PARTICIPATION
PLANS

She reported a negative cash flow of \$1,331,680.53, which has resulted in a negative fund balance in the General Fund of -\$366,116.13. She explained this is a cash flow issue due to the combined impact of the decreased levy (the levy cliff), changes in the state apportionment schedule and revenue for certain programs that has not yet been received. She added that Aberdeen is one of many districts experiencing this issue. She is working with the county Treasurer's Office, ESD 113 and OSPI to address the issue. She reported the district still expects to end the year with a fund balance near 5 percent. In the other funds, she reported month-ending balances of \$571,202.15 in the Capital Projects Fund, \$3,484,400.84 in the Debt Service Fund, \$379,232.97 in the Associated Student Body Fund and \$348,124.15 in the Transportation Vehicle Fund.

Dear Superintendent Henderson:

Your petition for an emergency advance of apportionment has been approved in the amount of \$400,000, which is the lesser amount from the three categories used for this computation. The advance will be included in your December 2019 apportionment.

Under the provisions of Chapters 28A.510.250 RCW and WAC 392-121-442 WAC, districts receiving an emergency advance are required to report any earnings received from the investment of temporary cash surpluses resulting from the advance. You will be receiving a letter after the end of the school year asking for this information.

We trust your school district will follow a vigorous program of investment of any cash not needed for immediate disbursement.

Sincerely,

STUDENT DISCIPLINE

The Aberdeen School District will assure a positive, progressive learning environment in which all individuals develop their potential to succeed.

“Discipline” means any action taken by the school district in response to behavioral violations. Discipline is not necessarily punitive, but can take positive and supportive forms. Data show that a supportive response to behavioral violation is more effective and increases equitable educational opportunities. The purposes of this policy and accompanying procedures include:

- Engaging with families and the community and striving to understand and be responsive to cultural context;
- Supporting students in meeting behavioral expectations, including providing for early involvement of parents;
- Administering discipline in ways that respond to the needs and strengths of students and keep students in the classroom to the maximum extent possible;
- Providing educational services that students need during suspension and expulsion;
- Facilitating collaboration between school personnel, students, and parents, and thereby supporting successful reentry into the classroom following a suspension or expulsion;
- Ensuring fairness, equity, and due process in the administration of discipline;
- Providing every student with the opportunity to achieve personal and academic success, and
- Providing a safe environment for all students and for district employees.

The superintendent shall establish and make available rules of student conduct, designed to provide students with a safe, healthy, and educationally sound environment. Students are expected to be aware of the district’s rules of student conduct, including behavior standards that respect the rights, person, and property of others. Students and staff are expected to work together to develop a positive climate for learning.

All students who attend the district’s schools shall comply with the written policies, rules and regulations of the schools, shall pursue the required course of studies, and shall submit to the authority of staff of the schools, subject to such corrective action or consequences as the school officials shall determine.

Minimizing exclusion, engaging with families, and supporting students

Unless a student’s presence poses an immediate and continuing danger to others or an immediate and continuing threat to the educational process, staff members must first attempt one or more forms of discipline to support students in meeting behavioral expectations before imposing classroom exclusion, short-term suspension, or in-school suspension. Before imposing a long-term suspension or expulsion, the district must first consider other forms of discipline.

These other forms of discipline may involve the use of best practices and strategies included in the state menu for behavior developed under RCW 28A.165.035. The accompanying procedures will identify a list of other forms of discipline for staff use. However, staff members are not restricted to that list and may use any other form of discipline compliant with WAC 392-400-025(9).

School personnel must make every reasonable attempt to involve parents and students to resolve behavioral violations. The district must ensure that associated notices, hearings, conferences, meetings, plans, proceedings, agreements, petitions, and decisions are in a language the student and parents understand; this may require language assistance. Language assistance includes oral and written communication, and further includes assistance to understand written communication, even if parents cannot read any language. The district's use of suspension and expulsion will have a real and substantial relationship to the lawful maintenance and operation of the school district, including but not limited to, the preservation of the health and safety of students and employees and the preservation of an educational process that is conducive to learning.

As described in the procedures, the district will offer educational services to students during suspension or expulsion. When the district administers a long-term suspension or expulsion, the district will timely hold a reengagement meeting and collaborate with parents and students to develop a reengagement plan that is tailored to the student's individual circumstances, in order to return the student to school successfully. Additionally, any student who has been suspended or expelled may apply for readmission at any time.

