- With this privilege, comes responsibility.

TIPS TO PROTECT YOUR DEVICE

G E N E R A L C A R E

Protective Storage

- Always keep devices in a backpack or protective case.

Responsibility

- Review the specifics of the FCS Acceptable Use Policy.
- Accidents are not excuses. Careless handling or leaving the device in unsafe places does not exempt students from responsibility.

CHARGING AND CHARGERS

- Always make sure your device is charged and bring your charger.
- Charging your device every night is an important part of being a responsible device user. You will use them in most of your classes so **starting the day on a freshly charged device is crucial.**
- Using the device all day will drain the battery. **Bring your charger** to make sure you are prepared for when the battery runs low.
- **DO NOT** let other students, friends, or siblings "borrow" your device or charger.

FCS ACCEPTABLE USE

No gaming.

Devices are monitored and could be shut down.
Misuse will lead to discipline consequences.

No VPNs (Virtual Private Network) - device will be flagged and account locked.
