

Math Syllabus

Tests

You should correct all of your tests! You must show your work on a **separate piece of paper** for any incorrect problems. Test corrections must be completed during class if time is provided or within a week.

Absences

If you are absent, check the website to see the work you missed in each class. You can also check in with your teacher during ASH if you need materials or help.

Latework

Missing/late work will be entered into Campus as "Missing" (this will calculate the grade as a zero until it is updated). If an assignment is turned in more than one week late, half credit may be deducted. Assignments turned in more than two weeks late will receive a zero. This policy does NOT apply to absent work.

IXL

IXL will occasionally be assigned in place of a regular assignment. These assignments will focus on specific skills, and will be counted as an assignment. Class time will be given for IXL assignments

Teacher Availability

Teachers will be available to help you during ASH (Wednesdays and Thursdays, prearranged with teacher and parent). Emails and phone calls will be returned no later than the next business day.

Food in the Classroom

Students are encouraged to bring a **healthy snack** each day to eat during passing periods. Students may have **WATER** to drink throughout the day.