Staff authority

District staff members are responsible for supervising students during the school day, during school activities, whether on or off campus, and on the school bus. Staff members will seek early involvement of parents in efforts to support students in meeting behavioral expectations. The superintendent has general authority to administer discipline, including all exclusionary discipline. The superintendent will identify other staff members to whom the superintendent has designated disciplinary authority. After attempting at least one other form of discipline, teachers have statutory authority to impose classroom exclusion for behaviors that disrupt the educational process. Because perceptions of subjective behaviors vary and include implicit or unconscious bias, the accompanying procedures will seek to identify the types of behaviors for which the identified district staff may administer discipline.

Ensuring fairness, providing notice, and an opportunity for a hearing

When administering discipline, the district will observe all of the student's constitutional rights. The district will notify parents as soon as reasonably possible about classroom exclusion and before administering any suspension or expulsion. The district will provide opportunities for parent participation during an initial hearing with the student. The district will provide parents with written notice, consistent with WAC 392-400-455, of a suspension or expulsion no later than one school business day following the initial hearing. As stated above, language assistance includes oral and written communication and further includes assistance to understand written communication, even if parents cannot read any language. The district has established

procedures for review and appeal of suspensions, expulsions, and emergency expulsions, consistent with WAC 392-400-430 through 392-400-530.

The district has also established procedures to address grievances of parents or students related to other forms of discipline, classroom exclusion, and exclusion from transportation or extra-curricular activity. The grievance procedures include an opportunity for the student to share his or her perspective and explanation regarding the behavioral violation.

Development and review

Accurate and complete reporting of all disciplinary actions, including the behavioral violations that led to them, is essential for effective review of this policy; therefore, the district will ensure such reporting.

The district will periodically collect and review data on disciplinary actions taken against students in each school. The data will be disaggregated into subgroups as required by RCW 28A.300.042, including students who qualify for special education or Section 504. The data review will include classroom exclusion, in-school and short-term suspensions, and long-term suspensions and expulsions. The district will invite school personnel, students, parents, families, and the community to participate in the data review. The purpose of the data review is to determine if disproportionality exists. If disproportionality is found the district will take action to ensure that it is not the result of discrimination and may update this policy and procedure to improve fairness and equity regarding discipline.

Distribution of policies and procedures

The school district will make its discipline policies and procedures available to families and the community. The district will annually provide its discipline policies and procedures to all district personnel, students, and parents, which may require language assistance for students and parents with limited-English proficiency under Title VI of the Civil Rights Act of 1964. The school district will ensure district employees and contractors are knowledgeable of the discipline policies and procedures.

The district may preclude a student from returning to the student’s regular educational setting following the end date of a suspension or expulsion for the purpose of protecting the victims of certain offenses as found in RCW 28A.600.460 (2)(3).

**HOMELESS STUDENTS:
STUDENTS EXPERIENCING HOMELESSNESS:**

ENROLLMENT RIGHTS AND SERVICES

To the extent practical and as required by law, the district will work with homeless students and their families to provide ~~stability in school attendance and other services.~~ them with equal access to the same free, appropriate education (including public preschool education) provided to other students. Special attention will be given to ensuring the identification, enrollment and attendance of homeless students not currently attending school, as well mitigating educational barriers to their academic success. Additionally, the district will take reasonable steps to ensure that homeless students are not stigmatized or segregated in a separate school, or in a separate program within a school, on the basis of their homeless status.

Homeless students will be provided district services for which they are eligible, including Head Start and comparable preschool programs, Title I, similar state programs, special education, bilingual education, vocational and technical education programs, gifted and talented programs and school nutrition programs.

Homeless students are defined as lacking a fixed, regular and adequate night-time residence, including those students who are:

- A. Sharing the housing of other persons due to loss of housing or economic hardship, or a similar reason;
- B. Living in motels, hotels, trailer parks or camping grounds due to the lack of alternative adequate accommodations;
- C. Living in emergency or transitional shelters;
- D. ~~Are a~~ Abandoned in hospitals;
- E. ~~Awaiting foster care placement;~~
- F. Living in public or private places not designed for or ordinarily used as regular sleeping accommodations;
- G. Living in cars, parks, public spaces, abandoned buildings, substandard housing, transportation stations or similar settings; or
- H. ~~Are m~~ Migratory children living in conditions described in the previous examples.

The superintendent will designate an appropriate staff person to be the district's McKinney-Vento liaison for homeless students and their families. The liaison may simultaneously serve as a coordinator for other federal programs, provided that they are able to carry out the duties listed in the procedures that accompany this policy.

