

New Attendance App!

We are excited to offer a **NEW** streamlined process for parents/guardians to report student tardies and absences!

Why use the app?

It's an easier and more accurate way for you to track tardies and absences. You will not need to email or call the attendance office once you enter the request. Also, remember that when you enter the information the tardy or absence is verified and therefore does not count towards a detention.

How do I get the app?

It's the Infinite Campus App available at any Android or Apple app store for free. You can also input the information from any web-based computer via infinite campus.

When can I start using the app?

Now! It is ready for you to use today! We expect everyone to use this platform for the 2024-2025 school year.

How to use?
