Superintendent Henderson reported that she has worked to amend House Bill 2237 and Senate Bill 6075 to reflect a phased-in approach to address inequities in local levy funding for property poor districts. However, she reported it has been difficult to gain interest in fixes for the new funding model because lawmakers have turned to other issues.

LEGISLATIVE

There was discussion about whether the district has talked with Grays Harbor College and that the deadline for teachers to apply to be qualified to teach college classes is April 17.

Technology Equipment

Request for Board Approval

Feb 28, 2020

In order to best serve the students, staff and business operations of the District, the Technology Department takes a proactive approach to replacing key infrastructure equipment when possible and feasible. At present, the majority of equipment and devices across the district, that provide backup power to critical infrastructure have been in use for several years and are ready for a system refresh. In addition to this project, the Technology Department has identified the need to replace aging and failing internal connections at McDermoth Elementary.

To address these needs, in January 2020 the Technology department posted an RFP for Uninterruptible Power Supply (UPS) Replacement and a RFP for Internal Connections for Broadband Connectivity in accordance with the E-Rate funding program guidelines.

RFP for Uninterruptible Power Supply (UPS) Replacement

Three bids, from two vendors were received by the posted deadline and within the bidding guidelines. Each bid was reviewed and scored according to the following four categories: Cost of Equipment, Integration with existing architecture, Technical Specifications/Management, Customer References and inclusion of Suspension & Debarment Certification.

The final cost of the UPS Equipment is estimated to be \$60,454.13, with the District's final cost, under the E-rate program, estimated at (85% reduced cost) \$9,068.12.

After careful review, determined by final cost, it is the recommendation of the Technology Department that the District accepts and moves forward with the N1C Technologies, Inc. bid.

RFP for Internal Connections for Broadband Connectivity

No bids were received by the posted deadline. As such the Technology Department recommends requesting quotes from vendors to complete this project. It is estimated that the final cost to the district, under the E--rate program, estimated at (85% reduced cost) will be no more than \$2,700.00 for this project.

We ask that the School Board approve the recommended actions and funding for the UPS Equipment and Internal Connections projects at this time.

To ASD School Board,

2/12/2020

I am requesting permission to surplus the books in my weeding log.

Many of them are very outdated haven't been checked out in years.

Some books have been checked out often but are falling apart faster than I can repair them. A few are missing pages and are stained.

Thank you for your time,

Amy Moyer