If the district has identified more than ten unaccompanied youth, meaning youth not in the physical custody of a parent or guardian and including youth living on their own in any of the homeless situations described in the McKinney-Vento Homeless Education Act, ~~the principal of each elementary, middle, and high school building will establish a point of contact for such youth. The point of contact is responsible for identifying homeless and unaccompanied youth and connecting them with the district's homeless student liaison. The district's homeless student liaison is responsible for training the building points of contact.~~ The principal of each elementary, middle, and high school building will establish a point of contact for such youth. Best interest determination

~~According to the child's or youth's best interest, homeless students will continue to be enrolled in their school of origin while they remain homeless or until the end of the academic year in which they obtain permanent housing. Instead of remaining in the school of origin, parents or guardians of homeless students may request enrollment in the school in which attendance area the student is actually living. In making a determination as to which school is in the homeless student's best interest to attend, the district will presume that it is in the student's best interest to remain enrolled in their school of origin unless such enrollment is against the wishes of a parent, guardian, or unaccompanied youth.~~ According to the child's or youth's best interest, homeless students will continue to be enrolled in their school of origin while they remain homeless or until the end of the academic year in which they obtain permanent housing. Instead of remaining in the school of origin, parents or guardians of homeless students may request enrollment in the school in which attendance area the student is actually living. In making a determination as to which school is in the homeless student's best interest to attend, the district will presume that it is in the student's best interest to remain enrolled in their school of origin unless such enrollment is against the wishes of a parent, guardian, or unaccompanied youth.

Attendance options will be made available to homeless families on the same terms as families resident in the district, including attendance rights acquired by living in attendance areas, other student assignment policies, or intra and inter-district choice options.

If there is an enrollment dispute, the student will be immediately enrolled in the school in which enrollment is sought, pending resolution of the dispute. The parent or guardian will be informed of the district's decision and the reasons therefore, (or informed if the student does not qualify for McKinney-Vento, if applicable) and their appeal rights in writing. The district's liaison will carry out dispute resolution as provided by state policy. Unaccompanied youth will also be enrolled pending resolution of the dispute.

Once the enrollment decision is made, the school will immediately enroll the student, pursuant to district policies. However, enrollment may not be denied or delayed due to the lack of any document normally required for enrollment, including academic records, medical records, proof of residency, mailing address or other documentation. Additionally, enrollment may not be denied or delayed due to missed application deadlines, fees, fines, or absences at a previous school.

If the student does not have immediate access to immunization records, the student will be admitted under a personal exception. Students and families should be encouraged to obtain current immunization records or immunizations as soon as possible, and the district liaison is directed to assist. Records from the student's previous school will be requested from the previous school pursuant to district policies. Emergency contact information is required at the time of enrollment consistent with district policies, including compliance with the state's Address Confidentiality Program when necessary. However, emergency contact information cannot be demanded in a form or manner that constructs a barrier to enrollment and/or attendance at school.

Homeless students are entitled to transportation to their school of origin or the school where they are to be enrolled. If the school of origin is in a different district, or a homeless student is living in another district, but will attend his or her school of origin in this district, the districts will coordinate the transportation services necessary for the student, or will divide the costs equally.

The district's liaison for homeless students and their families will coordinate with local social service agencies that provide services to homeless children and youths and their families; other school districts on issues of transportation and records transfers; and state and local housing agencies responsible for comprehensive housing affordability strategies. This coordination includes providing public notice of the educational rights of homeless students where such children and youth receive services under the McKinney-Vento Act, such as schools, family shelters, and soup kitchens. The notice must be disseminated in a manner and form that parents, guardians, and unaccompanied youth receiving such services can understand, including, if necessary and to the extent feasible, in their native language. The district's liaison will also review and recommend amendments to district policies that may act as barriers to the enrollment of homeless students and will participate in professional development and other technical assistance activities, as determined by the state-level (OSPI) coordinator for homeless children and youth programs.

The superintendent will:

- Strongly encourage district staff, including substitute and regular bus drivers to annually review the video posted on the OSPI website on identification of student homelessness;
- Strongly encourage every district-designated homeless student liaison to attend trainings provided by the state on identification and serving homeless youth. Ensure that the district includes in materials provided to all students at the beginning of the school year or at enrollment, information about services and support for homeless students (i.e., the brochure posted on the OSPI website).
- Use a variety of communications each year to notify students and families about services and support available to them if they experience homelessness (e.g., distributing and collecting an annual housing intake survey, providing parent brochures directly to students and families, announcing the information at school-wide assemblies, posting information on the district's website).

Facilitating on-time grade level progression

The district will:

1. Waive specific courses required for graduation for students experiencing homelessness if similar coursework has been satisfactorily completed in another school district; or
2. Provide reasonable justification for denial of the waiver.

