instructional materials on the approved list, take no action, or place materials on a rejected list.

Funding for the approved materials list becomes available to districts to use in EMAT.

Dec.*

New resources and an updated EMAT site will be made available for districts to compare, and requisition approved and reviewed instructional materials.