In the event the district denies a waiver and the student would have qualified to graduate from their sending school district, the district will provide an alternative process of obtaining required coursework so that the student may graduate on time.

The district will consolidate partial credit, unresolved, or incomplete coursework and will provide students experiencing homelessness with opportunities to accrue credit in a manner that eliminates academic and nonacademic barriers for the student.

For students who have been unable to complete an academic course and receive full credit due to withdrawal or transfer, the district will grant partial credit for coursework completed before the date of the withdrawal or transfer. When the district receives a transfer student in these circumstances, it will accept the student's partial credits, apply them to the student's academic progress, graduation, or both, and allow the student to earn credits regardless of the student's date of enrollment in the district.

In the event a student is transferring at the beginning of or during their junior or senior year of high school and is ineligible to graduate after all alternatives have been considered, the district will work with the sending district to ensure the awarding of a diploma from the sending district if the student meets the graduation requirements of the sending district.

In the event a student enrolled in three or more school districts as a high school student, has met state requirements, has transferred to the district, but is ineligible to graduate from the district after all alternatives have been considered, the district will waive its local requirements and ensure that the student receives a diploma.

Informed consent for healthcare

Informed consent for healthcare on behalf of a student experiencing homelessness may be obtained from a school nurse or homeless student liaison when:

- a. Consent is necessary for non-emergency, outpatient, primary care services, including physical examinations, vision examinations and eyeglasses, dental examinations, hearing examinations and hearing aids, immunizations, treatments for illnesses and conditions, and routine follow-up care customarily provided by a health care provider in an outpatient setting, excluding elective surgeries;
- b. The student meets the definition of a "homeless child or youth" under the federal McKinney-Vento homeless education assistance improvements act of 2001; and
- c. The student is not under the supervision or control of a parent, custodian, or legal guardian, and is not in the care and custody of the department of social and health services.

Upon the request by a health care facility or a health care provider, a district employee authorized to consent to care must provide to the person rendering care a signed and dated declaration stating under penalty of perjury that the employee is a school nurse, school counselor, or homeless student liaison and that the minor patient meet the requirements of RCW 7.70.065 (2) (b) listed above in this policy.

The district and district employee authorized to consent to care under this policy are not subject to administrative sanctions or civil damages resulting from the consent or non-consent for care or payment for care. Any declaration required by a health care facility or a health care provider described in the above paragraph must include written notice that the district employee is exempt from administrative sanctions and civil liability resulting from the consent or non-consent for care or payment for care.

Please explain:
 We will read together as a class and discuss the material we have read. Modifications will be made to match student levels. Not everyone will be required to read aloud and notes will be provided for those who need them.

7 MATERIAL EVALUATION

Provide a brief overview/impression of instructional material (strengths/weaknesses, reasons selected over others, why students will benefit)

I chose this book because it is a biography and the author's depiction of her life will give the students an insight they may not get elsewhere. They need to fully understand the culture they are studying and I feel this book is a perfect match. The reading is easy to follow and I think it will keep the students engaged. It is a valuable addition to our curriculum.

Aberdeen School District No. 5
(360) 538-2000

THE MISSION

of the Aberdeen School District is to be a strong, inspirational learning community that empowers students to embrace life's opportunities.

Meet the Board of Directors

The Aberdeen School Board is made up of five community members who serve in a volunteer capacity. Two new directors have joined the board as a result of the 2019 General Election.

Sandra Bielski, President, Position 5

Mrs. Bielski was elected to the board in 1987 and is now in her eighth term of office. She and her husband, David, own Fern Hill Cemetery, Grays Harbor Monument and Petland Cemetery. They raised three Aberdeen High School graduates and now have six grandchildren who keep them young at heart and involved in education. Her current term will expire in 2021. Mrs. Bielski holds a bachelor's degree in education with a special education endorsement. "I believe education leads to success, but one size does not, will not, fit all," she says, adding, "The quiet ones are often left behind, and I want to help provide education for all."

Jennifer Durney, Director, Position 1

Ms. Durney joined the board in 2017, and was re-elected in November. She grew up in Aberdeen, graduated from AHS in 1995, and then from Grays Harbor College before going on to earn a degree in criminal justice from WSU at Pullman. Her family includes two teen-age daughters who attend Aberdeen schools and her significant other, Jace Lundgren. Jennifer is the business insurance agent and operations manager for Durney Insurance of Hoquiam. She chose to serve on the board "because I wanted to take a more active role in how the district operates. District operations are very complex and I'm learning more every day, and love helping others and being a part of the board."

Suzy Ritter, Director, Position 2

Mrs. Ritter was elected in November. She is the lead preschool teacher and curriculum coordinator for the YMCA of Grays Harbor, and her husband, Brian, is a firefighter/paramedic for the Ocea Shores Fire Dept. They have a daughter at Aberdeen High School and a daughter at Miller Junior High. The Ritters have lived on the Harbor for 14 years, the last seven in Aberdeen. "I decided to run for the Aberdeen School Board, so that I could hopefully, positively impact and enrich the educational experience of the students of our community," she said. "I love our community and schools, and would love to see it continue to grow and thrive."

Jessica Jurasin, Director, Position 3

Mrs. Jurasin was elected in November this year. She grew up in Aberdeen, earned her master's of science degree in nursing from Pacific Lutheran University and is a family nurse practitioner specializing in pediatric primary care. She and her husband, Tyler, are raising two sons who attend Aberdeen schools. Jessica's health care experience inspired her to be on the School Board. "My professional experience has allowed me an intimate perspective regarding the lives and health of the children in our community," she said. "I believe I'm in a good position to be an informed advocate for our students and promote student health and well-being on a greater level."

Dr. William Dyer, Vice President, Position 4

Dr. Dyer was elected in 2017. He is the director of music for Grays Harbor College and an instructor in the college's teacher education program. Prior to joining Grays Harbor College, he taught for 19 years in the Aberdeen School District. Bill holds a bachelor's in music education from the University of Puget Sound, a master's from Northwestern University, and a doctorate from Boston University. He and his wife have a daughter who attends AHS and a son who graduated in 2018. He chooses to serve on the school board "because I greatly value the students, parents, and District employees in our community. I am committed to helping all students meet today's high standards."

KEEPING The Promise ... The Tax Rate ... The Site

Dear Aberdeen Community,

In this article, I hope to share the process our district used leading up to the School Board’s decision to place a bond issue for a new Stevens Elementary School on the February 11, 2020, ballot.

The Promise

In the 1990s, with voter approval, our district embarked on an ambitious plan that called for modernizing or rebuilding five of our grade schools before tackling the looming need for a new high school.

By 2002, three of the grade schools – A.J. West, Central Park and McDermoth – had undergone modernization and the new Robert Gray Elementary School was opened. Stevens School was next.

That same year, fire destroyed the Weatherwax Building. Obviously, the high school was now the top priority and Stevens School was put on the back burner.

Fast-forward to 2020: The high school bonds are almost paid off. It’s time to keep the promise and give our students in South Aberdeen a new school.

The Tax Rate

Not surprisingly, the cost to build a new elementary school has gone up since we passed our last bond issue. We have worked closely with bond counsel to create a flat payment schedule. The plan calls for interest-only payments until 2024 when J.M. Weatherwax High School is paid off, at which time the \$3.28 per \$1,000 of assessed property value will be applied to the new Stevens School. The total combined tax rate for

schools is illustrated in the chart on the left.

Stevens opened in 1954 when Barbie was 5, Lyndon Johnson was president and the Beatles appeared on the Ed Sullivan Show. It was updated in the 1970s. Stevens has far exceeded its useful life. The facilities study concluded it will be more cost effective and result in a safer structure for students if we replace it. It’s thanks to our amazing maintenance team that we are still able to use the building. We are very fortunate to have such a dedicated and talented maintenance team that extends the life of our facilities.

The Site

Work began almost two years ago to prepare for the school’s replacement. A task force of staff, parents and community members investigated several sites before concluding that the current site is the most practical, affordable location.

Tsunami and earthquake preparedness will be part of the design. The district will receive FEMA funds for an evacuation tower that could serve both Stevens and Miller Junior High, and the design will factor in the soil conditions. In addition, the City of Aberdeen and our district are working together so the new school can be built adjacent to the current school, and students can remain in the current school during construction.

There is still much work to do. Your questions are welcome and your attendance at meetings is encouraged. Please don’t hesitate to call me with any questions or concerns you may have. And don’t forget to vote on February 11!

Sincerely,

Alicia Henderson, Superintendent

School-Based Parent and Family Engagement Policies

-
- A. Each school offering Title I services will have a separate parent and family engagement policy, which will be developed with parents and family members of Title I students. Parents and family members will receive notice of their school's parent and family engagement policy in an understandable and uniform format and, to the extent practicable, in a language the parents can understand.

-

Each school-based policy will describe how each school will do the following:

The compact must do the following:
